# Teacher & community workshop

## Zero Waste - Plastic Free July prep

These have been really popular!

This year we'll be running another series of workshops. Some for teachers & support staff & others where community members can come.

You may want to run one of these for your school/kindergarten community. Just get in touch to organise this.

Teacher/school staff workshops:

- Will cover waste in the classroom/school/kindy; low waste living; simple swaps; budget friendly changes; touch & try (having a go)
- Weaving
  - Tikanga, harvest, prep & make workshop
  - Extension programme

Community workshops:

- Will cover low waste living; simple swaps; budget friendly changes; touch & try

# Creating a whole centre Enviroschools Vision

# Enviroschools Guiding Principles

## **Empowered Students**

Students participating in meaningful ways, in the life of their schools/community and taking action for real change.

## **Learning for Sustainability**

Types of teaching and learning that foster student empowerment, decision-making, action and sustainable outcomes.

## **Māori Perspectives**

Honouring the status of indigenous people in New Zealand and valuing their knowledge, to guide learning and action.

## **Respect for the Diversity of People and Cultures**

Acknowledging the unique contributions and perspectives of individuals and groups, in creating a sustainable world.

## **Sustainable Communities**

Nurturing people and nature, now and in the future, for the health and viability of our environment, society, culture and economy.
