# 1 Introduction

## 1.1 Purpose

The purpose of this Section 42A report is to present a report from officers to the hearing panel that summaries the decisions sought in submissions on the *Proposed Coastal Plan for Taranaki* and to make recommendations on those submissions.

**Note, the recommendations presented in this report are officer recommendations to the hearing panel and have not yet been formally considered by the Council.**

## 1.2 Scope and background

The *Proposed Coastal Plan for Taranaki* was publicly notified for submissions on 24 February 2018, with submissions closing on 27 April 2018.

Public notice calling for further submissions supporting or opposing the initial submissions was made on 21 July 2018 and closed on 4 August 2018. Further submissions may only be made in support of or opposition to the submissions already made. A further submission cannot extend the scope of the original submission and can only seek allowance or disallowance (in whole or in part) of the original submission.

Sixty-one initial submissions were received with 25 further submissions were also received.

In October 2018, an officers' report with preliminary recommendations in response to submissions (and a revised track change version of the Proposed Plan) was released and made available to all submitters for their consideration. Subsequently, the Council extended an offer to submitters to ascertain their interest in meeting with officers to discuss their issues and officers' preliminary response as part of a pre-hearing engagement process. Council officers met with 28 submitters to discuss changes recommended to the Proposed Plan. These meetings allowed submitters to further clarify their concerns, discuss proposed relief and explore any alternative relief options where appropriate. The opportunity to reconsider officers' preliminary recommendations

in light of these engagements was useful and resulted in a number of changes in officer recommendations that have been incorporated into this report.

Section 1 of this report introduces the report, which has been prepared by the Council to inform the review of the Coastal Plan in accordance with Clause 7 of the First Schedule of the *Resource Management Act 1991* (the RMA).

Section 2 of this report provides an index of initial and further submitters.

Section 3 of this report summarises how the Proposed Plan was developed and the Plan review process to date.

Section 4 of this report summarises decisions sought by initial submitters and officers' recommendations.

As far as practicable, decisions sought by various submitters have been grouped by specific sections of the Proposed Plan. Some submitters have not stated clearly the decision they wish the Council to make or the reason behind the submission. In such cases the intent of the submission has been considered or inferred from the submission and a response made accordingly.

For each decision sought by initial submitters, this document sets out:

- the decision(s) requested by submitters
- support or opposition from further submitters to the decision requested by the initial submitter, and
- the officers' recommendation in response to the decision requested, including reasons.

Where a recommendation involves changing the Proposed Plan the changes, as read, have been included. Deletions have not been identified but can be found in the Track change version of the Proposed Coastal Plan.

### 1.3 How to read this document

Individual submission points are numbered for ease of reference as shown below. Any support or opposition from further submitters to the decision requested by the initial submitter is also identified.

Submitter	Submission point	Submitter's requests	Officers recommendation and response
<b>Rule XYZ</b>			
Submitter id (Each initial submitter has an identification number, e.g. 1 to 61)	Submission point – numbering for decisions sought in submissions	Support / Amend / Other	Accept / Accept in part / Grant in kind / Decline / No relief necessary
		Submitter's request.	Explanation of recommendation
Further submitter (if applicable)		Support / Opposition / Neutral - to the submission point	

Unless the context indicates otherwise, all references to Plan provisions relate to the publicly notified version of the *Proposed Coastal Plan for Taranaki*.

## 2 How the Plan was developed

*This section outlines the Coastal Plan review process to date.*

*The Proposed Plan has been prepared as a result of a full review of the current Coastal Plan under Section 79 and Schedule 1 of the RMA, which has involved the following component parts.*

### 2.1 Early engagement

In accordance with Schedule 1 of the RMA, the Council has sought and considered comments from iwi authorities, the Department of Conservation, Heritage New Zealand, New Plymouth District Council, South Taranaki District Council, and other stakeholders in preparing to formally review the Proposed Coastal Plan.

This engagement has involved a combination of information provision, two-way consultation, and iwi and stakeholder exchanges that have assisted in the identification of key issues and community aspirations, plus the development of a draft Coastal Plan (refer Section 2.3 below) and a Proposed Coastal Plan (refer Section 2.5 below) and the refinement of Plan provisions.

### 2.2 Technical reports and research

The technical reports, working papers, research, policy development and public consultation that contributed to the development of the current Coastal Plan are still relevant. However, as part of this Plan review, a suite of additional discussion documents and technical papers were prepared or commissioned to further inform Council's policy position on future coastal management. They included:

- State of the environment monitoring reports (2003, 2009, 2015)
- *Efficiency and effectiveness of the Regional Coastal Plan for Taranaki* (2002, 2009)

- *Taranaki Region Coastal Plan Review – Archaeological Scoping Study* (December 2012)
- *Taranaki Regional Council – Offshore Seismic Data Acquisition Permitted Activity Review* (May 2015)
- *Taranaki Regional Council – Offshore Petroleum Drilling Review* (August 2015)
- *Petroleum Drilling Activities; Buffer Distances from Outstanding Areas and Substrate Types Requiring Protection* (October 2015)
- *Regional Landscape Study of the Taranaki Coastal Environment* (November 2015)
- *Taranaki Surf breaks of National Significance* (May 2016)
- *Sensitive Habitats and Threatened Species in the Taranaki Coastal Marine Area* (August 2016)
- *Regional Significance Criteria for the Assessment of Surf Breaks* (July 2017)
- *Online Wave Survey Data Analysis and Proposed Regionally Significant Surf Breaks* (October 2017).

### 2.3 Consultation on a draft Coastal Plan

On 2 September 2016, to facilitate comments on specific proposed changes to the current Coastal Plan, the Council released a draft Proposed Coastal Plan to iwi authorities, stakeholders and the wider public for their comment and input. This was an extra non statutory step to inform the development of Plan provisions. See <https://www.trc.govt.nz/council/plans-and-reports/strategy-policy-and-plans/regional-coastal-plan/coastal-plan-review/draft-coastal-plan/> for further details.

The draft Coastal Plan set out the findings and outcomes of the engagement and technical investigations undertaken at that time. It largely proposed continuing the existing regime set out in the current Plan subject to a number of important changes. The

proposed changes sought to build on the success of the past and continue the decades-long process of incrementally and systematically improving on the maintenance and enhancement of coast values and uses while providing for appropriate use and development.

Other changes were also proposed to give effect to recent national directives such as the NZCPS, and take into account changing environmental practices and community aspirations, plus our experiences and lessons learned from the implementation of the current Coastal Plan.

As part of this engagement, around 120 stakeholders consisting of iwi authorities, Department of Conservation, district councils, major consent holders, the oil and gas sector groups, government departments, Royal Forest and Bird, and other non-government organisations with an interest in coastal issues were invited to provide feedback on the draft Coastal Plan. The Council also made the draft Coastal Plan available on its website for any member of the public wishing to comment.

The deadline for feedback on the draft Coastal Plan was 26 November 2016. The Council received 101 responses on the draft Coastal Plan from interested parties and individuals.

In general, many respondents appreciated the opportunity for early input and requested continued involvement throughout the planning process. There was considerable support for the draft Coastal Plan in terms of its content and draft provisions with many requesting that certain provisions be retained. However, there were also requests for changes.

Key themes to emerge from feedback seeking change or further work were as follows:

- minor amendments to Plan provisions sought to improve their readability and/or other changes for the purposes of certainty and clarity
- more substantive changes to Plan provisions to support or restrict use and development in the CMA
- Ngati Ruanui, Ngāruahine, and Ngāa Rauru highlighted issues and/or suggested changes to Plan provisions to improve the integration of cultural values and principles and to identify sites of high cultural significance in the coastal marine area

- opposition to a proposed rule for the temporary occupation of the common marine and coastal area for community, recreational or sporting activity as a permitted activity.

Other comments submitted related to minor changes or correcting drafting errors or sought further clarification on issues of interest.

Council officers conducted workshops and held additional meetings and hui with respondents during and following that process to clarify and discuss issues and options. This included meeting with iwi authorities, interested hapū, New Plymouth District Council, industry, and sector groups. A revised draft Coastal Plan showing Council responses to feedback was circulated to respondents in August 2017 with further opportunity for input.

## 2.4 Engagement with iwi authorities

As outlined in sections 2.1 to 2.3 above, the Council has sought to engage with iwi authorities throughout the Plan review process. Consultation and collaborative effort with Iwi o Taranaki has informed the Plan review process, including changes to the current Plan.

Appendix II of the Section 32 evaluation report set out a summary of the advice received from iwi authorities, including the Council's response to date.

## 2.5 Schedule 1 review (and pre-hearing) process

In conjunction with the preparation of its section 32 evaluation report, the Council publicly notified the Proposed Plan on 24 February 2018 in accordance with Schedule 1 of the RMA. This commenced the formal public consultation on the Coastal Plan review and has so far involved the public notification of a Proposal, and the receipt and consideration of public submissions. The deadline for submissions was 27 April 2018.

Assessment of those submissions was undertaken immediately. A summary of submissions will be notified and any cross-submissions (or 'further' submissions) called for on 21 July 2018. The deadline for further submissions was 4 August 2018.

The Council will provide an opportunity for every person who makes a submission and who requests to present their views in person to a Hearings Committee, to be so heard.

In October 2018, an officers' report with preliminary recommendations in response to submissions (and a revised track change version of the Proposed Plan) was released and made available to all submitters for their consideration. Subsequently, the Council extended an offer to submitters to ascertain their interest in meeting with officers to discuss their issues and officers' preliminary response as part of a pre-hearing engagement process. Council officers met with 28 submitters to discuss their submissions and any changes recommended to the Proposed Plan. These meetings allowed submitters to further clarify their concerns, discuss proposed relief and explore any alternative relief options where appropriate. The opportunity to reconsider officers' preliminary recommendations in light of these engagements was useful and resulted in a number of changes in officer recommendations that have been incorporated into this report.

Decisions and recommendations on the matters raised (in the submissions) will be publicly notified after the Hearing Committee has considered all matters. The hearing is scheduled to occur in July 2019.

If any person who makes a submission on the Proposed Plan is dissatisfied with the subsequent decision of the Council, he or she may refer the decision to the Environment Court, which in turn would hold a public hearing into the matter. The Environment Court may direct the Council to make amendments to the Proposed Plan.

Once finally approved by the Council (taking into account any directives from the Environment Court), the Proposed Plan becomes operative on a date that is publicly notified.

Figure 1 overleaf provides an overview of the Coastal Plan review process, including where "we are at" in terms of the process.

21.	Climate Justice Taranaki Inc	41.	Te Korowai o Ngāruahine Trust	61.	Te Rūnanga o Ngāti Ruanui Trust

<sup>1</sup> Subsequent to the receipt of the submission from Ngati Hine whanau, the submitter indicated that the submission has subsequently been adopted by the Ngati Rahiri Hapū. Officers agreed that all references to 'Ngati Hine whanau' will now refer to 'Ngati Rahiri Hapū'.

## 4 Summary of decisions sought and officers recommendations

*This section sets out the summary of decisions sought by submitters for the Plan and officers recommendation in response to the decision sought.*

*As far as practicable, decisions sought by various submitters have been grouped according to common themes (where they relate to changes to Plan provisions or process generally) or to specific sections of the Proposed Plan (where they have been referenced or inferred). Where specific wording changes to Plan provisions are requested by submitters or proposed by officers, recommended insertions are marked in red and underlined, while recommended deletions are shown as ~~struck-out~~ text. Officer recommendations generally only show the recommended wording as read and struck out material has not been included. The full amendments, including any deleted/struck out text can be found in the associated track changed version of the Plan.*

**(This page is intentionally blank)**

## 4.1 Whole Plan – General comments

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>General – Plan</b>			
2 – Federated Farmers	1	<b>Amend</b>	<b>No relief necessary</b>
		Submitter is broadly supportive of the planning approach taken but seeks that normal farming activities that occur in the coastal marine area, where adjacent to farms or where the farm boundary extends to the coastal marine area, are permitted.	Note rules relating to use and development activities do not apply to activities landward of the coastal marine area line.
4 – Allen Pidwell	2	<b>Support</b>	<b>Accept</b>
		Submitter supports the Proposed Plan.	Support noted.
26 – Transpower NZ Ltd	3	<b>Amend</b>	<b>Accept</b>
		Submitter is broadly supportive of the Proposed Plan subject to specific amendments to give full effect to the <i>National Policy Statement for Electricity Transmission 2008</i> .	Support is noted. Officers note that the submitter has requested specific amendments throughout the Plan, to bring the Plan more in line with provisions within the <i>National Policy Statement for Electrical Transmission</i> . Officers agree that the <i>National Policy Statement for Electrical Transmission</i> is required to be given effect to within the Plan and recommend consequential amendments to the Plan in response to some of the specific reliefs sought by the submitter.
29 – Department of Conservation	4	<b>Support</b>	<b>No relief necessary</b>
		Submitter notes the Proposed Plan is well structured and easy to use.	Comments noted.
33 – New Zealand Defence Force	5	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the Plan to consistently refer to “ <i>temporary military training activities</i> ” and omit the use of “ <i>military training activities</i> ”.	Officers agree with the relief sought by the submitter. Officers have further reviewed the Plan to consistently refer to “ <i>temporary military training activities</i> ” and omit the use of “ <i>military training activities</i> ” or other variant where “ <i>temporary military training activities</i> ” would suffice. Officers recommend consequential amendments to the definition section of the Plan to delete the term “ <i>Military</i>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>training” and include a new definition for “<i>temporary military training activity</i>” to read as follows:</p> <p><b><i>Temporary military training activity</i></b> means a temporary activity undertaken for the training of any component of the New Zealand Defence Force (including with allied forces) for any defence purpose. Defence purposes are those purposes for which a defence force may be raised and maintained under section 5 of the Defence Act 1990 which are:</p> <p>(a) the defence of New Zealand, and of any area for the defence of which New Zealand is responsible under any Act;</p> <p>(b) the protection of the interests of New Zealand, whether in New Zealand or elsewhere;</p> <p>(c) the contribution of forces under collective security threats, agreements, or arrangements;</p> <p>(d) the contribution of forces to, or for any of the purpose of, the United Nations, or in association with other organisations or States and in accordance with the principles of the Charter of the United Nations;</p> <p>(e) the provision of assistance to the civil power either in New Zealand or elsewhere in time of emergency;</p> <p>(f) the provision of any public service.</p> <p>This is also consistent with definition provided in the National Planning Standards, which came into force on 3 May 2019.</p>
34 – Fay Mulligan and Carol Koha	6	<p><b>Other</b></p> <p>Note submitters wish to speak in reference to protections of cultural values/activities and Māori involvement and protection of tikanga.</p>	<p><b>No relief necessary</b></p> <p>No precise details of amendments sought to the Plan have been provided. However, the submitters' wish to be heard relating to Māori involvement and protection of tikanga is noted.</p>
36 – Todd Energy	7	<p><b>Support</b></p> <p>Submitter supports the Proposed Plan as currently drafted.</p>	<p><b>Accept</b></p> <p>Support noted.</p>
41 – Te Korowai o Ngāruahine Trust	8	<p><b>Support</b></p> <p>Submitter broadly supports the overall direction of the Plan but highlights the benefits of marine spatial planning and seeks the adoption and application of an</p>	<p><b>No relief necessary</b></p> <p>Officers note submitter's support for the Plan direction.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		ecosystems based approach to prevent further degradation of the biodiversity and character of the coastal environment.	In relation to marine spatial planning, officers note that considerable work has been done to collate information on uses and values in the coastal marine area, including the marine environment, and as appropriate, relevant spatial information and overlays have been included in the planning maps. These planning maps are underpinned by GIS information, which, though sitting outside the Plan, may provide additional information that can also be used to inform consenting processes. Together there is considerable information that contributes to marine spatial planning that may be built on over time.
55 – Kiwis Against Seabed Mining	9	<p><b>Amend</b></p> <p>Submitter seeks amendments to the Plan to include marine spatial management and associated rules framework as an appropriate method to address fishing, oil and gas, and seabed mining.</p>	<p><b>Decline</b></p> <p>No precise details of amendments sought to the Plan have been provided. However, officers do not consider further amendments to the Plan are necessary. Officers note that considerable work has been done to collate information on uses and values in the coastal marine area, including the marine environment, and as appropriate, relevant spatial information and overlays have been included in the planning maps. Furthermore, it is officers' view that oil and gas and seabed mining have been appropriately addressed in the rules framework of the Plan pursuant to the Council's RMA responsibilities. However, as a result of pre-hearing engagement further changes to the Plan are proposed that make seismic testing a consented activity (rather than a permitted activity).</p> <p>Officers note that fishing activities are controlled by the Ministry for Primary Industries and Fisheries New Zealand through the <i>Fisheries Act 1996</i> and it is not necessary or appropriate to provide for fishing activities within the Plan.</p>
Further submissions – Ministry for Primary Industries (16)		Oppose	<p>Officers note that fishing activities are controlled by the Ministry for Primary Industries and Fisheries New Zealand through the <i>Fisheries Act 1996</i> and it is not necessary or appropriate to provide for fishing activities within the Plan.</p>
56 – Greenpeace	10	<p><b>Amend</b></p> <p>Submitter seeks amendments to the Plan to include marine spatial management and associated rules framework as an appropriate method to address fishing, oil and gas, and seabed mining.</p>	<p><b>Decline</b></p> <p>No precise details of amendments sought to the Plan have been provided. However, officers note that considerable work has been done to collate information on uses and values in the coastal marine area, including the marine environment, and as appropriate, relevant spatial information and overlays have been included in the planning maps. Furthermore, it is officers' view that oil and gas and seabed mining have been appropriately addressed in the rules framework of the Plan pursuant to the Council's RMA responsibilities. However, as a result of pre-hearing engagement, further changes to the Plan are proposed that make seismic testing a consented activity (rather than a permitted activity).</p>
Further submissions – Trans-Tasman Resources Ltd (6), Ministry for Primary Industries (16)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Officers note that fishing activities are controlled by the Ministry for Primary Industries and Fisheries New Zealand through the <i>Fisheries Act 1996</i> and it is not necessary or appropriate to manage fishing activities within the Plan.
<b>Indigenous biodiversity provisions</b>			
3 – Roger Maxwell	11	<b>Other</b>	<b>No relief necessary</b>
		Submitter questions what action, if any, is proposed to manage/control the expansion of mangroves in the estuarine areas of the Taranaki coastal area?	Officers note that the Council has no immediate plans to control mangroves in the Taranaki region. Mangroves are known to be present at Urenui estuary. These were planted about 40 years ago to prevent coastal erosion (they were also planted in other estuaries but did not establish). At present the spread appears to be very slow and is not of concern at the moment. However, should monitoring indicate mangroves are becoming invasive to the detriment of local coastal values the Council would consider a site-led response that involves working with the local community to manage the problem.
39 – Maniapoto Māori Trust Board	12	<b>Other</b>	<b>No relief necessary</b>
		Submitter seeks that the Taranaki Regional Council ensure that indigenous biodiversity in the coastal environment is maintained and enhanced and that it is protected.	Officers note that the Council is committed to the maintenance and enhancement of indigenous biodiversity in not just the coastal environment but across the region. This commitment is demonstrated across a variety of Council policy documents and its resourcing for programmes and activities that implement those policies. In addition to its regulatory responsibilities under the RMA to maintain indigenous biodiversity in the coastal marine area and fresh water, the Council has adopted the <i>Pest Management Plan for Taranaki (2018)</i> , the <i>Taranaki Regional Council Biosecurity Strategy (2018)</i> , and the <i>Biodiversity Strategy for the Taranaki Regional Council (2017)</i> that include a suite of regulatory and non-regulatory programmes for promoting biodiversity outcomes across the Taranaki region.
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	Notwithstanding the above, as a result of pre-hearing engagement, further changes to the Plan are proposed to include an additional policy (Policy 14A) that seeks to maintain and enhance indigenous biodiversity generally across the coastal environment. This is in addition to another policy to protect 'significant indigenous biodiversity' in the coastal environment.
<b>Life supporting capacity and mauri provisions</b>			
	13	Support	Accept

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
39 – Maniapoto Māori Trust Board		Submitter supports recognition by Taranaki Regional Council of mauri and adverse effects when there is development of the coastal environment.	Support noted.
<b>Petroleum related Plan provisions</b>			
37 – Petroleum Exploration and Production Association of NZ	14	<b>Support</b>	<b>Accept in part</b>
		Submitter seeks all other petroleum-related Plan provisions not explicitly covered in their submission are retained.	Support noted. Petroleum related provisions have been retained. However, officers note consequential amendments to some provisions in response to reliefs sought by other submitters, including recommendation to make seismic testing a consented activity (rather than a permitted activity).
51 - Taranaki Energy Watch	15	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to the Plan in relation to petroleum related provisions to reflect the precautionary approach (similar to that of Policy 3) such that objectives, policies and rules within the coastal marine area incorporate a precautionary regime for effects of activities that are uncertain, unknown or little understood.	The submitter is concerned that areas of the Plan relating to petroleum provisions do not reflect a precautionary approach, which, in their view, is required by the <i>New Zealand Coastal Policy Statement</i> . Officers suggest that no relief is necessary given that a precautionary approach is already adequately provided for via Policy 3 [Precautionary approach] of the Plan. Policy 3 is a General Policy that applies to all activities, including oil and gas industries, within the coastal environment and regardless of which coastal management area the activity may fall within. Officers further note that the potential risks associated with oil and gas exploration and production activities are well understood. In the main oil and gas exploration and production activities in the coastal marine area are largely a Discretionary Activity or a Non-complying Activity. Therefore, through the consenting process, Policy 3 and other relevant policies will be considered and applied as appropriate on a case-by-case basis.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
Further submissions – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose	
51 - Taranaki Energy Watch	16	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to the Plan in relation to petroleum related provisions to add objectives and policies to support the use of separation and buffer zones as appropriate planning tools/methods to manage oil and gas activities in the coastal marine area.	Officers note that separation and buffer zones have been considered and applied where it is practicable to do so. Officers do not consider it appropriate to include such detail in the Plan objectives. However, there are opportunities within the policy and rule framework to do so. An appropriate buffer to avoid, remedy or mitigate adverse effects associated with oil and gas activities (plus other activities) would depend upon the scale, type and location of the activity. Such matters would be considered through the consenting process. For example, Rule 26 includes buffer distances set out in the standares, terms and conditions.
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Notwithstanding this, officers recommend amending Policy 29 [Impacts from offshore drilling and production] to refer to the use of separation and buffer zones. This will ensure that the application of buffer zones are fully considered through the consenting process.</p> <p>The revised Policy would read as follows:</p> <p><i><u>(aa) in relation to offshore production activities, adopting adequate separation and buffer distances between the activity having regard to the values and sensitivity of the environment; [...]</u></i></p>
61 – Te Rūnanga o Ngāti Ruanui Trust	17	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to reflect the Government's decision to cease offering new offshore oil and gas exploration permits and restricted permitting.</p>	<p><b>Decline</b></p> <p>No precise details of amendments sought to the Plan have been provided. Officers acknowledge the current Government's decision to cease granting offshore oil and gas permits. However, officers note that the licensing of oil and gas exploration permits is regulated under separate legislation by other authorities. In terms of managing adverse environmental effects under the RMA, officers contend that it is not necessary to differentiate between new and existing hydrocarbon activities. In addition, officers note that the Plan will be operative for a 10 year period and there is a risk that such an amendment could easily be made redundant should a new Government change its stance on oil and gas exploration permits.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Royal Forest and Bird Protection Society (43), Te Atiawa (58)		Support	
<b>Natural and historic heritage provisions</b>			
39 – Maniapoto Māori Trust Board	18	<p><b>Other</b></p> <p>Submitter support the importance of natural and historic heritage and would like to ensure that the Māori narrative is incorporated into the rich history of Taranaki.</p>	<p><b>No relief necessary</b></p> <p>Comments noted. No specific relief is requested, however, officers note that a Māori narrative has been included where it is appropriate to do so and additional amendments to the Plan are also proposed to further support this.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
28 – Grant Knuckey	19	<p><b>Amend</b></p> <p>Submitter seeks amendments to the Plan (and other actions) to ensure it adequately provides for cultural well-being, relationship of with ancestral and contemporary lands, waters, taonga and rohe, and to actively protect taonga and</p>	<p><b>Accept in part</b></p> <p>No precise details of amendments sought to the Plan have been provided. However, officers suggest that the Plan in conjunction with recommended changes, amongst other things, will (as far as it is able) provide for the cultural</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		tapu spaces within the coastal environment or provide for management of the rohe in partnership with mana whenua (co-governance/management provisions).	well-being, relationship of Māori with ancestral and contemporary lands, waters, taonga and rohe, and will contribute to the protection of taonga and tapu spaces within the coastal environment. This will not necessarily be reflected in co-governance arrangements, which are matters outside the scope of the Plan and are more properly dealt with through the Council's annual planning process.
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	Of note, all the Plan objectives, policies and rules address effects of interest to iwi o Taranaki. However, specific objectives, policies, methods, standards, terms and conditions and schedules also apply to ensure coastal use and development appropriately recognise and provide for the management of adverse effects on tangata whenua values. The identification of sites of significance to Māori in Schedule 5B of the Plan and associated planning maps (and proposed changes to include and schedule taonga species) should further assist Council in ensuring use and development in the coastal marine area avoid, remedy or mitigate adverse effects on Māori cultural and historic heritage values.
28 – Grant Knuckey	20	<b>Amend</b>  Submitter seeks amendment to the Plan to ensure it applies Māori attributes of mana, mauri, tapu, taonga to assessment of natural character, particularly in relation to reefs and coastal waters of Taranaki rohe moana and whenua.	<b>No relief necessary</b>  Officers consider that this is already provided for whereby assessments of natural features and landscapes include consideration of cultural, spiritual, historic and heritage associations, which in turn are underpinned by Plan objectives, policies and rules to protect such values.
39 – Maniapoto Māori Trust Board	21	<b>Support</b>  Submitter notes that tangata whenua values and relationships are key priorities to the submitter and desires the Council to work closely with Mokau ki Runga RMC around matters of social, cultural and economic wellbeing.	<b>No relief necessary</b>  Comments noted.
40 – Te Rūnanga o Ngāti Mutunga	22	<b>Other</b>	<b>No relief necessary</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>Taking into account the outcomes of previous engagement, submitter questions what criteria Council planners will use to identify affected parties for the rules outlined in the Plan.</p>	<p>The submitter is not seeking amendment to the Plan but has raised a question with respect to its implementation.</p> <p>Officers note the Council's consenting procedures are set out in its standard operating procedures entitled <i>Resource Consents Procedure Document</i>. This document sets out guidance and direction for Council staff on a broad range of consenting matters, including those relating to notification and determining affected party status.</p> <p>More specifically, in relation to sites of significance, the Council has worked closely with iwi authorities and, as part of the Plan review process, have provided written agreement that iwi will be notified of, as an affected party, any activities occurring within, adjacent to, or impacting directly on tangata whenua sites of significance identified in Schedule 5B in the coastal marine area.</p> <p>The 'trigger' for iwi involvement as an affected party is for any activities occurring within, adjacent to, or impacting directly on sites of significance in the coastal marine area. For such coastal permit applications the Council would advise the applicant that they would need affected party approval and suggest consultation be undertaken. If approval was not obtained from iwi the application would be notified.</p> <p>The Mana Whakahono a Rohe provisions of the RMA represents an opportunity to formalise this (and other) matters plus set out the operational details associated with planning and consenting processes including affected party definitions, appropriate consenting systems and processes, and applicant consultation requirements.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
50 – Te Kāhui o Taranaki Trust	23	<p><b>Other</b></p> <p>Submitter questions the adequacy of Plan engagement and consultation.</p>	<p><b>No relief necessary</b></p> <p>The submitter is not seeking amendment to the Plan but questions the adequacy of Plan engagement and consultation.</p> <p>Appendix II of the Section 32 Evaluation Report summarises Council's engagement and consultation with iwi authorities (and other tangata whenua) on the Proposed Plan, including Council's response to advice received from iwi.</p> <p>Iwi engagement and consultation commenced in late 2012 and has been ongoing to this point in time. In relation to the Taranaki Iwi, engagement included very early preliminary engagement through participation with an Iwi thinkers group, the circulation and seeking of feedback on coastal archaeological report, seeking of feedback on a position paper on outstanding coastal areas, the circulation and seeking of feedback on draft Coastal Plan objectives and policies, consultation and</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>seeking of feedback on a Draft Proposed Plan, the identification and mapping of sites and significance, and more recently the release of a Proposed Coastal Plan. It has also included, over that time, many hui and face-to-face meetings relating to not just the Coastal Plan but broader policy matters.</p>
<p>50 – Te Kāhui o Taranaki Trust</p>	<p>24</p>	<p><b>Other</b></p> <p>Submitter seeks that all iwi (hapū, marae/pā) are notified as an affected party to any activities occurring within, adjacent to, or impacting directly on Statutory Acknowledgements and historic heritage sites and sites of significance to Māori within the coastal marine area.</p>	<p><b>Agree in part</b></p> <p>The submitter is not seeking amendment to the Plan but seeks that all iwi (hapū, marae/pā) be notified as an affected party to any activities occurring within, adjacent to, or impacting directly on statutory acknowledgement areas and historic heritage sites and sites of significance to Māori within the coastal marine area.</p> <p>The matters raised by the submitter have a wider application that just the Coastal Plan. Notwithstanding that, officers note that Council has already given partial relief to this request.</p> <p>In relation to sites of significance, the Council has worked closely with iwi authorities and, as part of the Plan review process, have provided written agreement that iwi will be notified of, as an affected party, any activities occurring within, adjacent to, or impacting directly on tangata whenua sites of significance in the coastal marine area.</p> <p>The 'trigger' for iwi involvement as an affected party is for any activities occurring within, adjacent to, or impacting directly on sites of significance in the coastal marine area. For such coastal permit applications the Council would advise the applicant that they would need affected party approval and suggest consultation be undertaken. If approval was not obtained from iwi the application would be notified.</p> <p>In relation to extending consenting notification requirements to hapū and marae, Mana Whakahono a Rohe provisions of the RMA represents an opportunity to discuss and formalise such arrangements.</p>
<p>Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)</p>		<p>Support</p>	
<p>61 – Te Rūnanga o Ngāti Ruanui Trust</p>	<p>25</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by:</p> <ul style="list-style-type: none"> <li>• linking cultural areas of significance to both the past (historic) and present cultural areas and traditions</li> <li>• integrating objectives and policies with mana/tangata whenua with the rules section of the Plan.</li> </ul>	<p><b>Accept in part</b></p> <p>No precise details of amendments sought to the Plan have been provided. However, officers suggest that the Plan, in conjunction with recommended changes, does link Plan provisions with cultural areas of significance, and that Plan objectives and policies have been integrated with the rules section of the Plan.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>Together, all Plan objectives, policies and rules are part of a framework for addressing and managing adverse effects on tangata whenua values. However, specific objectives, policies, methods, standards, terms and conditions, and schedules also apply.</p> <p>Officers note that, in response to the submitter request (and that of others), a number of amendments have been made to specific Plan provisions, including amendments to Policy 15 [Historic heritage] and Policy 16 [Relationship of tangata whenua], other relevant policies, and the inclusion of a schedule of taonga species, to strengthen provisions protecting tangata whenua values in the coastal environment under the RMA.</p>
<b>Scope of the Plan – ‘Coastal Marine Area’ and ‘Coastal Environment’</b>			
26 – Transpower NZ Ltd	26	<p><b>Other</b></p> <p>Confirmation is sought that the rules in the Plan only apply to the coastal marine area</p> <p>AND</p> <p>Submitter seeks clarification as to what Plan provisions apply to the coastal environment.</p>	<p><b>No relief necessary</b></p> <p>The submitter is not seeking amendments to the Plan but seeks confirmation as to how the Plan provisions are applied.</p> <p>Officers confirm that the rules only apply to the coastal marine area. However, as stated in sections 1.4.1, 4, 5.1 and 6 of the Plan, its objectives, general policies and methods (excluding rules) address the wider coastal environment for the purposes of effective integrated management.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Support	<p>For the purposes of certainty and clarity, a minor amendment is proposed to Section 1.4 of the Plan to further highlight that the rules relate to the coastal marine area only. The amendment reads as follows:</p> <p><i>1.4 Application</i></p> <p><i>The provisions of the Plan have legal force under the RMA. Regional rules have the force and effect of a regulation under the RMA. <u>For the purposes of this Plan, the rules only apply to activities in the coastal marine area.</u></i></p>
<b>Coastal hazards</b>			
39 – Maniapoto Māori Trust Board	27	<p><b>Other</b></p> <p>Submitter seeks that Council ensure adequate resourcing to reduce vulnerability to property and people from coastal hazards.</p>	<p><b>No relief necessary</b></p> <p>No precise details of amendments sought to the Plan have been provided. However, officers note that Council routinely considers and consults on the adequacy of resourcing and levels of services addressing natural hazard management as part of its annual planning and reporting under the <i>Local Government Act 2002</i>.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Surf breaks</b>			
1 - Tom P Waite	28	<b>Support</b>	<b>No relief necessary</b>
		Submitter supports the protection of surf breaks but submits that commercial development should not occur near river mouths or unique reef breaks.	Support noted. With regards to opposition to commercial development, the purpose of the Plan is to assist Council in giving effect to Section 5 of the RMA, which means managing the use, development and protection of natural and physical resources irrespective as to whether that use and development is 'commercial' or not. Of note, threats to coastal values are not confined to commercial activities.
18 – Surfing Taranaki	29	<b>Support</b>	<b>No relief necessary</b>
		Submitter supports the ongoing and further protection of Taranaki surf breaks.	Support noted.
50 – Te Kāhui o Taranaki Trust	30	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment of the Plan by going through a proper process of consultation on the inclusion of nationally and regionally significant surf breaks noting that the names of many surf breaks are offensive and inappropriate.	Officers note that through the Coastal Plan review there has already been considerable consultation and engagement on the issue of surf break protection. An initial list of regionally significant surf breaks was adopted in the current Regional Policy Statement, which was adopted in 2010. However, through the Coastal Plan review additional investigations and engagement occurred. This included the commissioning of reports on <i>Taranaki Surf breaks of National Significance</i> , and <i>Regional Significance criteria for the Assessment of Surf Breaks</i> , consultation and seeking of feedback on draft Plan policies, a draft Plan and, more recently, the Proposed Plan. As part of the review, an innovative 'wave survey' was also carried out that allowed the community to inform the Council which surf breaks have values and why. This information was used to determine the appropriate level of protection for each surf break.  Naming conventions for surf breaks have been a result of the community engagement to date. However, officers agree that the names of some surf breaks are culturally offensive and recommend alternative more appropriate names for surf breaks also be identified in Schedule 7 and associated planning maps where possible.
Further submissions –Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
<b>Coastal water quality provisions</b>			
	31	<b>Other</b>	<b>No relief necessary</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
39 – Maniapoto Māori Trust Board		Submitter supports measures to ensure development pressures do not deteriorate coastal water quality.	Support noted.
<b>Section 32 Evaluation Report</b>			
41 – Te Korowai o Ngāruahine Trust	32	<p><b>Amend</b></p> <p>Submitter is seeking amendments to the Section 32 Evaluation Report, where relevant, to further highlight or reference cultural heritage values, principles and associations.</p>	<p><b>No relief necessary</b></p> <p>The submitter is not seeking amendment to the Plan but is seeking amendment to the accompanying Section 32 Evaluation Report to further highlight or reference cultural heritage values, principles and associations.</p> <p>In accordance with the RMA, a Section 32AA Evaluation Report needs to be prepared to reflect the current state of the Coastal Plan Review. Where applicable, this report will further highlight or reference key changes from the Proposed Plan relating to cultural heritage values, principles and associations.</p>
<b>Planning maps</b>			
42 – Ngati Rahiri Hapū	33	<p><b>Amend</b></p> <p>Submitter seeks amendment to Plan maps (and associated GIS layers) to include and delineate offshore reefs based on information supplied by the submitter.</p>	<p><b>Accept</b></p> <p>Through the pre-hearing engagement process, officers have worked with the submitter to identify and map sites of significance to Ngati Rahiri Hapū.</p> <p>The coastal sites of significance data supplied by the submitter to the Council has been assessed in terms of the Section 6(e) of the RMA and site dimensions established. Officers recommend that these sites can be identified in Schedule 5B of the Plan.</p>
43 – Royal Forest and Bird Protection Society	34	<p><b>Amend</b></p> <p>Submitter seeks amendments to Plan maps (and associated GIS layers) to identify the extent of the coastal environment</p> <p>OR</p> <p>Alternatively amend the maps to identify an indicative extent of the coastal environment.</p>	<p><b>Accept</b></p> <p>Council has worked closely with New Plymouth and South Taranaki district councils in identifying and mapping coastal areas of outstanding natural character and outstanding natural features and landscapes. Both district councils have commenced or about to commence their respective district plan reviews, which includes a coastal protection zone (or equivalent) that is indicative of where natural coastal processes or qualities are significant.</p>
Further submissions – Fonterra (47)		Support	For the purposes of certainty and clarity to Plan readers, integrated management and to promote alignment between the respective regional and district plans, officers recommend that the Plan (and associated GIS layers and planning maps) be amended to include an indicative extent of the coastal environment that is aligned with the district plans.

## 4.1 Plan introduction or background

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Vision and/or Māori guiding principles</b>			
40 – Te Rūnanga o Ngāti Mutunga	35	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to reinstate (from Draft Coastal Plan) Māori cultural values or guiding principles at the forefront of the Plan</p> <p>AND</p> <p>Seek to see these Māori cultural values or guiding principles are better reflected throughout the Plan and, in particular, the rules.</p>	<p><b>Accept</b></p> <p>Based upon earlier iwi feedback on the Draft Coastal Plan, Māori cultural values or guiding principles at the forefront of that Plan were removed. It was suggested that the review of the Regional Policy Statement (scheduled to occur in 2020) represented a better opportunity for iwi to consider and confirm the guiding principles.</p> <p>Notwithstanding the above, and given the support by other iwi agencies expressed in their submissions or further submissions, officers recommend that the Plan be amended to re-insert and incorporate those principles.</p> <p>In addition, through other proposed Plan amendments (signalled in this report) sought by the submitter and others relating to tangata whenua values, Council will seek that these principles be incorporated into other relevant Plan provisions.</p>
58 – Te Atiawa	36	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to reinstate (from Draft Coastal Plan) Māori guiding principles at the forefront of the Plan and seek to see them better reflected throughout the Plan and, in particular, the rules.</p>	<p><b>Accept</b></p> <p>Based upon earlier iwi feedback on the Draft Coastal Plan, Māori cultural values or guiding principles at the forefront of that Plan were removed. It was suggested that the review of the Regional Policy Statement (scheduled to occur in 2020) represented a better opportunity for iwi to consider and confirm the guiding principles.</p> <p>Notwithstanding the above, and given the support by other iwi agencies expressed in their submissions or further submissions, officers recommend that the Plan be amended to re-insert and incorporate those principles.</p> <p>In addition, through other proposed Plan amendments (signalled in this report) sought by the submitter and others relating to tangata whenua values, Council will seek that these principles be incorporated into other relevant Plan provisions.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41)		<p><b>Support</b></p>	
61 – Te Rūnanga o Ngāti Ruanui Trust	37	<p><b>Amend</b></p> <p>Submitter seeks amendment to the vision statement of the Plan to include the word “water” to adequately reflect Taranaki and the coverage of the Plan.</p>	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	<i>This vision recognises the roles and responsibilities shared by all people in Taranaki to ensure the sustainable and focused protection of <u>air</u>, <u>land (soil)</u>, <u>water</u> and coastal environments for economic, social, cultural and recreational purposes.</i>
<b>Section 1.2 – Purpose</b>			
42 – Ngati Rahiri Hapū	38	<b>Amend</b>  Submitter seeks amendment to the purpose statement of the Plan [Section 1.2] to state that the purpose of the Plan is to “direct” or “guide” the Taranaki Regional Council in coastal management under the RMA.	<b>Decline</b>  Officers consider the purpose statement of the Plan to be consistent with the purpose statement for regional plans as set out in Section 63 of the RMA. Pursuant to Section 63 of the RMA, the purpose of regional plans is “[...] to assist a regional council to carry out its functions in order to achieve the purpose of the RMA.” Officers do not consider it necessary to amend the purpose statement of the Plan as requested.
<b>Section 1.4 – Plan application</b>			
43 – Royal Forest and Bird Protection Society	39	<b>Amend</b>  Submitter supports the scope of the Plan and Plan provisions for integrated management but seek that paragraph 2 of Section 1.4.2 be amended to clarify that the rules in this Plan apply to activities in the coastal marine area, including where those activities may have an adverse effect on outstanding values and significant indigenous biodiversity values outside of the coastal marine area.	<b>Accept</b>  Officers recommend amendment to Section 1.4.1 to include a new sentence stating that while the rules in this Plan apply only to activities in the coastal marine area, nevertheless they include activities that can have an adverse effect on values and uses outside of the coastal marine area.
Further submissions – Transpower New Zealand Ltd (26)		Oppose in part	
45 – Powerco	40	<b>Support</b>  Retain sections 1.4.1 and 1.4.2 of the Plan as notified.	<b>Accept</b>  Support noted subject to the minor amendment in response to the submitter (43) above.
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	41	<b>Support</b>  Retain sections 1.4.1 and 1.4.2 of the Plan as notified.	<b>Accept</b>  Support noted subject to the minor amendment in response to the submitter (43) above.
<b>Section 1.6 – Mana whenua</b>			
	42	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
21 – Climate Justice Taranaki		Submitter seeks amendment to Section 1.6 of the Plan to note Ngāti Maru are negotiating with the Crown regarding their Treaty of Waitangi settlement.	Officers recommend declining the relief sought noting that this information is not relevant within the context of the Coastal Plan. Ngāti Maru Treaty of Waitangi settlement claims are unlikely to extend to the Taranaki coastal marine area. In the event, that this assumption is wrong, appropriate changes will be made to the Plan.
60 – Te Kaahui o Rauru	43	<b>Amend</b> Submitter seeks amendment to Section 1.6 of the Plan to read: <del>The resources of</del> Tangaroa <del>has have</del> provided [...]	<b>Accept</b> The submitter prefers to refer to the Atua itself instead of using the anthropogenic term “resources”. Officers recommend granting the relief sought.
60 – Te Kaahui o Rauru	44	<b>Amend</b> Submitter seeks amendment to Section 1.6 of the Plan to replace the word “management” with “relationship” to describe interactions with the natural environment, on line 3 of paragraph 5.	<b>Grant in kind</b> Officers recommend granting the relief in part by deleting reference to “sustainable coastal management” and instead making some consequential changes to focus on the relationship of iwi o Taranaki with the coastal environment. The revised paragraph would read as follows: <i>Kaitiakitanga and tikanga, is at the heart of the relationship between the iwi o Taranaki and the coastal environment. This Plan has integrated the values of Taranaki iwi throughout Plan provisions.</i>
60 – Te Kaahui o Rauru	45	<b>Amend</b> Submitter seeks that the Plan communicate, with potential Plan users, the likelihood of the need for consultation with hapū when engaging with non-permitted activities. Submitter seeks amendment to Section 1.6 of the Plan to include the importance of hapū, alongside iwi, as tangata whenua.	<b>Accept</b> Officers recommend granting the relief sought by amending Section 1.6 to include hapū alongside iwi.
61 – Te Rūnanga o Ngāti Ruanui Trust	46	<b>Amend</b> The submitter expresses that tangaroa is still currently a source of rongoa and disagrees with the use of the word “was” as the word indicates past tense. The submitter further notes that tangaroa is a current source of mahinga kai. Submitter seeks amendment to first paragraph of Section 1.6 of the Plan to read: <i>[...] These resources <del>are were</del> integral to the lives of the people who occupy<del>ied</del> the settlements adjoining the coastline. Tangaroa provide<del>s</del> for these people materially, act<del>sed</del> as a highway for travel, <del>is was</del> a source of mahinga kai (food and</i>	<b>Accept</b> Officers agree that tangata whenua relationships with Tangaroa are current and ongoing as well as historic and recommend granting the relief sought.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>resource</i> ), rongoa (medicine), aid <del>sed</del> their well-being and provide <del>sd</del> spiritual sustenance. [...]	
Further submissions – Te Atiawa (58)		Support	
<b>Section 1.7 – Coastal management areas</b>			
32 – Port Taranaki	47	<b>Support</b>	<b>Accept</b>
		Retain Section 1.7.4 of the Plan as notified.	Support noted. Section 1.7 is retained subject to minor amendments as requested by other submitters.
43 – Royal Forest and Bird Protection Society	48	<b>Amend</b>	<b>Decline</b>
		Submitter opposes the coastal management area approach adopted in the Plan as it is unclear as to how it applies to the wider coastal environment.	The coastal management areas approach is specific to the coastal marine area. It is based upon a similar regime that has been successfully applied through the current Coastal Plan and effectively is a zonal approach identifying five 'coastal management areas' based upon shared values, characteristics, vulnerabilities or sensitivities, and management needs. The 'zones' bundle compatible activities or effects of those activities together and restricts activities which are incompatible. Of note, management responses may vary within the coastal management area (and at a finer spatial scale) according to the particular sites and values triggered within a particular locality.
Further submissions – Port Taranaki Ltd (32)		Oppose	
43 – Royal Forest and Bird Protection Society	49	<b>Amend</b>	<b>Accept in part</b>
		If the coastal management area approach is to be retained, submitter seeks amendment to Section 1.7.1 of the Plan to: <ul style="list-style-type: none"> <li>clarify how the coastal environment landward of the coastal marine area is considered under this approach</li> <li>clarify how this relates with the <i>New Zealand Coastal Policy Statement</i> and relevant policies in the Plan</li> <li>amend reference from Schedule 1 to Schedule 2.</li> </ul>	Officers agree to some amendments to further clarify how coastal management areas apply to the wider coastal environment. However, officers note that the introductory sentence to Section 1.7 explicitly states that the five coastal management areas apply to the coastal marine area and that part of Policy 1 setting out the coastal management area framework is specific to the coastal marine area.  In relation to further amendments sought by the submitter to Section 1.7.1 of the Plan, officers do not consider that it is necessary or appropriate for the Plan to detail how the coastal management approach applies to the <i>New Zealand Coastal Policy Statement</i> or policies in the Plan. Such matters are not compulsory content requirements of the RMA or <i>National Planning Standards</i> and any explanation is more appropriately addressed in the Section 32 Evaluation Report.  In relation to amending reference in the Section to refer to Schedule 2 instead of Schedule 1, the relief sought is declined. Schedule 1 is specific to the coastal
Further submissions – Department of Conservation (29)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			management areas and is deliberately confined to the coastal marine area. Schedule 2 relates only to coastal areas of outstanding value and, because of the need to identify significant values across the broader landscape, necessarily includes areas landward of the coastal marine area.
43 – Royal Forest and Bird Protection Society	50	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks clarification as to whether coastal management areas – Estuaries Unmodified and Estuaries Modified are determined on the basis of values and characteristics under Policies 11, 13 and 15 of the <i>New Zealand Coastal Policy Statement</i> , or on the basis of modification. If the later, submitter seeks amendment to the Plan to explain that the Plan will protect values and characteristics of these estuaries as set out in Policies 8, 9 and 14 of the Plan.	Estuaries Unmodified and Estuaries Modified are based on estuaries identified in the current Coastal Plan and their differing management needs taking into account the presence or otherwise of settlements adjacent to the estuaries. Of note Taranaki has few major estuaries.  Officers do not consider that it necessary or appropriate to amend the Plan to explain that the Plan will protect values and characteristics of these estuaries as set out in Policies 8, 9 and 14 of the Plan. As explicitly stated in Section 5 of the Plan and in the policy references for rules, all General Policies need to be considered together. Together these policies will protect the values and characteristics of these estuaries as set out in Policies 8, 9 and 14.
43 – Royal Forest and Bird Protection Society	51	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Section 1.7.5 of the Plan to clarify whether the Open Coast coastal management area refers to the remaining area of the coastal marine area or the wider coastal environment  AND  Clarify how the values and characteristics to be protected under Policies 11, 13 and 15 of the <i>New Zealand Coastal Policy Statement</i> will be provided for in these areas.	No relief is considered necessary. The first sentence of Section 1.7.5 already states that the Open Coast coastal management area is that area of the coastal marine area not covered by the other management areas.  In relation to the submitter seeking clarification on how values and characteristics of the Open Coast are to be protected in accordance with Policies 11 [Indigenous biodiversity], 13 [Preservation of natural character] and 15 [Natural features and landscapes] of the <i>New Zealand Coastal Policy Statement</i> , the submitter is referred to Policies 8, 9, 10, 11, 12, 13 and 14 of the Plan and the relevant rules. All General Policies in the Plan need to be considered together.
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Support	
45 – Powerco	52	<b>Amend</b>	<b>Grant in kind</b>
		Submitter supports Section 1.7 of the Plan and the inclusion of the five coastal management areas but seeks amendment to ensure that the presence of existing infrastructure in all of these areas is appropriately recognised by including the following sentence to paragraphs 1.7.1 to 1.7.3 as follows:  <u><i>These areas may contain regionally important infrastructure.</i></u>	A number of submitters sought to have their uses, values or particular interests explicitly identified in the coastal management areas, despite such uses and values being common to most if not all coastal management areas.  Officers recommend minor and inconsequential changes to the first paragraph of Section 1.7 of the Plan to clarify that coastal management areas are areas or

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>zones dividing the coastal marine area for management purposes and for which specific rules apply. This will avoid the need for unnecessary and potentially redundant commentary in the Plan that attempts to describe common attributes, characteristics and values that in all likelihood apply across all coastal management areas such as the presence of regionally important infrastructure (plus other uses and values).</p> <p>The proposed revised paragraph would read as follows:</p> <p><i>The coastal marine area has been divided into five management areas. This division recognises that some areas have different management needs than other areas. These areas have been mapped in Schedule 1 and specific rules apply. <p>19 – South Taranaki District Council</p>	<p>54</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to Section 2.1 [Statutory and planning framework] of the Plan to reference a commitment to integrated management of resources,</p>	<p><b>No relief necessary</b></p> <p>Officers believe that Section 2.1 is not the most appropriate place to detail commitments to integrated management and note that such matters have been</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		recognition of the role of district plans, and working with the territorial local authorities of the region.	addressed elsewhere in the Plan, particularly Policy 2 [Integrated management] and in the methods of implementation.
26 – Transpower NZ Ltd	55	<b>Support</b>	<b>Accept</b>
		Retain reference to the <i>National Policy Statement on Electricity Transmission 2008</i> within Section 2.1 of the Plan.	Support noted. Reference is retained as notified.
40 – Te Rūnanga o Ngāti Mutunga	56	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Section 2.1 [Statutory and planning framework] of the Plan to reference the <i>Ngāti Mutunga Claims Settlements Act 2006</i> and the <i>Ngāti Mutunga Iwi Environmental Management Plan</i> and other iwi settlement legislation and iwi environmental management plans.	Officers agree to the relief sought. Officers recommend amending Section 2 to include a new sub section relating to iwi management plans and to expand the scope of Section 2.5 [Other legislation] to reference Treaty of Waitangi settlement legislation.
42 – Ngati Rahiri Hapū	57	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment of Section 2.1 [Statutory and planning framework] of the Plan to state that the purpose of the Plan is to “direct” or “guide” the Council in coastal management under the RMA.	Officers consider that the commentary in Section 2.1 is consistent with the purpose statement for regional plans as set out in Section 63 of the RMA. Pursuant to Section 63 of the RMA, the purpose of regional plans is “...to assist a regional council to carry out its functions in order to achieve the purpose of the RMA”.
48 – Taranaki District Health Board	58	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment of Section 2.1 [Statutory and planning framework] of the Plan to include a section on the principles of Te Tiriti o Waitangi and how these principles guide the work undertaken in this area.	Officers recommend declining the relief sought. Officers note that the Regional Policy Statement already includes a section and discussion on taking into account the principles of the Treaty of Waitangi and includes a declaration of understanding between iwi o Taranaki and the Taranaki Regional Council. Officers do not believe it necessary for all subordinate planning documents to repeat such information. Furthermore, there are risks in doing so through unintended inconsistencies in wording etc.
Further submissions –Te Rūnanga o Ngāti (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	Officers note that the contents of the Proposed Plan are consistent with the matters set out in Section 67 [Content of regional plans] of the RMA. It is also not inconsistent with the <i>National Planning Standards</i> recently gazetted by the Ministry for the Environment, which seeks alignment in the format and structure of RMA plans across New Zealand. Some care must be necessarily had with adopting too much ‘optional’ content. In the drafting of the Plan Council has deliberately limited introductory and background content and detail so as to focus on the matters that must be included in a Plan (objectives, policies and rules).

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Section 2.2 – New Zealand Coastal Policy Statement</b>			
43 – Royal Forest and Bird Protection Society	59	<p><b>Amend</b></p> <p>Submitter seeks amendment to Section 2.2 [New Zealand Coastal Policy Statement] of the Plan to read:</p> <p><i>The New Zealand Coastal Policy Statement 2010 (New Zealand Coastal Policy Statement) contains objectives and policies to address key national matters facing the coastal environment and to achieve the purpose of the RMA. <u>By giving effect to the New Zealand Coastal Policy Statement in this Plan Council's responsibilities to provide for matters of national importance under section 6 of the RMA is also achieved for the coastal environment.</u></i></p> <p><i>Policies within the New Zealand Coastal Policy Statement address matters including:</i></p> <p>[...]</p> <p><u>protection of indigenous biological diversity.</u></p>	<p><b>Accept in part</b></p> <p>The submitter believes the opening paragraph of Section 2.2 of the Plan to be misleading as the <i>New Zealand Coastal Policy Statement</i> is not limited to “key national matters” but is to achieve the purpose of the RMA in relation to the coastal environment.</p> <p>Officers seek further clarification from the submitter on this point as the current wording of the Plan explicitly notes that it contains objectives and policies to address key national matters facing the coastal environment <u>and</u> to achieve the purpose of the RMA.</p> <p>The submitter seeks an amendment to Section 2.2 to note that by giving effect to the <i>New Zealand Coastal Policy Statement</i> in this Plan Council's responsibilities to provide for matters of national importance under section 6 of the RMA are also achieved for the coastal environment. At best this statement and level of detail/discussion is unnecessary as Section 2 is only meant to be a high level overview of statutes and regulations relevant to the Coastal Plan. At worst the statement is misleading as while this Plan is likely to be the primary plan for giving effect to the <i>New Zealand Coastal Policy Statement</i> and coastal matters, it is not the only regulatory document. Other plans, including the Regional Freshwater Plan, will also assist to give effect to the <i>New Zealand Coastal Policy Statement</i> and national matters of importance under section 6 of the RMA.</p> <p>In relation to the list of matters covered by the <i>New Zealand Coastal Policy Statement</i> policies, officers recommend granting the relief sought by the submitter by amending reference to “indigenous biological diversity” to refer to “protection of indigenous biological diversity”.</p>
45 – Powerco	60	<p><b>Amend</b></p> <p>Submitter seeks amendment to Section 2.2 [New Zealand Coastal Policy Statement] of the Plan to specifically recognise and provide for infrastructure. This could be achieved by adding an additional bullet point:</p> <p><u>Recognising and providing for infrastructure.</u></p>	<p><b>Decline</b></p> <p>A number of submitters sought to have their areas of interests explicitly identified in the commentary on the <i>New Zealand Coastal Policy Statement</i>, in this case recognition and provision for infrastructure.</p> <p>Officers note the commentary is deliberately high level and that infrastructure is already adequately covered under references to development. Officers suggest that the Plan objectives, policies and rules adequately recognise and provide for infrastructure.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	61	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Section 2.2 [ <i>New Zealand Coastal Policy Statement</i> ] of the Plan to specifically recognise and provide for infrastructure. This could be achieved by adding an additional bullet point:  <u><i>Recognising and providing for infrastructure.</i></u>	The submitter wishes to extend the scope of Section 2.2 of the Plan to include infrastructure.  A number of submitters sought to have their areas of interests explicitly identified in the commentary on the <i>New Zealand Coastal Policy Statement</i> , in this case recognition and provision for infrastructure.  Officers note the commentary is deliberately high level that infrastructure is already adequately covered under references to 'development'. Officers suggest that the Plan objectives, policies and rules adequately recognise and provide for infrastructure.
<b>Section 2.3 – Marine and Coastal Area (Takutai Moana) Act 2011</b>			
41 – Te Korowai o Ngāruahine Trust	62	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Section 2.3 [Marine and Coastal Area (Takutai Moana) Act 2011] of the Plan to note that the iwi of Taranaki have claims before the Crown for both customary marine title and protected customary right and explain to the community what these statutory acknowledgements will mean.	Officers agree to the relief sought and recommend amending Section 2.3 of the Plan to insert a new sentence that notes that the iwi of Taranaki have claims before the Crown for both customary marine title and protected customary right. Commentary preceding the insertion already explains to the community what these statutory acknowledgements will mean.
Further submissions – Te Atiawa (58)		Support	
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	63	<b>Support</b>	<b>Accept in part</b>
		Retain Section 2.3 of the Plan as notified.	The submitter's support is noted. However, officers note that in response to relief sought by another submitter, minor amendments have been made to Section 2.3 [ <i>Marine and Coastal Area (Takutai Moana) Act 2011</i> ] to further explain that the iwi of Taranaki have claims before the Crown for both customary marine title and protected customary rights.
<b>Section 2.5 – Other legislation</b>			
43 – Royal Forest and Bird Protection Society	64	<b>Amend</b>	<b>Decline</b>
		Submitter considers it helpful to explain that other legislation applies in the coastal environment and to outline the relationship these have to the Plan. In particular, Submitter seeks amendment to Section 2.5 [Other legislation] of the Plan to: <ul style="list-style-type: none"> <li>consider the legislation and Acts under Policy 5 of the <i>New Zealand Coastal Policy Statement</i></li> </ul>	Officers recommend declining the relief sought.  Section 2.5 of the Plan already highlights the need for activities to ensure they comply with other relevant legislation, regulations and bylaws but officers do not believe it necessary to specify or detail the relationship these might have with the

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<ul style="list-style-type: none"> <li>recognise the relationship between the Plan and the Exclusive Economic Zone and how the Plan addresses, or not, the effects that extend beyond the coastal marine area or into the coastal marine area</li> <li>explain the relationship between this Plan and other Acts/legislation.</li> </ul>	<p>Plan. Such detail was not required for the <i>New Zealand Coastal Policy Statement</i> and nor is it required for regional plans.</p> <p>The contents of the Proposed Plan are consistent with the matters set out in Section 67 [Content of regional plans] of the RMA. Given that the Government has just released the <i>National Planning Standards</i> which set out the structure, content and form for councils across New Zealand to adopt – some care must be necessarily had with adopting too much 'optional' content to avoid plans becoming verbose. In the drafting of the Plan, Council has deliberately limited introductory and background content and detail so as to focus on the matters that must be included in a Plan (objectives, policies and rules).</p> <p>Officers note that, in the development of the Plan, full consideration has been given to other relevant statutes and regulations. However, officers do not believe that it is necessary for the Plan to detail/explain the relationship between the Plan and other statutes. The list of legislation in Section 2.5 is not an exhaustive list. However, it is intended to contain the most relevant statutes that may apply to the coastal marine area and already identifies the <i>Conservation Act</i> which is identified in Policy 5 of the <i>New Zealand Coastal Policy Statement</i>.</p>
Further submissions– Trans-Tasman Resources Ltd (6)		Oppose in part/neutral in part	
58 – Te Atiawa	65	<p><b>Amend</b></p> <p>Submitter seeks amendment to Section 2.5 [Other legislation] of the Plan to include iwi settlement legislation – specifically, the <i>Te Atiawa Iwi Claims Settlement Act 2016</i>.</p>	<p><b>Accept</b></p> <p>The submitter believes that it may be useful for Plan users to know that the iwi of Taranaki have claims before the Crown for both customary marine title and protected customary right.</p> <p>Officers agree to the relief sought. Officers recommend amending Section 2 of the Plan to include a new sub section relating to iwi management plans and to expand the scope of Section 2.5 [Other legislation] to reference Treaty of Waitangi settlement legislation, including the <i>Te Atiawa Iwi Claims Settlement Act</i> as requested by the submitter.</p>
60 – Te Kaahui o Rauru	66	<p><b>Amend</b></p> <p>Submitter seeks amendment to Section 2.5 [Other legislation] of the Plan to include iwi settlement legislation – specifically, the <i>Ngaa Rauru Kiiitahi Claims Settlement Act 2005</i>.</p>	<p><b>Accept</b></p> <p>The submitter believes that it may be useful for Plan users to know that the iwi of Taranaki have claims before the Crown for both customary marine title and protected customary right.</p> <p>Officers agree to the relief sought. Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	area (as intended), all rules are subject to the General Policies which cover the wider coastal environment and standards, terms and conditions and/or matters of discretion seek to address integrated management issues where relevant.
41 – Te Korowai o Ngāruahine Trust	74	<p><b>Amend</b></p> <p>Submitter seeks amendment to Section 3.1 of the Plan to broaden the information, including reference the tauranga waka landing sites and the statutory acknowledgements that iwi have over a number of rivers and tributaries and land areas within the coastal marine area environment, to promote readers' awareness and knowledge about the depth of relationship that Māori have with the coast.</p>	<p><b>Accept</b></p> <p>Officers recommend minor changes to Section 3.1 of the Plan as requested by the submitter to include tauranga waka landing sites and also to recognise rivers and tributaries and land areas identified in Appendix 2 [Statutory acknowledgements]. The amended section reads:</p> <p><i>Wāhi tapu, sites, or places of cultural significance, <u>including tauranga waka landing sites, taonga, and customary resources, are integral to the identity, well-being and cultural integrity of tangata whenua [...]</u></i></p> <p><i>It is important that the relationship of tangata whenua with the coastal environment is recognised and provided for (refer 5 below). <u>That includes rivers and tributaries and land areas identified in Appendix 2 [Statutory acknowledgements] that lie landward of the coastal marine area boundary.</u></i></p>
Further submissions – Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	75	<p><b>Amend</b></p> <p>Submitter seeks amendment to Section 3.1 of the Plan by:</p> <ul style="list-style-type: none"> <li>amending the third paragraph to recognise existing pressures on the coastal environment, including from beyond the coastal marine area, and that low current demand does not mean management of effects can be relaxed</li> <li>amending the text under “Integrated management” to recognise: the effects of subdivision, use and development on land in the coastal environment on the coastal marine area; that demand for activities in this area is high; the need to provide for migration of coastal habitat landward as a result of climate change.</li> </ul>	<p><b>Accept in part</b></p> <p>Of note, proposals in this Plan represent an overall increase in the level of protection for coastal uses and values. As noted in previous requests for added commentary or background information, officers recommend that background information, including Section 3.1 which provides an overview of the Taranaki coastal environment, be kept at a high level.</p> <p>Notwithstanding the above, officers recommend minor amendments to Section 3.1 that partially address the reliefs sought by the submitter. It is proposed that the third paragraph of Section 3.1 be amended to include:</p> <p><i><u>Notwithstanding generally low use and development, it remains important that adverse effects of use and development continue to be avoided, remedied or mitigated and that, as far as is practicable, take into account the wider coastal environment.</u></i></p>
Further submissions – Trans-Tasman Resources Ltd		Oppose	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	Other consequential changes are proposed in the commentary under integrated management to also recognise that demand for activities and the effects of subdivision, use and development on land in the coastal environment can be high. However, officers do not recommend commentary being expanded to discuss the specifics of providing for the migration of coastal habitats landward due to climate change.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	76	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks further amendment to Section 3.1 of the Plan by deleting the text under “ <i>Appropriate use and development</i> ”. Alternatively amend to address as per submitters previous comments made on this matter.	The submitter suggests that it is not appropriate to consider activities as “ <i>appropriate use and development</i> ” on the basis of the benefits of the activities. Officers agree noting that the commentary does not get into the specifics of what is appropriate or not. Such determinations can only be made in reference to the Plan policies. Accordingly officers recommend amending the heading to “ <i>Use and development</i> ” to more accurately reflect this section’s content. However, officers do not recommend deleting the text itself.
Further submissions – Transpower (26)		Oppose	
43 – Royal Forest and Bird Protection Society	77	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks further amendment to Section 3.1 of the Plan by amending the text under “ <i>Natural and historic heritage</i> ” to include “intrinsic” in the list of values (in the first paragraph) and to specify that natural heritage captures the characteristics and values in Policies 11, 13 and 15 of the <i>New Zealand Coastal Policy Statement</i> (or use wording consistent with those policies).	Officers recommend amending Section 3.1 of the Plan to include “ <i>intrinsic</i> ” in the list of values (in the first paragraph) under “ <i>Natural and historic heritage</i> ”. However, officers do not believe it is necessary to specify that natural heritage captures the characteristics and values in Policies 11, 13 and 15 of the <i>New Zealand Coastal Policy Statement</i> .
	78	<b>Amend</b>	<b>Accept</b>

## 4.2 Objectives

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Objective 1 – Integrated management</b>			
2 – Federated Farmers	86	<b>Support</b>	<b>Accept</b>
		Submitter supports Objective 1 of the Plan as notified.	Objective 1 is retained subject to the minor amendment in response to the submitter (20) below.
6 – Trans-Tasman Resources Ltd	87	<b>Support</b>	<b>Accept</b>
		Submitter supports Objective 1 of the Plan as notified.	Objective 1 is retained subject to the minor amendment in response to the submitter (20) below.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
19 – South Taranaki District Council	88	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment of Objective 1 of the Plan to add reference to working cooperatively with the territorial local authorities and iwi of the region.	The relief sought by the submitter introduces an unnecessary level of specificity to the Plan objectives and risks excluding other elements of integrated management that are addressed later on in the policies and methods. Officers suggest it is more appropriate to provide this level of detail in the policies and methods that follow. Of particular note, the detail sought by the submitter is already included in Policy 2(g) of the Plan, which refers to working cooperatively with territorial authorities and tangata whenua (and others) and supporting methods of implementation.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
20 – Meridian Energy Limited	89	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment of Objective 1 of the Plan to read: <i>Management of the coastal environment, including the effects of <u>subdivision</u>, use and development on land, air and fresh water, is carried out in an integrated manner.</i>	Officers note that subdivision falls outside the statutory functions of regional councils and is instead the responsibility of district and unitary councils pursuant to Section 31 of the RMA. However, in this instance the objective relates to integrated management which may include activities regulated by other parties. Officers therefore agree with the submitter that subdivision should be referenced in the objective.  In addition of the relief suggested above, officers also recommend making consequential amendments to Policy 2 [Integrated management] clause (g) to recognise subdivision alongside use and development in areas beyond the coastal marine area. A new definition for “ <i>subdivision</i> ” is also recommended.

		Retain Objective 2 of the Plan as notified.	Objective 2 is retained subject to minor amendments as requested by other submitters.
43 – Royal Forest and Bird Protection Society	105	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Objective 2 of the Plan to read: <i>Objective 2: <b>Appropriate Efficient</b> use and development Natural and physical resources of the coastal environment are used efficiently, <del>and activities that depend on the use and development of these resources, are provided for in appropriate locations.</del></i>	Officers note that relief sought by the submitter confines the focus of the objective to “efficient” use and development. As a result many activities that might otherwise have been considered appropriate would no longer be recognised and provided for if the efficiency criterion only is applied. In so doing this might mean that many activities that contribute to the social, economic and cultural well-being of people and communities could be unnecessarily restricted. Officers further suggest the proposed relief would derogate from the <i>New Zealand Coastal Policy Statement</i> – particularly Objective 6 [Use and development] and Policies 6 [Activities in the coastal environment] and 9 [Ports], which generally recognise and provide for activities in the coastal environment.  Officers propose an alternative relief to include an additional objective that separates appropriate the title of the objective refer only to “Use and development”.

57 – Heritage New Zealand	155	<b>Amend</b>	<b>Accept in part</b>
		<p>The submitter requests that Objective 9 be amended to refer to all “Māori” in place of “tangata whenua” to follow similar wording within the RMA. The submitter suggests that iwi/hapū that no longer hold mana whenua can still have important relationships with an area, although they no longer have mana whenua, and such situations need to be provided for within this objective.</p> <p>Submitter seeks amendment to the title and content of Objective 9 of the Plan to read:</p> <p><i>Objective 9: Relationship of <u>Māori tangata whenua</u> with the coastal environment</i>  <i>Traditional and continuing relationships of <u>Māori tangata whenua</u> and their cultures and traditions with the coastal environment <u>and their ancestral lands, water, sites, waahi tapu and other taonga</u>, including the role of tangata whenua as kaitiaki, are recognised and provided for and protected from inappropriate use and development of the coastal marine area.</i></p>	<p>Officers note that iwi, hapū and whanau themselves have not commented on this submission point nor sought any similar changes. Nor has relief of this type been sought from the wider Māori community or others. Tangata whenua is considered more appropriate in the Taranaki context whereby the Council seeks to explicitly recognise tangata whenua relationships with the coast in the Plan objectives and policies.</p> <p>Unless iwi authorities themselves seek a change, officers recommend retaining reference to tangata whenua (rather than all Māori) in the Objective but amending the Objective to grant relief to the other amendments sought by the submitter. The revised Objective would read as follows:</p> <p><i>Traditional and continuing relationships of tangata whenua and their cultures and traditions <u>with their ancestral lands, water, sites, waahi tapu and other taonga</u> in the coastal environment, including the role of tangata whenua as kaitiaki, are recognised and provided for.</i></p>
<b>Objective 10 – Treaty of Waitangi</b>			
41 – Te Korowai o Ngāruahine Trust	156	<b>Amend</b>	<b>Accept in part</b>
		<p>The submitter supports the introduction of Te Tiriti o Waitangi because, through the Plan, it embeds the Treaty into the heart of decision making considerations.</p> <p>Submitter seeks amendment to Objective 10 of the Plan to:</p> <ul style="list-style-type: none"> <li>read “...<u>Give effect to The principles of</u> the Treaty of Waitangi including the principles of ... in the management of the coastal environment”</li> <li>reference the following guiding principles: mai te maunga, Taranaki kit e tai a Kupe, whakapapa, kaitiakitanga, manaakitanga, whanaungatanga, kawanatanga, and rangatiratanga.</li> </ul>	<p>Officers note the support from the submitter for the introduction of the Treaty of Waitangi into the objectives section of the Plan. However, officers do not recommend amending the Objective to “give effect” to the Treaty of Waitangi as the current wording of the Objective is already consistent with Objective 3 and Policy 2 of the <i>New Zealand Coastal Policy Statement</i>, which requires persons exercising functions and powers under the RMA to “take into account”, rather than “give effect to”, the principles of the Treaty of Waitangi.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	In addition, the submitter wishes to reinstate (from the draft Plan) five values that encapsulate the relationship between iwi o Taranaki and the coastal environment. Officers recommend granting this part of the relief sought and amending the Objective to refer to the guiding principles as it improves the integration of Māori principles throughout the Plan. The amended Objective 10 to read as follows: <i>The principles of the Treaty of Waitangi, including the principles of <a href="#">mai te maunga Taranaki kite tai a Kupe, whakapapa, kaitiakitanga, manaakitanga, whanaungatanga, kawanatanga, and rangatiratanga</a>, are taken into account in the management of the coastal environment.</i>
48 – Taranaki District Health Board	157	<b>Support</b> Retain Objective 10 of the Plan as notified.	<b>Accept</b> Support noted. Objective 10 is retained subject to minor amendments as requested by other submitters.
Further submissions – Port Taranaki Ltd (32)		Support	
58 – Te Atiawa	158	<b>Amend</b> Submitter seeks amendment to Objective 10 of the Plan to read: <i><a href="#">Give effect to</a> the principles of the Treaty of Waitangi, including the principles of kawanatanga, rangatiratanga, partnership, active participation, resource development and spiritual recognition, <del>are taken into account</del> in the management of the coastal environment.</i>	<b>Decline</b> Officers do not recommend amending the Objective to “give effect” to the Treaty of Waitangi as the current wording of the Objective is already consistent with Objective 3 and Policy 2 of the <i>New Zealand Coastal Policy Statement</i> , which requires persons exercising functions and powers under the RMA to “take into account”, rather than “give effect to”, the principles of the Treaty of Waitangi.
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	
<b>Objective 11 – Historic heritage</b>			
20 – Meridian Energy Limited	159	<b>Amend</b> Submitter seeks amendment to Objective 11 of the Plan to read: <i>Historic heritage in the coastal environment is protected from inappropriate <a href="#">subdivision</a>, use and development.</i>	<b>Accept</b> Officers note that the control of subdivision is not one of the Council’s functions under section 30 of the RMA, however, it is permissible for regional plans to included reference to subdivision in relevant objectives and policies if it serves one of the Council’s other functions, for example, integrated management. Officers recommend amending the provision as sought by the submitter so that it refers to subdivision alongside use and development for the purpose of assisting the Council in integrated management matters. A new definition for “subdivision” is also recommended.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	160	<b>Support</b>	<b>Accept</b>
		Retain Objective 11 of the Plan as notified.	Support noted. Objective 11 is retained as notified.
Further submissions – Port Taranaki Ltd (32)		Support	
57 – Heritage New Zealand	161	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Objective 11 of the Plan to read: <i>Significant hHistoric heritage in the coastal environment is protected from inappropriate use and development of the coastal marine area, and the extensive but limited knowledge of historic heritage in the coastal environment is recognised.</i>	Officers note that the Plan already gives partial relief to the submitter in that Objective 11 refers to historic heritage generally rather than “significant historic heritage”.  The submitter seeks further amendments to Objective 11 – similar in kind to Objective 6 of the <i>New Zealand Coastal Policy Statement</i> – to recognise the extensive but limited knowledge of historic heritage in the coastal environment.  Officers note that the issue of extensive but limited knowledge of historic heritage in the coastal environment has already been highlighted in the Section 32 Evaluation Report and officers do not believe it is necessary to restate such matters in Plan objectives. Officers are also unclear as to how ‘recognition’ in a Plan objective would be monitored meaningfully. Accordingly, changes are not recommended to the Objective itself. Officers recommend an alternative relief involving consequential amendments in the background information of the Plan [Natural and historic heritage] to further highlight this issue.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	162	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Objective 11 of the Plan to read: <i>Objective 11: Cultural and Historic Heritage</i> <i>Cultural and Historic heritage in the coastal environment is protected from inappropriate use and development.</i>	Officers recommend amending the Plan to grant the relief. The relief broadens the scope of the objective to address aspects of cultural heritage values that are not necessarily captured within the RMA definition of historic heritage. For example, cultural heritage may include values such as taonga species for which a new policy is recommended.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
<b>Objective 12 – Public use and enjoyment</b>			
	163	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
2 – Federated Farmers		Submitter seeks amendment to Objective 12 of the Plan to read: <i>People's use and enjoyment of the coastal environment, including amenity values, traditional practices and public access to and within the coastal <b>environment marine area</b>, is maintained and enhanced.</i>	Objective 12 applies to the coastal environment to promote integrated management of the coast across environmental domains and across local authority jurisdictional boundaries in a manner consistent with Policy 4 of the <i>New Zealand Coastal Policy Statement</i> . Confining Objective 12 to only the coastal marine area would derogate from that intent.
29 – Department of Conservation	164	<b>Amend</b> Submitter seeks amendment to Objective 12 of the Plan to read: <i>The public's <del>people's</del> use and enjoyment of the coastal environment, including amenity values, traditional practices and public access to and within the coastal environment, is maintained and enhanced.</i>	<b>Accept</b> The submitter suggests that to improve alignment and consistency between Policy 18 [Public open spaces] of the <i>New Zealand Coastal Policy Statement</i> and Policy 17 of the Plan, the use of the term "public" should be used. It is noted that the word "people" can include private use. Officers agree with the relief sought.
40 – Te Rūnanga o Ngāti Mutunga	165	<b>Amend</b> Submitter seeks amendment to Objective 12 of the Plan to read: <i>People's use and enjoyment of the coastal environment, including amenity values, traditional practices and public access to and within the coastal environment is maintained and enhanced <b>without adversely impacting on cultural and environmental values</b>.</i>	<b>Grant in kind</b> The submitter's concerns are that people's use and development of the coastal environment should be subject to the appropriate management of adverse effects on cultural and environmental values. Officers recommend granting the relief sought in kind by amending Objective 12 to recognise that people's use and enjoyment of the coast should not be to the detriment of other uses and values. However, officers do not believe it appropriate to specify or confine the Objective to the consideration of specific values. First, the suggested amendments by the submitter introduce a strict avoidance threshold with no regard to the significance of the effects. Second, the suggested amendments do not recognise other circumstances, where coastal public access should be subject to avoiding, remedying or mitigating adverse impacts on other uses and values (e.g. public health and safety). These are outlined later in Policy 17. Officers recommend that Objective 12 be amended to read: <i>The public's use and enjoyment of the coastal environment, including amenity values, traditional practices and <b>appropriate</b> public access to and within the coastal environment, is maintained and enhanced.</i>

41 – Te Korowai o Ngāruahine Trust	166	<b>Amend</b> Submitter seeks amendment to Objective 12 of the Plan to read:	<b>Grant in kind</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>People's use and enjoyment of the coastal environment, including amenity values, traditional practices and public access to and within the coastal environment is maintained and enhanced <u>without adversely impacting on cultural and environmental values.</u></i>	The submitter's concerns are that people's use and development of the coastal environment should be subject to the appropriate management of adverse effects on cultural and environmental values.  Officers recommend granting the relief sought in kind by amending Objective 12 to recognise that people's use and enjoyment of the coast should not be to the detriment of other uses and values. However, officers do not believe it appropriate to specify or confine the Objective to the consideration of specific values. First, the suggested amendments by the submitter introduce a strict avoidance threshold with no regard to the significance of the effects. Second, the suggested amendments do not recognise other circumstances, where coastal public access should be subject to avoiding, remedying or mitigating adverse impacts on other uses and values (e.g. public health and safety). These are outlined later in Policy 17.  Officers recommend that Objective 12 be amended to read:  <i><u>The public's</u> use and enjoyment of the coastal environment, including amenity values, traditional practices and <u>appropriate</u> public access to and within the coastal environment, is maintained and enhanced.</i>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	167	<b>Amend</b>  Submitter seeks amendment to Objective 12 of the Plan to recognise additional matters set out in Policy 16(a), Policy 18(a), (b), (d) and (e), Policy 19(1), (3) and (4), and Policy 20 of the <i>New Zealand Coastal Policy Statement</i> .	<b>No relief necessary</b>  No precise details of amendments sought to Objective 12 have been provided and the amendments sought by the submitter are considered unnecessary.  Officers note the Plan comprises of a suite of objectives, policies and methods, including rules that collectively give effect to the <i>New Zealand Coastal Policy Statement</i> . Plan provisions need to be read together (while also acknowledging the different statutory responsibilities and powers of territorial authorities and district plans for giving effect to specific elements of the <i>New Zealand Coastal Policy Statement</i> ).  Officers refer the submitter to Policies 17 [Public access], 18 [Amenity values], 19 [Surf breaks], of the Plan, and Implementation Methods 32 to 36 and 39, which specifically address Policy 16(a), Policy 18(a), (b), (d) and (e), Policy 19(1), (3) and (4), and Policy 20 of the <i>New Zealand Coastal Policy Statement</i> . Other Plan provisions also apply.
Further submissions – Port Taranaki Ltd (32)		Oppose	
47 – Fonterra	168	<b>Amend</b>  Submitter seeks amendment to Objective 12 of the Plan to read:	<b>Accept in part</b>  There are two parts to the relief sought by the submitter.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>People's use and enjoyment of the coastal environment, including amenity values, traditional practices and public access to and within the coastal environment, is maintained <del>and or</del> enhanced <u>where appropriate</u>.</i>	
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Oppose	<p>First, the submitter considers that it is not possible to maintain <u>and</u> enhance public access at the same time and requests that this be recognised by using an 'or' instead of an 'and'. Officers note that this objective is not site specific and instead applies to the entire coastal environment and so is appropriate to maintain and enhance use and enjoyment across the coastal environment. In addition, the wording follows the wording used in the <i>New Zealand Coastal Policy Statement</i> policies 18 [Public open space] and Policy 19 [Walking access] which is considered appropriate to follow. Officers recommend declining this relief.</p> <p>Second, the submitter suggests there may be occasions where it is necessary to limit public access, even if only temporarily. Officers agree that Objective 12 should be amended to recognise that people's use and enjoyment of the coast should not be to the detriment of other uses and values. Accordingly, officers recommend that Objective 12 be amended to read:</p> <p><i>The public's use and enjoyment of the coastal environment, including amenity values, traditional practices and <u>appropriate</u> public access to and within the coastal environment, is maintained and enhanced.</i></p>
48 – Taranaki District Health Board	169	<p><b>Support</b></p> <p>Retain Objective 12 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Objective 12 is retained subject to minor amendments as requested by other submitters.</p>
58 – Te Atiawa	170	<p><b>Amend</b></p> <p>Submitter seeks amendment to Objective 12 of the Plan to read:</p> <p><i>People's use and enjoyment of the coastal environment, including amenity values, traditional practices and public access to and within the coastal environment is maintained and enhanced <u>without adversely impacting on cultural and environmental values</u>.</i></p>	<p><b>Grant in kind</b></p> <p>The submitter's concerns are that people's use and development of the coastal environment should be subject to the appropriate management of adverse effects on cultural and environmental values.</p> <p>Officers recommend granting the relief sought in kind by amending Objective 12 to recognise that people's use and enjoyment of the coast should not be to the detriment of other uses and values. However, Officers do not consider it appropriate to specify or confine the Objective to the consideration of specific values. First, the suggested amendments by the submitter introduce a strict avoidance threshold with no regard to the significance of the effects. Second, the suggested amendments do not recognise other circumstances, where coastal public access should be subject to avoiding, remedying or mitigating adverse impacts on other uses and values (e.g. public health and safety). These are outlined later in Policy 17.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Officers recommend that Objective 12 be amended to read: <i>The public's use and enjoyment of the coastal environment, including amenity values, traditional practices and <b>appropriate</b> public access to and within the coastal environment, is maintained and enhanced.</i>
59 – KiwiRail	171	<b>Amend</b>  Submitter seeks amendment to Objective 12 of the Plan to read: <i>People's use and enjoyment of the coastal environment, including amenity values, traditional practices and public access to and within the coastal environment, is maintained and enhanced <b>where appropriate</b>.</i>	<b>Grant in kind</b>  Officers recommend that Objective 12 be amended to read: <i>The public's use and enjoyment of the coastal environment, including amenity values, traditional practices and <b>appropriate</b> public access to and within the coastal environment, is maintained and enhanced.</i>
Further submissions – Te Atiawa (58)		Oppose	
<b>Objective 13 – Coastal hazards risk and public health and safety</b>			
2 – Federated Farmers	172	<b>Support</b>  Retain Objective 13 of the Plan as notified.	<b>Accept</b>  Support noted. Objective 13 is retained subject to minor amendments as requested by other submitters.
20 – Meridian Energy Limited	173	<b>Amend</b>  Submitter seeks amendment to Objective 13 of the Plan to read: <i>The risk of social, cultural, environmental, and economic harm from coastal hazards is not increased and public health, safety and property is not compromised by <b>subdivision</b>, use and development of the coastal <b>environment marine area</b>.</i>	<b>Accept in part</b>  The relief sought by the submitter has two parts. First, it seeks to expand the scope of the Objective to address subdivision and, second, it seeks to expand its scope so that it applies to the coastal environment (rather than just the CMA).  In relation to expanding the scope of Objective 13 so that it applies to the coastal environment (rather than just the CMA), Officers agree that the objective should address the wider coastal environment. However, officers do not recommend amend the reference to the coastal marine area at the end of the objective noting that the rules only addresses use and development within the CMA.  Officers further recommend that the objective reference subdivision as sought by the submitter.  Officers recommend amending Objective 13 (in line with reliefs sought by other submitters) to read as follows: <i>The risk of social, cultural, environmental, and economic harm <b>in the coastal environment</b> from coastal hazards is not increased <b>beyond acceptable levels</b> and public health, safety and property is not compromised by use and development of the coastal marine area.</i>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	174	<p><b>Amend</b></p> <p>Submitter seeks amendment to Objective 13 of the Plan to address the wider coastal environment and to reflect the matters set out in Policy 24, Policy 25, Policy 26, and Policy 27 of the <i>New Zealand Coastal Policy Statement</i>.</p>	<p><b>Accept in part</b></p> <p>No precise details of amendments sought to Objective 13 have been provided. Officers recommend minor amendment to make clear that Objective 13 applies to the wider coastal environment and that only the second part of the objective that relates to use and development is specific to the coastal marine area.</p>
Further submissions – Port Taranaki Ltd (32)		<p><b>Oppose</b></p>	<p>However, as previously noted in submission point 165, officers do not believe it necessary or appropriate to make further amendments to reflect the <i>New Zealand Coastal Policy Statement</i>.</p> <p>Officers note the Plan comprises of a suite of objectives, policies and methods, including rules that collectively give effect to the <i>New Zealand Coastal Policy Statement</i>. Plan provisions need to be read together (while also acknowledging the different statutory responsibilities and powers of territorial authorities and district plans for giving effect to specific elements of the <i>New Zealand Coastal Policy Statement</i>).</p> <p>Officers refer the submitter to Policies 20 [Coastal hazards], 21 [Natural hazard defences] and Implementation Methods 37 to 42, which specifically address matters set out in Policy 24, Policy 25, Policy 26, and Policy 27 of the <i>New Zealand Coastal Policy Statement</i>. Other Plan provisions may also apply.</p> <p>Officers recommend amending Objective 13 (in line with reliefs sought by other submitters) to read as follows:</p> <p><i>The risk of social, cultural, environmental, and economic harm in the coastal environment from coastal hazards is not increased beyond acceptable levels and public health, safety and property is not compromised by use and development of the coastal marine area.</i></p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	175	<p><b>Amend</b></p> <p>Submitter seeks amendment to Objective 13 of the Plan to read:</p> <p><i>The risk of social, cultural, environmental, and economic harm from coastal hazards is not increased to unacceptable levels and public health, safety and property is not compromised by use and development of the coastal marine area.</i></p>	<p><b>Accept</b></p> <p>Officers agree to the sought amendment as it allows minor or risks deemed acceptable while continuing to protecting the region from coastal hazards. The revised Objective 13 will read as follows:</p> <p><i>The risk of social, cultural, environmental, and economic harm in the coastal environment from coastal hazards is not increased beyond acceptable levels and public health, safety and property is not compromised by use and development of the coastal marine area.</i></p>
Further submissions – Transpower (26), Petroleum Exploration and Production Association of New Zealand (37)		<p><b>Support</b></p>	<p><i>The risk of social, cultural, environmental, and economic harm in the coastal environment from coastal hazards is not increased beyond acceptable levels and public health, safety and property is not compromised by use and development of the coastal marine area.</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response

### 4.3 Policies

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Section 5 – Preamble</b>			
43 – Royal Forest and Bird Protection Society	178	<b>Support</b>	<b>Decline</b>
		<p>Submitter seeks amendment to the introduction of Section 5 of the Plan, on page 19, to read:</p> <p>Section 5.1 contains [...] which relate to:</p> <p>1. [...]</p> <p><u>1A. protection of significant and outstanding values and characteristics of the coastal environment [...]</u></p>	<p>Officers note that the bullet points relate to the third order headings adopted for the Policies section of the Plan for the reader's ease of reference. The headings bundle similar policies by shared themes. Policies relating to the protection of significant and outstanding values and characteristics of the coastal environment are already addressed under the heading of "Natural form and functioning".</p>
43 – Royal Forest and Bird Protection Society	179	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to the introduction of Section 5.1 of the Plan, on page 20, to read:</p> <p><i>This section provides the overall direction for achieving integrated management for the protection of significant and outstanding values and matters in the coastal environment (i.e. both the coastal marine area and areas landward where coastal processes, influences or qualities are significant) in order to achieve the objectives of this Plan.</i></p> <p><i>The policies apply to all activities in the coastal environment, regardless of which coastal management area the activity may fall within (coastal management areas are identified in Schedule 1 and their characteristics are described in Policy 1).</i></p>	<p>Officers agree to amend the introduction of Section 5.1 but note that the Plan policies cover use, development and protection of all coastal values not just "the protection of significant and outstanding values." Officers recommend an alternative relief that takes into account reliefs sought in other submissions. The amended introduction would read as follows:</p> <p><i>This section provides the overall direction for achieving integrated management in the coastal environment (i.e. both the coastal marine area and areas landward where coastal processes, influences or qualities are significant and as indicatively shown on the planning maps) in order to achieve the objectives of this Plan.</i></p> <p><i>The policies apply to all activities in the coastal marine area but include consideration of uses values and relationships across the wider coastal environment. The Policies set out a coastal management framework, providing for use and development, protect, maintain and enhance significant and outstanding values, and manage coastal hazards and risks to public health and safety.</i></p>
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Support in part	
43 – Royal Forest and Bird Protection Society	180	<b>Amend</b>	<b>Accept</b>
		<p>Submitter seeks amendment to the introduction of Section 5.1 of the Plan, on page 20, to clarify the extent of the coastal management areas set out in the planning maps.</p>	<p>Both South Taranaki and New Plymouth district councils have commenced or are about to commence their respective district plan reviews, which includes a coastal protection zone. For the purposes of integrated management and to promote</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Department of Conservation (29)		Support	<p>alignment between the respective regional and district plans, officers recommend that the Plan (and associated GIS layers and planning maps) be amended to include an indicative extent of the coastal environment that is aligned with the district plans.</p> <p>Consequential amendments throughout the Plan, including Section 5.1, are further recommended to ensure appropriate linkages between Plan provisions, the schedules and the planning maps.</p>
43 – Royal Forest and Bird Protection Society	181	<p><b>Amend</b></p> <p>Submitter seeks amendment to the introduction of Section 5.1 of the Plan, on page 20, to clarify that the extent of the coastal management areas lists Policy 1(a), (b), (c) and (e) areas and that the Open Coast is not identified.</p>	<p><b>Decline</b></p> <p>Officers note that the Open Coast is identified in the Plan and it is not unreasonable to expect Plan readers to understand that the Open Coast coastal management area pertains to that part of the coastal marine area not already identified as being Outstanding, Estuary Unmodified, Estuary Modified and the Port. Of note, this Policy is a continuation of an existing policy in the current Coastal Plan and for which there have been no issues previously identified by Plan users in relation to its interpretation and application.</p> <p>Notwithstanding the above, consequential amendments are recommended to Policy 1 to clarify that coastal management areas relate to the coastal marine area only.</p>
57 – Heritage New Zealand	182	<p><b>Amend</b></p> <p>Submitter seeks amendment to the introduction of Section 5 of the Plan, on page 19, to include an additional bullet point and read:  <i>Section 5.1 contains [...] which relate to:</i>  <u><i>Relationship of Māori and their culture and traditions with the coastal environment.</i></u></p>	<p><b>Grant in kind</b></p> <p>Officers note that the bullet points relate to the third order headings adopted for the Policies section of the Plan for the reader's ease of reference. The headings bundle similar policies by shared themes. Policies relating to the relationship of Māori and their culture and traditions with the coastal environment are currently addressed under the heading of "Natural and historic heritage and values". However, recognition and provision for the relationship of Māori contains cultural elements specific to tangata whenua and additional to those covered by the natural heritage, the environment, and historic heritage policies.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<p>Officers recommend granting the relief and identifying tangata whenua culture, values and traditions with the coastal environment as a separate standalone heading. This heading will also be adopted within the policies section for the relationship of tangata whenua (Policy 16).</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	183	<p><b>Other</b></p> <p>Submitter notes that Plan policies do not cover the Exclusive Economic Zone and, for the purposes of integrated management, seeks that the Council follows the directions of the High Court and/or seek legal advice on the 'defect' of the</p>	<p><b>No relief necessary</b></p> <p>Comments noted.</p>

			areas (identified in Schedule 1) and their distinguishing values, characteristics and uses: [...]
23 – New Plymouth District Council	188	<b>Support</b>	<b>Accept</b>
		Retain Policy 1 of the Plan as notified.	Policy 1 is retained subject to minor amendments as requested by other submitters.
26 – Transpower NZ Ltd	189	<b>Support</b>	<b>Accept</b>
		Retain Policy 1 of the Plan as notified.	Policy 1 is retained subject to minor amendments as requested by other submitters.
28 – Grant Knuckey	190	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Policy 1 of the Plan by incorporating mana whenua values from Policy 16 [Relationship of tangata whenua] into Policy 1.	Officers note the introductory sentence to Section 5 on page 19 that “... <b>when assessing an activity, all relevant general and activity-based policies are to be considered and no individual policy viewed in isolation.</b> ” It is therefore unnecessary to cross reference Policy 16 (and other policies) in Policy 1 for it to be considered. Both Policy 1 and 16 will be considered together (plus the other General Policies and relevant Activity-specific Policies) in the assessment of any resource consent applications.
28 – Grant Knuckey	191	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Policy 1 of the Plan by identifying two new marine spatial coastal management areas – wahi tapu areas and wahi taonga areas.	Officers recommend declining the relief sought in that the relief is unnecessary and has already been given effect to in the Plan, albeit in a different manner than that sought by the submitter.
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	Policy 1 sets out a zonal approach for the application of rules in the coastal marine area. The coastal marine area has been divided into five coastal management areas based upon shared values, characteristics, uses, vulnerability or sensitivity, and different management needs. The zones allow rules to ‘bundle’ compatible activities or effects of these activities together and restrict activities or effects which are incompatible. The coastal management areas enables some activities, and restricts other activities.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	Officers note that Policy 1 is based upon the current coastal management regime, which included similar coastal management areas and has largely been effective in managing adverse effects in the coastal marine area.  Notwithstanding the above, across all the coastal management areas and at a finer spatial scale, there will be specific sites and places with regionally significant values located within the coastal management area. They include sites, places and attributes identified as significant for their natural character, indigenous biodiversity, historic

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			heritage and amenity values. Through this Coastal Plan review considerable effort has been made to identify and/or map sites of significance to tangata whenua in Schedule 5B of the Plan and associated planning maps. These sites include wahi tapu areas and wahi taonga areas to ensure that any adverse effects on these sites and places are properly considered and adverse effects avoided, remedied or mitigated. Officers note that supporting policies and rules in the Plan apply relating to the protection of wahi tapu, wahi taonga and other significant sites of significance to Māori.
29 – Department of Conservation	192	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 1(d) [Open Coast] of the Plan to include a new characteristic to read:  <i>v) provide important habitats for marine species.</i></p>	<p><b>Grant in kind</b></p> <p>The submitter refers to the Section 32 Evaluation Report which recognizes that within the open coast there is a range of marine habitats that none of the other management areas have.</p> <p>Officers recommend granting the relief in kind by amending the scope of Policy 1(d)(ii) to refer to marine systems, which encompasses, amongst other things, reef systems that provide habitats for marine life.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
32 – Port Taranaki	193	<p><b>Amend</b></p> <p>Submitter generally supports Policy 1 but questions the relevance or significance of Clause (e)(v) and recommends deleting it:  <i>(v) can have significant effects on areas outside of the Port, including contributing to coastal erosion along the New Plymouth foreshore</i></p>	<p><b>Accept</b></p> <p>Officers agree that activities able to have significant effects outside the area of operation and able to have an impact on coastal erosion are not confined to the Port and recommend deleting the clause.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Oppose	
40 – Te Rūnanga o Ngāti Mutunga	194	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 1(b) and (c) of the Plan to re-instate (from the Draft Coastal Plan) the following characteristics for Estuaries Unmodified and Estuaries Modified:  <i>[...] valued by Māori for Mahinga Kai.</i></p>	<p><b>Accept</b></p> <p>Officers agree to amend Policy 1(b) and (c) as through the exercise of mapping sites of significance to Māori, inevitably estuaries have been identified as important for a variety of reasons including mahinga kai. Officers recommend granting the relief, alongside other potential cultural, spiritual, historical and traditional associations:</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<i>[...] are valued by Māori for taonga species, and cultural, spiritual, historical and traditional associations.</i>
41 – Te Korowai o Ngāruahine Trust	195	<b>Amend</b>  Submitter seeks amendment of Policy 1 of the Plan to recognise the place of marine spatial planning and ecosystem based management and other associated environmental and kaitiaki plans and recognise Māori values within each of the coastal management areas.	<b>No relief necessary</b>  No precise details of amendments sought to Policy 1 have been provided but officers believe that Plan provisions, when read as a whole, give effect to the relief sought by the submitter and no further change is necessary.  Policy 1 already includes an element of marine spatial planning. It sets out a zonal approach for the application of rules in the coastal marine area. The coastal marine area has been divided into five coastal management areas based upon shared values, characteristics, uses, vulnerability or sensitivity, and different management needs. The zones allow rules to 'bundle' compatible activities or effects of these activities together and restrict activities or effects which are incompatible. The coastal management areas enables some activities, and restricts other activities.  Notwithstanding the above, across all the coastal management areas and at a finer spatial scale, there will be specific sites and places with regionally significant values. Through this Coastal Plan review considerable effort has been made to identify and/or map these values in the Plan schedules and associated planning maps, which include wahi tapu areas and wahi taonga areas to ensure that any adverse effects on these sites and places are properly considered and adverse effects avoided, remedied or mitigated.
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	196	<b>Other</b>  Submitter seeks discussion around Policy 1 to determine whether the characteristics listed under Outstanding Value, Estuaries Unmodified, Estuaries Modified, Open Coast and Port require all characteristics to apply together as indicated by the use of "and" within the listings.	<b>No relief necessary</b>  Comments noted.  Officers note that the matters listed are but a general description of distinguishing values, characteristics and uses that underpin the identification of the five coastal management areas. Other values will inevitably apply but do not need to be identified and would be addressed in other supporting policies. Officers will discuss the matter further with the submitter as part of the pre-hearing engagement process.
Further submissions – Port Taranaki Ltd (32)		Support in part	
	197	<b>Other</b>	<b>No relief necessary</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		Submitter questions whether the current wording of Policy 1 of the Plan, and its subheadings, account for the protection of biodiversity and associated values or merely define large management areas, which then have their values protected or uses provided through other policies. If this is the case it is unclear where these protective provisions are.	<p>No relief is sought. However, as previously noted, Policy 1 is a general description of distinguishing values, characteristics and uses that underpin the identification of the five coastal management areas.</p> <p>In relation to the “protective provisions” officers refer the submitter to the rest of the Plan. Officers note the introductory sentence to Section 5 on page 19 that “...<b>when assessing an activity, regard will be had to all relevant general and activity-based policies are to be considered and no individual policy viewed in isolation.</b>”</p>
Further submissions – Port Taranaki Ltd (32)		Support in part	<p>Officers believe the ‘suite’ of General Policies plus relevant Activity Policies triggered by use and development activities in the coastal marine area address, amongst other things, the use and development and protection of natural and physical coastal resources.</p>
43 – Royal Forest and Bird Protection Society	198	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by deleting Policy 1 of the Plan OR Amend Policy 1 by:</p> <ul style="list-style-type: none"> <li>• setting out an area based management approach based on mapped and scheduled areas. Refer to relevant policies to identify characteristics in those areas which are not already for those areas in a schedule AND move the amended policy to section 5.2 so that it clearly sets out a management approach only within the coastal marine area and applies only to the activities which are controlled under rules in the plan</li> <li>• amending the description of the management approach as per the submitter’s suggestions relating to Section 1.7 above and Policies 1(a), (b), (c), (d) and (e) below</li> <li>• including a statement that explains that Policy 1 does not provide direction for subdivision, use or development activities within the management areas.</li> </ul>	<p><b>Accept in part</b></p> <p>Officers recommend amendments to Policy 1 that gives partial effect to the relief sought by the submitter but which also addresses issues/matters raised by other submitters.</p> <p>The submitter’s concerns with the coastal management area approach are noted. However, officers note that the approach has been in place since 1997 and to date no issues have been identified in relation to its application. The current Coastal Plan, which includes the same zonal approach and has an equivalent policy, has been demonstrated to be efficient and effective in managing adverse effects in the coastal marine area through interim reviews and state of the environment monitoring. Officers do not believe it necessary nor appropriate to delete Policy 1.</p> <p>Notwithstanding the above, officers note recommendations that give partial relief to other reliefs sought by the submitter. These include amendments to the Policy 1 plus other inconsequential changes in Section 1.7 of the Plan to clarify that the application of the coastal management areas apply only to the coastal marine area.</p>

59 - KiwiRail	210	<b>Support</b>	<b>Accept</b>
		Retain Policy 1 of the Plan as notified.	Policy 1 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
61 – Te Rūnanga o Ngāti Ruanui Trust	211	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Policy 1(a) of the Plan (and associated schedules) to include: <ul style="list-style-type: none"> <li>• Tangahoe – Hawera – Manutahi Reef system</li> <li>• Patea Beach and the Patea River Estuary</li> <li>• Ohawe – Manawapou – Waihi Beaches.</li> </ul>	Policy 1(a) identifies coastal management areas of outstanding (exceptional) natural character and/or outstanding natural features and landscapes across the Taranaki region. Outstanding Value coastal management areas were based upon the current Coastal Plan. However, through the Coastal Plan review additional investigations were carried out, which resulted in a few additional sites being identified. However, that assessment did not identify the aforementioned areas as being exceptional for their natural character and/or for their natural features and landscapes. This finding is consistent with South Taranaki District Council conclusions as encapsulated in their Proposed District Plan.  Officers note that the submitter has not introduced any new information in support of these sites being outstanding natural character, features or landscapes.  Notwithstanding the above, officers suggest granting the relief may not be necessary as the Plan already recognises the aforementioned sites as being 'regionally significant' for a variety of reasons, including for the cultural and historical heritage values. The Tangahoe - Hawera – Manutahi reef system is identified in Schedule 3, the Patea Beach and the Patea River Estuary are identified in Schedule 5B, while the Ohawe – Manawapou – Waihi beaches are identified in Schedule 6. The aforementioned places are also identified in Appendix 2 [Statutory acknowledgement] of the Plan (and associated planning maps).
61 – Te Rūnanga o Ngāti Ruanui Trust	212	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Policy 1(b) of the Plan (and associated schedules) to include: <ul style="list-style-type: none"> <li>• Hauroto Stream</li> <li>• Waihi Stream</li> </ul>	Policy 1(b) identifies as a coastal management area larger estuaries described as having their natural character unmodified. The coastal management areas identified as Estuaries Unmodified were based upon the current Coastal Plan.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<ul style="list-style-type: none"> <li>• Katewheta Stream</li> <li>• Waikaikai Stream</li> <li>• Mangaroa Stream</li> <li>• Kaikura Stream</li> <li>• Whenuakura River</li> <li>• Manawapou River.</li> </ul>	<p>With the exception of the Whenuakura River, which is already identified as an Estuary Unmodified, the streams identified by the submitter are relatively small and for spatial mapping and coastal management purposes there is little to differentiate these streams from other streams recognising that, when mapping the stream mouths, the RMA definition of the coastal marine area, where the line crosses these rivers, is "...the point upstream that is calculated by multiplying the width of the river mouth by 5."</p> <p>Notwithstanding the above, of note the aforementioned stream mouths are recognised and have been mapped at a finer spatial scale to recognise that they are regionally significant for their cultural and historic heritage (and other) values. The aforementioned places are identified in Schedule 5B and Appendix 2 [Statutory acknowledgement] of the Plan (and associated planning maps).</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	213	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 1(b), (c) and (d) of the Plan to include the following characteristics for coastal management areas Estuaries Unmodified, Estuaries Modified and Open Coast:</p> <p><i>[...] provide for taonga species, cultural and traditional associations and cultural heritage.</i></p>	<p><b>Accept in part</b></p> <p>Officers agree to amend Policy 1(b) and (c) as through the exercise of mapping sites of significance to Māori, inevitably estuaries have been identified as important for a variety of reasons. Officers recommend granting the relief, alongside other potential cultural, spiritual, historical and traditional associations:</p> <p><i>[...] are valued by Māori for mahinga kai, taonga species, cultural, spiritual, historical and traditional associations.</i></p>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>However, officers recommend Policy 1(d) is retained as currently notified. Officers note that Policy 1(d)(ii) and (iv) already contain a cultural component and therefore no changes to that part of the policy are considered necessary.</p>
<b>NEW Policy 1A – Coastal management areas (Port)</b>			
43 – Royal Forest and Bird Protection Society	214	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to include a new Policy specific to the Port of Taranaki and consistent with Policy 9 [Port] of the <i>New Zealand Coastal Policy Statement</i>.</p>	<p><b>Decline</b></p> <p>Officers do not believe it is appropriate or necessary to include a new policy specific to the Port to give effect to Policy 9 of the <i>New Zealand Coastal Policy Statement</i>. Officers note the introductory sentence to Section 5 on page 19 that "...<b>when assessing an activity, regard will be had to all relevant general and activity-based policies are to be considered and no individual policy viewed in isolation.</b>" It is therefore unnecessary to include a new policy specific to the Port when matters outlined in Policy 9 of the <i>New Zealand Coastal Policy Statement</i> have been more fully covered and addressed via Policy 1 [Coastal management areas], Policy 5 [Use and development], Policy 6 [Regionally important infrastructure] and</p>
Further submissions – Port Taranaki Ltd (32)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Policy 7 [Reverse sensitivity]. These and the other General Policies and relevant Activity Policies will contribute to the efficient and safe operation of Port Taranaki.
<b>Policy 2 – Integrated management</b>			
2 – Federated Farmers	215	<b>Support</b>	<b>Accept</b>
		Submitter notes support of Policy 2 of the Plan as notified	Support noted. Policy 2 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
7 – Waikato Regional Council	216	<b>Other</b>	<b>No relief necessary</b>
		Submitter seeks that the Council consider, in its Coastal Plan, provisions related to integrated management, cross-boundary issues and the need to work collaboratively with the Waikato Regional Council, which may include incorporating a new section with cross boundary related provisions, or expanding Policy 2 to more explicitly state how cross-boundary matters will be managed through collaboration.	Submitter's comments are noted. Officers note that as part of the development of the Proposed Coastal Plan it considered all matters relating to the structure, format and content of a revised Plan including a stand-alone section setting out integrated management/cross boundary provisions and determined on the approach as adopted in the proposal, which includes a standalone Policy but also includes other Plan provisions that contribute to more effective integrated management including Plan objectives, General Policies and Implementation Methods that apply across the coastal environment.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	
7 – Waikato Regional Council	217	<b>Other</b>	<b>No relief necessary</b>
		Notes the Waikato Regional Council will be working collaboratively with other agencies on a long-term strategy on coastal erosion and flooding for the Mokau area.	Comments noted.

12 – Chorus New Zealand Limited	218	<b>Support</b>	<b>Accept</b>
		Retain Policy 2 of the Plan as notified.	Support noted. Policy 2 is retained subject to amendments sought by other submitters.
13 – Spark New Zealand Trading Limited	219	<b>Support</b>	<b>Accept</b>
		Retain Policy 2 of the Plan as notified.	Support noted. Policy 2 is retained subject to amendments sought by other submitters.
Further submissions – Port Taranaki Ltd (32)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
14 – Vodafone New Zealand Limited	220	<b>Support</b>	<b>Accept</b>
		Retain Policy 2 of the Plan as notified.	Support noted. Policy 2 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
19 – South Taranaki District Council	221	<b>Amend</b>	<b>No relief necessary</b>
		Submitter notes support for this policy but requests amendment to Policy 2(e) and (g) of the Plan to add reference to working cooperatively with the territorial local authorities of the region and iwi.	In relation to amending Policy 2(e) and (g) to add reference to working cooperatively with the territorial local authorities of the region and iwi, officers note that clause (g) already references this and no further amendments are considered necessary except to correct the Policy reference in (g) to refer to Policy 16 [Relationship of tangata whenua].
19 – South Taranaki District Council	222	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Policy 2(g) of the Plan noting that reference to Policy 15 is in error and should be corrected to Policy 16.	Officers agree to amend the reference.
20 – Meridian Energy Limited	223	<b>Amend</b>	<b>Accept</b>
		Submitter seeks minor amendments to Policy 2(b) and (e) of the Plan to clarify that they apply only to the Taranaki region: <i>Provide for the integrated management of the coastal environment by:</i> [...] <i>(b) implementing policies, methods and rules in other regional plans <a href="#">for Taranaki</a> in relation to managing adverse effects associated with diffuse and direct discharges to freshwater and air, and soil disturbance;</i> [...] <i>(e) considering the effects of activities in the coastal marine area on outstanding natural features and landscapes or areas of outstanding natural character identified in other regional or district plans <a href="#">for the Taranaki Region</a>.</i>	Officers agree to the relief sought and will clarify in Policy 2(b) and (e) that the Taranaki region is the area being managed.
Further submissions – Te Atiawa (58)		Oppose	
20 – Meridian Energy Limited	224	<b>Amend</b>	<b>Accept</b>
		Amend Clause (c) of Policy 2 of the Plan to clarify what is meant by “cross-media effects”.	Cross-media effects refer to effects that may traverse environmental domains, e.g. activities that occur on land such as a discharge that have an impact on water quality.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Officers recommend amendments to Policy 2 to clarify the concept of cross-media effects by deleting clause (c) and inserting a new clause (aa) that reads as follows:</p> <p><i>(aa) recognising ki uta ki tai by taking into account the interconnected nature of resources and natural processes in the management of adverse effects across air, land, fresh water bodies and the coastal environment; [...]</i></p>
21 – Climate Justice Taranaki	225	<p><b>Amend</b></p> <p>Submitter notes support for this policy but suggests amendment to Policy 2(g) of the Plan to add reference to working cooperatively with government departments and authorities (e.g. Environmental Protection Authority) to avoid, mitigate and manage any potential impacts from activities proposed/conducted in the Exclusive Economic Zone (e.g. seabed and petroleum mining), on Taranaki's coastal environment.</p>	<p><b>No relief necessary</b></p> <p>Support noted. In relation to amending Policy 2(g) to add reference to working cooperatively with the government departments and authorities, officers note that clause (g) already references this and further amendment to specify which departments under what scenarios is not considered necessary.</p>
26 – Transpower NZ Ltd	226	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 2(f) of the Plan to read:</p> <p><i>Provide for the integrated management of the coastal environment by: [...]</i></p> <p><i>(f) managing natural and physical coastal resources in a manner that recognises and provides for <del>has regard to</del> the social, economic and cultural objectives and well-being of the community, and the functional, technical, operational and/or locational constraints of nationally or regionally important infrastructure [...]</i></p>	<p><b>Accept</b></p> <p>The submitter requests this policy is amended to provide a stronger directive approach. The submitter suggests that the amendment would give better effect to Policy 1 and Policy 3 of the <i>National Policy Statement for Electricity Transmission</i>.</p> <p>Officers recommend granting the relief sought by the submitter, however, recommend a slight alternative to maintain consistent wording with other areas of the Plan to read:</p> <p>[...]</p> <p><i>(f) managing natural and physical resources in a manner that recognises and provides for the social, economic and cultural objectives and well-being of the community and the functional needs and/or operational needs of regionally important infrastructure and industry; and [...]</i></p>
29 – Department of Conservation	227	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 2(c) of the Plan to clarify how taking into account the potential for cross media effects and the connections between freshwater bodies and coastal water will provide for integrated management.</p>	<p><b>Accept in part</b></p> <p>The submitter suggests that Policy 2(c) is unclear and would like to know how Clause (c) of Policy 2 will provide for integrated management of the coastal area.</p> <p>Integrated management, for the purposes of the Plan, means managing use, development and protection of natural and physical resources as a whole. It recognises that natural and physical resources exist as parts of complex and interconnected social and biophysical systems, where effects on one part of the system may affect other parts of the system. Integrated management also recognises that the management of systems involves a number of agencies with different roles and</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>responsibilities. Clause (c) – management of cross-media effects – is therefore an essential part of integrated coastal management.</p> <p>Cross-media effects refer to effects that may traverse environmental domains, e.g. activities that occur on land such as a discharge that have an impact on water quality. In the case of the coastal marine area, activities inside the coastal marine area may have an adverse effect on the wider coastal environment, or vice versa. Therefore, such effects need to be recognised and taken into account when implementing the Plan.</p> <p>No precise details of amendments sought to Policy 2(a) have been provided. However, officers recommend, in response to this and other submissions, amending Policy 2 to clarify the concept of cross-media effects by deleting clause (c) and inserting a new clause (aa) that reads as follows:</p> <p><i><u>(aa) recognising ki uta ki tai by taking into account the interconnected nature of resources and natural processes in the management of adverse effects across air, land, fresh water bodies and the coastal environment; [...]</u></i></p>
35 – Radio New Zealand Ltd	228	<p><b>Support</b></p> <p>Retain Policy 2 of the Plan as notified</p>	<p><b>Accept</b></p> <p>Support noted. Policy 2 is retained subject to amendments sought by other submitters.</p>
40 – Te Rūnanga o Ngāti Mutunga	229	<p><b>Support</b></p> <p>Submitter seeks amendment to Policy 2(a) of the Plan to read:  <i>Provide for the integrated management of the coastal environment by: [...]</i>  <i>(a) implementing policies under section 5.1 of the Plan in managing the effects of activities (positive and <del>negative</del> <b>adverse</b>) undertaken in the coastal marine area on significant values and characteristics of the wider coastal environment [...]</i></p>	<p><b>Accept</b></p> <p>Officers agree with the relief sought and agree that the use of “adverse” provide a clearer meaning of Policy 2 and makes it consistent with other wording within the Proposed Plan and the RMA.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
43 – Royal Forest and Bird Protection Society	230	<p><b>Amend</b></p> <p>Submitter suggests that the current wording of Policy 2 of the Plan does not give effect to Policy 4 [Integration] and Policy 5 [Land or waters managed of held under other acts] of the <i>New Zealand Coastal Policy Statement</i> and is not consistent with the purpose of the RMA set out in Section 5.</p>	<p><b>Decline</b></p> <p>No precise details of amendments sought to Policy 2 have been provided but officers believe that Plan provisions, when read as a whole, give effect to the relief sought by the submitter and no further change is necessary.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Officers note that there is no <i>New Zealand Coastal Policy Statement</i> requirement for a single agency, and/or a single planning document, to give effect to all its policies. The Proposed Coastal Plan is one of a number of planning instruments necessary to give effect to the <i>New Zealand Coastal Policy Statement</i>. Other agencies and other planning instruments also have a role to play.</p> <p>Officers further note the introductory sentence to Section 5 on page 19 that “...<b>when assessing an activity, regard will be had to all relevant general and activity-based policies are to be considered and no individual policy viewed in isolation.</b>” Officers believe the ‘suite’ of General Policies plus relevant Activity Policies triggered by use and development activities in the coastal marine area address, amongst other things, the matters set out in Policy 4 [Integration] and Policy 5 [Land or waters managed or held under other acts] of the <i>New Zealand Coastal Policy Statement</i> and is consistent with the purpose of the RMA as set out in Section 5 of the Act.</p>
43 – Royal Forest and Bird Protection Society	231	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 2(a) of the Plan to read:  <i>Provide for the integrated management of the coastal environment by:</i>                      (a) implementing policies under section 5.1 of the Plan in managing the <u>location, form and limits effects</u> of activities <del>(positive and negative)</del> undertaken in the coastal marine area <u>to protect and preserve the indigenous biodiversity, natural character, natural feature and landscape</u> <del>on significant</del> values and characteristics of the wider coastal environment; [...]</p>	<p><b>Accept in part</b></p> <p>Aspects of the relief sought to Policy 2(a) seem to be district plan oriented and unnecessary confines the scope of the Policy to the protection and preservation of indigenous biodiversity, natural character, and natural feature and landscapes. Other matters addressed within Section 5.1 [General Policies] of the Plan are excluded. The relief sought further confines the scope of the Policy to focus only on the “protection” of specific natural and physical resources to the exclusion of recognising and providing for use and development.</p>
Further submissions – Radio New Zealand (35)		Oppose	<p>Officers note that the matters/values that the submitter wishes to protect are adequately provided for in other Policies within the Plan, for example Policy 9 [Natural character and natural features and landscapes] and Policy 14 [Indigenous Biodiversity]. Officers encourage users to read the Policies section as a whole, as intended, and recognise that all policies apply.</p> <p>Notwithstanding the above, officers recommend making some of the changes to Policy 2(g) that give partial relief to the changes sought by the submitter. It is recommended that Policy 2(g) be amended to read:</p> <p><i>Provide for the integrated management of the coastal environment by:</i>                      (a) implementing Plan provisions in managing the effects of activities <i>(positive and adverse) by having regard to the location, form and limits of the activity</i> undertaken in the coastal marine area on significant values and characteristics of the wider coastal environment; [...]</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	232	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 2(b) of the Plan to read:  <i>Provide for the integrated management of the coastal environment by: [...]</i>                      (b) implementing policies, methods and rules in other regional plans in relation to <b>managing</b> adverse effects associated with diffuse and direct discharges to freshwater and air, and soil disturbance; [...]</p>	<p><b>Decline</b></p> <p>The submitter considers the term “manage” to be uncertain and points out that “avoidance” is required by the <i>New Zealand Coastal Policy Statement</i>. Officers are unclear as to what the concerns are. It is the officer’s view that managing adverse effects is an accurate description of what the Plan is attempting to do. It is not the officer’s view that the <i>New Zealand Coastal Policy Statement</i> adopts a strictly “avoidance” regime. As previously noted in other submission points. The Policies must be read together. In addition to the General Policies, Activity-specific Policies 22 to 30, provide the guidance and direction necessary that, when read together, give effect to the <i>New Zealand Coastal Policy Statement</i>.</p>
43 – Royal Forest and Bird Protection Society	233	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 2(e) of the Plan to read:  <i>Provide for the integrated management of the coastal environment by:</i>                      (e) considering the effects of activities in the coastal marine area on outstanding natural features and landscapes or areas of outstanding natural character <b>or significant indigenous biodiversity</b> identified in other regional or district plans; [...]</p>	<p><b>Accept</b></p> <p>Officers recommend granting the relief sought noting that activities in the coastal marine area can quite clearly have adverse effects on significant indigenous biodiversity as identified in other regional or district plans. It is recommended that Policy 2(e) be amended to read:                      (e) considering the effects of activities in the coastal marine area on outstanding natural features and landscapes or areas of outstanding natural character <b>or significant indigenous biodiversity</b> identified in other regional or district plans <b>for the Taranaki region</b>; [...]</p>
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
43 – Royal Forest and Bird Protection Society	234	<p><b>Amend</b></p> <p>Submitter expresses concern regarding Policy 2(c) of the Plan, which contains terminology that does not have a common meaning.</p>	<p><b>Accept</b></p> <p>The submitter has not expanded upon this comment and officers assume they refer to “cross media effects”. In response to this and other submissions, officers recommend amending Policy 2 by deleting Clause (c) and inserting a new Clause (aa) that adopts a more plain English reading but also includes the principle of ki uta ki tai or interconnectedness.                      The new Clause (aa) would reads as follows:  <i>(aa) recognising ki uta ki tai by taking into account the interconnected nature of resources and natural processes in the management of adverse effects across air, land, fresh water bodies and the coastal environment; [...]</i></p>
	235	<b>Amend</b>	<b>No relief necessary</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		Submitter seeks amendment Policy 2(d) or Schedule 1 of the Plan to specify which areas have legal protection.	Officers note that all policies must be read together. Policy 1(a)(iii) already identifies marine areas with legal protection, these being Parininihi Marine Reserve, Ngā Motu/Sugar Loaf Islands Marine Protected Area and Tapuae Marine Reserve. Furthermore, the associated planning maps also specify which marine areas have legal protection. Further Plan changes as requested by the submitter to Policy 2(d) or Schedule 1 are not necessary or appropriate.
43 – Royal Forest and Bird Protection Society	236	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 2(g) of the Plan to provide for collaboration consistent with Policies 4 and 5 of the <i>New Zealand Coastal Policy Statement</i>.</p>	<p><b>Accept in part</b></p> <p>The submitter suggests that Policy 2(g) is uncertain as it appears to limit collaboration to Policy 15 matters [historic heritage] of the Plan.</p> <p>The submitter has identified a drafting error in the Policy whereby reference to working collaboratively with tangata whenua in accordance with Policy 15 [Historic heritage] is meant to be a reference to Policy 16 [Relationship with tangata whenua].</p>
45 – Powerco	237	<p><b>Amend</b></p> <p>Submitter supports Policy 2 of the Plan subject to the amendment of Policy 2(f) to read:</p> <p><i>Provide for the integrated management of the coastal environment by: [...]</i></p> <p><i>(f) managing natural and physical <del>coastal</del> resources in a manner that has regard to the social, economic and cultural objectives and well-being of the community and the functional <u>need</u> and/or location constraints of nationally or regionally important infrastructure; and [...]</i></p>	<p><b>Accept</b></p> <p>Officers agree with the submitter that reference to “<i>functional need</i>” provides more clarity to Plan users noting that this has been defined in the Plan. Further to this, the Plan also defines “operational needs” which encompasses locational constraints which is recommended to be included following functional needs in Policy 2(f). Policy 2(f) would read as follows:</p> <p><i>(f) managing natural and physical resources in a manner that <u>recognises and provides for</u> the social, economic and cultural objectives and well-being of the community and the functional <u>needs and/or operational needs</u>, of regionally important infrastructure; <u>and industry</u> [...]</i></p>

Production Association of NZ			
43 – Royal Forest and Bird Protection Society	250	<p><b>Amend</b></p> <p>The submitter references Policy 3 [Precautionary approach] of the <i>New Zealand Coastal Policy Statement</i> and notes that “adaptive management” is not included within the parameters of the precautionary approach. The submitter suggests that because it is not referenced within the <i>New Zealand Coastal Policy Statement</i> it should not be included within Policy 3 as it is not inherently precautionary but is, instead, a trial and error approach.</p> <p>Submitter seeks amendment to Policy 3 of the Plan to remove reference to “adaptive management”.</p>	<p><b>Accept</b></p> <p>Officers disagree with the submitter on the contention that it is a “trial and error approach”. Adaptive management requires that decisions, following the granting of a resource consent, be periodically reviewed and adjusted depending on monitoring and established trigger points. Thus, adaptive management may be useful for the management of some, but not all activities, in particular activities that are protracted and involve a number of decisions to be made throughout the life of the activity.</p> <p>Case law has determined that adaptive management can correctly be applied in relation to the requirements of the <i>New Zealand Coastal Policy Statement</i> even though it is not provided for within the Policy Statement itself.</p>
Further submissions – Trans-Tasman Resources Ltd (6), Meridian Energy Ltd (20), Petroleum Exploration and Production Association of New Zealand (37)		Oppose	<p>Notwithstanding the above, officers agree with the submitter that it is not necessary to explicitly reference “adaptive management” within Policy 3.</p> <p>Officers recommend deleting reference to “adaptive management”. This would not preclude a resource consent application from considering adaptive management under the appropriate circumstances.</p>
Further submissions – Taranaki Energy Watch (51)		Support	
43 – Royal Forest and Bird Protection Society	251	<p><b>Amend</b></p> <p>The submitter requests that Policy 3 include reference to the effects of climate change in order to provide for Policy 3(2) of the <i>New Zealand Coastal Policy Statement</i> which requires a precautionary approach to be adopted to use and management of coastal resources potentially vulnerable to the effects of climate change.</p> <p>Submitter seeks rewording of Policy 3 of the Plan to include reference to the effects of climate change and give effect to Policy 3 of the <i>New Zealand Coastal Policy Statement</i>.</p>	<p><b>No relief necessary</b></p> <p>Officers agree the precautionary approach is necessary for resources that may be vulnerable to the effects of climate change. However, the mention of climate change within Policy 3 is not considered necessary as it has been provided for elsewhere in the Plan.</p> <p>Officers note that all Policies must be read together and there are additional Policies that incorporate a precautionary approach to climate change. In particular, Policies 20 [Coastal hazards] and 46 [Reclamation] require structures, reclamations and works to be assessed over at least 100 year time frame to take into account the expected effects of climate change and sea level rise. Officers recommend that Policy 3 be kept high level to promote its broad application to all coastal related issues rather than just climate change.</p>

46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd		Retain Policy 3 of the Plan as notified.	Policy 3 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
50 – Te Kāhui o Taranaki Trust	253	<b>Amend</b> Submitter seeks amendment to Policy 3 of the Plan to read: <i>Adopt <del>a precautionary approach, which may include using</del> an adaptive management approach, where the effects of any activity on the coastal environment are uncertain, unknown, or little understood, but potentially significantly adverse.</i>	<b>Decline</b> Officers note that Policy 3 and the adoption of the precautionary approach contributes to giving effect to Policy 3 [Precautionary approach] of the <i>New Zealand Coastal Policy Statement</i> . The <i>New Zealand Coastal Policy Statement</i> requires coastal plans to adopt a precautionary approach toward proposed activities where the effects to the coastal environment are uncertain, unknown, or little understood. Given the coastal environment is a dynamic environment, the effects of activities may often be uncertain, unknown or little understood. Accordingly, it is considered appropriate that Policy 3 adopt a cautious approach when uncertain about the effects of use and development activities in the coastal management area.
Further submissions – Taranaki Energy Watch (51)		Oppose	
55 –Kiwis Against Seabed Mining	254	<b>Other</b> Submitter states that the precautionary approach should be applied to objectives, policies and rules in the plan that relate to oil and gas, fishing and seabed mining activities.	<b>No relief necessary</b> Officers note that all General Policies and relevant Activity-specific Policies need to be read together. Policy 3 is a General Policy that applies when considering all use and development activities in the coastal marine area, including oil and gas, fishing and sea bed mining activities regulated under this Plan.

<b>Policy 4 – Extent and characteristics of the coastal environment</b>			
2 – Federated Farmers	257	<b>Amend</b>	<b>Accept</b>
		Submitter generally supports Policy 4 of the Plan but would like the Plan to be amended to map the coastal environment.	Support noted.  Council has worked closely with New Plymouth and South Taranaki district councils in identifying and mapping coastal areas of outstanding natural character and outstanding natural features and landscapes. Both district councils have commenced or about to commence their respective district plan reviews, which includes a coastal protection zone.  For the purposes of integrated management and to promote alignment between the respective regional and district plans it is recommended that the Plan (and associated GIS layers and planning maps) be amended to include an indicative extent of the coastal environment that is aligned with the district plans.  Of note Policy 4 is still retained and aligns with Policy 1 of the <i>New Zealand Coastal Policy Statement</i> . Through the consenting process there will be opportunities for Council to further consider the indicative line and to confirm the extent and characteristics of the coastal environment on a case-by-case basis.
19 – South Taranaki District Council	258	<b>Support</b>	<b>Accept</b>
		Retain Policy 4 of the Plan as notified.

41 – Te Korowai o Ngāruahine Trust	280	<p><b>Amend</b></p> <p>Submitter supports Policy 5 of the Plan with the recognition that has been given to the extent to which an activity may be commensurate to Māori values, culture, practices and traditions but seek amendment to Policy 5 to reinstate references (from the Draft Coastal Plan) to the protection of indigenous biodiversity, historic heritage and amenity values of the coastal environment.</p>	<p><b>No relief necessary</b></p> <p>Officers note the concerns of the submitter with regards to managing activities to avoid, remedy or mitigate adverse effects on the values and attributes of coastal areas of outstanding value, significant indigenous biodiversity, historic heritage and amenity values, but believe that the relief is not necessary on the basis that these concerns are addressed separately within Policy 8 [Areas of outstanding value], Policy 14 [Indigenous biodiversity], Policy 15 [Historic heritage] and Policy 18 [Amenity values].</p> <p>It is important to note that the Policies must be read as a whole and it is not necessary or useful to repeat or paraphrase the provisions of other policies in this Policy.</p>
43 – Royal Forest and Bird Protection Society	281	<p><b>Amend</b></p> <p>The submitter expresses concern regarding the application of Policy 5 and seeks an amendment to the Plan to better provide for Policies 11, 13, 15, 17 and 20 of the <i>New Zealand Coastal Policy Statement</i> and achieve Plan objectives by identifying:</p> <ul style="list-style-type: none"> <li>• appropriate places or specify appropriate forms or limits</li> <li>• any areas where particular activities are inappropriate</li> </ul>	<p><b>Decline</b></p> <p>The submitter is seeking a level of specificity not considered appropriate or necessary in the Plan.</p> <p>As previously discussed all Policies must be read as a whole and it is not necessary or useful to repeat or paraphrase the provisions of the <i>New Zealand Coastal Policy Statement</i>. Nor is it considered necessary or appropriate to identify/specify/map appropriate places, forms or limits and conversely identify/specify/map where</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<ul style="list-style-type: none"> <li>appropriate places for aquaculture.</li> </ul>	<p>particular activities are inappropriate. Such matters would generally require a more nuanced consideration having regard to the various policies through the consenting process. Officers further note that there is no aquaculture in Taranaki and nor is there likely to be given the wild and rugged nature of the Taranaki coastal marine area.</p>
43 – Royal Forest and Bird Protection Society	282	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 5 of the Plan to</p> <ul style="list-style-type: none"> <li>insert “location” instead of “place”</li> <li>amend Policy 5(b) to remove reference to “aquaculture” from Clause (b) due to the uncertainty of which locations this activity would be allowed and to recognise the potential for renewable energy consistent with Policy 6(2)(a) of the <i>New Zealand Coastal Policy Statement</i> and if necessary to provide for Policy 8(c) of the <i>New Zealand Coastal Policy Statement</i>.</li> <li>remove reference in Clause (j)(ii) to Policy 1 given it does not set out the values and characteristics which require protection under the <i>New Zealand Coastal Policy Statement</i> and is therefore maybe misleading and ambiguous.</li> </ul> <p>The changes sought to Policy 5 are as follows:</p> <p><i>Determine whether use and development of the coastal environment is in an appropriate <del>place</del> <u>location</u> and form and within appropriate limits by having regard to:</i></p> <p><i>(a) the functional need for [...]</i></p> <p><i>(b) the benefits to be derived from the activity at a local, regional and national level, including the potential contribution of <del>aquaculture and</del> marine based energy resources</i></p> <p><i>[...]</i></p> <p><i>(j) the degree and significance of actual or potential adverse effects of the activity on the environment, including consideration of:</i></p> <p><i>(i) cumulative effects of otherwise minor activities;</i></p> <p><i>(ii) the sensitivity of the environment <del>with particular reference to Policy 1;</del> [...]</i></p>	<p><b>Accept in part</b></p> <p>Officers agree that the amendment sought to “<i>appropriate locations</i>” provides consistency with wording of other provisions within the Plan. Officers further agree to amend Clause (j)(ii) to delete reference to Policy 1. Policy 1 only refers to the coastal management areas while other policies in the Plan (recognising that all General Policies must be read together) are at a finer spatial scale and are likely to be more applicable when determining the sensitivity of the environment.</p> <p>In relation to deleting reference to aquaculture, officers do not recommend granting the relief sought. Policy 8 [Aquaculture] of the <i>New Zealand Coastal Policy Statement</i> requires those exercising functions and powers under the RMA to recognise the potential contribution of aquaculture by, amongst other things, including provisions for such activities in Coastal Plan. However, unlike other regions, the nature of the Taranaki coast is such that it is not suited to traditional aquaculture activities due to the very rough seas and high turbidity offshore and nil demand for space for aquaculture. Taranaki has no aquaculture and so far has not had to identify Aquaculture Management Areas. Notwithstanding that, some explicit but limited policy recognition in the Plan for aquaculture activities is considered appropriate should changes in technology or in potential species for marine farming occur over the life of the Plan.</p> <p>In relation to amending the Policy to recognise the importance of renewable energy, officers believe this has already been provided for within the current drafting of Policy 5(b) of the Plan, which reads:</p> <p><i>(b) the benefits would be derived from the activity at a local, regional and national level, including the potential contribution of aquaculture and marine based <u>renewable</u> energy resources [...]</i></p> <p>However, officers note that other requested amendments have also been made to broaden the scope of Clause (b) to read:</p> <p><i>(b) the benefits to be derived from <u>other activities</u> at a local, regional and national level, including <u>the existing and potential contribution of petroleum and mineral resources, and</u> the potential contribution of aquaculture, and renewable energy resources; [...]</i></p>

46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	284	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 5(a), (c) and (e) of the Plan to read:</p> <p><i>Determine whether use and development of the coastal environment is in an appropriate place and form and within appropriate limits by having regard to:</i></p> <p>(a) <i>the functional need for the activity to be located in the coastal marine area. <del>Conversely, a</del>Activities that do not have a functional need to be located in the coastal marine area generally should not be located there (unless the non-marine related activity complements the intended use and function of the area);</i></p> <p>[...]</p> <p>(c) <i>the appropriateness of the proposed design, <del>and</del> methodology, <del>and</del> whether it is the best practicable option, location or route of the activity in the context of the receiving environment and any possible alternatives;</i></p> <p>[...]</p> <p>(e) <i>The degree to which the activity will be <del>threatened by, or contribute to, subject to unacceptable risks or exacerbate adverse effects arising from</del> coastal hazards <del>risk</del>, or pose a threat to public health and safety with particular reference to Policy 20; [...]</i></p>	<p><b>Accept in part</b></p> <p>Officers recommend amending Policy 5(a) as sought by the submitter but recommend alternative reliefs to that proposed with additional changes made to clauses (c) and (e) in response to other submitters and to reflect that often little can be done to control the coastal hazard risk. The amended clauses (c) and (e) would read as follows:</p> <p><i>Determine whether use and development of the coastal environment is in an appropriate place location and form and within appropriate limits by having regard to:</i></p> <p>[...]</p> <p>(c) <i>the appropriateness of the proposed design, methodology, location or route of the activity in the context of the receiving environment and any possible alternatives, <u>including best practicable options for preventing or minimising adverse effects on the environment;</u> [...]</i></p> <p>(e) <i>the degree to which the activity will be <u>subject to unacceptable risks or exacerbated</u> coastal hazards, or public health and safety with particular reference to Policy 20; [...]</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
47 – Fonterra	285	<p><b>Amend</b></p> <p>Submitter believes that it is appropriate to provide for structures in the coastal marine area that have an operational requirement to be located in the coastal environment and not limit Policy 5(a) to those activities that have a functional need only.</p> <p>Submitter seeks amendment to Policy 5(a) of the Plan to read:</p> <p><i>Determine whether use and development of the coastal environment is in an appropriate place and form and within appropriate limits by having regard to:</i></p> <p><i>(a) the functional need <b>or operational requirement</b> of the activity to be located in the coastal marine area. Conversely, activities that do not have a functional need <b>or operational requirement</b> to be located in the coastal marine area generally should not be located there (unless the non-marine related activity complements the intended use and function of the area); [...]</i></p>	<p><b>Accept</b></p> <p>Officers agree with the relief sought by the submitter. The amendment of Policy 5(a) to provide for activities with an “operational need” to be in the coastal marine area provides for structures that might not have “functional need” to be located within the coastal marine area but nevertheless their operational needs or constraints justify their presence there.</p>
Further submissions – Transpower NZ Ltd (26)		Support in part	
47 – Fonterra	286	<p><b>Amend</b></p> <p>Submitter requests specific recognition of the contribution that industries, such as dairy processing, make to the economic and social well-being of the region</p> <p>Submitter seeks amendment to Policy 5(b) of the Plan to read:</p> <p><i>Determine whether use and development of the coastal environment is in an appropriate place and form and within appropriate limits by having regard to:</i></p> <p><i>(b) the benefits to be derived from the activity at a local, regional and national level, including the potential contribution of <b>dairy manufacturing</b>, aquaculture and marine based renewable resources. [...]</i></p>	<p><b>Decline</b></p> <p>Officers do not believe that specifically recognising individual industries within Policy 5 is necessary. Policy 5 addresses all activities not identified as regionally important infrastructure.</p> <p>Officers note that to avoid policies becoming verbose, Council has endeavoured to bundle activities where practicable and avoid ‘cherry picking’ specific industries. Where policies do identify specific industries, it has done so as part of explicitly recognising and giving effect to national policy directions (such as the <i>New Zealand Coastal Policy Statement</i> or the <i>National Policy Statement for Renewable Electricity Generation</i>) or because a certain industry is relatively specific to this region (e.g. oil and gas). The requested amendment would introduce an unnecessary level of detail and other regional industries could quite rightly argue a similar case for the inclusion of their industry within the Policy also. Officers therefore recommend declining the relief sought.</p>
48 – Taranaki District Health Board	287	<p><b>Support</b></p> <p>Retain Policy 5 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 5 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
50 – Te Kāhui o Taranaki Trust	288	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment to Policy 5(j)(iii) of the Plan to read:</p> <p><i>Determine whether use and development of the coastal environment is in an appropriate place and form and within appropriate limits by having regard to:</i></p> <p>[...]</p> <p><i>(j)(iii) the efficacy of measures to avoid, remedy or mitigate such effects, or provide environmental compensation where effects cannot be <u>avoided</u>, remedied or mitigated [...]</i></p>	<p>Officers note that effects can always be avoided (e.g. cease operations) but that there is an expectation that in circumstances that adverse effects cannot be avoided then, at the very least, effects should be remedied or mitigated.</p> <p>Policy 5(j)(iii) deliberately targets those circumstances where residual effects remain despite measures to avoid, remedy or mitigate various adverse effects. Submitter	Submission point	Submitter's requests	Officers' recommendation and response
59 – KiwiRail	292	<b>Support</b>	<b>Accept</b>
		Retain Policy 5 of the Plan as notified.	Support noted. Policy 5 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
60 – Te Kaahui o Rauru	293	<b>Other</b>	<b>No relief necessary</b>
		In relation to Policy 5 of the Plan, submitter seeks clarification as to why the aspirations of iwi to “develop, use or protect” was removed from equivalent policy in the Draft Coastal Plan.	In relation to the submitter’s query, following consultation on the Draft Plan, amendments were made to the Plan to highlight to the reader that all General Policies need to be considered collectively (and not individually) in the application of regional rules. It was therefore unnecessary to constantly cross reference individual General Policies to other policies and indeed there are risks inherent in ‘cherry picking’ such policies (while being silent on others).
<b>NEW Policy 5A – Aquaculture</b>			
43 – Royal Forest and Bird Protection Society	294	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to the Plan by: <ul style="list-style-type: none"> <li>• including a new policy that identifies appropriate places for aquaculture; AND</li> <li>• until ‘appropriate’ places are identified, ensuring Plan provisions:                             <ul style="list-style-type: none"> <li>– exclude aquaculture activities from Outstanding Value, Estuaries Unmodified, Estuaries Modified coastal management areas</li> <li>– state that consents will not be granted for aquaculture in any area with the values and characteristics set out in Policy 14 of the Plan (as revised to address submitter’s relief)</li> <li>– aquaculture proposals must be consistent with General Policies 1 to 21 of the Plan.</li> </ul> </li> </ul>	Officers do not consider it appropriate or necessary to identify appropriate place for aquaculture as the Taranaki coastal marine area is not currently conducive to aquaculture activities. The nature of the Taranaki coast is such that it is not suited to traditional aquaculture activities due to the very rough seas and high turbidity offshore and nil demand for space for aquaculture. Taranaki has no aquaculture and so far has not had to identify Aquaculture Management Areas.  As a result, officers suggest that the other reliefs requested by the submitter are not necessary. However, officers note that in all instances of resource consent applications all the General Policies (1 to 21) and the relevant Activity-specific policies apply and will be considered.
Further submissions – Department of Conservation (29)		Support	
<b>Policy 6 – Activities important to the well-being of people and communities</b>			
2 – Federated Farmers	295	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Policy 6 of the Plan to read:	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>Recognise and provide for new and existing infrastructure <b>and farming activities</b> of regional importance or of significance to the social, economic and cultural well-being of people and communities in Taranaki, subject to appropriate management of adverse environmental effects.</i>	Council recognises that farming is regionally significant but declines the relief as Policy 6 addresses regionally important infrastructure assets, particularly those required to be provided for through national environmental standards and the resulting obligations that regional and district councils recognise and provide for these assets. This approach is consistent with other second generation regional plans around New Zealand.
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Oppose	Officers recommend minor changes to the policy to clarify that policy direction and guidance is on regionally important infrastructure (for which there is a definition). Of note farming activities are already adequately provided for under Policy 5, which determines the ‘appropriateness’ of all use and development activities in the coastal environment by having regard to the benefits to be derived from activities at a local, regional and national level.
19 – South Taranaki District Council	296	<b>Support</b>	<b>Accept</b>
		Retain Policy 6 of the Plan as notified.	Support noted. Policy 6 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
20 – Meridian Energy Limited	297	<b>Support</b>	<b>Accept</b>
		Retain Policy 6 of the Plan as notified.	Support noted. Policy 6 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
23 – New Plymouth District Council	298	<b>Support</b>	<b>Accept</b>
		Retain Policy 6 of the Plan as notified.	Support noted. Policy 6 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
26 – Transpower NZ Ltd	299	<b>Amend</b>	<b>Accept in part</b>
		<p>The submitter supports the intent of Policy 5 but is concerned that infrastructure that is “nationally significant” may not be interpreted to also be “<i>regionally significant</i>”. The submitter further wishes to include explicit recognition of the benefits of a reliable and secure supply of electricity. The submitter believes that such amendments would give better effect to Policy 1 of the <i>National Policy Statement on Electrical Transmission</i>.</p> <p>Submitter seeks amendment to Policy 6 of the Plan to read:</p> <p><i>Recognise and provide for new and existing infrastructure of <b>national or regional importance</b> or of significance to the social, economic and cultural well-being of</i></p>	<p>Of note the Plans definition of “<i>regionally important infrastructure</i>” includes infrastructure of regional and national importance and includes the national electricity grid. Officers do not recommend granting the relief in the manner sought by the submitter and note that inconsequential amendments are recommended to the Plan to remove reference to “<i>nationally important infrastructure</i>” where it is used to promote consistency in the use of terminology throughout the Plan.</p> <p>Notwithstanding the above, officers do recommend amending Policies 5 and 6 in response to issues raised by the submitter. The amendments include the addition of a new sub clause for Policy 5 which reads:</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>people and communities in Taranaki, <u>including recognition of the benefits of a reliable, secure and efficient supply of electricity</u>, subject to appropriate management of adverse environmental effects:[...]</p> <p>OR</p> <p>Amend the Plan to include a standalone policy which recognises and provides for the benefits of a reliable, secure and efficient supply of electricity.</p>	<p>Determine whether use and development of the coastal environment is in an appropriate location and form and within appropriate limits by having regard to: [...]</p> <p><u>(aa) whether the activity relates to the use, operation, maintenance and alteration of regionally important infrastructure</u> [...]</p> <p>And the amendment of the heading and content of Policy 6 to include reference to the safe and efficient operation of regionally important infrastructure to read (officers note additional amendments as sought by other submitters are also included):</p> <p><u>Policy 6: Benefits of regionally important infrastructure</u></p> <p>Recognise <u>the benefits of</u> new and existing regionally important <u>infrastructure</u> to the social, economic and cultural well-being of people and communities in Taranaki, <u>and provide for the safe and efficient operation of regionally important infrastructure</u> subject to appropriate <u>avoidance, remediation or mitigation</u> of adverse environmental effects.</p> <p>A new Policy 6A [Management of adverse effects of the National Grid] is also proposed.</p>

		<p>Submitter seeks amendment to Policy 6 of the Plan to read:</p> <p><i>Recognise and provide for the safe and efficient operation of new and existing infrastructure of regional importance or of significance to the social, economic and cultural well-being of people and communities in Taranaki, subject to appropriate management of adverse environmental effects.</i></p>	Accept amendment to Policy 6 to provide for the safe and efficient operation of infrastructure.
	307	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd		Submitter seeks amendment to Policy 6 of the Plan to read: <i>Recognise and provide for <b>the safe and efficient operation of</b> new and existing infrastructure of regional importance or of significance to the social, economic and cultural well-being of people and communities in Taranaki, subject to appropriate management of adverse environmental effects.</i>	Accept amendment to Policy 6 to provide for the safe and efficient operation of regionally important infrastructure.
47 – Fonterra	308	<b>Amend</b>  The submitter seeks the inclusion of “ <i>industry</i> ” alongside infrastructure within Policy 6 as industry also contributes to the social and economic well-being of local and regional communities and suggest that the amendment will provide for the expansion or substantial upgrade of necessary infrastructure and industry while still being subject to appropriate management of adverse environmental effects.  Submitter seeks amendment to Policy 6 of the Plan to read: <i>Recognise and provide for new and existing infrastructure <b>and industry</b> of regional importance or of significance to the social, economic and cultural well-being of people and communities in Taranaki, subject to appropriate management of adverse environmental effects.</i>	<b>Decline</b>  Council recognises that industry, either individually or cumulatively, may indeed be regionally significant but declines the relief as Policy 6 addresses infrastructure assets, particularly those required to be provided for through national environmental standards and the resulting obligations that regional and district councils recognise and provide for these assets. This approach is consistent with other second generation regional plans.  Officers recommend minor changes to Policy 6 to clarify that the policy direction and guidance relates to regionally important infrastructure (for which there is a definition). Of note industrial activities are already provided for under Policy 5, which determines the ‘appropriateness’ of use and development in the coastal environment by having regard to the benefits to be derived from activities at a local, regional and national level.

26 – Transpower NZ Ltd	325	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 8 of the Plan to delete Clause (b) or replace it with a new clause specifically addressing the National Grid. The submitter wishes that the Plan clearly recognise that the planning and development of transmission infrastructure in the coastal parts of the rural environment should 'seek to avoid' rather than 'avoid' adverse effects on the values and characteristics of outstanding natural landscapes and areas of high natural character. The submitter believes that current wording would be unreasonably restrictive in respect of the planning and development of transmission infrastructure. Further, the submitter explains that Policy 8 of the</p>	<p><b>Accept</b></p> <p>Officers recommend amending the Plan to include a new National Grid specific policy that addresses the concerns raised by the submitter and gives effect to the <i>National Policy Statement for Electricity Transmission (NPS-ET)</i>. In particular, officers recognise that the NPS-ET directs the National Grid to "seek to avoid: adverse effects which is reflected in the policy. The new Policy would read as follows:</p> <p><b><u>Policy 6A: Management of adverse effects of the National Grid</u></b></p> <p><b><u>Where the National Grid has a functional need or operational need to locate in the coastal environment, manage the adverse effects arising from their activities by:</u></b></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>National Policy Statement of Electricity Transmission requires the National Grid to 'seek to avoid'.</p> <p>Proposed amendments read as follows:</p> <p><i>Protect the visual quality and the physical, ecological and cultural integrity of coastal areas of outstanding value identified in Schedule 1 from inappropriate use and development by:</i></p> <p>[...]</p> <p><i>(b) maintaining significant seascapes and visual corridors associated with outstanding natural features and landscapes, including views from within the landscapes or features, and views of the landscapes and features.</i></p> <p>OR</p> <p><i>(b) specific to the National Grid, seeking to avoid adverse effects of activities associated with the National Grid on the values and characteristics identified in Schedule 2 that contribute to areas:</i></p> <p><i>(i) having outstanding natural character; and/or</i></p> <p><i>(ii) being outstanding natural features and landscape; within or adjoining coastal management area – Outstanding Value [...]</i></p>	<p><i>(a) recognising there may be some areas in the coastal environment where avoidance of adverse effects is required to protect the identified special values of those areas;</i></p> <p><i>(b) seeking to avoid adverse effects on:</i></p> <p><i>(i) areas of outstanding value;</i></p> <p><i>(ii) significant indigenous biodiversity;</i></p> <p><i>(iii) historic heritage as identified in schedules 5A and 5B; and</i></p> <p><i>(iv) nationally or regionally significant surf breaks as identified in Schedule 7A and B;</i></p> <p><i>(c) where it is not practicable to avoid adverse effects on the values of the areas listed in (b) above because of the functional needs or operational needs of the National Grid, remedy or mitigate adverse effects on those values; and</i></p> <p><i>(d) avoiding, remedying or mitigating other adverse effects.</i></p>
29 – Department of Conservation	326	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 8 to read:</p> <p><i>Protect the visual quality and the physical, ecological and cultural integrity of coastal areas of outstanding value identified in Schedule 42 from inappropriate use and development by [...]</i></p>	<p><b>Accept</b></p> <p>Schedule 1 identifies the five coastal management areas, including those of Outstanding Value, and is specific to the coastal marine area. Schedule 2 provides additional information specific to coastal areas of Outstanding Value and which applies to both the coastal marine area and landward components of the coastal environment. Officers therefore recommend that the suggested amendment be accepted to ensure the broader consideration of values, characteristics and attributes that make these areas outstanding, irrespective of being on the seaward or landward parts of the coastal environment.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Support	
43 – Royal Forest and Bird Protection Society	327	<p><b>Amend</b></p> <p>The submitter suggests that the approach under Policy 8 limits the identification of outstanding natural features and landscapes to those areas set out in schedule 1 and 2. This creates uncertainty as to whether the plan would recognise or enable the identification of other outstanding areas landward of the CMA.</p>	<p><b>Decline</b></p> <p>Officers do not believe it necessary or appropriate to delete Policy 8 of the Plan. The issue raised by the submitter refers to the inclusions and identification criteria of the Scheduled areas that relate to Policy 8. Of note, the Council has worked closely with the New Plymouth and South Taranaki district councils in identifying, mapping and describing natural character, features and landscapes along the Taranaki</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>The submitter further suggests that the lack of criteria setting out the values and characteristics upon which the outstanding natural features and landscapes were determined means it is uncertain whether the scheduled areas achieve Policy 13 [Preservation of natural character] and 15 [Natural Features and natural landscapes] of the <i>New Zealand Coastal Policy Statement</i>.</p> <p>Submitter seeks amendment to the Plan by deleting Policy 8.</p>	<p>coastline. Much of this work was addressed in a separate report <i>Regional Landscape Study of the Taranaki Coastal Environment</i>, which was prepared and consulted on as part of the Coastal Plan review. This work and consultation on the report informed the section 32 analysis relating to the Plan. Given that coastal areas of outstanding value should, by their definition of being outstanding or exceptional, be clearly identifiable (and that Schedule 2 of the Plan already identifies such areas), Officers do not believe it is necessary to revisit this work.</p>
<p>43 – Royal Forest and Bird Protection Society</p>	<p>328</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 8 of the Plan to read:</p> <p><i>Protect the visual quality and the physical, ecological and cultural integrity of coastal areas of outstanding value, <b>including those areas</b> identified in Schedule <del>12</del> from inappropriate use and development by:</i></p> <p><i>(a) avoiding adverse effects of activities, <b>including those</b> areas on the values and characteristics identified in Schedule 2, that contribute to areas: [...]</i></p>	<p><b>Accept in part</b></p> <p>Schedule 1 identifies the five coastal management areas, including those of Outstanding Value, and is specific to the coastal marine area. Schedule 2 provides additional information specific to coastal areas of Outstanding Value and which applies to both the coastal marine area and landward components of the coastal environment. Officers therefore recommend that the suggested amendment to refer to Schedule 2 (rather than Schedule 1) be accepted to promote the broader consideration of values, characteristics and attributes that make these areas outstanding, irrespective of being on the seaward or landward parts of the coastal environment.</p> <p>In relation to the other amendments sought officers consider Schedule 2 to be a complete and comprehensive list of areas of outstanding value. Therefore, reference to “including” is not appropriate in the first instance. However, notwithstanding the above, officers consider that the values identified in Schedule 2 may not be definitive and agree with the submitter that there may be scope for additional values to be included over time.</p> <p>Officers recommend amending the Policy 8 of the Plan to read as follows:</p> <p><i>Policy 8 Areas of outstanding value</i></p> <p>[...]</p> <p><i>(a) avoiding adverse effects of activities on the values and characteristics, <b>including those</b> identified in Schedule 2 [...]</i></p>

60 – Te Kaahui o Rauru	331	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 8 to include “underwater” visual quality as part of seascape.</p>	<p><b>No relief necessary</b></p> <p>Seascapes do not extend to underwater visual quality. However, officers suggest that Policy 8 already addresses underwater visual quality where that attribute contributes to the sensory or associative values identified in Schedule 2 of the Plan for coastal areas of outstanding values, No change is therefore considered necessary.</p>
<b>Policies 8 to 15 – Natural and historic heritage and values</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
41 – Te Korowai o Ngāruahine Trust	332	<b>Amend</b>  Submitter seeks amendment to Policies 8 to 15 of the Plan to delete reference to <del>significant adverse effects</del> and replace with <u>adverse effects</u> .	<b>Decline</b>  Use of the term “ <i>significant adverse effects</i> ” in policies of the Plan is deliberate. The application of the term will depend upon its context but indicates adverse effects on values and uses of the coastal environment that are more than minor.  All activities have some effect and granting the relief would unnecessarily preclude many use and development activities across the coastal environment, regardless of the benefits of the activity and or whether the effects were minor or transitional. Policies 8(a), 12, 14(a) and 15(a) already require a high level of protection through the avoidance of adverse effects on areas of outstanding value, areas where coastal water is to be restored, significant indigenous biodiversity and historic heritage. However, a tiered level of protection has deliberately been adopted whereby other policies provide a lower but still very high level of protection relating to avoiding significant adverse effects on other natural and historic heritage values (refer Policy 9, 13, 14(b) and 15(b)). The Policy references to “ <i>significant adverse effects</i> ” is deliberate and, in the officers’ view, appropriate.

40 – Te Rūnanga o Ngāti Mutunga	340	<p><b>Amend</b></p> <p>Submitter seeks an amendment to Policy 9(a)(vi) of the Plan to read:</p> <p><i>Protect the visual quality and the physical, ecological and cultural integrity of coastal areas of outstanding value identified in Schedule 1 from inappropriate use and development by:</i></p> <p><i>(a) avoiding significant adverse effects, and avoiding, remedying or mitigating other adverse effects on natural character and natural features and landscapes by having regard to the extent to which the activity:</i></p> <p><i>[...]</i></p> <p><i>(vi) Maintain the integrity of historical <u>and cultural</u> heritage.</i></p>	<p><b>Accept</b></p> <p>The submitter would like this Policy to maintain consistent wording with other Policies within the section by including specific reference to “historical and cultural heritage” and to reflect the values attached to the sites of significance in Schedule 5B. Officers agreed to the relief sought noting that natural character, features and landscapes may have broader cultural, spiritual and traditional associations not necessarily captured in the RMA definition of “historic heritage”.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
40 – Te Rūnanga o Ngāti Mutunga	341	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 9 of the Plan by including a new Clause (b) to differential between 'natural character' and 'natural features and landscapes' to read as follows:</p> <p><u>(b) Recognise that natural character is not the same as natural features and landscapes or amenity values and may include matters such as:</u></p> <p><u>(i) Natural elements, processes and patterns;</u></p> <p><u>(ii) Biophysical, ecological, geological and geomorphological aspects;</u></p> <p><u>(iii) Natural landforms such as headlands, peninsulas, cliffs, dunes, wetlands, reefs, freshwater springs and surf breaks;</u></p> <p><u>(iv) The natural movement of water and sediment;</u></p> <p><u>(v) The natural darkness of the night sky;</u></p> <p><u>(vi) Places or areas that are wild or scenic;</u></p> <p><u>(vii). A range of natural character from pristine to modified and</u></p> <p><u>(viii). Experiential attributes, including the sounds and smell of the sea; and their context or setting.</u></p>	<p><b>Decline</b></p> <p>The submitter considers that the requested addition would bring the policy in line with the <i>New Zealand Coastal Policy Statement</i> and add depth to the definition of natural character as protected in the Plan.</p> <p>The requested addition represents an unnecessarily high level of detail, which is essentially supporting information. Such matters were previously addressed in a separate report <i>Regional Landscape Study of the Taranaki Coastal Environment</i>, which was prepared and consulted on as part of the Coastal Plan review.</p> <p>Officers further note that the detail provided by the submitter has already been considered by the Council and has informed the drafting of the Plan and its mapping. Recognition that natural character, natural feature, natural landscapes and amenity values is encompassed within the Plan's definition for those terms, even if those characteristics are not expressly or independently mentioned.</p> <p>Officers believe the proposed relief sought by the submitter is unnecessary and do not recommend amending the Policy as sought by the submitter.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
43 – Royal Forest and Bird Protection Society	342	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by deleting Policy 9.</p>	<p><b>Decline</b></p> <p>The submitter contends that Policy 9 of the Plan is uncertain. The submitter suggests that the inclusion of significant areas of indigenous vegetation and historic heritage in the policy overlaps and creates inconsistency with Policies 14 and 15 of the Plan. The submitter further suggests that the policy does not recognise that natural character is different to natural features and landscapes, nor does it provide for the assessment or identification required under Policies 13 and 15 of the <i>New Zealand Coastal Policy Statement</i>.</p> <p>Officers do not recommend deleting Policy 9. Officers believe that the Plan has given full effect to the <i>New Zealand Coastal Policy Statement</i>, including undertaking a regional landscape study of the Taranaki coastal environment. Notwithstanding the above, officers recommend amendments to Policy 9 to address some of the concerns raised by the submitter (refer submission point 343 below).</p>
Further submissions – Port Taranaki Ltd (32)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	343	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 9 of the Plan by:</p> <ul style="list-style-type: none"> <li>including a new clause that reads: <i>Protect the natural character, features, and landscapes of the coastal environment by: [...]</i></li> <li><i>(ix) avoiding adverse effects of activities on natural character of the coastal environment with outstanding natural character and on outstanding natural features;</i></li> <li>amending Policy 9(a)(v) to read: <i>(v) maintains the integrity of significant areas of indigenous vegetation protects significant indigenous biodiversity and maintains or enhances indigenous biodiversity [...]</i></li> </ul>	<p><b>Accept in part</b></p> <p>The submitter is concerned that Policy 9 does not provide for avoidance of adverse effects for outstanding values which may not be identified in Schedule 2.</p> <p>The submitter is also concerned that there are inconsistencies with directive policies for protection. In particular, it is the submitter's view that Clause (a)(v) is uncertain as the provisions do not currently identify significant areas of vegetation, nor does it reflect the protection required by Policy 14 [Indigenous biodiversity] of the Plan.</p> <p>Officers recommend granting relief in relation to Policy 8 (submission point 328) and consider this relief to address the first part of the submitters concern in Policy 9. As a result, Policy 8(a) is recommended to be amended to not limit its application only to the effects of activities in values and characteristics identified in Schedule 2.</p> <p>Officers further recommend amending Policy 9 (a)(v) as requested by the submitter as the suggestion is more directive and align language to that used elsewhere in the Plan.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
60 – Te Kaahui o Rauru		Submitter seeks amendment to Policy 11 of the Plan to include native species of value to Māori.	<p>Officers do not recommend amending Policy 11 of the Plan to expand its scope to reference native species of value to Māori. Presence or abundance of native species are not necessarily a meaningful indicator of coastal water quality with some taonga species being quite tolerant of reduced water quality.</p> <p>Officers note Schedule 3 of the Plan identifies areas where there is localised degradation of water quality, which (through Policy 12) will be targeted for enhancement. Of note these 'degraded areas' do contain native species of value to Māori, including shellfish. The issue is not the presence or abundance of these species but <i>E. coli</i> levels are such that there are restrictions on the harvesting of these species.</p> <p>Officers further note that all General Policies need to be read together and that other policies and recommended changes to the Plan may address some of the issues of concern. Native species, including species of value to Māori, are implicitly provided for in Policy 11 in that avoiding, remedying and mitigating adverse effects of activities on the life supporting capacity of coastal water, the mauri and wairua of coastal water and the integrity and functioning of natural coastal processes will contribute to the maintenance and enhancement of native species of value to Māori. Native species are also covered by Policy 14 [Indigenous biodiversity] and Policy 15 [Historic heritage]. Officers are further recommending that a new Policy 14B be included in the Plan to recognise and provide for the maintenance and enhancement of taonga species. In giving effect to the Plan all General Policies and relevant Activity-specific policies must be read together.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	363	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 11 of the Plan to read:  <i>Policy 11: Coastal water quality <b>and mauri values</b></i>  <i>Maintain and enhance coastal water quality <b>and mauri values</b> by avoiding, remedying and mitigating the adverse effects of activities on:</i>  <i>[...]</i>  <i>(a) the <b>mauri or</b> life-supporting capacity of coastal water;</i></p>	<p><b>No relief necessary</b></p> <p>Officers note that mauri values are already addressed within the Policy in Clause (b) and that it is not necessary to repeat the reference as the Policy is already clearly identifying mauri to be a component of coastal water quality. Officers consider that no further relief is necessary.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>NEW Policy 11A – Water quality limits</b>			
43 – Royal Forest and Bird Protection Society	364	<b>Amend</b> Submitter seeks amendment to the Plan to include a new Policy 11A [Coastal water quality limits] to achieve Objective 5 [Coastal water quality]. The new Policy would set water quality targets and standards for freshwater and coastal water in the coastal environment to ensure that upstream water quality does not result in adverse effects in the coastal environment.	<b>Decline</b> The submitter does not specify what attributes and numerics would be acceptable for coastal water quality and marine health. Officers have concerns that the adoption of standardised and universal water quality targets and standards would have a perverse outcome in that such targets are likely to be too high or too low depending upon uses and values in the locality. Such matters are best dealt with through the consenting process where the type, scale and significance of the activity and the vulnerability and sensitivities of the receiving environment (including cultural interests), and an appropriate mixing zone may be considered on a case-by-case basis. The Council's approach involves taking into account recognised national/international guideline values as appropriate. Officers note Taranaki only has seven major municipal and/or industrial discharges to the coastal marine area and that coastal water quality is generally good. In localities where that is not the case, a new Policy 12 has been included in the Plan seeking the restoration of local coastal water quality.
Further submissions – Port Taranaki Ltd (32)	Oppose		
Further submissions – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)	Oppose in part		
<b>Policy 12 – Restoration of coastal water quality</b>			
15 – Surfbreak Protection Society	365	<b>Amend</b> The submitter believes that Policy 12 does not provide adequate protection of the awa and coastal areas. The submitter is concerned that waiting until there are significant effects could impact on shellfish gathering, cultural activities, and water based recreational activities and seeks that the word "significant" be deleted from the policy.	<b>Decline</b> Officers note that pursuant to the RMA, the Council will, as a minimum be maintaining Taranaki's generally high coastal water quality. Any activity may have an adverse effect on water quality but, for most activities, their effects are localised or temporal and/or effects can be mitigated. Policy 12 is a new policy that seeks to restore coastal water quality where it has been degraded. It recognises localised adverse effects where there is <u>already</u> significant adverse effect on coastal ecosystems, natural habitats or water based recreational activities, or is restricting existing uses such as shellfish gathering and cultural activities (these areas are identified in Schedule 3). The use of the term " <i>significant</i> " is deliberate and appropriate and provides context to where restoration will be promoted. It is also consistent with national directions set out in Policy 21 of the <i>New Zealand Coastal Policy Statement</i> . Officers recommend retaining Policy 12 as notified.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	366	<b>Support</b> Retain Policy 12 of the Plan as notified.	<b>Accept</b> Support noted. Policy 12 is retained subject to minor amendment as requested by another submitter that do not change the policy intent.
Further submissions – Port Taranaki Ltd (32)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	367	<b>Amend</b> Submitter seeks amendment to Policy 12 of the Plan to read: <i>Policy 12: Restoration of coastal water quality <u>and mauri values.</u></i>	<b>No relief necessary</b> It is officers' understanding that each iwi, hapū or whanu may have its own concept of mouri however the term is generally understood to be the life principle, life force, vital essence, special nature, a material symbol of a life principle, source of emotions – the essential quality and vitality of a being or entity. The term may also refer to a physical object, individual, ecosystem or social group in which the essence is located. Officers have concerns that introducing the term "mouri" and making it a policy requirement to restore mouri (and mouri possibly being something different from water quality) reduces certainty and clarity in respect of its application. Officers further suggest that the relief sought is not necessary in that the term "mouri" is used elsewhere in the Plan's policy framework with all General Policies needing to be read together. Policy 13 is a specific policy that, in line with the <i>New Zealand Coastal Policy Statement</i> , is seeking to promote the restoration of coastal water quality in areas (identified in Schedule 3) where degraded water quality has resulted in restrictions to existing uses such as shellfish gathering and cultural activities. Under Policy 11 [Coastal water quality] the constituent parts of coastal water quality include the life supporting capacity, <u>mouri</u> , wairua of water and more. Therefore, Policy 12 already addresses mouri as part of the restoration of coastal water quality.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
<b>Policy 13 – Coastal air quality</b>			
6 – Trans-Tasman Resources Ltd	368	<b>Amend</b> Submitter seeks amendment to Policy 13 of the Plan to read: <i>Maintain <del>or and</del> enhance coastal air quality by avoiding, remedying and mitigating the adverse effects of activities on the life supporting capacity of air.</i>	<b>Decline</b> The submitter considers that it is not possible to maintain and enhance coastal water quality at the same time and prefers that Policy 13 provide for the maintenance "or" enhancement of coastal water quality. Officers note that the Policy is not site specific and applies regionally to all coastal air. It is suggested that it is indeed appropriate to maintain <u>and</u> enhance coastal water quality. Policy 13 is aligned with the wording from the <i>New Zealand Coastal Policy Statement</i> and other policies within the Plan.

Further submissions – Port Taranaki Ltd (32)		Support	
<b>Policy 14 Indigenous biodiversity</b>			
6 – Trans-Tasman Resources Ltd	370	<b>Amend</b> Submitter seeks amendment to Policy 14 of the Plan to read: <i>Protect areas of significant indigenous biodiversity in the coastal environment and maintain and enhance indigenous biodiversity by:</i> <i>(a) avoiding adverse effects of activities on:</i> <i>(i) indigenous taxa that are nationally threatened or at risk (<del>declining</del>), <del>or regionally distinctive</del>, including those identified in Schedule 4A;</i> <i>(ii) taxa that are internationally threatened including those identified in Schedule 4A;</i> <i>(iii) indigenous ecosystems and vegetation types that are threatened in the coastal environment, <del>or are naturally rare</del>, as identified in Schedule 4A;</i> <i>(iv) habitats of indigenous species where the species are at the limit of their natural range, or are naturally rare;</i> <i>(v) areas containing nationally significant examples of indigenous community types; and</i> <i>(vi) areas set aside for full or partial protection of indigenous biological diversity under other legislation; and</i> <i>(b) avoiding significant adverse effects and avoiding, remedying and mitigating other adverse effects of activities on:</i> <i>(i) areas of predominantly indigenous vegetation in the coastal environment;</i>	<b>Decline</b> The submitter believes there are issues between the Schedules and Policy 14 that sets out to avoid significant adverse effects and avoid, remedy or mitigate other effects on ecosystems and habitats set out in Schedule 4B but do not specify what these issues are. The sought relief involves amending Policy 14 of the Plan and has four parts: <ul style="list-style-type: none"> <li>Reference to 'at risk' taxa in Clause (a)(i) to be confined to 'at risk (declining) taxa: Officers do not recommend granting this relief as it would be inconsistent with Policy 11(a)(i) of the <i>New Zealand Coastal Policy Statement</i>, which requires activities to avoid adverse effects on indigenous taxa listed as 'at risk' in the New Zealand Threat Classification System lists. According to that list 'at risk' taxa can be further categorised as 'declining', 'recovering', 'relict' and 'naturally uncommon'. All four categories of 'at risk' taxa are appropriately captured by the Policy as currently notified.</li> <li>Delete reference in Clause (a) to 'regionally distinctive' taxa: Officers do not recommend granting this relief as it would be inconsistent with Bio Policy 4 of the <i>Regional Policy Statement</i>, which refers to, amongst other things, the presence of regionally distinctive species as a criteria for identifying significant indigenous biodiversity values in Taranaki. The category also contributes to giving effect to Policy 11(a)(iv)</li> </ul>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>(ii) habitats in the coastal environment that are important during the vulnerable life stage of indigenous species including:</p> <p>i. estuaries;</p> <p>ii. spawning areas (e.g. snapper-trevally spawning area in the North Taranaki Bight between Mōhakatino River and Pariokariwa Point);</p> <p>iii. areas that provide passage for diadromous species;</p> <p>iv. marine mammal resting, feeding and breeding areas; and</p> <p>v. bird roosting and nesting areas;</p> <p>(iii) indigenous ecosystems and habitats found only in the coastal environment and which are particularly vulnerable to modification including estuaries, lagoons, coastal wetlands, dunelands, intertidal zones, rocky reef systems, eelgrass, and saltmarsh <del>areas, and sensitive marine benthic habitats as identified in Schedule 4B;</del> [...]</p>	<p>of the <i>New Zealand Coastal Policy Statement</i>. It is the Council's view that Policy 14 should recognise the local context and provide for the protection of indigenous species that are locally significant to the Taranaki region, irrespective of their national threat status.</p> <ul style="list-style-type: none"> <li>• Delete reference to 'naturally rare' ecosystems and vegetation types: Officers do not recommend granting this relief as it would be inconsistent with Policy 11(a)(iii) of the <i>New Zealand Coastal Policy Statement</i>, which requires activities to avoid adverse effects on indigenous ecosystems and vegetation types that are "naturally rare".</li> <li>• Delete reference in Clause (b)(iii) to "sensitive marine benthic habitats": Officers recommend declining the relief sought. Sensitive benthic habitats refer to marine habitats identified in the report <a href="https://www.trc.govt.nz/assets/Documents/Plans-policies/CoastalPlanReview/SensitiveHabitats.PDF">https://www.trc.govt.nz/assets/Documents/Plans-policies/CoastalPlanReview/SensitiveHabitats.PDF</a> that have low tolerance to habitat damage and for which the time for the habitat to recover from any damage would be significant. Given the sensitivity and vulnerability of such marine habitats, Officers consider it appropriate that they be recognised and provided for in Policy 14(b)(iii) of the Plan.</li> </ul>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<p><u>(a) avoiding significant adverse effects of activities on the habitat of taonga species, mahinga kai, tāiapure or mataitai and customary uses and values unless:</u>  <u>the activity is necessary for the provision of regionally important infrastructure, avoidance of adverse effects is not practicable and adverse effects are remedied or mitigated to the extent practicable; and</u></p> <p><u>(b) avoiding, remedying or mitigating other adverse effects of activities on taonga species habitat, mahinga kai, tāiapure or mataitai.</u></p> <p>The definition for “Taonga species” would read as follows:  <u><b>Taonga species</b> means the species of birds, plants and animals identified as such by treaty settlements and described in Schedule 4CC.</u></p>
42 – Ngāti Rahiri Hapū	379	<p><b>Other</b></p> <p>Submitter seeks clarification as to whether shellfish and crayfish, and the habitat for both, are protected by Policy 14 of the Plan.</p>	<p><b>No relief necessary</b></p> <p>Officers note that significant indigenous biodiversity protected in Policy 14 are identified in Schedule 4A. While shellfish and crayfish are not identified in that Schedule as threatened, at risk or regionally distinctive species (and as defined by the Plan) they are nevertheless protected under Policy 14. Of particular note, the primary habitats of these species are largely reefs, which have a very high level of protection in the Plan compared with other marine habitats.</p> <p>Officers note however that, in response to reliefs sought by other submitters, other changes are proposed to the Plan to better recognise and protect taonga species. Officers recommend amending the Plan to include a new Policy 4B to ensure activities avoid, remedy or mitigate adverse effects on taonga species. It is further recommended that a definition for taonga species be provided and a new schedule included to identify taonga species that may include shellfish and crayfish.</p> <p>The new Policy 14B would read as follows:  <u><b>Policy 14B: Taonga species</b></u>  <u>Maintain or enhance taonga species as identified in Schedule 4CC by:</u>  <u>(a) avoiding significant adverse effects of activities on the habitat of taonga species, mahinga kai, tāiapure or mataitai and customary uses and values unless:</u>  <u>the activity is necessary for the provision of regionally important infrastructure, avoidance of adverse effects is not practicable and adverse effects are remedied or mitigated to the extent practicable; and</u>  <u>(b) avoiding, remedying or mitigating other adverse effects of activities on taonga species habitat, mahinga kai, tāiapure or mataitai.</u></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>The definition for "Taonga species" would read as follows:  <u><b>Taonga species means the species of birds, plants and animals identified as such by treaty settlements and described in Schedule 4CC.</b></u></p>
<p>43 – Royal Forest and Bird Protection Society</p>	<p>380</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 14 of the Plan by removing reference to "maintaining and enhancing indigenous biodiversity" so that it sets out the characteristics and values to be protected under Policy 11 of the <i>New Zealand Coastal Policy Statement</i></p> <p>AND</p> <p>Include a separate policy for the maintenance and enhancement of indigenous biodiversity in the coastal environment</p> <p>AND</p> <p>Include guidance on relevant habitats under Clause (a)(iv).</p>	<p><b>Accept in part</b></p> <p>Policy 14 is directly aligned with Policy 11 [Indigenous biodiversity] of the <i>New Zealand Coastal Policy Statement</i>. Although the matters covered in Policy 14 cover most aspects of indigenous biodiversity, the submitter, quite rightly, points out that indigenous biodiversity is much broader than those aspects highlighted in Policy 14. Officers therefore recommend amending the Plan to include a separate stand-alone policy to address the remaining aspects of indigenous biodiversity not otherwise covered by Policy 14.</p> <p>The new Policy 14A would read as follows:  <u><b>Policy 14A: Indigenous biodiversity</b></u>  <u>Maintain or enhance indigenous biodiversity generally in the coastal environment by:</u>  <u>(a) as far as is practicable, avoiding, remedying and mitigating the adverse effects of activities on indigenous biodiversity; and</u>  <u>(b) when assessing adverse effects on indigenous biodiversity, having regard to the extent of effects, including consideration of:</u>  <u>(i) the association of the ecological site and values with other interrelated, but not necessarily contiguous, ecological sites and values;</u>  <u>(ii) the nature, location, extent and design of the proposed development and the effects of these factors on indigenous biodiversity;</u>  <u>(iii) the degree to which indigenous biodiversity values will be lost, damaged, destroyed, or enhanced, recognising that:</u>  <u>i. the scale of the effect of an activity is proportional to the size and sensitivity of the ecological area and associated indigenous biodiversity values;</u>  <u>ii. discrete, localised or otherwise minor effects not impacting on the ecological area may be acceptable; and</u>  <u>iii. activities with transitory effects may be acceptable, where they can demonstrate the effects are not long-term and/or irreversible.</u></p> <p>In relation to adding guidance in the Plan on relevant habitats under clause (a)(iv), habitats of indigenous species where the species are at the limit of their natural range, or are naturally rare. Officers do not believe this level of specificity is necessary or appropriate for a regulatory plan. While the Council contains some information on the distribution and abundance of some indigenous biodiversity</p>
<p>Further submissions – Powerco (45)</p>		<p>Oppose in part</p>	<p><u>(a) as far as is practicable, avoiding, remedying and mitigating the adverse effects of activities on indigenous biodiversity; and</u>  <u>(b) when assessing adverse effects on indigenous biodiversity, having regard to the extent of effects, including consideration of:</u>  <u>(i) the association of the ecological site and values with other interrelated, but not necessarily contiguous, ecological sites and values;</u>  <u>(ii) the nature, location, extent and design of the proposed development and the effects of these factors on indigenous biodiversity;</u>  <u>(iii) the degree to which indigenous biodiversity values will be lost, damaged, destroyed, or enhanced, recognising that:</u>  <u>i. the scale of the effect of an activity is proportional to the size and sensitivity of the ecological area and associated indigenous biodiversity values;</u>  <u>ii. discrete, localised or otherwise minor effects not impacting on the ecological area may be acceptable; and</u>  <u>iii. activities with transitory effects may be acceptable, where they can demonstrate the effects are not long-term and/or irreversible.</u></p> <p>In relation to adding guidance in the Plan on relevant habitats under clause (a)(iv), habitats of indigenous species where the species are at the limit of their natural range, or are naturally rare. Officers do not believe this level of specificity is necessary or appropriate for a regulatory plan. While the Council contains some information on the distribution and abundance of some indigenous biodiversity</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>species, currently such information is generally fragmented and incomplete. Officers suggest that such guidance more appropriately sits outside a Plan so that it can be easily developed and amended over time as better information is gathered.</p>
<p>43 – Royal Forest and Bird Protection Society</p>	<p>381</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 14 of the Plan or add a new policy to identify areas of significant indigenous biodiversity including criteria for determination.</p>	<p><b>Decline</b></p> <p>Officers note that BIO Policy 4 of the <i>Regional Policy Statement</i> already provides the relief sought by the submitter. BIO Policy 4 reads:</p> <p><i>When identifying ecosystems, habitats and areas with significant indigenous biodiversity values, matters to be considered will include:</i></p> <p><i>(a) the presence of rare or distinctive indigenous flora and fauna species; or</i></p> <p><i>(b) the representativeness of an area; or</i></p> <p><i>(c) the ecological context of an area.</i></p> <p><i>Once identified as significant, consideration should be given to the sustainability of the area to continue to be significant in future when deciding on what action to be taken (if any) should reasonably and practicably be taken to protect the values of the area.</i></p> <p>Officers do not believe it is necessary for all regional plans to repeat policies set out in other planning instruments and indeed there are risks in unnecessarily paraphrasing other policy instruments. The criteria adopted for identifying significant indigenous biodiversity has been effective as demonstrated by the Council's significant involvement and success in promoting passive and active protection of terrestrial, freshwater and marine sites identified as having regionally significant values.</p>
<p>43 – Royal Forest and Bird Protection Society</p>	<p>382</p>	<p><b>Amend</b></p> <p>The submitter is concerned that Policy 14(a)(iii) is not broad enough or will not allow for protection of ecosystems or vegetation that may be identified as threatened or naturally rare at a later date. Submitter seeks an amendment to Policy 14(a)(iii) of the Plan to read:</p> <p><i>Protect areas of significant indigenous biodiversity in the coastal environment and maintain and enhance indigenous biodiversity by:</i></p> <p><i>(a) avoiding adverse effects of activities on: [...]</i></p> <p><i>(iii) indigenous ecosystems and habitats found only in the coastal environment and which are particularly vulnerable to modification including estuaries, lagoons, coastal wetlands, dunelands, intertidal zones, rocky reef systems, eelgrass,</i></p>	<p><b>No relief necessary</b></p> <p>The relief sought is unnecessary as the Policy already notes that the listed types are not an exclusive list.</p> <p><i>iii) indigenous ecosystems and habitats found only in the coastal environment and which are particularly vulnerable to modification <b>including</b> [emphasis added] estuaries, lagoons, coastal wetlands, dunelands, intertidal zones, rocky reef systems, eelgrass, saltmarsh, and sensitive marine benthic habitats as identified in Schedule 4B; [...]</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>saltmarsh, and sensitive marine benthic habitats as, including those identified in Schedule 4B; [...]</i>	
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
43 – Royal Forest and Bird Protection Society	383	<p><b>Other</b></p> <p>Submitter comments that Policy 14 of the Plan is unclear about how clause (a) (<i>avoiding adverse effects of activities on: [...]</i>) and clause (b) (<i>avoiding significant adverse effects and avoiding, remedying and mitigating other adverse effects of activities on; [...]</i>) will be achieved to give effect to the <i>New Zealand Coastal Policy Statement</i>.</p>	<p><b>No relief necessary</b></p> <p>Officers note that the means for achieving all of the policies are set out under the methods section and/or the rules. In particular, methods relating to indigenous biodiversity are explicitly covered in Methods 13 to 20 and also more broadly within the entire Methods section of the Plan. Rules also apply that prohibit or restrict activities where they impact on indigenous biodiversity.</p> <p>Officers further note that these issues are also covered within the methods of implementation within the indigenous biodiversity section of the <i>Regional Policy Statement for Taranaki</i> and again in the <i>Biodiversity Strategy for the Taranaki Regional Council</i>. Officers believe that this issue is addressed sufficiently within the Plan and also within the <i>Regional Policy Statement</i>.</p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	384	<p><b>Other</b></p> <p>Submitter seeks that the Council ensure Policy 14 of the Plan and corresponding rules provide appropriately for the operation, maintenance and upgrade of existing regionally important infrastructure.</p>	<p><b>No relief necessary</b></p> <p>Comments noted. Officers note that all the General Policies (and relevant Activity-specific Policies) need to be read together, which includes considering Policies 5 [Use and development] and 6 [Regionally important infrastructure] of the Plan alongside biodiversity considerations set out in Policy 14.</p>
47 – Fonterra	385	<p><b>Support</b></p> <p>Retain Policy 14 as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 14 is retained subject to minor amendments as requested by other submitter that do not change the policy intent.</p>
58 – Te Atiawa	386	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 14(a) of the Plan to include a new clause to read:</p> <p><i>Protect areas of significant indigenous biodiversity in the coastal environment and maintain and enhance indigenous biodiversity by:</i></p> <p>(a) <i>avoiding adverse effects of activities on [...]</i></p> <p><i>(vii) Taonga species as identified by tangata whenua [...]</i></p>	<p><b>Grant in kind</b></p> <p>The relief sought by the submitter would have the perverse outcome of derogating from the relationship of tangata whenua culture, values and traditions with the coastal environment. Given the importance of some of these species as mahinga kai, their inclusion in Policy 14 (with its strong avoidance direction) would potentially preclude/restrict customary activities (such as harvesting) that has adverse effects on their populations, abundance and distribution.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	Officers recommend an alternative relief that provides for strong recognition and provision for taonga species. It is recommended that a new Policy 14A be included to ensure activities avoid, remedy or mitigate adverse effects on taonga species. It is further recommended that a definition for taonga species be provided and a new schedule included to identify taonga species.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	<p>The new Policy 14B would read as follows:</p> <p><u><i>Policy 14B: Taonga species</i></u>  <u><i>Maintain or enhance taonga species as identified in Schedule 4CC by:</i></u>  <u><i>(a) avoiding significant adverse effects of activities on the habitat of taonga species, mahinga kai, tāiapure or mataitai and customary uses and values unless:</i></u>  <u><i>the activity is necessary for the provision of regionally important infrastructure, avoidance of adverse effects is not practicable and adverse effects are remedied or mitigated to the extent practicable; and</i></u>  <u><i>(b) avoiding, remedying or mitigating other adverse effects of activities on taonga species habitat, mahinga kai, tāiapure or mataitai.</i></u></p> <p>Officers also recommend amending the Plan to include a definition for “Taonga species” to read:</p> <p><u><i>Taonga species means the species of birds, plants and animals identified as such by treaty settlements and described in Schedule 4CC.</i></u></p>
58 – Te Atiawa	387	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 14 to of the Plan include a new clause (c) that reads:</p> <p><i>Protect areas of significant indigenous biodiversity in the coastal environment and maintain and enhance indigenous biodiversity by: [...]</i></p> <p><u><i>(c) recognising and providing for the role of tangata whenua as kaitiaki, when identifying and managing significant areas of indigenous biodiversity in the coastal area.</i></u></p>	<p><b>Grant in kind</b></p> <p>Officers do not recommend granting the relief noting that it relates to a framework setting out tiered protection of indigenous biodiversity rather than identifying particular relationships for implementing the policy. Officers note that the relief proposed only addresses the role of tangata whenua as kaitiaki and is silent on the role of others parties who may also have a significant involvement and/or interest in indigenous biodiversity protection.</p> <p>Rather than making changes to Policy 14, officers recommend an alternative relief that may partially give effect to the submitters wish for the role of tangata whenua as kaitiaki to be recognised. Officers recommend minor amendment to Policy 16 to explicitly recognise for the role of tangata whenua as kaitiaki across all aspects of managing use, development and protection in the coastal environment (rather than just biodiversity). Officers note that all General Policies (and relevant Activity-specific Policies) must be read together.</p> <p>The amendment to Policy 16 would read as follows:</p>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<i>Recognise and provide for the relationship of tangata whenua culture, values and traditions with the coastal environment, <u>including the role of tangata whenua as kaitiaki</u>, and take into account the principles of the Treaty of Waitangi.</i>
60 – Te Kaahui o Rauru	388	<b>Amend</b> Submitter seeks amendment to Policy 14 of the Plan to include native species of value to Māori.	<b>Grant in kind</b> The relief sought by the submitter would have the perverse outcome of derogating from the relationship of tangata whenua culture, values and traditions with the coastal environment. Given the importance of some of these species as mahinga kai, their inclusion in Policy 14 (with its strong avoidance direction) would potentially preclude/restrict customary activities (such as harvesting) that has adverse effects on their populations, abundance and distribution. Officers recommend an alternative relief that provides for strong recognition and provision for taonga species. It is recommended that a new Policy 14B be included to ensure activities avoid, remedy or mitigate adverse effects on taonga species. It is further recommended that a definition for taonga species be provided and a new schedule included to identify taonga species. The new Policy 14B would read as follows: <u><i>Policy 14B: Taonga species</i></u> <u><i>Maintain or enhance taonga species as identified in Schedule 4CC by:</i></u> <u><i>(a) avoiding significant adverse effects of activities on the habitat of taonga species, mahinga kai, tāiapure or mataitai and customary uses and values unless:</i></u> <u><i>the activity is necessary for the provision of regionally important infrastructure, avoidance of adverse effects is not practicable and adverse effects are remedied or mitigated to the extent practicable; and</i></u> <u><i>(b) avoiding, remedying or mitigating other adverse effects of activities on taonga species habitat, mahinga kai, tāiapure or mataitai.</i></u> Officers also recommend amending the Plan to include a definition for “Taonga species” to read as follows: <u><i>Taonga species means the species of birds, plants and animals identified as such by treaty settlements and described in Schedule 4CC.</i></u>

Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	<p>Officers recommend an alternative relief that provides for strong recognition and provision for taonga species. It is recommended that a new Policy 14B be included to ensure activities avoid, remedy or mitigate adverse effects on taonga species. It is further recommended that a definition for taonga species be provided and a new schedule included to identify taonga species.</p> <p>The new Policy 14B would read as follows:</p> <p><u>Policy 14B: Taonga species</u>  <u>Maintain or enhance taonga species as identified in Schedule 4CC by:</u>  <u>(a) avoiding significant adverse effects of activities on the habitat of taonga species, mahinga kai, tāiapure or mataitai and customary uses and values unless:</u>  <u>the activity is necessary for the provision of regionally important infrastructure, avoidance of adverse effects is not practicable and adverse effects are remedied or mitigated to the extent practicable; and</u>  <u>(b) avoiding, remedying or mitigating other adverse effects of activities on taonga species habitat, mahinga kai, tāiapure or mataitai.</u></p> <p>Officers also recommend amending the Plan to include a definition for “Taonga species” to read:</p> <p><u>Taonga species means the species of birds, plants and animals identified as such by treaty settlements and described in Schedule 4CC.</u></p>
<b>Policy 15 – Historic heritage</b>			
2 – Federated Farmers	390	<p><b>Amend</b></p> <p>Submitter seeks that historic heritage sites should be accurately mapped to give certainty and that normal farming activities are recognised as co-existing with heritage values and enabled to continue.</p>	<p><b>No relief necessary</b></p> <p>The submitter’s comments have been noted. However, officers do not believe any relief is necessary. Historic heritage sites, in or adjoining the coastal marine area, have been mapped where possible. In many cases accurate mapping of historic heritage on the seabed is not possible.</p>
	391	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
20 – Meridian Energy Ltd		Submitter seeks amendment to Policy 15 of the Plan to read: <i>Protect historic heritage in the coastal environment from inappropriate <u>subdivision</u>, use and development by: [...]</i>	The submitter wishes to include “ <i>subdivision</i> ” within Policy 15 to be consistent with Policy 15 [Natural features and natural landscapes] of the <i>New Zealand Coastal Policy Statement</i> . Officers note that subdivision falls outside the statutory functions of regional councils and is instead the responsibility of district and unitary councils pursuant to Section 31 of the RMA. However, for the purpose of integrated management, officers recommend amending Policy 15 to include reference to subdivision. This relief is similar in kind to other reliefs sought by the submitter whereby Objective 11 [Cultural and historic heritage] is sought to be amended to reference subdivision. A new definition for “ <i>subdivision</i> ” is also recommended.
40 – Te Rūnanga o Ngāti Mutunga	392	<b>Amend</b>  Submitter wishes to see a greater level of protection within Policy 15(b) of the Plan by removing the word “significant” to read: <i>Protect historic heritage in the coastal environment from inappropriate use and development by: [...]</i> <i>(b) avoiding <u>significant</u> adverse effects and avoiding, remedying and mitigating other adverse effects on the [...]</i>	<b>Decline</b>  The level of protection that Policy 15(b) provides sites of significance to Māori is considered appropriate by officers. Policy 15(b) represents a high level of protection but does allow activities that have less than minor adverse effects and/or where the effects maybe transitory. Granting the relief sought by the submitter by deleting the term “significant” would make the Policy unnecessarily broad and prohibitive.  Of note, the relief sought by the submitter would also have the perverse outcome of derogating from the relationship of tangata whenua culture, values and traditions with the coastal environment. For example, sites of significance to Māori identified in Schedule 5B of the Plan include a large number of kaimoana sites. Granting the relief sought, where all effects must be avoided, would potentially preclude/restrict customary activities (such as harvesting).

41 – Te Korowai o Ngāruahine Trust	393	<b>Amend</b>  Submitter seeks amendment to Policy 15(d) of the Plan to specifically recognise the role of kaitiaki and mātauranga supplied by tangata whenua/manā whenua and their experts.	<b>Grant in kind</b>  Officers do not recommend granting the relief as proposed by the submitter. Officers note that Policy 15 sets out a framework for the tiered protection of historic heritage. Policy 15(d) already referring to the outcomes of consultation with relevant bodies or individuals, including local iwi and hapū. Amending the Policy to include an amended Clause, focusing on the roles of one organisations or stakeholder group (while remaining silent on other relevant organisations and groups) is not considered appropriate or necessary.  Rather than making changes to Policy 15 officers recommend an alternative relief that may partially give effect to the submitters wish for the role of tangata whenua as kaitiaki to be recognised. Officers recommend minor amendment to Policy 16 to explicitly recognise for the role of tangata whenua as kaitiaki across all aspects of managing use, development and protection in the coastal environment (rather than

58 – Te Atiawa	398	<b>Amend</b> Submitter seeks amendment to Policy 15(d) of the Plan to include a new Clause (x) that reads:	<b>No relief necessary</b> The policies section of the Plan does not give directions or set out the appropriate way to gather data. Such matters 'sit' better outside the Plan. Notwithstanding that it

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>Protect historic heritage in the coastal environment from inappropriate use and development by:</i></p> <p>[...]</p> <p><i>(d) when assessing adverse effects on historic heritage, giving regard to the extent of effects, including consideration of:</i></p> <p>[...]</p> <p><i><u>(x) evidence supplied by tangata whenua including that of kaumatua and pukenga.</u></i></p>	<p>is noted that Method 25 in the Plan does cover iwi involvement with the development of resource investigations and projects, including developing iwi and Council databases and records that identify sites and places of special cultural and traditional value which will also include considerations of the effects and extents of adverse effects.</p> <p>Officers further note that Clauses 15(d)(viii) and (ix) already refer to assessments of adverse effects on historic heritage taking into consideration any investigations and documentation of the site, which would include the outcome of consultation with iwi and hapū evidence supplied by kaumatua and pukenga. Amending the Policy to include a new Clause, focusing on one potential source of information, is not considered appropriate or necessary.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	399	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 15 of the Plan to read:</p> <p><i>Policy 15: <u>Cultural and</u> Historic heritage</i></p> <p><i>Protect <u>cultural and</u> historic heritage in the coastal environment from inappropriate use and development by:</i></p> <p><i>(a) avoiding adverse effects on the values associated with Category A archaeological sites of significance and <u>cultural and</u> historic areas identified in Schedule 5A <u>and GIS map layer #</u>;</i></p> <p><i>(b) avoiding significant adverse effects, and avoiding, remedying and mitigating other adverse effects on the values associated with <u>cultural heritage</u> sites of significance to Māori identified in Schedules 5A and 5B <u>and GIS map layer #</u>;</i></p> <p><i>(c) avoiding, remedying or mitigating adverse effects on the values associated with all other <u>cultural and</u> historic heritage sites, including those identified in Schedule 5 <u>and GIS map layer #</u> and those identified by New Zealand Archaeological Association's ArchSite (Archaeological Site Recording Scheme) <u>and tangata whenua</u>;</i></p> <p><i>(d) when assessing adverse effects on <u>cultural and</u> historic heritage, giving regard to the extent of effects, including consideration of:</i></p> <p><i>i. the association of the site with other interrelated, but not necessarily contiguous, cultural and historic heritage sites and their collective significance in the context of historic landscapes and areas;</i></p>	<p><b>Decline</b></p> <p>Officers do not consider it necessary or appropriate to include reference to “cultural” alongside “Historic heritage”. Historic heritage has a broad definition under Section 2 of the RMA and includes reference to cultural qualities as well as sites of significance to Māori. Section 2 definition of “historic heritage” reads as follows:</p> <p>“...historic heritage means:</p> <p><i>(a) those natural and physical resources that contribute to an understanding and appreciation of New Zealand’s history and cultures, deriving from any of the following qualities:</i></p> <p><i>(i) archaeological,</i></p> <p><i>(ii) architectural,</i></p> <p><i>(iii) cultural,</i></p> <p><i>(iv) historic,</i></p> <p><i>(v) scientific,</i></p> <p><i>(vi) technological, and</i></p> <p><i>(b) includes—</i></p> <p><i>(i) historic sites, structures, places, and areas; and</i></p> <p><i>(ii) archaeological sites, and</i></p> <p><i>(iii) sites of significance to Māori, including wāhi tapu, and</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>ii. the degree to which <u>cultural and</u> historic heritage values will be lost, damaged, destroyed, or enhanced;</p> <p>iii. the nature, location, extent, design and appearance of the proposed development and the effects of these factors on <u>cultural and</u> historic heritage values;</p> <p><u>iv. the location of the proposed development in terms of the Cultural Zone (buffer zone between the proposed development and the cultural and historic heritage sites) identified on GIS map layer # and the effects of its location on cultural heritage values;</u></p> <p>v. the classification given to the <u>cultural and</u> historic heritage, as set out in Schedule 5A and the reasons for which it has been scheduled;</p> <p>vi. the extent to which the <u>cultural and</u> historic heritage has been damaged by natural events, weather, or environmental factors and any subsequent risk to public safety;</p> <p><u>vii. spatial planning considerations which involves (but not limited to) neighbouring rural nature, landscape, cultural history values and development-related interests; identification of conflicting activities that would impact on mana whenua issues, areas of interest and cultural significance;</u></p> <p>viii the importance (if any) of land surrounding the <u>cultural and</u> historic heritage;</p> <p>ix. the degree of compliance with Heritage New Zealand's Pohere Taonga Archaeological requirements;</p> <p>x. any investigation and documentation of the site to provide a historical record; and</p> <p>xi. the outcome of any consultation <u>including written approvals</u> with any relevant body or individual, such as Heritage New Zealand Pohere Taonga, the Department of Conservation, or local iwi and/or hapū; [...]</p>	<p>(iv) surroundings associated with the natural and physical resources.”</p> <p>Officers also have concerns that these and other amendments would reduce certainty in the application of Plan provisions including rules. It is currently quite clear what is meant by the term historic heritage and that it includes sites of significance to Māori and cultural aspects. That is not the case with the term “cultural heritage”, which potentially has a much broader meaning in the context of this policy.</p> <p>Notwithstanding the above, officers have recommended changes elsewhere in the Plan to strengthen references to cultural heritage. This included expanding the scope of Objective 11 to refer to cultural heritage, the inclusion of a new policy (and schedule) addressing taonga species, and new standards, terms and conditions addressing the protection of taonga species and sites of significance.</p> <p>Other suggested changes by the submitter include referencing the GIS map layer. This was considered unnecessary as the schedule includes all appropriate map links and referencing tangata whenua in Policy 15 (c) was considered unnecessary as such matters are more appropriately addressed in (b) which provides a higher level of protection.</p> <p>The submitter also sought reliefs that rely on a cultural zone. The submitter does not identify how or what would be considered a cultural zone or how such zones.</p>

<b>Policy 16 – Relationship of tangata whenua</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
6 – Trans-Tasman Resources Ltd	400	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 16(i) and (j) of the Plan to read:</p> <p><i>Recognise and provide for the relationship of tangata whenua culture, values and traditions with the coastal environment and take into account the principles of the Treaty of Waitangi, and kaitiakitanga. The Taranaki Regional Council will provide opportunities for tangata whenua to actively participate in the resource management process where decisions are being made on issues of significance to tangata whenua by:</i></p> <p>[...]</p> <p>(i) <i>requiring that resource consent applications or plan change applications <del>assess provide</del> cultural and/or historic heritage/archaeological impacts <del>assessments and/or archaeological assessments</del> where <u>relevant appropriate</u>; and</i></p> <p>(j) <i>involving-taking into account any views of tangata whenua <del>in the development of on any relevant proposed</del> consent conditions, compliance monitoring plans and/or enforcement procedures <del>where appropriate</del>.</i></p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>In relation to amending Clause (i) officers suggest that the current wording is appropriate in that it notes that cultural impact assessments will be provided where appropriate. What is appropriate will depend upon individual circumstances and the wider context. Such matters are routinely canvassed and effectively addressed as part of any consenting process. Officers note that the Policy does not require cultural impact assessments to be provided in <u>all</u> circumstances (which is the matter of concern to the submitter). The suggested amendments to Policy 16(1), as supplied by the submitter, were not considered appropriate as it is not the duty of the applicant to assess – only tangata whenua can do this and the policy is about tangata whenua rather than wider historic heritage matters.</p> <p>Similarly, in relation to amending Clause (j) officers note that the Policy is seeking to involve tangata whenua in resource management processes where it is appropriate. Providing tangata whenua with opportunities to actively participate in resource management processes requires more than this Council just taking into account their views. Again officers suggest that the current wording is appropriate in that it requires tangata whenua involvement, where appropriate.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>(l) provide for opportunities for tangata whenua to exercise kaitiakitanga over waters and fisheries in the coastal environment through such measures as:</i></p> <p><i>(i) bringing cultural understanding to monitoring of natural resources; and</i></p> <p><i>(ii) providing appropriate methods for the management, maintenance and protection of the taonga and tangata whenua; and</i></p> <p><i>(iii) having regards to regulations, rules or bylaws relating to ensuring sustainability of fishing resources such as taiapure, mahinga mataitai or other non-commercial Māori customary fishing.</i></p>	<p>example, protection of sites of significance to Māori, is already fully addressed within Policy 15 [Historic heritage]. Other suggested amendments are actually methods. Rather than restating matters covered in other policies or restating methods as policies, officers recommend alternative reliefs to better recognise and provide for tangata whenua values. The reliefs include the inclusion of a new Policy 14B (and associated Schedule) that includes avoiding, remedying or mitigating adverse effects on taonga species habitat, mahinga kai, tāiapure or mataitai and the inclusion of a new Clause, reframed to align with relief sought by other submitters, to read:</p> <p><i>(k) considering consent conditions that incorporate the use of mātauranga Māori based methods or cultural indicators that recognise and express Māori values to monitor the effects of the activity on the mouri of the natural and physical resources of the coastal environment.</i></p>

	412	<b>Amend</b>	<b>Accept in part</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<p>61 – Te Rūnanga o Ngāti Ruanui Trust</p>		<p>Submitter seeks amendment to Policy 16 of the Plan to clearly articulate tangata whenua participation and to list existing formal relationships between tangata whenua and councils (include reference to any agreement document). Besides Mana Whakahono a Rohe/iwi Participation Arrangements, this includes (but not limited to) Transfer of Powers under Section 33 of the RMA, Memoranda of Understanding, co-management agreements, specific consultation processes with tangata whenua, and details of agreement as determined in consultation with tangata whenua.</p> <p>The recommended amendments to Policy 16 read as follows:</p> <p><i>Recognise and provide for the relationship of tangata whenua culture, values and traditions with the coastal environment and take into account the principles of the Treaty of Waitangi, and kaitiakitanga. The Taranaki Regional Council will <del>provide opportunities ensure the active participation of</del> tangata whenua <del>to actively participate</del> in the resource management process where decisions are being made on issues of significance to tangata whenua by:</i></p> <p>[...]</p> <p><i>(c) implementing the relevant legal requirements of Treaty settlements, including representation on Council committees; and <del>have regard to taking into account</del> other aspects of Treaty settlements including, statements of association, protection principles and statutory acknowledgements;</i></p> <p><i>(d) <del>responding to requests for Mana Whakahono a Rohe to enhance the opportunities for collaboration with iwi provide for Mana Whakahono a Rohe, Transfer of Powers under section 33 of the RMA, Memoranda of Understanding, co-management agreements, specific consultation processes including details of agreement as determined in consultation with tangata whenua to enhance the opportunities for collaboration with iwi;</del></i></p> <p>[...]</p> <p><i>(i) requiring that resource consent applications, <del>notice of requirements</del> or plan change applications provide cultural impact assessments and/or archaeological assessments where <del>deemed</del> appropriate <del>by mana whenua or heritage authorities;</del></i></p> <p><i>(j) <del>recognise the matters/values identified and proposed for protection by mana whenua in the cultural impact assessment;</del> [...]</i></p>	<p>Officers note consequential changes to Policy 16 that accept in part the relief sought by submitter.</p> <p>Officers do not believe it is appropriate or necessary to list formal agreements and consultative processes with iwi in a Policy. Such matters are operational detail rather than Policy considerations and are already recognised and provided for in the Plan methods of Implementation. For example, Method 11 already refers to the consideration of section 33 transfer of powers, Method 30 refers to memoranda of understandings, and Method 31 refers to tangata whenua representation on Council's standing committees. The methods are deliberately high level. Specifying or listing particular agreements would inevitably lead to details in the Plan becoming out dated as new or amended agreements are reached and recognising iwi interest in developing and reaching agreement on Mana Whakahono a Rohe provisions of the RMA.</p> <p>Notwithstanding the above, amendments are proposed in Policy 16 to accommodate some of the amendments sought by this and other submitters. The changes proposed will strengthen mechanisms for recognising and providing for tangata whenua involvement in RMA processes under the Plan.</p> <p>The revised Policy would read as follows:</p> <p><i>Recognise and provide for the relationship of tangata whenua culture, values and traditions with the coastal environment, <del>including the role of tangata whenua as kaitiaki,</del> and take into account the principles of the Treaty of Waitangi.</i></p> <p><i>The Taranaki Regional Council will provide opportunities for <del>working in partnership with</del> tangata whenua to actively participate in the resource management process where decisions are being made on issues of significance to tangata whenua by:</i></p> <p><i>(a) taking into account any relevant iwi planning document, <del>including but not limited to environmental plans, management plans, kaitiaki plans and marine spatial plans recognised by an iwi authority;</del></i></p> <p><i>(b) taking into account any relevant memorandum of understanding <del>or kaitiaki agreement with</del> the iwi authorities;</i></p> <p><i>(c) implementing the relevant legal requirements of Treaty settlements, including representation on Council committees; and taking into account other aspects of Treaty settlements including, statements of association, protection principles and statutory acknowledgements;</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)	Oppose		(d) <i>give effect to</i> Mana Whakahono a Rohe <i>that provide agreements about how iwi may contribute to resource management processes;</i>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)	Support		<p>(e) <i>providing for tikanga Māori and interpretation services for the use of Māori language in presenting evidence;</i></p> <p>(f) <i>providing for marae-based pre-hearing meetings and hearings where appropriate;</i></p> <p>(g) <i>providing for the appointment of a person(s) with recognised expertise in tikanga Māori to any hearing committee where a resource consent application raises significant issues for tangata whenua;</i></p> <p>(h) <i>recognising the importance of mātauranga Māori, customary, traditional and intergenerational knowledge;</i></p> <p>(i) <i>requiring that resource consent applications or plan change applications assess cultural and/or historic heritage impacts assessments where relevant;</i></p> <p>(j) <i>taking into account any views of tangata whenua on any relevant proposed consent conditions, compliance monitoring plans and/or enforcement procedures; and</i></p> <p>(k) <i>considering consent conditions that incorporate the use of mātauranga Māori based methods or cultural indicators that recognise and express Māori values to monitor the effects of the activity on the mauri of the natural and physical resources of the coastal environment.</i></p>
<b>NEW Policy 16A – Relationship of tangata whenua</b>			
28 – Grant Knuckey	413	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to the Plan to include policies for the Taranaki Regional Council to partner with mana whenua to maintain and enhance coastal values in the coastal marine area, including the establishment of ecological bottom lines or agreed targets for maintaining the natural character, biodiversity and cultural resources of the coastal marine area and whenua.	<p>No precise details of amendments sought to the Plan have been provided but the submitter is seeking the inclusion of additional policies. Officers note that in response to a number of submitters, consequential amendments have been made to Policy 16 that may partially give effect to the relief sought by the submitter.</p> <p>The submitter also refers to the setting of ecological bottom lines or agreed targets for maintaining the natural character, biodiversity and cultural resources of the coastal marine area and whenua. Officers note that all General Policies (and relevant Activity-specific Policies must be read together). These policies already address values associated with natural character, indigenous biodiversity, and historic heritage, which includes sites of significance to Māori. In response to submissions, officers further propose amending the Plan to include a new Policy 14A and B that addresses the protection of biodiversity generally plus taonga species.</p>
<b>Policy 17 – Public access</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
2 – Federated Farmers	414	<p><b>Amend</b></p> <p>Submitter seeks that Policy 17 of the Plan be amended to read:</p> <p><i>Maintain and <u>as far as practical</u> enhance <u>where a demand exists</u>, public access to, along and adjacent to the coastal <del>environment</del> <u>marine area</u>, <u>while minimising conflict with other land users</u> by:</i></p> <p>(a) avoiding, remedying or mitigating any adverse effects of activities on public access;</p> <p>(b) <i>promoting the enhancement or restoration of public access including for the connection of areas of public open space, access to mahinga kai, access to sites of historical and/or cultural importance, improving outdoor recreation opportunities, access to surf breaks and providing access for people with disabilities; and</i></p> <p>(c) <del>only</del> <i>imposing a restriction on public access, including vehicles, where such a restriction is necessary to:</i></p> <p>(i) <i>protect significant natural or historic heritage values;</i></p> <p>(ii) <i>protect dunes, estuaries and other sensitive natural areas or habitats;</i></p> <p>(iii) <i>protect sites and activities of cultural value to Māori;</i></p> <p>(iv) <i>protect threatened or at risk indigenous species and rare and uncommon ecosystem types as identified in Schedule 4A;</i></p> <p>(v) <i>protect public health or safety, including where the safety of other coastal or beach users is threatened by inappropriate use of vehicles on beaches and vessels offshore;</i></p> <p>(vi) <i>provide for defence purposes in accordance with the Defence Act 1990 or port or airport purposes;</i></p> <p>(vii) <i>avoid or reduce conflict between public uses of the coastal marine area and its margins;</i></p> <p>(viii) <i>provide for temporary activities or special events;</i></p> <p>(ix) <i>ensure a level of security consistent with the activity, including protection of equipment; or</i></p>	<p><b>Accept in part</b></p> <p>Officers agree in part to the relief sought by the submitter.</p> <p>In particular, Officers agree that Policy 17 be aligned with Policy 19(2) of the <i>New Zealand Coastal Policy Statement</i> which refers to the “coastal marine area” (rather than coastal environment). The amendments do not change the policy intent of the Policy as it still quite clearly applies to the landward parts of the coastal environment adjacent to the coastal marine area.</p> <p>However, the submitter has also sought other changes to address their concerns on conflict between coastal public access and private ownership. Some of these changes were considered unnecessary in that public access over private land is subject to other legislation, are already adequately addressed within the Policy, and/or are not decision making considerations. However, other changes in response to this (and other submitters) proposed to the policy includes amending Clause (ix) to reads as follows:</p> <p><i>Maintain and enhance public access to, along and adjacent to the coastal <u>marine area</u> by: [...]</i></p> <p>(b) <i>promoting the enhancement or restoration of public access, <u>where demand exists</u>, including for the connection of areas of public open soace, improving outdoor recreation opportunities, access to surf breaks and providing access for people with disabilities; and</i></p> <p>(c) <i>imposing a restriction on public access, including vehicles, where such a restriction is necessary to: [...]</i></p> <p>(ix) <i>ensure a level of security <u>for lawfully established activities</u> consistent with the activity, including protection of equipment; [...]</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>(x) to maintain a level of security for lawfully established activities, users and management of areas within or adjacent to the coastal marine areas;</i></p> <p><i>(xi) where the coastal marine area is in private ownership; or</i></p> <p><i>(xii) provide for other exceptional circumstances where restriction to public access is justifiable;</i></p> <p><i>and alternative access routes for the public have been considered and provided where practicable.</i></p> <p><i>Public access over private land remains at the discretion of the landowner.</i></p>

Support noted. Policy 17(b) is retained subject to minor amendments as requested by other submitter that does not change the policy intent.</p>
20 – Meridian Energy Ltd	418	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 17 of the Plan to read:</p> <p><i>Maintain and enhance public access to, along and adjacent to the coastal <del>environment-marine area</del> by: [...]</i></p>	<p><b>Accept</b></p> <p>Officers agree to the relief sought by the submitter.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
20 – Meridian Energy Ltd	419	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Policy 17(c)(vii) of the Plan to clarify what sort of conflict it seeks to avoid or reduce between public uses of the coastal marine area and its margins. It is their view that the intention of the clause has not been clarified sufficiently.	No precise details of amendments sought to the Policy 17(c)(vii) to address the submitter's concerns have been provided. However, officers note that the Oxford Dictionary defines "conflict" as a serious disagreement or argument, typically a protracted one. What constitutes a conflict is likely to be determined on a case-by-case basis and depends upon a wider context. Officers therefore do not believe it is necessary to specify or list what constitutes conflict in the Policy and indeed there would be risks in doing so. Any referencing of specific conflicts is unlikely to cover all situations and circumstances. Potentially some conflicts could be unnecessarily identified and others not listed. Of note, the language is consistent with Policy 19(3)(f) of the <i>New Zealand Coastal Policy Statement</i> .
22 – Lyndon DeVantier	420	<b>Amend</b>	<b>Decline</b>
		Submitter support aspirations in Policy 17 of the Plan but opposed to Policy 17(c)(viii) providing for restrictions on public access necessary to provide for temporary activities or special events.	Of note, the language in Policy 17(c)(viii) of the Plan is consistent with Policy 19(3)(f) of the <i>New Zealand Coastal Policy Statement</i> , which the Council must give effects to.
33 - New Zealand Defence Force	421	<b>Support</b>	<b>Accept</b>
		Retain Policy 17 of the Plan as notified, particularly clause (c)(vi).	Support noted. Policy 17(c)(vi) is retained as currently notified.
35 – Radio New Zealand Ltd	422	<b>Support</b>	<b>Accept</b>
		Retain Policy 17 of the Plan as notified.	Support noted. Policy 17 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
40 – Te Rūnanga o Ngāti Mutunga	423	<b>Amend</b>	<b>Accept</b>
		Submitter does not support the promotion of public access to all of the iwi's sites of significance as detailed in Schedule 5B and requests to amend Policy 17(b) of the Plan to read: <i>Maintain and enhance public access to, along and adjacent to the coastal environment-by:</i> [...] <i>(b) promoting the enhancement or restoration of public access including for the connection of public open space, <del>access to mahinga kai, access to sites of historical and/or cultural importance</del> improving outdoor recreation [...]</i>	Officers agree that it may be inappropriate and unnecessary to promote public access to sites of significance to Māori and recommend granting the relief sought by the submitter.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
41 – Te Korowai o Ngāruahine Trust	424	<b>Amend</b>  Submitter notes concerns regarding public access to sites of significance to Māori and seeks amendment to Policy 17 of the Plan so as to not enhance public access to the coastal environment where that activity comprises the sites of significance (Schedule 5A and B) and where that access would adversely affect indigenous biodiversity, wāhi tapu and wāhi taonga.	<b>Accept</b>  Officers agree and recommend amending Policy 17(b) to remove reference to mahinga kai and sites of historical and/or cultural importance. In line with relief requested by this and other submitters, Policy 17(b) would read as follows: <i>(b) promoting the enhancement or restoration of public access including for the connection of public open space, improving outdoor recreation [...]</i>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	The other concerns addressed by the submitter are already recognised and provided for in Policy 18(c), which identifies instances for which public access may be restricted. Clause (c)(i) identifies significant natural or historic heritage values, (iii) identifies sites and activities of cultural value to Māori, and (iv) identifies indigenous species and eco system types identified in Schedule 4A.
42 – Ngati Rahiri Hapū	425	<b>Amend</b>  Submitter notes concerns regarding public access to sites of significance to Māori and seeks amendment to Policy 17(b) of the Plan to protect cultural sites from public access.	<b>Accept</b>  Officers agree and recommend amending Policy 17(b) to remove reference to mahinga kai and sites of historical and/or cultural importance. In line with relief requested by this and other submitters, Policy 17(b) would read as follows: <i>(b) promoting the enhancement or restoration of public access including for the connection of public open space improving outdoor recreation [...]</i>

46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	427	<b>Support</b>  Retain Policy 17 of the Plan as notified.	<b>Accept</b>  Support noted. Policy 17 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
47 – Fonterra	428	<b>Support</b>  Retain Policy 17 of the Plan as notified.	<b>Accept</b>  Support noted. Policy 17 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
	429	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
48 – Taranaki District Health Board		Retain Policy 17 of the Plan as notified.	Support noted. Policy 17 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
52 – Emily Bailey	430	<b>Amend</b> Submitter seeks amendment to Policy 17(c) of the Plan to restrict public access to cultural sites and privately owned land.	<b>Accept</b> Officers agree with the submitter that restrictions on public access may be appropriate in relation to cultural sites and privately owned land. However, it is the view of officers that these concerns are already recognised and provided for in the Policy. In particular, Policy 17(c)(iii) addresses restrictions to protect sites and activities of cultural value to Māori. However, to address the submitter's concerns, officers recommend amending Policy 17(b) to remove reference to promoting access to mahinga kai sites and sites of historical and/or cultural importance. Issues associated with public access on privately owned land are more appropriately addressed under other legislation and other plans and do not fall within the jurisdiction of this Council. Notwithstanding that, the issue of public access conflicting with private interests is implicitly covered by Clause (c)(ix) which is recommended to be amended to read: <i>(ix) ensure a level of security for lawfully established activities consistent with the activity, including protection of equipment;</i>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
58 – Te Atiawa	431	<b>Support</b> Submitter notes concerns regarding public access to sites of significance to Māori and seeks to amend Policy 17(b) of the Plan to read: <i>Maintain and enhance public access to, along and adjacent to the coastal environment by:</i> [...] <i>Promoting the enhancement or restoration of public access including for the connection of areas of public open space, <del>access to mahinga kai, access to sites of historical and/or cultural importance</del>, improving outdoor recreation [...]</i>	<b>Accept</b> Officers agree with the submitter that promoting public access to sites of significance may not be appropriate. Accordingly, it is recommended that Policy 17(b) be amended to delete reference to mahinga kai and sites of historical and/or cultural importance. In line with relief requested by this and other submitters, Policy 17(b) would read as follows: <i>(b) promoting the enhancement or restoration of public access, <u>where a demand exists</u>, including for the connection of public open space, improving outdoor recreation [...]</i>
59 – KiwiRail	432	<b>Support</b> Retain Policy 17 of the Plan as notified.	<b>Accept</b> Support noted. Policy 17 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
<b>Policy 18 – Amenity values</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
5 – Point Board Riders Ltd	433	<b>Support</b>	<b>Accept</b>
		Submitter supports Policy 18 of the Plan maintaining and enhancing significant amenity values associated with surf breaks identified in Schedule 7.	Officers note the submitter's support for Policy 18(b).
15 – Surfbreak Protection Society	434	<b>Amend</b>	<b>Decline</b>
		Submitter supports in part Policy 18 of the Plan but seeks amendments to Policy 18(c) noting that the Policy only seeks to maintain and enhance significant amenity values associated with those surf breaks identified in Schedule 7. The submitter believes that the current provisions are not consistent with section 5 of the RMA. The submitter wishes to see the protections within Policy 18(c) expanded to also include local surf breaks not listed in Schedule 7.	Officers note that Schedule 7 identifies 140 surf breaks of national, regional and local significance. Identification and classification of these surf breaks was a comprehensive and collaborative exercise involving community and expert advice to identify surf breaks across Taranaki. That exercise identified 140 surf breaks with attributes and characteristics triggering our significance criterion. The Council is unaware of any surf breaks that are not identified within Schedule 7 and would welcome any additional information that the submitter can offer.  The submitter believes that the current protections provided for are not consistent with section 5 of the RMA but has not indicated how or why this view is held. Officers have a contrary view and believe that the Council is to the forefront in surf break protection in New Zealand under the RMA.
20 – Meridian Energy	435	<b>Amend</b>	<b>Decline</b>
		Submitter wishes to see the reference to historic heritage deleted from Policy 18. The submitter notes that historic sites do not necessarily have any amenity values and that appropriate historic heritage matters are already covered in Policy 15 [Historic heritage].  Submitter seeks amendment to Policy 18 of the Plan to delete reference to historic heritage: <i>Maintain and enhance significant amenity values by avoiding, remedying or mitigating adverse effects on: [...]</i> <del>(d) historic heritage sites including those identified in Schedule 5.</del>	Officers recommend declining the relief sought by the submitter seeking that reference to historic heritage in Policy 18(d) be deleted.  Officer acknowledge the point made by the submitter, however, the inclusion of the term "historic heritage" was intentional noting that historic heritage is commonly associated with high amenity values. For example, the RMA definition of "historic heritage" includes sites of significance to Māori. As identified in Schedule 5 there are a number of historic sites and places that clearly overlap with amenity values. They include mahinga kai, mataitai, hi ika sites not counting wild or scenic values that may also be associated with these sites and places.  Officers note that many submitters have requested expanding Policy 18(d) in order to better recognise and provide for historic heritage sites that also have amenity values.

<b>Policy 19 – Surf breaks and Significant Surfing Area</b>			
2 – Federated Farmers	445	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan and associated planning maps to move the inland boundary of the Significant Surfing Area seaward to the mean high water springs or similar, to avoid potential (and probably unintended) restrictions on normal farming activities.</p>	<p><b>Accept</b></p> <p>The inland extent of the Significant Surfing Area was initially influenced by the Southern Taranaki District Council's coastal protection area with the intention of maintaining the seascape. However, the policy is primarily for the protection of surf breaks not landscape values and, therefore, after considering the implications this may have on privately owned land, officers recommend moving the inland extent of the Significant Surfing Area to the coastal marine area as requested.</p>
2 – Federated Farmers	446	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 19(b) and (d) to read: <i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities in the <del>coastal environment</del> <a href="#">Coastal Marine Area</a> by:</i></p> <p>(a) <i>avoiding adverse effects on:</i></p> <p>(i) <i>all nationally significant surf breaks as identified in Schedule 7; and</i></p> <p>(ii) <i>all surf breaks within the designated Significant Surfing Area as identified in Schedule 7;</i></p> <p>(b) <i>avoiding adverse effects on all regionally significant surf breaks, identified in Schedule 7, that are outside of the Significant Surfing Area unless the activity is necessary for the provision of regionally important infrastructure <a href="#">or farming activities</a>, avoidance of effects is not possible and adverse effects are remedied or mitigated;</i></p> <p>(c) <i>avoiding, remedying or mitigating adverse effects on all locally significant surf breaks listed in Schedule 7;</i></p>	<p><b>Accept in part</b></p> <p>Officers note that references to the “coastal environment” in Policy 19 (rather than “coastal marine area”) is intentional. It ensures that when managing adverse effects of use and development in the coastal marine area, there is wider consideration (through Policy 19) of effects on the wider coastal environment. Policy 19 and its application to the coastal environment promotes the integrated management of the wider area across environmental domains and local authority jurisdictional boundaries. This is consistent with Policy 4 of the <i>New Zealand Coastal Policy Statement</i> and contributes to meeting Objective 1 [Integrated management] of the Plan.</p> <p>Provisions for (b) is limited to regionally important infrastructure and officers do not agree that it should extend to include farming activities. However, officers note that the application of the Policy is through rules which pertain to activities in the coastal marine area. As such, land based farming activities are highly unlikely to create the types of effects outlined in (e).</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>(d) within the Significant Surfing Area, avoiding significant adverse effects and avoiding, remedying or mitigating other adverse effects on seascape, including development <i>within the Coastal Marine Area</i> which would have an adverse effect on the remote feel of the area; and</p> <p>(e) in managing adverse effects in accordance with clauses (a), (b) and (c), having regard to:</p> <p>(i) effects on the quality or consistency of the surf break by considering the extent to which the activity may: change or interrupt coastal sediment dynamics; change or interrupt swell within the swell corridor including through the reflection, refraction or diffraction of wave energy; or change the morphology of the foreshore or seabed; and</p> <p>(ii) the effects on <del>access to</del> surf breaks and other qualities of surf breaks, including natural character, water quality and amenity values.</p>	<p>Clause (d) relates to development within the Significant Surfing area, it is not necessary or appropriate to refer to the coastal marine area. Officers do not believe farming activities are particularly affected by this Policy. Notwithstanding that, officers suggest some of the submitter's concerns may be partially addressed by granting relief sought by other submitters whereby the landward extent of the Significant Surfing Area has been amended to be the mean high water springs.</p> <p>Within Clause (e)(ii), officers recommend granting the relief in part by removing reference to "access to". Access to surf breaks is one of many important consideration for managing adverse effects and it is suggested that this clause focus on other qualities of surf breaks. The revised Clause would read as follows:</p> <p>(ii) effects on other qualities and characteristics that contribute to use and enjoyment of surf breaks.</p>
Further submissions – Powerco (45)		Support in part	
5 – Point Board Riders	447	<p><b>Support</b></p> <p>Retain Policy 19 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 19 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>
15 – Surfbreak Protection Society	448	<p><b>Amend</b></p> <p>The submitter supports, in part, Policy 19 but seeks amendments to address concerns that Policy 19(b) only requires, in relation to activities necessary for the provision of Regionally Important Infrastructure, that adverse effects that cannot be avoided, to be remedied or mitigated.</p> <p>Also have concerns that Policy 19(c) only seeks to avoid, remedy or mitigate adverse effects on locally significant surf breaks identified in Schedule 7.</p>	<p><b>Decline</b></p> <p>Officers note the support in part recommend declining the relief sought by the submitter.</p> <p>Officers note that the Policy reference to "significant adverse effects" is intentional and considered appropriate as it recognises other statutory and societal obligations to provide for Regionally Important Infrastructure. "Regionally Important Infrastructure" is defined by the Plan and is confined to a relatively small list of infrastructure in Taranaki that are essential for to the social, economic and cultural well-being of the region. In the rare occasions when there may be conflict between the need to provide for regionally significant infrastructure and the need to protect regionally significant surfbreaks (not otherwise identified as nationally significant or being in the Significant Surfing Area) it might not be appropriate or practicable to avoid <u>all</u> adverse effects. In such circumstances, officers believe it would be appropriate to weigh all values and canvas all management options, which include avoidance, remediation and/or mitigation.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
19 – South Taranaki District Council	449	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 19 to read:  <i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities <u>to</u>by:</i>                      (a) avoid, <u>remedy or mitigate</u> significant adverse effects on: [...]                      OR                      remove reference to “natural character” and “amenity values” from Policy 19(e)(ii).</p>	<p><b>Accept</b></p> <p>The submitter notes that the Taranaki Regional Council is wishing to provide a higher level of protection for a higher number of surf breaks than required by the <i>New Zealand Coastal Policy Statement</i>. The submitter suggests that under Policy 19 it would be very difficult for any activity that gives rise to any adverse effects on amenity or natural character to find support because the policy does not refer to an acceptable level of effects or provide for effects to be remedied or mitigated.</p> <p>Officers note the concerns of the submitter and recommend granting the relief sought by the submitter by amending Policy 19(e)(ii) to delete reference to “natural character” and “amenity values”.</p>
Further submissions – Powerco (45)		Support in part	
22 – Lyndon DeVantier	450	<p><b>Other</b></p> <p>Submitter supports aspirations in Policy 19 but raises concerns relating to impacts arising from the Significant Surfing Area, the engagement process, and the threats posed by surfing competitions and increased visitor numbers.</p>	<p><b>No relief necessary</b></p> <p>The submitter does not expressly request amendments to Policy 19 but does highlight a number of concerns, presumably in opposition to the concept of the Significant Surfing Area, that warrant a response.</p> <p>Concerns relating to the engagement process are noted. However, officers note that the proposals to identify and provide a high level of protection to all surf breaks between Kahihi Road and Cape Road originated from a consultant’s report entitled <i>Taranaki Surf breaks of National Significance</i>, with attributes of surf breaks in that area being later confirmed through an online community survey. The proposal was further consulted on through a Draft Proposal that was widely distributed to interested parties and then the Proposed Plan.</p> <p>Concerns raised by the submitter primarily relate to matters outside the jurisdiction of the Council. They include issues around conflict between organised events, overcrowding at surf breaks, tourism impacts on the environment, freedom camping, and the provision of infrastructure. The concerns are valid and though largely outside the regulatory framework of the Plan (whereby the rules apply to the coastal marine area only), it does highlight the importance of Plan methods and the need for this Council, district councils and other parties to work together to address the concerns.</p>
26 – Transpower NZ Ltd	451	<p><b>Amend</b></p> <p>The submitter wishes to amend Policy 19 in order to bring the Policy into closer alignment with Policy 8 [Aquaculture] of the <i>New Zealand Coastal Policy Statement</i> by amending Policy 19(b) to read:</p>	<p><b>Accept in part</b></p> <p>The submitter requests that the word “<i>possible</i>” has a very confined meaning and conveys only a technical requirement whereas there may be a variety of other reasons why adverse effects cannot be avoided. The suggested replacement “<i>practicable</i>” is in accordance with the <i>Policy 8 National Policy Statement for</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities by:</i></p> <p>[...]</p> <p><i>(b) avoiding adverse effects on all regionally significant surf breaks, identified in Schedule 7, that are outside of the Significant Surfing Area;</i></p> <p><i>unless following a route, site and method selection process, the activity is necessary for the provision of regionally important infrastructure, avoidance of adverse effects is not possible practicable and adverse effects are remedied or mitigated to the extent reasonably practicable; [...]</i></p>	<p><i>Electrical Transmission.</i> The submitter also requests to include “adverse” effects within the Policy to clarify that it is adverse effects which are the issue. Officers agree with these aspects of the submitters request, however, the use of “following a route, site and method selection process” is considered unnecessary as it confines the scope of the provision and may not be appropriate for all types of activities.</p>
32 – Port Taranaki	452	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy19(b) of the Plan to read:</p> <p><i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities by:</i></p> <p>[...]</p> <p><i>(b) avoiding adverse effects on all regionally significant surf breaks, identified in Schedule 7, that are outside of the Significant Surfing Area;</i></p> <p><i>unless the activity is necessary for the provision of regionally important infrastructure, avoidance of effects is not possible, and adverse effects are remedied or mitigated; [...]</i></p>	<p><b>Accept in part</b></p> <p>The submitter is concerned that Policy 19(b) and the exemption for regionally important infrastructure is unclear. In particular, the submitter is concerned that the provision that avoidance of effects is not possible is ambiguous and potentially sets unrealistic expectations.</p> <p>Officers agree in part to the relief sought by the submitter but recommend an alternative relief based upon a relief sought by another submitter (see above) with similar concerns. The amended policy would read as follows:</p> <p><i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities by:</i></p> <p><i>(a) avoiding adverse effects on:</i></p> <p><i>(i) nationally significant surf breaks as identified in Schedule 7; and</i></p> <p><i>(ii) surf breaks within the designated Significant Surfing Area as identified in Schedule 7;</i></p> <p><i>(b) avoiding significant adverse effects on all regionally significant surf breaks, identified in Schedule 7, that are outside of the Significant Surfing Area;</i></p> <p><i>unless the activity is necessary for the provision of regionally important infrastructure, avoidance of adverse effects is not practicable and adverse effects are remedied or mitigated to the extent reasonably practicable; [...]</i></p>
41 – Te Korowai o Ngāruahine Trust	453	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 19 of the Plan to ensure the protection of the surf breaks is not incompatible with the traditional cultural sites of significance, including those set out in Schedule 5B.</p>	<p><b>Accept in part</b></p> <p>Officers note that all General Policies (and relevant Activity-specific Policies) must be considered together. Accordingly, all activities, not just those associated with protection of surfing values, need to consider adverse effects on traditional cultural</p>

Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	<p>sites of significance, including those set out in Schedule 5B. The submitter has highlighted an issue in this part of the Policy whereby some associative values have been identified (and not others) thereby potentially derogating from the aforementioned approach. It is not considered necessary to paraphrase other Policies and indeed there are risks in doing so. Officers recommend an alternative relief whereby Policy 19(e) is reframed to focus only on surfing attributes and adverse effects on other values be addressed in their relevant policies elsewhere (e.g. under the relevant natural character, historic heritage or public access policies).</p> <p>The amended Policy 19(e) would read as follows:</p> <p><i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities by:</i></p> <p><i>(e) in managing adverse effects in accordance with clauses (a), (b) and (c), having regard to:</i></p> <p><i>(i) effects on the quality or consistency of the surf break by considering the extent to which the activity may: change or interrupt coastal sediment dynamics; change or interrupt swell within the swell corridor including through the reflection, refraction or diffraction of wave energy; or change the morphology of the foreshore or seabed; and</i></p> <p><i>(ii) effects on other qualities and characteristics that contribute to use and enjoyment of surf breaks.</i></p>
43 – Royal Forest and Bird Protection Society	454	<p><b>Support</b></p> <p>Retain Policy 19 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 19 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>
45 – Powerco	455	<p><b>Support</b></p> <p>Retain Policy 19 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 19 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>
49 – Cam Twigley	456	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 19(d) of the Plan to read:</p> <p><i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities by: [...]</i></p> <p><i>(d) within the Significant Surfing Area, avoiding <b>significant</b> adverse effects and avoiding, remedying or mitigating other adverse effects on seascape, including</i></p>	<p><b>Grant in kind</b></p> <p>Submitter believes that Policy 19(d) is in conflict with Policy 19(a)(ii) in relation to the levels of protection provided for. In Policy 19(a) there is a requirement to avoid adverse effects of all surf breaks within the designated Significant Surfing Area while in Policy 19(d) there is only need to avoid significant adverse effects.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>development which would have an adverse effect on the remote feel of the area; and in managing adverse effects in accordance with clauses (a), (b) and (c), having regard to: [...]</i></p>	<p>Officers agree that there are conflicts between the differing levels of protection for the Significant Surfing Area provided in Clauses (a) and (d) of Policy 19, which require resolving.</p> <p>Clause (d) refers to seascapes. Officers recommend an alternative relief to that proposed by the submitter by deleting Clause (d).</p> <p>Seascapes are more appropriately provided for under Policy 8(b) [Areas of outstanding value] and/or Policy 9 [Natural character]. In response to reliefs sought by other submitters to the planning maps, officers have recommended confining the extent of the significant surfing zone to the coastal marine area line and removing the inland component of the coastal environment. This amendment makes Clause (d) redundant as seascapes are no longer captured within the designated area.</p>
58 – Te Atiawa	457	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 19 of the Plan to ensure that the protection of the surf breaks is not incompatible with the traditional cultural uses expressed by Māori in Schedules 5B.</p>	<p><b>Accept</b></p> <p>Officers note that all General Policies (and relevant Activity-specific Policies) must be considered together. Accordingly, all activities, not just those associated with protection of surfing values, need to consider adverse effects on traditional cultural sites of significance, including those set out in Schedule 5B. The submitter has highlighted an issue in this part of the Policy whereby some associative values have been identified (and not others) thereby derogates from the aforementioned approach. It is not considered necessary to paraphrase other policies and indeed there are risks in doing so. Officers recommend an alternative relief whereby Policy 19(e) is reframed to focus only on surfing attributes and adverse effects on other values be addressed in their relevant policies elsewhere (e.g. under the relevant natural character, historic heritage or public access policies).</p> <p>The amended Policy 19(e) would read as follows:</p> <p><i>Protect surf breaks and their use and enjoyment from the adverse effects of other activities by:</i></p> <p><i>(e) in managing adverse effects in accordance with clauses (a), (b) and (c), having regard to:</i></p> <p><i>(i) effects on the quality or consistency of the surf break by considering the extent to which the activity may: change or interrupt coastal sediment dynamics; change or interrupt swell within the swell corridor including through the reflection, refraction or diffraction of wave energy; or change the morphology of the foreshore or seabed; and</i></p> <p><i>(ii) effects on other qualities and characteristics that contribute to use and enjoyment of surf breaks.</i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Policy 20 – Avoidance of increasing coastal hazard or public safety risks</b>			
2 – Federated Farmers	458	<b>Other</b>	<b>No relief necessary</b>
		Submitter seeks that provisions designed to protect against coastal hazards avoid unnecessarily capturing farm infrastructure.	Officers recognise the concerns of the submitter but note that Policy 20 only addresses infrastructure that <b>increases</b> the risk from coastal hazards and is therefore more likely to protect farm infrastructure at risk from natural hazards such as coastal erosion.
6 – Trans-Tasman Resources Ltd	459	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment Policy 20 of the Plan to read: <i>Avoid increasing the risk of social, environmental and economic harm from coastal hazards <del>or posing a threat and avoid increased risks</del> to public health and safety, or aircraft or navigation safety including by:[...]</i>	Officers agree and recommend amending Policy 20 to read: <i>Avoid increasing the risk of social, environmental and economic harm from coastal hazards <b>and avoid increased risks</b> to public health and safety, or aircraft or navigation safety including by: [...]</i>
		Further submissions – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)	Support in part
Further submissions – Taranaki Energy Watch – Support)		Support	
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	460	<b>Amend</b>	<b>Grant in kind</b>
		Submitter supports Policy 20 of the Plan subject to following amendments: <i>Avoid <b>unacceptable</b> increasesing in the risk of social, environmental and economic harm from coastal hazards or posing a threat to public health and safety, or aircraft or navigation safety including by:[...]</i>	The submitter's concern that the Policy might be interpreted to "excluding any increase in [natural hazard] risk" is noted. However, officers note that the current Policy is aligned with Policy 25(a) of the <i>New Zealand Coastal Policy Statement</i> and the use of the term "unacceptable" would be ambiguous thereby reducing the certainty and clarity to those applying the policy.  To address the submitter's concerns an alternative relief is proposed (based upon a relief sought by another submitter) that amends Policy 20 to reads as follows: <i>Avoid increasing the risk of social, environmental and economic harm from coastal hazards <b>and avoid increased risks</b> to public health and safety, or aircraft or navigation safety including by: [...]</i>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
48 – Taranaki District Health Board	461	<b>Support</b>	<b>Accept</b>
		Retain Policy 20 of the Plan as notified.	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Port Taranaki Ltd (32)		Oppose	Support noted. Policy 20 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
<b>Policy 21 – Natural hazard defences</b>			
2 – Federated Farmers	462	<b>Amend</b> Submitter supports in part Policy 21 of the Plan but seeks that provisions designed to protect against coastal hazards avoid unnecessarily capturing farm infrastructure.	<b>No relief necessary</b> Officers note that Policy 21 relates to natural hazard defences, therefore, any capture of farm infrastructure is likely to be very limited.
42 – Ngati Rahiri Hapū	463	<b>Amend</b> Submitter supports Policy 21 of the Plan but seek amendment to show how or what will be done to provide a natural defence from coastal hazards.	<b>Decline</b> Policy 21 gives effect to Policy 26 [Natural defences against coastal hazards] of the <i>New Zealand Coastal Policy Statement</i> . It recognises that natural defences should be provided for where appropriate, however, officers do not believe it is necessary to go into the details of how this is to be achieved. Such detail is better outlined elsewhere in the Plan and through consenting processes. Section 6 [Methods of implementation] sets out non regulatory methods for addressing natural hazard defences. The Policy will also inform consenting processes associated with implementing rules. The detail as to how or what will be done to provide a natural hazard defence should be considered at the consenting level having regard to all the relevant policies, methods and rules.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	464	<b>Support</b> Retain Policy 21 of the Plan as notified.	<b>Accept</b> Support noted. Policy 21 is retained as currently notified.
Further submissions – Port Taranaki Ltd (32)		Support	
<b>Section 5.2 – Activity-based policies</b>			
57 – Heritage New Zealand	465	<b>Amend</b> Submitter seeks amendment to the preamble in Section 5.2 [Activity-based policies] of the Plan to read: <i>[...] The activity-based policies must be considered alongside the general policies and never in isolation. <u>Where a policy in this section conflicts with a general policy in 5.1, the general policy takes precedence.</u></i>	<b>Accept</b> The submitter wishes to clarify the relationship between the General Policies in 5.1 and the activity-based policies, in particular, set out what takes precedence when the policies in each section are in conflict. The submitter considers the general policies should take precedence and the activity-based policies function be to provide additional detail.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose	Officers agree noting that this is how the Plan provisions should be read and applied. It is therefore recommended that section 5.2 be amended with slightly different wording to maintain consistency throughout the Plan that achieves the intent sought by the submitter.
<b>Policy 22 – Discharge of water or contaminants to coastal water</b>			
8 – Silver Fern Farms	466	<b>Support</b> Retain Policy 22 of the Plan to provide for the discharge of contaminants to coastal waters, where it is the most practicable option.	<b>Accept</b> Support noted. Policy 22 is retained subject to minor amendments as requested by other submitters that does not change the policy intent.
Further submissions – Federated Farmers (2)		Support	
15 – Surfbreak Protection Society	467	<b>Other</b> Submitter supports in part Policy 22 of the Plan but question what and how to measure “acceptable quality”.	<b>No relief necessary</b> The term “acceptable quality” recognises that discharges of water or contaminants to water in the coastal marine area takes many forms – ranging from point source discharges to land runoff of rainfall. The effects of the discharges are likely to vary based upon the type volume of contaminants in the discharge plus location. Policy 22(a) therefore necessarily requires discharges to be considered on a case-by-case basis that determines the acceptability of the discharge based upon the matters considered in Policy 22(a)(i) to (iii). These relate to having regard to the sensitivity of the receiving environment, including associated values, the nature and concentration of the contaminants and the efficiency of waste reduction, treatment and disposal measures and the capacity of the receiving environment to assimilate the contaminants. What is considered “acceptable quality” will be determined on a case-by-case basis through the consenting process being directed by the requirements of Policy 22 (in addition to any other requirements arising from the General Policies).
33 - New Zealand Defence Force	468	<b>Support</b> Retain Policy 22 of the Plan as notified.	<b>Accept</b> Support noted. Policy 22 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
40 – Te Rūnanga o Ngāti Mutunga	469	<b>Amend</b> Submitter seeks amendment to Policy 22 of the Plan to read: <i>Discharges of water or contaminants to water in the coastal marine area <del>will</del> <u>must</u>: [...]</i>	<b>Accept</b> The use of terms with similar meanings such as “must”, “will” and “shall” has been alternatively adopted throughout many second generation planning documents, including national policy statements and regional plans.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>A number of submitters have identified they prefer the term “must”, instead of “will” in relevant policies. Some have argued that the use of the term “must” is more legally robust. Officers have no objection to making the change noting that the policy intent of this Policy is that the activity needs to comply with the provision.</p> <p>Unless the context indicates otherwise, officers recommend additional consequential amendments throughout Plan policies to align language to consistently refer to ‘must’.</p>
43 – Royal Forest and Bird Protection Society	470	<p><b>Support</b></p> <p>Retain Policy 22 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 22 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>
Further submissions – Port Taranaki Ltd (32)		Support	
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	471	<p><b>Amend</b></p> <p>Submitter supports Policy 22 of the Plan subject to following amendments:  <i>Discharges of water or contaminants to water in the coastal marine area will:</i>  <i>(a) be of an acceptable quality with regard to:</i>  <i>(i) the sensitivity of the receiving environment;</i>  <i>(ii) the nature and concentration of the contaminants to be discharged and the efficacy of <del>waste</del> <u>contaminant</u> reduction, treatment and disposal measures [...]</i></p>	<p><b>Accept in part</b></p> <p>The submitter wishes to amend the policy to provide greater clarity for Plan users regarding Policy 22(a)(ii).</p> <p>Officers agree that there is no need to focus on “waste” when referring to reduction, treatment and disposal measures in the Policy and recommend an alternative relief that deletes the term. The revised Policy 22(a)(ii) would read as follows:  <i>(ii) the nature and concentration of the contaminants to be discharged and the efficacy of reduction, treatment and disposal measures; [...]</i></p>
47 – Fonterra	472	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 22(c), (d) and (e) of the Plan to read:  <i>Discharges of water or contaminants to water in the coastal marine area will:</i>  <i>[...]</i>  <i>(c) Adopt the best practicable option <u>for the treatment and discharge</u> to prevent or minimise adverse effects on the environment [...]</i>  <i>(d) be required, where appropriate, to reduce adverse environmental effects through a defined programme of works <u>over an appropriate timeframe</u> set out as a condition of consent for either new resource consents or during a renewal or review process for existing resource consents;</i></p>	<p><b>Accept</b></p> <p>The submitter considers that Policy 22(c) does not sufficiently identify the circumstances in which the best practicable option should be implemented. They suggest the amendment would ensure consistency with the definition of “best practicable option” as set out in the RMA. Officers recommend amending Clause (c) requested.</p> <p>For Clause (d) the submitter considers it necessary to make reference to the programme of works occurring over an appropriate timeframe. Officers agree to the proposed relief as it is reasonable to allow an appropriate timeframe where it is set out within a resource consent.</p> <p>The submitter seeks to amend Clause (e) to refer to “life supporting capacity”. This would maintain consistency with Policy 23(1)(e) and (f) of the <i>New Zealand Coastal Policy Statement</i>. Officers agree to this amendment as sought by the submitter.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>(e) use the smallest mixing zone necessary to achieve the required water quality in the receiving environment and minimise as far as practicable the adverse effects <u>on life supporting capacity</u> within the mixing zone; [...]</i>	
48 – Taranaki District Health Board	473	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Policy 22 of the Plan to read: <i>Discharges of water or contaminants to water in the coastal marine area <del>will</del> <u>must</u>: [...]</i>	The use of terms with similar meanings such as “ <i>must</i> ”, “ <i>will</i> ” and “ <i>shall</i> ” has been alternatively adopted throughout many second generation planning documents, including national policy statements and regional plans.  A number of submitters have identified they prefer the term “ <i>must</i> ”, instead of “ <i>will</i> ” in relevant policies. Some have argued that the use of the term “ <i>must</i> ” is more legally robust. Officers have no objection to making the change noting that the policy intent of this Policy is that the activity needs to comply with the provision.  Unless the context indicates otherwise, officers recommend additional consequential amendments throughout Plan policies to align language to consistently refer to ‘ <i>must</i> ’.
51 - Taranaki Energy Watch	474	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Policy 22 of the Plan to incorporate a precautionary approach.	A precautionary approach is set out in Policy 3 of the Plan and, as a General Policy, applies to all activities in the coastal environment, regardless of which coastal management area the activity may fall within. For this reason, it is unnecessary to repeat the provisions of Policy 3 within Policy 22. Both policies must be read and applied together.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
60 – Te Kaahui o Rauru	475	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Policy 22(a) of the Plan to include Māori values as a criteria for acceptable quality.	Officers note that the sensitivity of the environment will vary depending upon location and, amongst other things, associative values, which include Māori but also other values. In order to more explicitly recognise associative uses and values associated with coastal waters, officers recommend an amendment to Policy 22(a)(i) to read: <i>Discharges of water or contaminants to water in the coastal marine area will:</i> <i>(a) be of an acceptable quality with regard to:</i> <i>(i) the sensitivity of the receiving environment <u>and associated uses and values</u>; [...]</i>  Officers also note that (f) refers to adverse effects generally, which includes Māori values. Policy 22 needs to be read in conjunction with the General Policies, including Policies 12 and 13.

<b>Policy 23 – Discharge of untreated human sewage</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
15 – Surfbreak Protection Society	476	<b>Support</b>	<b>Accept</b>
		Retain Policy 23 of the Plan prohibiting discharges of untreated human sewage.	Support noted. Policy 23 is retained as notified.
40 – Te Rūnanga o Ngāti Mutunga	477	<b>Support</b>	<b>Accept</b>
		Retain Policy 23 of the Plan prohibiting discharges of untreated human sewage.	Support noted. Policy 23 is retained as notified.
43 – Royal Forest and Bird Protection Society	478	<b>Support</b>	<b>Accept</b>
		Retain Policy 23 of the Plan as notified.	Support noted. Policy 23 is retained as notified.
48 – Taranaki District Health Board	479	<b>Support</b>	<b>Accept</b>
		Retain Policy 23 of the Plan as notified.	Support noted. Policy 23 is retained as notified.
<b>Policy 24 – Discharge of treated wastewater containing human sewage</b>			
15 – Surfbreak Protection Society	480	<b>Other</b>	<b>No relief necessary</b>
		Submitter suggests Policy 24 of the Plan is in conflict with other water quality policies and seems more permissive.	<p>The submitter has not indicated how or where such conflicts occur nor what specific relief is sought to alleviate their concerns.</p> <p>Officers do not consider Policy 24 to be permissive or to be in conflict with other policies relating to discharges to the coastal marine area. Policy 24 recognises that there are circumstances when treated discharges of wastewater containing human sewage may be appropriate (most cities in New Zealand discharge wastewater either directly or indirectly to the coastal marine area). The Policy only allows existing discharges to the open coast and only following careful evaluation of alternatives to discharging (including land disposal and wetland treatment) and consultation with tangata whenua and the community generally. Through the consenting process (whereby such discharges are confined to the Open Coast coastal management area and are processed as a Discretionary Activity) Policy 24 would be read alongside all other General Policies and is required to fulfil the other General Policies as well as Policy 24.</p> <p>Officers note that amendments have been made to the introduction of Section 5.2 of the Plan to clarify that in the event of any inconsistency between an Activity-specific Policy and a General Policy, the General Policy will take precedence.</p>
	481	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
40 – Te Rūnanga o Ngāti Mutunga		Submitter seeks amendment to Policy 24 of the Plan to replace proposed Policy so as to prohibit any discharges of wastewater to the coastal marine area with: <u>Discharges of treated wastewater containing human sewage will not be allowed.</u>	<p>Officers recommend declining the relief sought by the submitter.</p> <p>The relief sought would immediately preclude existing lawful discharges of municipal waste discharges to the coastal marine area in the absence of any other practicable options. To divert the quantities of waste onto land or other receiving environments is likely to be impracticable due to fiscal and technical constraints plus result in worst environmental outcomes due to the quantities involved and the lack of suitable locations to ensure the waste can be properly and safely assimilated to avoid, minimise or mitigate adverse environmental effects.</p> <p>Officers note Taranaki only has three municipal wastewater discharges. The resource consents for these marine outfalls include conditions that the consent holder must adhere to. These conditions are designed to prevent adverse effects by including limits on the discharge (pertaining to quality and quantity) and impact on the receiving environment. Consent holders must regularly reassess whether the current system remains to be the best practicable option, in light of technological advances and changing circumstances. Community involvement in the monitoring and management of these discharges, through involvement plans and stakeholder meetings, is also required in the resource consents.</p> <p>Officers suggest that some provision must be made in the policies and the rules to provide for the discharge of wastewater that contains treated human sewage. Most New Zealand cities discharge water directly or indirectly into the coastal marine area. However, this rule is a Discretionary Activity, which means a resource consent may be granted or declined subject to the policies. A discharge consent application is subject to meeting the directions and guidance set out in General Policies 1 to 21 and Activity-specific Policies 22, 24 and 26. With these policies any discharge of treated wastewater must be of an acceptable quality and can only be considered when more appropriate alternatives have been considered. These Plan provisions are in line with the requirements of the <i>New Zealand Coastal Policy Statement</i> Policy 23 [Discharge of contaminants] (2) and (3) and meets the requirements of the RMA.</p> <p>It is the officers' view that providing the option to consider existing discharges of treated wastewater into the coastal marine area is necessary in order to provide for the requirements of the general public. Officers are satisfied that through the resource consents process, adverse environmental effects can be appropriately avoided, remedied or mitigated. Policy 26 in particular is highlighted whereby it is Council's expectation that the best practicable option be adopted to improve the quality of the discharge and reduce the quantity of the discharge. Of note, other changes are</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Officers recommend amending Policy 25 to read as follows: <i>New discharges of treated wastewater containing human sewage <u>are not allowed</u>.</i>
48 – Taranaki District Health Board	490	<b>Support</b> Submitter notes their view that Policy 25 meets the section 5 purpose of the RMA and also requirements under the <i>Health Act 1956</i> to protect the health of the public. Retain Policy 25 of the Plan as notified.	<b>Decline</b> Submitter's comments relating to the protection of public health are noted. However, officers note that in response to other submitters it is recommended that Policy 25 be amended to preclude new discharges to the entire coastal marine area (previously new discharges were precluded from all parts of the coastal marine area except for the Open Coast). Notwithstanding the above, officers believe that these amendments will contribute to better public health outcomes as sought by the submitter.
Further submissions – Port Taranaki Ltd (32)		Support	
58 – Te Atiawa	491	<b>Amend</b> Submitter seeks amendment to Policy 25 of the Plan to read: <i>New discharges of treated wastewater containing human sewage will <u>not occur not be allowed</u> in the coastal management areas: Outstanding Value, Estuaries Unmodified, Estuaries Modified and Port.</i>	<b>Accept</b> Officers agree that the proposed wording provides a stronger directive for Plan users, however, in response to relief sought by other submitters, officers recommend an alternative relief to prohibit all new discharges of treated wastewater containing human sewage to the coastal marine area, including the Open Coast coastal management area. Amendments to Policy 25 would read as follows: <i>New discharges of treated wastewater containing human sewage <u>are not allowed</u>.</i>
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
<b>Policy 26 – Improving existing wastewater discharges</b>			
5 – Point Board Riders	492	<b>Support</b> Retain Policy 26 of the Plan seeking to improve existing wastewater discharges to coastal waters.	<b>Accept</b> Support noted. Policy 26 is retained as notified.
15 – Surfbreak Protection Society	493	<b>Support</b> Retain Policy 26 of the Plan seeking to improve existing wastewater discharges to coastal waters.	<b>Accept</b> Support noted. Policy 26 is retained as notified.
23 – New Plymouth District Council	494	<b>Support</b> Retain the use of the phrase “best practicable option” in Policy 26(a) of the Plan.	<b>Accept</b> Support noted. Policy 26 is retained as notified.
40 – Te Rūnanga o Ngāti Mutunga	495	<b>Support</b> Submitter supports Policy 26 of the Plan but, in relation to Clause (b), seeks that the Taranaki Regional Council work with current consent holders to see if	<b>Accept</b> Officers note that the Council annually monitors and works with current consent holders to not only ensure compliance with consent conditions, which include

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		improvements could occur within the shortest possible time rather than allowing it to occur until the end of the current consent.	regularly reassessments to ensure the current system remains the best practicable option, in light of technological advances and changing circumstances. Community involvement in the monitoring and management of these discharges, through involvement plans and stakeholder meetings, is also required in the resource consents.  Through this process, improvements are expected to occur within the shortest possible time frame rather than allowing it to occur only once the current consent time has lapsed.
41 – Te Korowai o Ngāruahine Trust	496	<b>Other</b>	<b>No relief necessary</b>
		Submitter support Policy 26 of the Plan and the implementation of the best practicable option and suggests that the adoption of the Plan would require a section 128 review of existing wastewater consents under the RMA.	Comments noted.
43 – Royal Forest and Bird Protection Society	497	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment of Policy 26 of the Plan to include a new clause giving priority to improving water quality in outstanding and significant areas.	Officers note that all General Policies (Policies 1 – 21) and relevant Activity-specific Policies need to be read together. General Policies already address the protection of outstanding and significant areas with Policy 12 being particularly relevant in that it targets areas where there are wastewater discharges that have impacted on coastal water quality and where Council will be seeking a restoration of that water quality. Officers further note Policy 25 prohibits any new wastewater discharges to the coastal marine area other than the Open Coast coastal management area (i.e. no discharges to outstanding areas or estuaries).
47 – Fonterra	498	<b>Support</b>	<b>Accept</b>
		Retain Policy 26 of the Plan as notified.	Support noted. Policy 26 is retained as notified.
48 – Taranaki District Health Board	499	<b>Support</b>	<b>Accept</b>
		Retain Policy 26 of the Plan as notified.	Support noted. Policy 26 is retained as notified.

58 – Te Atiawa	500	<b>Support</b>	<b>Accept</b>
		Submitter supports Policy 26 and the wording “no further consent will be granted”.	Support noted. Policy 26 is retained as notified.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Policy 27 – Discharges of stormwater</b>			
40 – Te Rūnanga o Ngāti Mutunga	501	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to Policy 27 of the Plan to include a new Clause (a)(vi) that reads:</p> <p><i>Discharges of stormwater to the coastal marine area will be appropriately managed by:</i></p> <p>(a) <i>adequate consideration of: [...]</i></p> <p><i>(vi) Location of discharge in relation to sensitive areas; [...]</i></p>	<p>Officers recommend amending Policy 27 by including a new clause that any discharge is of an acceptable quality having regard to the location of scheduled and other values sensitive to the effects of stormwater discharges. Other submitters have also submitted on this issue. Having regard to all the submissions, officers recommend that a new Clause (a)(iiiA) be included that reads as follows:</p> <p><i>Discharges of stormwater to the coastal marine area will be appropriately managed by:</i></p> <p>(a) <i>adequate consideration of: [...]</i></p> <p><i>(iiiA) the location of the discharge in relation to avoiding, remedying or mitigating any adverse environmental effects;</i></p>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
41 – Te Korowai o Ngāruahine Trust	502	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to Policy 27 of the Plan to read:</p> <p><i>Discharges of stormwater to the coastal marine area will be appropriately managed by:</i></p> <p>(a) <i>adequate consideration of:</i></p> <p><i>[...]</i></p> <p><i>(iii) the use of measures (which may include treatment) to prevent or minimise contamination of the receiving environment</i></p> <p>AND</p> <p>Refer to preventing discharges to any sensitive area of sites of significance.</p>	<p>Officers recommend amending Policy 27(a)(iii) and including a new clause that any discharge is of an acceptable quality having regard to the location of scheduled values sensitive to the effects of stormwater discharges. These changes will provide the relief sought by the submitter and read:</p> <p><i>Discharges of stormwater to the coastal marine area will be appropriately managed by:</i></p> <p>(a) <i>adequate consideration of: [...]</i></p> <p><i>(iii) the use of measures (including treatment) to prevent or minimise contamination of the receiving environment</i></p> <p><i>(iiiA) the location of the discharge in relation to avoiding, remedying or mitigating any adverse environmental effects;</i></p>
43 – Royal Forest and Bird Protection Society	503	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment to Policy 27 of the Plan to include reference to matters set out in Policy 23(1) of the <i>New Zealand Coastal Policy Statement</i>.</p>	<p>Officers do not recommend granting the relief sought by the submitter on the basis that the issues raised are already appropriately covered in other policies. Policy 23(1) [Discharge of contaminants] of the <i>New Zealand Coastal Policy Statement</i> is appropriately covered by Policy 22 and 23 of the Plan. Policy 27 covers the requirements set out in Policy 23(4) of the <i>New Zealand Coastal Policy Statement</i>.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			As noted previously, all General Policies 1 - 21 and relevant Activity-specific Policies, including both Policies 23 and 27 of the Plan, must be read together. It is officers' view that, in doing so, Plan policies collectively address the matters covered in Policy 23(1) of the <i>New Zealand Coastal Policy Statement</i> .
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	504	<b>Support</b> Retain Policy 27 of the Plan as notified.	<b>Accept</b> Support noted. Policy 27 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
Further submissions – Transpower NZ Ltd (26), Port Taranaki Ltd (32)		Support	
47 – Fonterra	505	<b>Amend</b> Submitter seeks amendment to Policy 27 Of the Plan to include a new Clause (d) that reads: <i>Discharges of stormwater to the coastal marine area will be appropriately managed by:</i> [...] <i><u>(d) the adoption of the best practicable option for the treatment and discharge of stormwater to the coastal marine area to minimise adverse effects.</u></i>	<b>Accept</b> The submitter generally supports Policy 27 but wishes to see reference to the implementation of the best practicable option for the treatment and discharge of stormwater into the coastal environment. Officers recommend granting the relief sought by the submitter as it provides added certainty for Plan users as to how stormwater discharges will be managed.
48 – Taranaki District Health Board	506	<b>Support</b> Retain Policy 27 as notified.	<b>Accept</b> Support noted. Policy 27 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
58 – Te Atiawa	507	<b>Amend</b> Submitter seeks amendment to Policy 27(a)(iii) and (v) of the Plan and include a new Clause (vi) to read: <i>Discharges of stormwater to the coastal marine area will be appropriately managed by:</i> <i>(a) adequate consideration of: [...]</i> <i>(iii) the use of measures <del>(which may include including treatment)</del> to prevent or minimize contamination of the receiving environment; [...]</i> AND	<b>Accept in part</b> The submitter seeks to amend some of the wording within Policy 27 to provide more certainty for Plan users in regards to how stormwater discharge will be managed. Officers agree to amend Policy 27 by replacing the reference to “ <i>which may include</i> ” with “ <i>including treatment</i> ”. However, it is not considered appropriate to remove reference to “where appropriate” from the policy as it recognises that integrated management of whole stormwater catchments and stormwater networks might not always be practicable or appropriate. Officers have noted the support from other submitters for the inclusion of a new clause that any discharge is having regard to the location of scheduled and other

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>(v) <i>integrated management of whole stormwater catchments and stormwater networks <del>where appropriate.</del></i></p> <p>AND</p> <p><u>(vi) <i>location of the discharge in relation to sensitive areas.</i></u></p>	<p>values sensitive to the effects of stormwater discharges. Other submitters have also submitted on this issue. Having regard to all the submissions, officers recommend that a new Clause (a)(iiiA) be included that reads as follows:</p> <p><i>Discharges of stormwater to the coastal marine area will be appropriately managed by:</i></p> <p>(a) <i>adequate consideration of: [...]</i></p> <p>(iii) <i>the use of measures (including <u>treatment</u>) to prevent or minimise contamination of the receiving environment</i></p> <p><u>(iv) <i>location of discharge in relation to avoiding, remedying or mitigating any adverse environmental effects.</i></u></p>

		general sense, while scraping is only one specific description of cleaning that may occur.	
33 – New Zealand Defence Force	511	<b>Support</b> Retain Policy 28 as notified.	<b>Accept</b> Support noted. Policy 28 is retained subject to minor amendments to remove reference to “scraping”.
Further submissions – Port Taranaki Ltd (32)		Support	
43 – Royal Forest and Bird Protection Society	512	<b>Amend</b> Submitter seeks amendment to Policy 28 of the Plan to include reference to an avoidance approach with the introduction of harmful aquatic organisms.	<b>Decline</b> The submitter states that they are not convinced that the “ <i>minimise</i> ” risk approach adopted for Policy 28 is in line with protections under Policies 11 [Indigenous biological diversity (biodiversity)] and 13 [Preservation of natural character] of the <i>New Zealand Coastal Policy Statement</i> . The submitter seeks that an avoidance approach be introduced.  Avoiding the introduction of all harmful aquatic organisms is certainly desirable but officers do not believe that a strict avoidance approach is technically achievable through RMA controls. Officers suggest avoiding the introduction of harmful aquatic organisms are matters of border control and primarily dealt with by other regulatory agencies and under other statutes such as the <i>Biosecurity Act 1993</i> . Officers recommend that the Policy retain its focus on minimising risks on the introduction or spread of harmful species.
<b>Policy 29 – Impacts from offshore petroleum drilling and production</b>			
6 – Trans-Tasman Resources Ltd	513	<b>Amend</b> Submitter seeks amendment to Policy 29 of the Plan by deleting the reference to petroleum and include all offshore drilling and production to read as follows: <i>Policy 29: impacts from offshore petroleum drilling and production</i> <i>Activities associated with petroleum drilling and production in the coastal marine area will be managed to avoid, remedy or mitigate adverse environmental effects associated with accidental discharges by ensuring: [...]</i>	<b>Accept</b> The submitter wishes to see Policy 29 expanded to include non-petroleum related drilling and production activities.  Officers agree that it would be useful to expand the scope of the Policy to cover all extractive industries, not just petroleum, particularly given recent interest in seabed mining in and adjacent to the Taranaki coastal marine area. Officers recommend granting the relief sought to read: <i>Policy 29: impacts from drilling and production.</i>

	514	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
25 – New Zealand Petroleum and Minerals		Retain Policy 29 of the Plan as notified.	Support noted. Policy 29 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
Further submissions – Port Taranaki Ltd (32), Petroleum Exploration and Production Association of New Zealand (37)		Support	
40 – Te Rūnanga o Ngāti Mutunga	515	<b>Amend</b> Submitter seeks amendment to Policy 29 of the Plan to read: <i>Activities associated with petroleum drilling and production in the coastal marine area will be managed to avoid, remedy or mitigate adverse environmental effects associated with <del>accidental</del> any discharges by ensuring: [...]</i>	<b>Accept</b> The submitter wishes to see Policy refer to “any” discharge rather than “accidental” discharge. Officers agree that the broader coverage provided by the relief request is desirable and agree to the sought relief.
Further submissions – Taranaki Energy Watch (51), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
41 – Te Korowai o Ngāruahine Trust	516	<b>Amend</b> Submitter seeks amendment to Policy 29 of the Plan to remove the word “accidental”.	<b>Accept</b> The submitter wishes to see Policy refer to “any” discharge rather than “accidental” discharge. Officers agree that the broader coverage provided by the relief request is desirable and recommend granting the relief sought.
Further submissions – Taranaki Energy Watch (51), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	517	<b>Amend</b> Submitter supports in part but seeks amendment to Policy 29 of the Plan to clarify that this policy relates to existing lawful petroleum drilling and production only and does not include new activities.	<b>Decline</b> Officers suggest that it is not necessary or appropriate to differentiate between existing and new oil and gas activities. The relief sought by the submitter is based upon the Government's decision to restrict new permits to only onshore Taranaki and that there will be no new offshore oil and gas exploration permits. However, Government direction and policies regularly change over the life of any Plan. Officers consider the relief sought is an unnecessary level of detail that potentially may become dated and inaccurate should this Government or successive government's change their position. It is appropriate that the Policy focus on effects of the activity.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
51 - Taranaki Energy Watch	518	<b>Amend</b> Submitter seeks amendment to Policy 29 of the Plan to incorporate a precautionary approach.	<b>Decline</b>  The submitter is concerned that areas of the Plan relating to petroleum provisions do not reflect a precautionary approach as required by the <i>New Zealand Coastal Policy Statement</i> .  Officers suggest that a precautionary approach is already adequately provided for via Policy 3 [Precautionary approach] of the Plan. Policy 3 is a General Policy that applies to all activities, including oil and gas industries, within the coastal environment and regardless of which coastal management area the activity may fall within.  Officers further note that the potential risks associated with oil and gas exploration and production activities are well understood. For this reason, it is unnecessary to repeat the provisions of Policy 3 within Policy 29. In the main, oil and gas exploration and production activities in the coastal marine area are regulated as Discretionary or Non-complying Activities. Therefore, through the consenting process the Council will consider any application on a case-by-case basis and adopt a precautionary approach to ensure the appropriate management of all adverse environmental effects.

<b>Policy 38 – Removal of coastal structures</b>			
	566	<b>Support</b>	<b>Accept in part</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
12 – Chorus New Zealand Ltd		Retain Policy 38 of the Plan as notified.	Support noted. Policy 38 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
13 – Spark New Zealand Trading Limited	567	<b>Support</b>	<b>Accept in part</b>
		Retain Policy 38 of the Plan as notified.	Support noted. Policy 38 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
14 – Vodafone New Zealand Ltd	568	<b>Support</b>	<b>Accept in part</b>
		Retain Policy 38 of the Plan as notified.	Support noted. Policy 38 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
25 – New Zealand Petroleum and Minerals	569	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to Policy 38 of the Plan to recognise additional considerations and to read as follows:</p> <p><i>Structures will be removed from the coastal marine area at the expiry of their authorisation or at the end of their useful life, unless one or more of the following applies:</i></p> <p>[...]</p> <p><i><u>(d) the removal of the structure poses unreasonable costs or is technically unfeasible; or</u></i></p> <p><i><u>(e) the removal of the structure poses unreasonable risk on human health and safety.</u></i></p>	<p>The submitter is concerned that part of the Policy is limiting and does not allow for other matters such as unreasonable costs or health and safety concerns to be considered alongside environmental effects as exceptions to requiring the removal of structures in the coastal marine area. The Policy does not explicitly provide for the use of industry best practice tools to determine the best practicable environmental outcome.</p> <p>Officers note that removal of a structure are generally considered at the time of the application of a consent and with the consent being granted once the technical, financial and safety aspects have been considered. However, some older structures may have received consents before this became standard practice. It is therefore considered appropriate to ensure that the Council is not trying to require structures to be removed where it would be technically unfeasible and/or there would be a risk to human health and safety.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Support in part	The relief sought by the submitter has three parts. Officers agree with the submitter to amend the Policy so that technical considerations and public health risks are reasonable considerations where Council might not require the structure to be removed. However, following pre-hearing discussions with the Department of Conservation, officers do not consider that unreasonable cost is an acceptable reason for not removing a structure and expect these considerations to be addressed when the consent to place or erect the structure is sought.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>Submitter seeks amendment to Policy 38 of the Plan to provide an exception to this policy for new port structures intended to be permanent.</p>	<p>Officers recommend granting the relief sought by the submitter.</p> <p>Officers recognise that some (but not all) Port structures may be designed and built to be permanent. In such situations it is appropriate that there is no obligation to remove these “<i>permanent structures</i>”. Officers recommend amending Policy 38 to include a new Clause (c) (plus other consequential amendments) to allow considerations for material to be left in situ or elsewhere in the coastal marine area where the structure, or part of the structure, is intended to be permanent, e.g. new Port structures.</p> <p>Policy 38 will read as follows:</p> <p><i>Policy 38 removal of coastal structures</i></p> <p><i>Decommissioning and removal of any new structure <b>must</b> be <b>considered</b> as part of the initial design and installation <b>and removal will generally be required.</b></i></p> <p><i><b>When assessing the appropriateness of allowing a structure, a part of a structure, or material associated with a structure to be left in situ or elsewhere in the coastal marine area, at least one of the following must apply: [...]</b></i></p> <p><i><b>(c) the structure, or part of the structure, is permanent or has a reuse value that is considered appropriate in accordance with Policy 5; [...]</b></i></p>
<p>37 – Petroleum Exploration and Production Association of NZ</p>	<p>571</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 38 of the Plan to read:</p> <p><i>Structures will be removed from the coastal marine area at the expiry of their authorisation or at the end of their useful life, unless Applications to abandon material in situ or elsewhere in the coastal marine area can be made if one or more of the following applies [...]</i></p>	<p><b>Grant in kind</b></p> <p>The submitter has issue with Policy 38 in that the original wording is arguably ambiguous and could mean that the Council imposes a requirement to leave if an item on the list is triggered. The submitter recommends some word changes to clarify the Policy’s intent. Officers recommend granting the relief sought by the submitter, however, to use wording more consistent with other provisions within the Plan to read:</p> <p><i>Decommissioning and removal of any new structure <b>must</b> be <b>considered</b> for as part of the initial design and installation <b>and removal will generally be required.</b></i></p> <p><i><b>When assessing the appropriateness of allowing a structure, a part of a structure, or material associated with a structure to be left in situ or elsewhere in the coastal marine area, at least one of the following must apply: [...]</b></i></p>

58 – Te Atiawa	578	<b>Amend</b> Submitter seeks amendment to Policy 38 of the Plan to read: <i>Decommissioning and removal of any new structure <del>will</del> <b>must</b> be planned for as part of the initial design and installation.</i> <i>Structures <del>will</del> <b>must</b> be removed from the coastal marine area at the expiry of their authorisations or at the end of their useful lives, unless one or more of the following applies:</i>	<b>Accept</b> The use of terms with similar meanings such as “ <i>must</i> ”, “ <i>will</i> ” and “ <i>shall</i> ” has been alternatively adopted throughout many second generation planning documents, including national policy statements and regional plans. A number of submitters have identified they prefer the term “ <i>must</i> ”, instead of “ <i>will</i> ” in relevant policies. Some have argued that the use of the term “ <i>must</i> ” is more legally robust. Officers have no objection to making the change noting that the policy intent of this Policy is that the activity needs to comply with the provision.

37 – Petroleum Exploration and Production Association of NZ	593	<b>Support</b>	<b>Accept</b>
		Retain Policy 42 of the Plan as notified.	Support noted. Policy 42 is retained as notified.
41 – Te Korowai o Ngāruahine Trust	594	<b>Other</b>	<b>No relief necessary</b>
		Submitter seeks confirmation that Policy 42 of the Plan does not relate to commercial activity.	The submitter is not seeking a change to the Plan but presumes that the Policy does not apply to large-scale commercial activities (and their appropriateness) in the coastal marine area.  Officers note that Plan must necessarily address commercial and non-commercial activities. Accordingly, Policy 42 could be applied to commercial activities.  It is the view of officers that Policy 42 does not need to differentiate activities according to whether or not they are a commercial activity but rather focus on the range of effects that the activity might result in. This is considered appropriate and a better management practice than merely regulating the activities for commercial

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			ventures. Notwithstanding the above, officers note that large scale commercial activities that cause disturbance of the foreshore and seabed will generally be of a scale or type that trigger certain rules and consenting requirements. However, even small commercial activities and non-commercial activities can be of a size, type or in a location that need to be managed in a manner that has regard to the sensitivity of the site specific values present plus the other matters set out in Policy 42.
43 – Royal Forest and Bird Protection Society	595	<b>Amend</b> Submitter seeks amendment to Policy 42 of the Plan to ensure activities avoid adverse effects as required by Policies 11, 13 and 15 of the <i>New Zealand Coastal Policy Statement</i> .	<b>Decline</b> Officers suggest that the submitter's concerns have already been provided for within the Plan and recommend declining the relief sought. As stated in the preamble of Section 5.1, Policy 42 must be read in conjunction with each of the other relevant policies, including all the General Policies and Policies 11, 13 and 15. Together these policies address the matters sought by the submitter, including those relating to the protection of significant indigenous biodiversity. It is not necessary to refer to indigenous biodiversity throughout the Policies when a standalone Policy provides the required protection already.
Further submissions – Trans-Tasman Resources Ltd (6)		Neutral	
55 – Kiwis Against Seabed Mining	596	<b>Amend</b> Submitter seeks amendment to Policy 42 of the Plan, as the interpretation of "disturbance" does not relate to commercial activity.	<b>Decline</b> Officers recommend declining the relief sought by the submitter as Plan provisions must necessarily address all activities in the coastal marine area, irrespective of whether they are commercial or not. It is not the intent of the Plan to preclude sustainably appropriate commercial use and development. It is also the view of officers that Policy 42 should focus on effects rather than presumptions on the appropriateness of activities based on whether they are commercial or not. Officers note that commercial activities that cause disturbance of the foreshore and seabed will generally be of a scale or type that trigger certain rules and consenting requirements. However, even small commercial activities and non-commercial activities can be of a size, type or in a location that need to be managed in a manner that has regard to the sensitivity of the site specific values present plus the other matters set out in Policy 42.
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	
56 – Greenpeace	597	<b>Amend</b> Submitter seeks amendment to Policy 42 of the Plan as the interpretation of "disturbance" does not relate to commercial activity.	<b>Decline</b> The submitter is seeking amendment to Policy 42 to exclude large-scale commercial activities (and their appropriateness) in the coastal marine area.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	<p>Officers recommend declining the relief sought by the submitter as Plan provisions must necessarily address all activities in the coastal marine area, irrespective of whether they are commercial or not. It is not the intent of the Plan to preclude appropriate commercial use and development.</p> <p>It is the also the view of officers that Policy 42 should focus on effects rather than presumptions on the appropriateness of activities based on whether they are commercial or not. Officers note that commercial activities that cause disturbance of the foreshore and seabed will generally be of a scale or type that trigger certain rules and consenting requirements. However, officers also note that even small commercial activities and non-commercial activities can be of a size, type or in a location that need to be managed in a manner that has regard to the sensitivity of the site specific values present plus the other matters set out in Policy 42.</p>
57 – Heritage New Zealand	598	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 42 of the Plan to read:  <i>Activities that cause disturbance of the foreshore or seabed will:</i>                      [...]   (c) avoid, remedy or mitigate other adverse effects – <i>including adverse effects on historic heritage (refer to Policy 15); and [...]</i></p>	<p><b>No relief necessary</b></p> <p>Officers recognise the concern of the submitter but suggest that their concerns have already been provided for within the Plan.</p> <p>As stated in the preamble of Section 5.1, Policy 42 must be read in conjunction with each of the other relevant policies, including all the General Policies and Policy 15. Together these policies address the matters sought by the submitter, including those relating to the protection of historic heritage. It is not necessary to refer to historic heritage throughout the Policies when a standalone Policy provides the required protection already.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
58 – Te Atiawa	599	<p><b>Other</b></p> <p>Submitter seeks confirmation that the disturbance referred to in Policy 42 of the Plan is covered by Policies 40, 41, 43 and 44 and does not relate to commercial activity.</p>	<p><b>No relief necessary</b></p> <p>The submitter seeks confirmation that disturbance referred to in Policy 42 is covered by Policies 40, 41, 43 and 44. Officers note that which policies apply will depend upon the activity (e.g. if the activity is not occurring in the Port then Policy 43 does not apply). However, all policies must be read together. All General Policies 1 to 21 plus any relevant Activity-specific Policies will be considered together.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	<p>In relation to the Policy excluding commercial activities, Officers note that neither the policies, nor the rules, differentiate activities according to whether or not they are a commercial activity. Instead, Plan provisions focus on the range of effects that the activity will result in. This is considered appropriate and a better management practice than merely regulating the activities for commercial ventures.</p> <p>Notwithstanding the above, officers note that commercial activities that cause disturbance of the foreshore and seabed will generally be of a scale or type that</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			trigger certain rules and consenting requirements. However, even small commercial activities and non-commercial activities can be of a size, type or in a location that need to be managed in a manner that has regard to the sensitivity of the site specific values present plus the other matters set out in Policy 42. It is, therefore, preferable not to limit any policies or rules to commercial activities only and a broader approach captures all activities.
<b>Policy 43 – Port dredging</b>			
6 – Trans-Tasman Resources Ltd	600	<p><b>Amend</b></p> <p>The submitter wishes to expand the policy to refer to dredging which may also be required at other ports or for other significant infrastructure within the region. Submitter seeks amendments to Policy 43 of the Plan to refer to other nationally or regionally significant infrastructure and read as follows:</p> <p><i>Policy 43: <del>Port-d</del>dredging</i></p> <p><i>Maintenance and capital dredging activities for <u>ports or nationally or regionally significant infrastructure Port Taranaki</u>, including spoil disposal, will be managed in order that:</i></p> <p><i>(a) uncontaminated sand is deposited in inshore areas in a manner that mitigates the effects of <del>Port Taranaki facilities</del> on natural littoral sediment processes; [...]</i></p>	<p><b>Decline</b></p> <p>Officers consider the requested amendments to be largely a continuation of Policy 41 [Provision for disturbance, deposition or extraction activities that provide public or environmental benefit] that deliberately focuses on providing for dredging that provides for the safe and efficient operation of Port Taranaki. Officers have considered expanding upon the scope of the Policy to provide for maintenance and capital dredging activities for other regionally significant infrastructure. However, officers recommend retaining the Policy in its current form, noting that the Port is the only location carrying out large scale activities with any frequency and other policies are applicable if need be.</p> <p>Officers further note that there are other mechanisms available under the RMA, such as emergency works, should urgent works be required in relation to maintaining the safe and efficient operation of other regionally important infrastructure.</p>
Further submissions – Department of Conservation (29), Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Oppose	
43 – Royal Forest and Bird Protection Society	601	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 43(b) of the Plan to read</p> <p><i>Maintenance and capital dredging activities for <u>ports or nationally or regionally significant infrastructure Port Taranaki</u>, including spoil disposal, will be managed in order that:</i></p> <p><i>(b) fine particle sediment (silt) and any contaminated sediment is deposited in appropriate offshore spoil disposal <u>locations/areas</u>; [...];</i></p>	<p><b>Accept</b></p> <p>The submitter considers the wording of Policy 43(d) to be uncertain. Officers agree to the relief sought noting that the requested amendment provides greater clarity and is consistent with wording used in Policy 5, and elsewhere, within the Plan.</p>
57 – Heritage New Zealand	602	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 43 of the Plan by adding a new clause (e) to read:</p>	<p><b>No relief necessary</b></p> <p>Officers recognise the concern of the submitter but suggest that their concerns have already been provided for within the Plan.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>Maintenance and capital dredging activities for Port Taranaki, including spoil disposal, will be managed in order that:</i></p> <p>[...]</p> <p><i><u>(e) adverse effects on historic heritage are managed in accordance with Policy 15.</u></i></p>	<p>As stated in the preamble of Section 5.1, Policy 42 must be read in conjunction with each of the other relevant policies, including all the General Policies and Policy 15. Together these policies address the matters sought by the submitter, including those relating to the protection of historic heritage. It is not necessary to refer to historic heritage throughout the Policies when a standalone Policy provides the required protection already.</p>

<b>Policy 44 – Extraction or deposition of material</b>			
6 – Trans-Tasman Resources Ltd	603	<p><b>Support</b></p> <p>Submitter supports Policy 44 (with the exception of Clause (f)) of the Plan as providing appropriate policy support and guidance for extraction and deposition activities in the coastal marine area.</p>	<p><b>Accept</b></p> <p>Support noted. Issues raised regarding Clause (f) are discussed in the following submission point.</p>
Further submissions – Department of Conservation (29), Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
6 – Trans-Tasman Resources Ltd	604	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 44 of the Plan to delete Clause (f):</p> <p><i>Extraction of sand, shingle, shell and other natural material from the foreshore or seabed, or deposition of material on the foreshore or seabed, not provided for by Policies 39, 40, and 42 should: [...]</i></p> <p><i><del>(f) where applicable and appropriate, ensure that the deposited material is of a similar size, sorting and parent material as the receiving sediments</del>.</i></p>	<p><b>Decline</b></p> <p>The submitter considers Clause (f) to be too subjective and provides no guidance as to when it may be applicable and appropriate to impose size and sorting requirements on the deposited material. Further, the submitter believes that there may be a range of circumstances when such requirements may not be appropriate.</p> <p>Officers note that Policy 44(f) includes a qualifier that, where applicable and appropriate, the deposition of material from any extractions from the foreshore or seabed must be of a similar size, sorting and parent material as the receiving sediments. As a general requirement, this is considered reasonable and appropriate. However, through the consenting process there is an opportunity to consider on a case-by-case basis any circumstances where such requirements may not be applicable or appropriate and set conditions relating to sizing and sorting requirements (after also referring to other policies that may be relevant).</p>
9 – Karen Pratt	605	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 44 of the Plan to include additional considerations and read as follows:</p>	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>Extraction of sand, shingle, shell and other natural material from the foreshore or seabed, or deposition of material on the foreshore or seabed, not provided for by Policies 39, 40, and 42 should: [...]</i></p> <p><i><u>(c) generally not occur in close proximity to moderate to high relief offshore reefs;</u></i></p> <p><i><u>(d) have regard to unique geological features that drive benthic primary production in the South Taranaki Bight [...]</u></i></p>	<p>The submitter wishes to strengthen Policy 44 by including a new clause to acknowledge biodiversity 'hot-spots' that are moderate to high relief reefs known by the local community of divers and recreational fishermen.</p> <p>Officers agree to amending the Policy to use different wording to include clause (c) as requested by the submitter to read:</p> <p><i>Extraction of sand, shingle, shell and other natural material from the foreshore or seabed, or deposition of material on the foreshore or seabed, not provided for by Policies 39, 40, and 42 should:</i></p> <p><i>[...]</i></p> <p><i><u>(c) not occur close to moderate or high relief offshore reefs;</u></i></p> <p>In regards to the requested Clause (d), "unique geological features that drive benthic primary habitat" is already implicitly addressed in (a) and there is no advantage to confining the consideration of such matters to the South Taranaki bight. Officers decline the request as Clause (a) as currently worded provides a wider protection.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	
Further submissions –Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Nga Motu Marine Reserve Society Inc (44), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
41 – Te Korowai o Ngāruahine Trust	606	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 44 of the Plan to exclude areas identified in Schedules 2, 4A and 4B, 5A and 5B and 6 plus areas subject to a crown application or settlement under the <i>Takutai Moana Act 2011</i>.</p>	<p><b>Decline</b></p> <p>Officers note that the relief sought would exclude any extraction or deposition of natural material from the foreshore and seabed from most if not all of the Taranaki coastal marine area regardless of the size of the activity and regardless of whether there are any environmental effects. For example, the whole coastal marine area is currently subject to a Crown application or settlement under the <i>Takutai Moana Act 2011</i>.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	<p>Officers recognise that there are areas where the extraction or disposition of material on the foreshore or seabed would clearly be inappropriate having regard to the values and sensitivity of the receiving environment. Further, policy direction is provided in the General Policies relating to the protection, maintenance and/or enhancement of particular values and uses plus the rules themselves may include standards, terms and conditions that would exclude the activity from areas identified in Schedules 2, 4A, 4B, 5A, 5B and 6.</p>
Further submissions –Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<p>All Plan provisions need to be read together and in their entirety. They include the General Policies, relevant Activity-specific Policies, and the rules (which address the type, scale and location of the activity). Some extraction and deposition activities are very minor with less than minor adverse effects that can be generally allowed as a permitted activity. Others are more appropriately considered through the consenting process where there is an opportunity to consider the application on a case-by-case</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			basis and impose conditions on where, how and when an activity can be undertaken and what actions need to be taken to avoid, remedy or mitigate any adverse effects.
43 – Royal Forest and Bird Protection Society	607	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 44 of the Plan to read:  <i>Extraction of sand, shingle, shell and other natural material from the foreshore or seabed, or deposition of material on the foreshore or seabed, not provided for by Policies 39, 40, and 42 <u>will should</u>: [...];</i></p>	<p><b>Accept</b></p> <p>Officers recommend granting the relief sought by the submitter, however, recommend using “must” instead of “will” to maintain consistency with relief sought by other submitters.</p>
Further submissions – Port Taranaki Ltd (32)		Support	
57 – Heritage New Zealand	608	<p><b>Amend</b></p> <p>Submitter seeks amendments to Policy 44 of the Plan by adding a further point to read:  <i>Extraction of sand, shingle, shell and other natural material from the foreshore or seabed, or deposition of material on the foreshore or seabed, not provided for by Policies 39, 40 and 42 should:</i>                      [...]  <i>(h) manage adverse effects on historic heritage in accordance with Policy 15.</i></p>	<p><b>No relief necessary</b></p> <p>Officers recognise the concern of the submitter but suggest that their concerns have already been provided for within the Plan.                      As stated in the preamble of Section 5.1, Policy 42 must be read in conjunction with each of the other relevant policies, including all the General Policies and Policy 15. Together these policies address the matters sought by the submitter, including those relating to the protection of historic heritage. It is not necessary to refer to historic heritage throughout the policies when a stand-alone Policy provides the required protection already.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
58 – Te Atiawa	609	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 44 of the Plan to exclude areas and resources identified in Schedules 2, 4A, 4B, 5A, 5B and 6 areas subject to a Crown application or settlement under the <i>Takutai Moana Act 2011</i>.</p>	<p><b>Decline</b></p> <p>Officers note that the relief sought would exclude any extraction or deposition of natural material from the foreshore and seabed from most if not all of the Taranaki coastal marine area regardless of the size of the activity and regardless of whether there are any environmental effects. For example, the whole coastal marine area is currently subject to a Crown application or settlement under the <i>Takutai Moana Act 2011</i>.                      Officers note that there are areas where the extraction or disposition of material on the foreshore or seabed would clearly be inappropriate having regard to the values and sensitivity of the receiving environment. Further, policy direction is provided in the General Policies relating to the protection, maintenance and/or enhancement of particular values and uses plus the rules themselves may include standards, terms</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>and conditions that would exclude the activity from areas identified in Schedules 2, 4A, 4B, 5A, 5B and 6.</p> <p>All Plan provisions need to be read in their entirety. They include the General Policies, relevant Activity-specific Policies, and the rules (which address the type, scale and location of the activity. Some extraction and deposition activities are very minor with less than minor adverse effects that can be generally allowed as a permitted activity. Other are more appropriately considered through the consenting process where there is an opportunity to consider the application on a case-by-case basis and impose conditions on where, how and when an activity can be undertaken and what actions need to be taken to avoid, remedy or mitigate any adverse effects.</p>
<b>Policy 45 – Appropriateness of reclamation or drainage</b>			
26 – Transpower NZ Ltd	610	<p><b>Amend</b></p> <p>Submitter supports Policy 45(d) of the Plan but seeks amendment to Policy to read:</p> <p><i>Enable r</i> <del>Reclamation or drainage of land in the coastal marine area will not be allowed unless</del> where:</p> <p>[...]</p> <p><i>(d) the activity provides significant public benefit with particular regard to the extent to which the reclamation or drainage and intended purpose would provide for the efficient operation of nationally and regionally important infrastructure including, but not limited to, ports, airports, coastal roads, pipelines, electricity transmission, railways, marinas and electricity generation.</i></p>	<p><b>Accept</b></p> <p>Officers note the support for Policy 45(d) that recognises nationally and regionally important infrastructure. However, the submitter is concerned that the term “not be allowed” infers the decline of a resource consent and could be interpreted as predetermining the outcome of a resource consent process. The suggested wording provides an alternative that frames the policy more positively and captures the Policy intent. Officers agree to the request to amend Policy 45 but suggest a different wording to maintain consistency with language adopted elsewhere in the Plan:</p> <p><i>Allow reclamation or drainage of land in the coastal marine area where: [...]</i></p>
Further submissions – Port Taranaki Ltd (32)		Support	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
43 – Royal Forest and Bird Protection Society	611	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 45(a) and (b) of the Plan to refer to “functional need” so that this can be guided by Policy 5 in the Plan.</p>	<p><b>Accept in part</b></p> <p>Officers recommend granting part of the relief sought by the submitter by amending Policy 45(b) to refer to ‘functional need’. With regards to also including the term in Policy 45(a) officers recommend declining that part of the relief sought given that all the policy clauses apply and it is not considered necessary to again refer to functional need in Clause (a).</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			The amendment would read as follows: <i>(b) <u>there is a functional need or operational need for the activity to be located</u> in or adjacent to the coastal marine area</i>
43 – Royal Forest and Bird Protection Society	612	<b>Amend</b>	<b>Decline</b>
		The submitter considers Policy 45 to be uncertain in relation to determining “appropriateness”. It is the submitter’s view that the <i>New Zealand Coastal Policy Statement</i> requires plans to provide direction in inappropriate locations/places. Submitter seeks amendment to Policy 45 of the Plan by including a new clause that states that the activity will be in an appropriate location.	Officers believe that Plan provisions, when read together, provide the necessary direction and guidance to consider whether activities are in an appropriate location. As stated in the preamble of Section 5.1, Policy 45 must be read in conjunction with each of the other relevant policies, including all the General Policies and Policy 15 to determine the appropriateness of the activity in any specific location.
43 – Royal Forest and Bird Protection Society	613	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to the Plan (Policy 5) to clarify that the activity in Policy 45 is subject to the protective policies in giving effect to the <i>New Zealand Coastal Policy Statement</i> .	As stated in the preamble of Section 5.1, Policy 42 must be read in conjunction with each of the other relevant policies, including all the General Policies. Together these Policies provide for and give effect to the <i>New Zealand Coastal Policy Statement</i> . Therefore, it is not necessary or appropriate to reference other Policies within the Plan or Policies within the <i>New Zealand Coastal Policy Statement</i> .
59 – KiwiRail	614	<b>Support</b>	<b>Accept</b>
		Retain Policy 45 of the Plan as notified.	Support noted. Policy 45 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
<b>Policy 46 – Design of reclamation</b>			
43 – Royal Forest and Bird Protection Society	615	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Policy 46 of the Plan to provide for protection required by Policies 11, 13 and 14 of the <i>New Zealand Coastal Policy Statement</i> OR Alternatively retain Policy 46 as worded and amend Policies 5 and 45 as per the relief sought by the submitter in relation to those policies.	Officers suggest that the submitter’s concerns have already been provided for within the Plan.  As stated in the preamble of Section 5.1, Policy 46 must be read in conjunction with each of the other relevant policies, including all the General Policies, which address the natural character and indigenous biodiversity policies of the <i>New Zealand Coastal Policy Statement</i> referred to by the submitter. It is not necessary to continuously refer to indigenous biodiversity or natural character value throughout the Policies when General Policies already provide for the required protection.
Further submissions – Port Taranaki Ltd (32)		Oppose/Support in part	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Notwithstanding the above, refer to submission points 281 and 607 in relation to officer recommendations relating to granting in part reliefs sought by the submitter in relation to Policies 5 and 45 of the Plan.
57 – Heritage New Zealand	616	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 46 of the Plan by adding a new Clause (d) to read:</p> <p><i>Subject to Policy 45, the design and form of any reclamation of land in the coastal marine area will:</i></p> <p>[...]</p> <p><i>(d) manage adverse effects on historic heritage in accordance with Policy 15.</i></p>	<p><b>No relief necessary</b></p> <p>Officers acknowledge the concerns of the submitter but suggest that their concerns have already been provided for within the Plan.</p> <p>As stated in the preamble of Section 5.1, Policy 42 must be read in conjunction with each of the other relevant policies, including all the General Policies and Policy 15. Together these policies address the matters sought by the submitter, including those relating to the protection of historic heritage. Officers suggest that it is not necessary to refer to historic heritage throughout the policies when a stand-alone Policy provides the required protection already.</p>
<b>Policy 47 – Taking and use of coastal water</b>			
6 – Trans-Tasman Resources Ltd	617	<p><b>Support</b></p> <p>Submitter supports recognition in Policy 47 of the Plan that it is appropriate to take and use coastal water provided there are no adverse environmental effects.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 47 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>
33 - New Zealand Defence Force	618	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 47 of the Plan to ensure a connection between the policy and rule framework and to allow the taking and use of coastal water at a rate and volume where the taking results in an acceptable level of environmental effect.</p>	<p><b>Accept</b></p> <p>Submitter is concerned that the Policy, as drafted, requires all adverse effects relating to the taking of coastal waters to be avoided. The submitter considers such a requirement impractical and in conflict with Rule 65 of the Plan.</p> <p>Officers agree and recommend granting the relief sought by the submitter by amending Policy 47 (plus minor inconsequential changes to align policy language with reliefs granted elsewhere) to read:</p> <p><i>Allow the taking and use of coastal water and any taking of heat or energy from coastal water subject to it being taken in a quantity or at a rate and in a manner that avoids, remedies or mitigates adverse environmental effects..</i></p>
43 – Royal Forest and Bird Protection Society	619	<p><b>Support</b></p> <p>Retain Policy 47 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Policy 47 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>
Further submissions – Port Taranaki Ltd (32)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Policy 48 – Damming or diversion of coastal water</b>			
43 – Royal Forest and Bird Protection Society	620	<b>Amend</b>	<b>Decline</b>
		<p>The submitter does not believe that the use of “should” provides certainty and wishes to use “will” as a stronger directive. Submitter seeks amendment to Policy 48 of the Plan to read:</p> <p><i>Damming or diversion of coastal water <del>will should</del> not cause adverse environmental effects.</i></p>	<p>Officers note that Policy 48, as currently worded, states that the general course of action is that any damming or diversion of coastal waters do not cause adverse environmental effects. However, the Policy also recognises that, in some circumstances, some adverse effects might be acceptable, especially if such effects are minor or transitory. The amendment sought by the submitter would preclude such considerations and would be unnecessarily excessive.</p>
<b>Policy 49 – Noise and vibration</b>			
9 – Karen Pratt	621	<b>Amend</b>	<b>No relief necessary</b>
		<p>Submitter seeks amendment to Policy 49 of the Plan to adopt the same precautionary principles applied by the Environmental Protection Authority by adopting similar wording to Condition 10 for the Trans-Tasman Resources consent for ironsand mining and which states that there be “...no adverse effects at a population level” on blue whales, mammals in the threat classification, or on the IUC red list”.</p>	<p>Officers recognise the concerns of the submitter in regards to the protection of blue whales, mammals in the threat classification, or on the IUC red list. Officers note that Policy 44 [Extraction or deposition of material] would require the consideration of such matters and, consistent with the <i>New Zealand Coastal Policy Statement</i>, would require such activities to avoid adverse effects at a population level on blue whales and any other mammals in the threat classification, or on the IUC red list.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	<p>Officers note that Policy 14 (plus the other General Policies) would also be considered in conjunction with Policy 49, which is specific to noise and vibration activities in the coastal marine area. Therefore, it is not necessary to amend Policy 49 as the concerns raised are already adequately addressed within other areas of the Plan.</p>
Further submissions – Nga Motu Marine Reserve Society Inc (44), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
33 - New Zealand Defence Force	622	<b>Support</b>	<b>Accept</b>
		Retain Policy 49 of the Plan as notified.	<p>Support noted. Policy 49 is retained subject to minor amendments as requested by another submitter that does not change the policy intent.</p>
Further submissions – Port Taranaki Ltd (32)		Support	
43 – Royal Forest and Bird Protection Society	623	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to Policy 49 of the Plan to read:</p>	<p>There are two parts to the relief sought by the submitter,</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>Noise and vibration from activities undertaken in the coastal marine area, including underwater activities, will <del>be managed to minimise adverse environmental effects.</del></p> <p><u>(a) avoid adverse effects on marine mammals and fish species consistent with policies 8, 9 and 14; and</u></p> <p><u>(b) be managed to avoid, remedy or mitigate other minimise adverse environmental effects.</u></p>	<p>First, the submitter seeks explicit references to the avoidance of adverse effects on marine mammals and fish species that is consistent with Policies 8, 9 and 14. Officers recommend declining this part of the relief sought given that this matter has already been addressed elsewhere in the Plan.</p> <p>Officers note that Policy 14 [Significant indigenous biodiversity] (plus the other General Policies) would be considered in conjunction with Policy 49, which is specific to noise and vibration activities in the coastal marine area. Therefore, it is not necessary to amend Policy 49 as the sought relief has already been addressed within other areas of the Plan.</p> <p>Second, the submitter seeks amendment to Policy 49 to refer to avoiding, remedying or mitigating adverse environmental effects (rather than the current focus on just minimising adverse effects). Officers agree and recommending granting this part of the relief sought. The amended Policy would read as follows:</p> <p><i>Noise and vibration from activities undertaken in the coastal marine area, including underwater activities, will be managed to <u>avoid, remedy or mitigate</u> adverse environmental effects.</i></p>
Further submissions – Trans Tasman Resources Ltd (6)		Oppose	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
48 – Taranaki District Health Board	624	<p><b>Support</b></p> <p>Retain Policy 49 of the Plan as notified</p>	<p><b>Accept</b></p> <p>Support noted. Policy 49 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.</p>
60 - Te Kaahui o Rauu	625	<p><b>Amend</b></p> <p>Submitter seeks amendment to Policy 49 of the Plan to focus on avoiding and remedying adverse environmental effects before mitigating and emphasize the protection of biodiversity from adverse environmental effects.</p>	<p><b>Accept</b></p> <p>The submitter notes that section 8.6.3 [General standards – Air] of the Plan does not contain noise and vibration limits to manage effects on biodiversity values and seek amendments to the Plan that focuses on avoiding such effects.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<p>Officers recommend granting the relief sought by the submitter by amending Policy 49 to refer to managing noise and vibration from activities in the coastal marine area in a manner that avoids, remedies or mitigates adverse environmental effects (rather than the current focus on just minimising adverse effects). This would strengthen alignment between this Policy and other policies, particularly Policy 14 [Indigenous biodiversity] where there may be a requirement to avoid such effects.</p>
<b>New Policy – National Grid</b>			
	626	<b>Amend</b>	<b>Accept in part</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
26 – Transpower NZ Ltd		<p>As an alternative to reliefs sought by the submitter in relation to Policies 8, 14, and 19, amend Plan to include new policy specific to the National Grid that reads as follows:</p> <p><u>(a) Managing activities, to the extent reasonably practicable, to avoid adverse effects, including reverse sensitivity effects, on the National Grid; and</u></p> <p><u>(b) Manage the adverse effects of new National Grid infrastructure by all of the following:</u></p> <p><u>(i) recognising there may be some areas in the coastal environment where avoidance of adverse effects is required to protect the identified special values of those areas.</u></p> <p><u>(ii) seeking to avoid adverse effects on the values of the following:</u></p> <p><u>a. areas of significant indigenous biodiversity</u></p> <p><u>b. areas of outstanding value</u></p> <p><u>c. places or areas containing historic heritage of regional or national significance</u></p> <p><u>d. significant surf breaks</u></p> <p><u>(iii) where it is not reasonably practicable to avoid adverse effects on the value of the areas listed in d)ii) above because of the functional, operational, technical or locational needs of the National Grid, remedy or mitigate adverse effects on those values to the extent reasonably practicable;</u></p> <p><u>(iv) where reasonably practicable, avoiding, remedying or mitigating other adverse effects;</u></p> <p><u>(v) consider offsetting for residual adverse effects on indigenous biological diversity.</u></p>	<p>The submitter would like to see the Plan amended to include an additional policy specific to the National Grid in order to provide for the requirements of the <i>National Policy Statement for Electricity Transmission 2008</i> (NPSET). In particular, the submitter would like to see Policies 2,3,4,8 and 10 of the NPSET given effect to within the new policy.</p> <p>Officers recommend accepting in part the reliefs requested by the submitter.</p> <p>Officers recommend that a new policy, Policy 6A [Management of adverse effects of the National Grid], be included in the Plan that specifically addresses the management of adverse effects of the National Grid, particularly where there may be conflicting values and priorities between use and development and the protection of significant coastal values. The new Policy 6A will seek to reconcile national requirements in the NPSET that the Council recognise and provide for the National Grid against other national requirements set out in the <i>New Zealand Coastal Policy Statement</i> relating to natural character, indigenous biodiversity and surf breaks.</p> <p>While most of the suggested wording is recommended to be adopted by officer,s some amendments are considered appropriate based on the officer's view that many of the NPSET requirements are already separately recognised and/or addressed in other Plan policies such as Policy 5 [Appropriate use and development], Policy 6 [Benefits of regionally important infrastructure], Policy 31 [Structures that support safe public access and use, or public or environmental benefit], Policy 36 [Maintenance minor alteration or minor extension of existing structures] and Policy 37 [Major alteration or extension of existing structures].</p> <p>The new Policy 6A would read as follows:</p> <p><b><u>Policy 6A: Management of adverse effects of the National Grid</u></b></p> <p><u>Where the National Grid has a functional need or operational need to locate in the coastal environment, manage the adverse effects arising from their activities by:</u></p> <p><u>(a) recognising there may be some areas in the coastal environment where avoidance of adverse effects is required to protect the identified special values of those areas;</u></p> <p><u>(b) seeking to avoid adverse effects on:</u></p> <p><u>(i) areas of outstanding value;</u></p> <p><u>(ii) significant indigenous biodiversity;</u></p> <p><u>(iii) historic heritage as identified in schedules 5A and 5B; and</u></p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	<p><u>(a) recognising there may be some areas in the coastal environment where avoidance of adverse effects is required to protect the identified special values of those areas;</u></p> <p><u>(b) seeking to avoid adverse effects on:</u></p> <p><u>(i) areas of outstanding value;</u></p> <p><u>(ii) significant indigenous biodiversity;</u></p> <p><u>(iii) historic heritage as identified in schedules 5A and 5B; and</u></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p><u>(iv) nationally or regionally significant surf breaks as identified in Schedule 7A and B;</u>  <u>(c) where it is not practicable to avoid adverse effects on the values of the areas listed in (b) above because of the functional needs or operational needs of the National Grid, remedy or mitigate adverse effects on those values; and</u>  <u>(d) avoiding, remedying or mitigating other adverse effects.</u></p>

## 4.4 Methods

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Methods 1 to 7 – General</b>			
2 – Federated Farmers	627	<b>Support</b>	<b>Accept</b>
		Retain Implementation Methods 1 - 7 of the Plan as notified.	Support noted. The Methods are retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Port Taranaki Ltd (32)		Support	
<b>Method 1 – Advice and information</b>			
41 – Te Korowai o Ngāruahine Trust	628	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Implementation Method 1 of the Plan to include the provision of advice and information about the cultural significance and importance of the coastal and marine environment to Māori and iwi/hapū.	Officers recommend granting the relief sought by the submitter by including a new Clause (ab) that reads as follows: 1. <i>Provide advice and information, including guidelines to coastal users, consent holders and the public: [...]</i> <i>(ab) to promote awareness of the natural, cultural, historic, and amenity attributes and values of the coastal environment, including the cultural significance and importance of the coastal and marine environments to Māori and iwi/hapū. [...]</i>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	629	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Implementation Method 1(g) of the Plan to include reference to the <i>Marine Mammal Protection Act 1978</i> , <i>Wildlife Act 1953</i> and <i>Exclusive Economic Zone and Continental Shelf (Environmental Effects) Act 2012</i> .	Officers recommend granting the relief sought by the submitter by amending Implementation Method 1(g) to read: <i>(g) on responsibilities and processes under other legislation, for example, Fisheries Act 1996, Biosecurity Act 1993, Reserves Act 1977, Heritage New Zealand Pouhere Taonga Act 2014, <u>the Marine Mammal Protection Act 1978, Wildlife Act 1953 and Exclusive Economic Zone and Continental Shelf (Environmental Effects) Act 2012.</u></i>
Trans-Tasman Resources Ltd (6)		Oppose in part	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
<b>Methods 2 and 3 – Economic instruments and works and services</b>			
	630	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
41 – Te Korowai o Ngāruahine Trust		The submitter believes that the instruments, works and services referred to in Methods 2 and 3 should be used where they enhance and protect coastal values. The submitter seeks to amend Implementation Methods 2 and 3 of the Plan to delete the word <i>consider</i> .	Officers note that the use of economic instruments, and/or the Council undertaking works and services, may not necessarily be appropriate over the life of the Plan. Such methods need to be considered on a case-by-case basis recognising that the use of economic instruments and/or undertaking works and services will not be appropriate in all circumstances.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	
49 – Cam Twigley	631	<b>Amend</b>  Submitter seeks amendment to Implementation Methods 2 and 3 of the Plan so that commentary on economic instruments and works and services also references the significant surfing area (and not just surf breaks).	<b>Accept</b>  Officers agree to the relief sought by the submitter and recommend amending Implementation Methods 2 and 3 of the Plan so that commentary on economic instruments and works and services refer to the Significant Surfing Area (and not just surf breaks).
<b>Method 4 – State of the environment monitoring</b>			
61 – Te Rūnanga o Ngāti Ruanui Trust	632	<b>Amend</b>  Submitter seeks amendment to Implementation Method 4 of the Plan to explicitly include cultural state of the environment monitoring within Taranaki Regional Council's state of the environment monitoring programme.	<b>Grant in kind</b>  Officers note that the level of detail sought by the submitter is not considered necessary or appropriate for this part of the Plan. However, officers note that Section 10.1 does include additional detail relating to monitoring the Plan's efficiency and effectiveness and suggest that Section 10.1 is the more appropriate place to refer to incorporating matauranga Māori into the Council's state of the environment monitoring.  Officers recommend an alternative relief by amending Section 10.1 of the Plan to investigate monitoring methods for the incorporation of mātauranga Māori state of the environment monitoring within the Council's state of the environment monitoring programme.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
<b>NEW Method – Spatial planning</b>			
55 – Kiwis Against Seabed Mining	633	<b>Amend</b>  Submitter seeks amendment to the Plan to include a new Implementation Method for the Taranaki Regional Council to use spatial planning to  establish planning considerations which involves neighbouring rural nature, landscape, cultural history values and development-related interests	<b>Accept</b>  The submitter seeks the inclusion of marine spatial planning, as an Implementation method, to inform decision making.  Officers recommend granting the relief sought by including a new Implementation Method 5A that reads as follows:

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>identify conflicting activities that would impact on mana whenua issues, areas of interest and cultural significance and incorporation of buffer zones</p> <p>include values-based framework that identifies, organises, and describes key Māori values as a basis for guiding and determining natural and physical resource management and can be used to set limits and standards connected to Māori values.</p>	<p><i>5A. Develop and implement <b>spatial planning</b> to achieve integrated management of the coastal environment, including the identification of sites and places with significant values, and, where appropriate, make this publicly available.</i></p>

<b>Method 12 – Implement Plan to recognise use and development</b>			
35 – Radio New Zealand Ltd	638	<b>Support</b>	<b>Accept</b>
		Retain Implementation Method 12 as notified.	Support noted. Policy 12 is retained as notified.
43 – Royal Forest and Bird Protection Society	639	<b>Amend</b>	<b>No relief necessary</b>
		<p>Submitter supports in part Implementation Method 12 of the Plan but is opposed to the use of the term “appropriate use and development”. The submitter seeks amendments to the Implementation Method to reflect reliefs sought by the submitter to Policy 5 of the Plan whereby appropriateness is determined on the basis of avoiding inappropriate locations.</p>	<p>Officers do not believe any changes to Implementation Method 12 are necessary. The submitter has not specified what changes they are seeking to the Implementation Method. However, providing for use and development is consistent with the Section 5 sustainable management purpose of the RMA. The Council notes that not all use and development in the coastal environment will be</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Transpower NZ Ltd (26), Radio New Zealand (35)		Oppose	appropriate. In determining what is appropriate use and development the reader need to refer to the policies, which includes consideration of location plus other matters.
50 – Te Kāhui o Taranaki Trust	640	<b>Amend</b>  Submitter seeks amendment to Implementation Method 12 of the Plan to read: <i>Implement Plan objectives, policies and methods of implementation that recognise and provide for appropriate use and development in the coastal environment where Māori cultural values are not adversely impacted on.</i>	<b>Decline</b>  Officers do not believe any changes to Implementation Method 12 are necessary or appropriate.  The methods section of the Plan is broad reaching and identifies non regulatory methods for achieving all the Plan objectives, including those relating to Māori cultural values. What is appropriate and where certain activities will be allowed will be determined having regard to the relevant policies and rules within the Plan (not the methods). It is important to note that these policies address broader values and uses than just Māori values or historic heritage. Officers do not consider it necessary or appropriate for Plan provisions to focus on one set of values, or unnecessarily restate all the values.

<b>Methods 13 to 20 Natural heritage</b>			
2 – Federated Farmers	641	<b>Support</b>  Retain Implementation Methods 13 to 20 of the Plan as notified.	<b>Accept</b>  Support noted. Implementation Methods 13 to 20 are retained subject to minor and inconsequential amendments requested by other submitters.
Further submissions – Port Taranaki Ltd (32)		Support	
29 – Department of Conservation	642	<b>Amend</b>  The submitter is concerned by the number of blue penguins killed or injured by domestic dogs off leashes along Taranaki beaches and wishes to see bylaws to protect indigenous species encouraged through the Methods section. Submitter seeks amendment to Section 6.4 [Natural heritage] of the Plan to include a new Implementation Method to read: <i>Encourage district councils to enforce dog control bylaws to preserve indigenous biodiversity by reducing the risk of dogs killing or injuring native birds, marine mammals and other indigenous species.</i>	<b>Accept in part</b>  Officers recognise the threat posed by dogs to penguins and other indigenous species, however, officers suggest there are disadvantages to confining advocacy to single issues. Instead, officers propose amending Implementation Method 14 to broaden its scope to advocacy for the purposes of protecting significant indigenous biodiversity, which includes territorial authorities, and could be for the purpose of encouraging the enforcement of dog control bylaws and to reduce the risk of dogs killing or injuring native birds, marine mammals and other indigenous species. However, advocacy would not be confined to that issue and could include other agencies, including the submitter, on other biodiversity related issues.

Ngāruahine Trust (41), Te Atiawa (58)			
<b>Method 15 – Integrated management</b>			
56 – Greenpeace	643	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Implementation Method 15 of the Plan to extend its scope to address not only marine protected areas but also integrated management of fisheries resources, marine eco-systems and other natural resources and to ensure that there is an integrated management of any activities that occur across jurisdictional boundaries and/or are managed by multiple regimes.	The submitter wishes to see integrated management extended beyond the scope of Implementation Method 15.  Officers note that actions or methods promoting integrated management are not confined to this particular method. It is evident in the development of this Plan, in the setting of objectives and General Policies, in the scheduling and identification of outstanding natural character, outstanding natural features and landscapes, biodiversity, and historic heritage. Undertaking many of the Methods of Implementation also may contribute to integrated management even if not explicitly stated. For example, the Council has significant extension programmes involving active and passive protection of biodiversity on land, including coastal herbfields, wetlands and dunes. Similarly the Council works with a wide variety of agencies and land occupiers under a range of statutes in order to achieve the requirements of the Coastal Plan and to widen our databases.  Officers do not believe that it is necessary to amend Method 15 to achieve the submitter's request as these matters are fully addressed in the relevant sections of the Plan as discussed. Officers note that the achievement of integrated management is also dependent upon other agencies and Council may be limited in what it can influence yet alone achieve under other jurisdictions.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
<b>Method 16 – Natural heritage</b>			
9 – Karen Pratt	644	<b>Amend</b>	<b>Decline</b>
		The submitter considers the term “ <i>coastal site</i> ” to be ambiguous and prefers to use the term “ <i>coastal marine areas</i> ” as this indicates an offshore component. Submitter seeks amendment to Implementation Method 16 of the Plan to read: <i>Maintain and update GIS databases of all known <del>coastal sites</del> coastal marine areas with regionally significant values that identify their values, including the presence of any threatened or regionally distinctive species and sites of high cultural, spiritual and historical significance.</i>	Other submitters are encouraging the adoption of better spatial planning and Implementation Method 16 contributes to that deliverable. For the purposes of effective integrated management, officers suggest that it is appropriate for the methods to apply to the wider coastal environment, not just the coastal marine area. Referring to the coastal marine area would limit the scope of the method to only areas within the coastal marine area, removing a considerable amount of onshore area that the Coastal Plan includes. Officers do not believe that it is the

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	<p>intention of the submitter to do so and reassure the submitter that “coastal sites” does include offshore reefs and sites within the coastal marine area in addition to the landward part of the coastal environment.</p> <p>The Council gathers considerable information across the broad suite of its activities (not just those that relate to this Plan or the RMA) and regularly maintains and updates relevant information on its GIS databases. These include its biodiversity and biosecurity programmes under the <i>Local Government Act</i> and the <i>Biosecurity Act</i> but may also include useful information from the Council's other regional plans and/or from other environmental agencies.</p>
<b>Method 19 – Natural heritage</b>			
60 - Te Kaahui o Rauru	645	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Implementation Method 19 to include mana whenua alongside landowners.	<p>Officers agree to include mana whenua alongside landowners as requested by the submitter to read:</p> <p><i>19. Promote active restoration of sand dunes and coastal herb fields, wetlands and forests through working with landowners and <a href="#">tangata whenua</a> and providing advice and funding for planting, weed and pest control and other related matters.</i></p>
<b>Methods 21 to 31 – Historic heritage</b>			
28 – Grant Knuckey	646	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Implementation Methods 21 - 31 of the Plan to require reports mandated by mana whenua and including cultural dimensions applying matauranga Māori.	<p>The Council is currently investigating the incorporation of matauranga Māori principles into its monitoring strategies. Although these changes are taking place, officers do not consider it necessary or appropriate to include reporting requirements as a method in the Plan prior to the outcomes of that process. Officers note that specific reporting requirements and protocols are an operational matter best addressed outside the Plan.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
28 – Grant Knuckey	647	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Implementation Methods 21 - 31 of the Plan to require for all applications for resource consent policy; or plan changes; or variations are to be reported on by cultural adviser(s) mandated by tangata whenua of Taranaki with costs to be borne by proponents.	<p>Officers recommend declining the relief sought noting that such matters are operational detail that is not appropriate to be included in the Plan.</p> <p>Notwithstanding the above, Officers note Implementation Method 30 which states that the Council will work with iwi authorities to develop memoranda of understanding that establish and maintain an effective working relationship. In particular, Mana Whakahono a Rohe agreements between the Council and iwi</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	represent an opportunity to set out agreements on Council – iwi relationships, including any requirements for resource consent applications, policy; or plan changes; or variations to be reported on by cultural advisers.
28 – Grant Knuckey	648	<b>Amend</b>  Submitter seeks amendment to Implementation Methods 21 – 31 of the Plan to require memoranda of understanding with mana whenua.	<b>No relief necessary</b>  Officers note Implementation Method 30 already provides for the relief sought by the submitter. Method 30 states that the Council will work with iwi authorities to develop memoranda of understanding that establish and maintain an effective working relationship.
28 – Grant Knuckey	649	<b>Amend</b>  Submitter seeks amendment to Implementation Methods 21 - 31 of the Plan to require marine spatial planning - incorporating matauranga Māori in collaboration with mana whenua.	<b>Accept in part</b>  The submitter seeks the inclusion of marine spatial planning, as an implementation method, to require marine spatial planning that incorporates matauranga Māori in collaboration with manawhenua inform decision making.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	The submitter has not provided specific details as to what this relief looks like or how matauranga Māori is incorporated into a spatial framework. Officers note that the Council already gathers considerable information, including spatial information, across the broad suite of its activities (not just those that relate to this Plan or the RMA) and regularly maintains and updates relevant information on its GIS databases. The Council is further investigating the incorporation of matauranga Māori principles into its monitoring strategies with opportunities of incorporating some or all of that information into spatial planning.  Officers recommend granting the relief sought in part by including a new Implementation Method 5A that reads as follows:  <i><u>5A. Develop and implement spatial planning to achieve integrated management of the coastal environment, including the identification of sites and places with significant values, and, where appropriate, make this publicly available.</u></i>
39 – Maniapoto Māori Trust Board	650	<b>Other</b>  Submitter encourages Council to uphold the principles of the Treaty of Wāitangi and to actively look at Māori representation on its standing committees.	<b>No relief necessary</b>  The submitter's comments are noted.  Officers direct the submitter to Implementation Method 31 which provides for tangata whenua to be represented on the Council's Policy and Planning Committee, the Consents and Regulatory Committee and other committees arising out of Treaty of Waitangi settlements. In addition, Objective 10 [Treaty of
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Waitangi] and Policy 16 [Relationship of tangata whenua] also provide consideration of the Treaty of Waitangi.
41 – Te Korowai o Ngāruahine Trust	651	<b>Support</b> Submitter support Implementation Methods 21 to 31 of the Plan as a useful basis to support implementation of the Plan in line with tangata whenua values.	<b>Accept</b> Support noted. Implementation Methods 21 – 31 are retained subject to minor and inconsequential amendments requested by other submitters. to Implementation Methods 24, 25 and 27.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	
57 – Heritage New Zealand	652	<b>Amend</b> Submitter seeks amendment to Section 6.5 of the Plan by adding a new Method within the section to read: <i><u>Regularly review and update Schedule 7 [Historic Heritage] to reflect the latest information; for example, new entries on the New Zealand heritage list/Rārangī Kōrero and new sites of significance identified by iwi and/or hapū.</u></i>	<b>No relief necessary</b> Officers do not believe the relief sought by the submitter is appropriate or necessary. The Methods of Implementation are optional content matters under Section 67 of the RMA. They are deliberately high level to broadly capture the suite of coastal uses and values addressed by the Plan. Officers do not believe it is necessary to provide the specificity sought by the submitter. Officers suggest that Implementation Method 16 already provides for the relief sought by the submitter. Method 16 states that Council will maintain and update GIS databases of all known coastal sites with regionally significant values, including historic significance. Section 10.2 [Review of the Plan] further states that a review of the relevant parts or provisions of the Plan may be carried out if a new issue arises, or if regional monitoring or research programmes show that a review would otherwise be appropriate.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41) Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
57 – Heritage New Zealand	653	<b>Amend</b> Submitter seeks amendment to Section 6.5 of the Plan by adding a new Method within the section to read: <i><u>Consider opportunities for collaboration with stakeholders on the protection and conservation of historic heritage.</u></i>	<b>No relief necessary</b> Officers direct the submitter to Implementation Method 22, which already addresses supporting and, where appropriate, being involved in surveys, research and investigations involving historic heritage.
<b>Method 24 – Identification of wāhi tapu and other taonga</b>			
	654	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
42 – Ngati Rahiri Hapū		Submitter seeks amendment to Implementation Method 24 of the Plan to include the definition “waahi taonga” noting the submitter will provide the Taranaki Regional Council with GIS data of sites that they are willing to share.	<p>The submitter notes that it has GIS data on sites of significance in its rohe. Through the pre-hearing process the submitter has worked with officers to identify sites of significance in their rohe, which have subsequently been included in the Plan and associated planning maps (where this is appropriate).</p> <p>Officers further agree to amend Implementation Method 24 (and other consequential amendments) to include “waahi taonga” within the Method 24. The amended Method would read as follows:</p> <p><i>24. Support and assist iwi as appropriate, <u>to identify sites and places of special cultural and traditional value associated with the coastal environment, including the identification of wāhi tapu, wāhi taonga and other taonga through the development of electronic wāhi tapu inventories, registers or ‘silent files’.</u></i></p>
<b>Method 25 – Iwi involvement or partnership</b>			
41 – Te Korowai o Ngāruahine Trust	655	<p><b>Amend</b></p> <p>Submitter suggests Implementation Method 25 of the Plan refers to two distinct forms of implementation and involvement and seeks that it be amended to separate those activities relating to databases and information (which is already addressed in Method 24).</p>	<p><b>Accept</b></p> <p>Officers agree to the relief sought by the submitter. Officers recommend amending Implementation Methods 24 and 25 to read:</p> <p><i>24. Support and assist iwi <u>to develop iwi and Council databases and records that identify sites and places of special cultural and traditional value associated with the coastal environment, including the identification of wāhi tapu, wāhi taonga and other taonga through the development of electronic wāhi tapu inventories, registers or ‘silent files’.</u></i></p> <p><i>25. Consider <b>iwi involvement or partnerships</b> in Taranaki Regional Council resource investigations and projects associated with the coastal environment.</i></p>
42 – Ngati Rahiri Hapū	656	<p><b>Amend</b></p> <p>Submitter seeks amendment to Implementation Method 25 of the Plan by deleting and replacing the word “consider” (in relation to Iwi involvement or partnerships in Council resource investigations and projects) with a stronger word to show a stronger commitment from the Council.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter noting that involvement or partnerships with other parties (not just iwi) on Council investigations and projects necessarily need to be considered on a case-by-case basis.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41) Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Method 27 – Promote public awareness of wāhi tapu and other taonga</b>			
42 – Ngati Rahiri Hapū	657	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Implementation Method 27 of the Plan to also refer to “waahi taonga”.	Officers recommend granting the relief sought by the submitter. It is recommended the Implementation Method 27 be amended to read: <i>27. Provide advice and information to generally <b>promote awareness</b> of wāhi tapu, <u>wāhi taonga</u> and other taonga and the importance and values of such sites and values.</i>
<b>Method 29 – Historic heritage</b>			
57 – Heritage New Zealand	658	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Implementation Method 29 of the Plan due to the potential issues with silent files and the accessibility of the public. The submitter suggests to consider using indicative markers on planning maps and consultation with iwi and/or hapū instead.	Officers note the concerns of the submitter are around a sensitive area of information to iwi/hapū. However, this level of detail is not considered appropriate to specify in Plan methods. Such matters are currently being worked through in this Plan review process. Operational details to address potential issues with silent files and the use of indicative markers might be a matter to be addressed in Mana Whakahono a Rohe agreements. Although it is noted that in the engagement with iwi and hapū to date there is general agreement that polygons are the more appropriate planning tool which has been implemented as a result of such consultations with iwi/hapū. The methodology and appropriateness of using indicative markers to identify culturally sensitive sites of significance will be determined only in consultation with the affected tangata whenua.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
<b>Method 31 – Historic heritage</b>			
57 – Heritage New Zealand	659	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Implementation Method 31 of the Plan to include how the Council will provide guidance on how tangata whenua representatives will be chosen.	Officers do not recommend granting the relief sought by the submitter. Officers consider this level of detail inappropriate for Plan methods noting that such matters have already been addressed with the agreements of the iwi authorities.
<b>Method 32 – Resource consents</b>			
50 – Te Kāhui o Taranaki Trust	660	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Implementation Method 32 of the Plan to read:	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>As appropriate, require new or renewed resource consents for the use or development of the coastal marine area to include a condition addressing public access <u>where Māori cultural values are not adversely impacted on.</u></i>	Officers recognise the submitters concerns regarding Māori cultural values with regards to public access. Officers would like to reassure the submitter that such issues are already addressed in the Policies section. Officers further note that the qualifier for including consent conditions addressing public access is it must be "appropriate". Policy 17 (c) sets out directions where public access might not be appropriate and it includes, amongst other things, where restrictions necessary to protect historic heritage and sites and activities of cultural value to Māori. As the requested relief is already contained within the relevant policies and will be implemented on such instances where public access and cultural values coincide, officers consider it inappropriate and unnecessary to repeat the provisions already provided for.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	
<b>Method 34 – Public use and enjoyment</b>			
2 – Federated Farmers	661	<b>Support</b> Retain Implementation Method 34 of the Plan as notified.	<b>Accept</b> Support noted. Implementation Method 34 is retained subject to minor and inconsequential amendments requested by another submitter.
Further submissions – Port Taranaki Ltd (32)		Support	
5 – Point Board Riders	662	<b>Support</b> Submitter supports Implementation Method 34 of the Plan establishing a working group of stakeholders for the designated Significant Surfing Area and suggest the concept could be expanded to other parts of the coastline if the model is successful.	<b>Accept</b> Support and comments noted.
15 – Surfbreak Protection Society	663	<b>Support</b> Submitter supports Implementation Method 34 of the Plan establishing a working group of stakeholders for the designated Significant Surfing Area and seeks key surfing groups be involved.	<b>Accept</b> Support and comments noted.
50 – Te Kāhui o Taranaki Trust	664	<b>Amend</b> The submitter comments that Implementation Method 34 is premature and contend that the Council has not gone through appropriate consultation on the surf breaks designations.	<b>Grant in kind</b> Officers note that through the Coastal Plan review there has already been considerable consultation and engagement on the issue of surf break protection. An initial list of regionally significant surf breaks was adopted in the current

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>Submitter seeks amendment to the Plan by deleting Implementation Method 34 of the Plan relating to the establishment of a working group to look at protecting and enhancing recreational values.</p>	<p>Regional Policy Statement for Taranaki, which was adopted in 2010. However, through the Coastal Plan review additional investigations and engagement occurred. This included the commissioning of reports on Regional significance criteria for the assessment of surfbreaks and Taranaki surf breaks of national significance, consultation and seeking of feedback on draft Plan policies, further consultation on a draft Plan and, more recently, public notification for the Proposed Plan. As part of the review, an innovative 'wave survey' was also carried out that allowed the community to tell Council which surf breaks had specific values and why.</p> <p>In relation to Implementation Method 34, Officers note there is wide spread support for the establishment of a working group to look at not only protecting and enhancing recreational values in the Significant Surfing Area but also to address wider issues associated with public access, tourism promotion, the management of over-crowding, freedom camping, district council bylaws and the protection of other values in the area. This is an example of reliefs sought by other submitters, on other issues, where greater collaboration and integrated management is sought to address issues that are much broader than those covered by this Plan.</p> <p>Iwi and hapū are seen as integral to this concept working. If the submitter sees no merit in establishing and participating in a working group that includes relevant agencies, landowners, iwi, hapū and interest groups to protect and enhance the recreational values of the Significant Surfing Area as described in Schedule 7B, then the Council will not proceed. Accordingly, officers recommend amending the Method to <u>investigate</u> the establishment of a working group.</p>
<b>Method 35 – Public Access</b>			
42 – Ngati Rahiri Hapū	665	<p><b>Amend</b></p> <p>Submitter suggests that the reference to the <i>Queen Elizabeth the Second National Trust Act 1977</i> is in conflict with the intent of Implementation Method 35 to promote public access along the coast as the Queen Elizabeth II covenants generally exclude public access. Submitter seeks amendment to Implementation Method 35 of the Plan to delete reference to “Queen Elizabeth the Second National Trust Act 1977”.</p>	<p><b>Accept</b></p> <p>Officers agree to the submitters request to remove the reference to “Queen Elizabeth the Second National Trust Act 1977”.</p> <p><b>35. Promote</b> the enhancement of public access to and along the coast through agreements or covenants with landowners under the <i>Walking Access Act 2008</i>, the <i>Reserves Act 1977</i>, or through the voluntary creation of esplanade strips under the <i>RMA</i>.</p>
<b>Method 43 – Implement Plan</b>			
	666	<p><b>Amend</b></p>	<p><b>No relief necessary</b></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
50 – Te Kāhui o Taranaki Trust		Submitter seeks amendment to Implementation Method 43 of the Plan to read: <i>Promote industrial, domestic, and agricultural discharge and treatment systems, siting, design, installation, operation and maintenance procedures to avoid or mitigate adverse effects on coastal water or air quality <u>where Māori cultural values are not adversely impacted on.</u></i>	Officers are aware that the submitter wishes to protect their cultural values that are associated with discharge systems, however, the rationale for avoiding or mitigating adverse effects on coastal water or air quality includes wider resource management considerations and is not confined to Māori cultural values. It is not appropriate to limit or restrict Implementation Method 43 in such a manner. Officers refer the submitter to the relevant policies, including General Policies, to see the level of protections provided for under such matters.
<b>Method 47 – Notify Medical Officer of Health</b>			
48 – Taranaki District Health Board	667	<b>Amend</b>  Submitter seeks amendment to Implementation Method 47 of the Plan to read: <i>Notify the Medical Officer of Health for Taranaki and the relevant territorial authority if water quality shows that coastal water is unfit for contact recreation or gathering of shellfish for human consumption. <u>The Taranaki Regional Council will also conduct an investigation to determine the cause of the poor water quality if it is practicable.</u></i>	<b>Accept</b>  The submitter wishes to include a method component that emphasises the investigation into the cause of the poor water quality if it is practicable to do so. Officers agree and recommend amending Implementation Method 47 as sought.
<b>Method 48 – Advocate or encourage</b>			
9 – Karen Pratt	668	<b>Amend</b>  The submitter is concerned about the potential adverse environmental effects of ballast water and seeks amendment to Implementation Method 48 of the Plan to reference Maritime New Zealand Marine Protection Rules and Craft Risk Management Standard and suggest looking at the wording in conditions of consent included in the recent granting to mine ironsand off New Zealand.	<b>No relief necessary</b>  Officers suggest that the relief sought by the submitter is a matter to be considered when applying the rules although care needs to be taken to ensure the matters being considered relate to the Taranaki Regional Council's jurisdictional responsibilities under the RMA and do not derogate from the Ministry for Primary Industries border control responsibilities, which includes ballast water. Officers note that Implementation Method 48 is a non-regulatory method to achieve Plan objectives (in this case advocacy and encouragement).
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	
29 – Department of Conservation	669	<b>Support</b>  Retain Method 48 of the Plan as notified.	<b>Accept</b>  Support noted. Implementation Method 48 is retained as notified.
<b>Method 50 – Regional marine oil responses</b>			
	670	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
7 – Waikato Regional Council		Submitter supports Implementation Method 50 of the Plan relating to marine oil spill responses.	Support noted. Implementation Method 50 is retained as notified.
Further submissions – Port Taranaki Ltd (32)		Support	
<b>Method 51 – Noise standards</b>			
43 – Royal Forest and Bird Protection Society	671	<b>Amend</b> Submitter seeks amendment to Implementation Method 51 of the Plan to delete reference to New Zealand Standards and replace with: <i>[...] <u>considerations of the latest information of the effects of noise of marine species and habitats. The use of the most recent professionally supported noise modelling for the marine environment. Taking a precautionary approach where limited information is available.</u></i>	<b>Decline</b> Officers recommend declining the relief sought by the submitter noting that the <i>New Zealand Standards NZS 6802:2008 Acoustics - Environmental noise and NZS 6803: 1999 Acoustics – Construction Noise</i> have been adopted and underpin the limits set in Section 8.6.3 [General standards – Noise].
Further submissions – Trans-Tasman Resources Ltd (6), Port Taranaki Ltd (32)		Oppose	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
48 – Taranaki District Health Board	672	<b>Amend</b> Submitter seeks amendment to Implementation Method 51 of the Plan to read: <i>Consideration of the general standards in this Plan, and of New Zealand Standards NZS 6802:2008 Acoustics - Environmental noise and NZS 6803: 1999 Acoustics – Construction Noise when:</i> <i>(a) considering applications for coastal permits; or</i> <i>(b) determining whether noise <u>is unreasonable levels are excessive</u> for the purpose of enforcement action under Part 12 of the RMA.</i> <i><u>Note “excessive noise” is subject to special provisions of the RMA under sections 326-328 of the Act. Council enforcement officers may exercise powers to investigate complaints that noise is excessive and take appropriate actions under s.327 of the Act.</u></i>	<b>Accept in part</b> Officers recommend amending Implementation Method 51 in part to read: <i>Consideration of the general standards in this Plan, and of New Zealand Standards NZS 6802:2008 Acoustics - Environmental noise and NZS 6803: 1999 Acoustics – Construction Noise when:</i> <i>(a) considering applications for coastal permits; or</i> <i>(b) determining whether noise levels are <u>in breach</u> for the purpose of enforcement action under Part 16 of the RMA.</i> Officers suggest the explanatory note would be more appropriately placed in Section 8.6.3 of the Plan.
<b>NEW Method Natural hazard management</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
7 – Waikato Regional Council	673	<b>Amend</b>	<b>Decline</b>
		Submitter seeks that Council consider incorporating an adaptive pathways planning approach to natural hazards as a new Implementation Method.	No precise details of amendments sought to the Plan have been provided and seems to be an unnecessary level of detail given that the Coastal Plan would be only one of the elements necessary to deliver adaptive pathways planning approach to natural hazards with other agencies (such as territorial authorities) having the key role.

## 4.5 Rules

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>General – Plan</b>			
43 – Royal Forest and Bird Protection Society	674	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to rules to change “ <i>effects on ecological values</i> ” to “ <i>effects on indigenous biodiversity</i> ” in matters for control.	
Further submissions – Port Taranaki Ltd (32)		Oppose	<p>The term “<i>ecological values</i>” means relating to or concerned with the relation to organisms to one another and their physical surroundings. As such it has a broad application and potentially captures other matters of control identified in relevant rules such as water quality but is potentially unclear as to what other constituent parts of the environment are also captured in the term.</p> <p>For the purposes of certainty and clarity, officers recommend changing reference to “<i>effects on ecological values</i>” to “<i>effects on indigenous biodiversity</i>” plus other consequential changes (addressing natural character) within the rules section to better align with Plan policies addressing natural form and functioning and indigenous biodiversity. This relief will better align language between the rules and language already adopted in the objectives and policies of the Plan.</p>
43 – Royal Forest and Bird Protection Society	675	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to permitted activity rules of the Plan by replacing references to avoiding adverse effects on Policy 11 of the <i>New Zealand Coastal Policy Statement</i> matters with permitted activities that limit the activity type, scale and location to the extent that the activity will not have an adverse effect which is inconsistent with achieving Policy 11 of the <i>New Zealand Coastal Policy Statement</i> .	
Further submissions – Powerco (45)		Oppose in part	<p>No precise details of amendments sought to the Plan have been provided and officers are unclear as to what is sought in this relief. However, officers note that it is their view that all rules give effect to Policy 11 [Indigenous biological diversity (biodiversity)] of the <i>New Zealand Coastal Policy Statement</i>.</p> <p>Permitted activity rules are already proposed that are believed to be of a scale, type and location that any adverse effects on biodiversity will be less than minor and is consistent with community expectations set out in the Plan policies – particularly Policies 14, 14A and 14B the Plan, which, in turn give effect to Policy 11 of the <i>New Zealand Coastal Policy Statement</i>.</p> <p>Notwithstanding any permitted activity classification, undertaking such activities is still subject to compliance with the standards, terms and conditions of the rule, which will ensure that such activities are carried out in a manner that will avoid, remedy or mitigate effects on indigenous biological diversity.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Further to this, officers note that, in response to other reliefs sought by the submitter and others, officers have recommended additional standards, terms and conditions to be included in Permitted and Controlled Activity Rules that address other wider biodiversity considerations, for example, protection of taonga species and aquatic life.</p>
43 – Royal Forest and Bird Protection Society	676	<p><b>Amend</b></p> <p>Submitter seeks amendment to rules of the Plan to avoid adverse effect on natural character as required by Policies 13 and 15 of the <i>New Zealand Coastal Policy Statement</i>.</p>	<p><b>No relief necessary</b></p> <p>No precise details of amendments sought to the Plan have been provided. However, officers note that it is their view that all rules give effect to Policies 13 [Preservation of natural character] and 15 [Natural features and natural landscapes] of the <i>New Zealand Coastal Policy Statement</i>.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>Permitted activity rules are believed to be of a scale, type and location that any adverse effects on natural character and natural features and landscapes will be less than minor and is consistent with community expectations set out in the Plan policies – particularly Policies 8 to 13 of the Plan, which, in turn give effect to Policies 13 and 15 of the <i>New Zealand Coastal Policy Statement</i>. Any permitted activity is subject to compliance with the standards, terms and conditions of the rule, which will ensure permitted activities are carried out in a manner that will avoid, remedy or mitigate effects on natural character and natural features and landscapes.</p>
Further submissions – Powerco (45)		Oppose in part	<p>Where activities are of a scale, type and location that any adverse effects on natural character and natural features and landscapes will likely to be more than minor a resource consent is required. Through the consenting process, all General Policies are considered, including Policies 8 to 13, when determining whether the activity will be allowed and, in the event that it is consented, what conditions will be imposed to avoid, remedy or mitigate effects on natural character and natural features and landscapes.</p>
55 – Kiwis Against Seabed Mining	677	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to include rules prohibiting and restricting fishing activities and protect coastal values as identified through spatial planning.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter noting that jurisdictional responsibilities for marine fishing lies with the Ministry for Primary Industries under the <i>Fisheries Act</i>. Regional councils are therefore not responsible for fishing activities <i>per se</i> within the coastal marine area. Notwithstanding the above, officers recognise that activities in the coastal marine area may result in the disturbance or destruction of marine habitat. However, such activities are already addressed via Plan rules. Any other</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			prohibitions or restrictions targeting fishing activities are considered inappropriate.
56 – Greenpeace	678	<b>Amend</b> Submitter seeks amendment to the Plan (rules) to ensure that fishing activities are managed so as to avoid, remedy or mitigate adverse effects to environmental bottom lines and policies of the <i>New Zealand Coastal Policy Statement</i> and/or values identified in the Regional Policy Statement and Coastal Plan.	<b>Decline</b> Officers recommend declining the relief sought by the submitter. noting that jurisdictional responsibilities for marine fishing lies with the Ministry for Primary Industries under the <i>Fisheries Act</i> . Regional councils are therefore not responsible for fishing activities <i>per se</i> within the coastal marine area.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	Notwithstanding the above, officers recognise that activities in the coastal marine area may result in the disturbance or destruction of marine habitat. However, such activities are already addressed via Plan rules. Any other prohibitions or restrictions targeting fishing activities are considered inappropriate.
61 – Te Rūnanga o Ngāti Ruanui Trust	679	<b>Amend</b> Submitter seeks amendment to the Rules of the Plan to clearly articulate tangata whenua participation.	<b>No relief necessary</b> No precise details of amendments to the Plan have been provided and officers are unclear as to what amendments to rules would be appropriate to clearly articulate tangata whenua participation (presumably in relation to RMA matters). Officers do not believe operational details relating to the implementation of the Plan are appropriate to be included within a Plan yet alone in the rules section.  Officers do not recommend making any changes to the rules section of the Plan in response to the relief sought. However, officers note consequential amendments have been made to relevant Plan objectives, policies and methods articulating tangata whenua values and relationships. Further opportunities to address operational detail exists outside the Plan. In particular, officers note that, through Mana Whakahono a Rohe agreements, such matters can be addressed and further detail provided. The Council will be seeking to work with tangata whenua in order to address these issues in the appropriate setting and format through Mana Whakahono a Rohe agreements.
Further submissions - Te Korowai o Ngāruahine Trust (41)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	680	<b>Other</b> Submitter seeks that more details are provided with respect to the nature and scope of the word “ <i>minor</i> ” to avoid confusion.	<b>No relief necessary</b> The word “ <i>minor</i> ” has been used in several contexts. The most common instance is in relation to describing the effects of an activity.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>In general, the magnitude of the effects of an activity are determined on a case-by-case basis as it is not appropriate to make a blanket statement that covers so many variables, environmental locations and sensitive environments. For example, what is considered a minor effect in one location may produce a significant effect in another due to the nature of that specific location and the associated values and uses. The criteria for determining "minor adverse effects" is whether the activity will cause an adverse effect and the level of that effect and the time it would take for that effect to be remedied (either naturally or through remedial processes). Generally, minor effects are small and transitory such that they do not require avoiding, remedying or mitigating in order to maintain the values of that location, whether those be biological, environmental, historic, cultural, visual, etc.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	681	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Rules section of the Plan that monitoring programmes referred to within the Rules section of the Plan include cultural or mauri indicators/values.</p>	<p><b>No relief necessary</b></p> <p>Officers do not believe the rules section is the appropriate place to introduce or detail cultural monitoring requirements. The submitter has not stated which rules need to be amended or the precise amendments sought. However, officers note that for Discretionary and Non-complying Activities, cultural monitoring programmes that include cultural or mauri indicators/values may be considered on a case-by-case basis as part of the consenting process.</p>
Further submissions - Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>Similarly, Controlled Activity rules already include, as matters of control, monitoring considerations. Monitoring is a broad term that is used in the Plan to include all aspects of monitoring including cultural monitoring and there is no advantage in confining monitoring to particular forms. Again, through the consenting process, there is the opportunity to consider and include cultural or mauri indicators/values on a case-by-case basis as part of any compliance programme.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	682	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Rules section of the Plan to reference adverse effects on Schedules 1, 2, 4C, 5B and Appendix 2 of the Plan.</p>	<p><b>No relief necessary</b></p> <p>Officers note that the appropriate references to Plan Schedules have already been included within the Rules section and no further additions are required. Officers further note that the submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary and Non-complying activities. The inclusion of such matters in the rule is not considered appropriate with conditions being developed on a case-by-case basis through the consenting process having regard to the relevant policies,</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			which in turn contain the necessary reference to the Schedules sought by the submitter.
<b>Rule 1 – Stormwater discharge</b>			
29 – Department of Conservation	683	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 1 of the Plan to exclude its application to coastal management areas, Outstanding Value and Estuaries Unmodified.</p>	<p><b>Decline</b></p> <p>The submitter believes that the permitted classification of stormwater discharge into Outstanding Value coastal management areas and Estuaries Unmodified is inappropriate.</p> <p>Stormwater is defined within the Plan (in accordance with the <i>National Planning Standards</i>) and means “...runoff that has been channelled, diverted, intensified or accelerated by human modification of a land surface or runoff from the surface of any structure, as a result of precipitation and includes any contaminants contained within.”</p> <p>Officers do not recommend granting the relief sought by the submitter. Officers do not consider it appropriate to require consents from all premises to simply authorise the discharge of rainfall runoff from their land.</p> <p>Coastal monitoring over the life of the current Coastal Plan has identified no issues with stormwater contributing to more than minor adverse effects to coastal water quality. Therefore, to now require all properties (urban, rural, industrial and trade premises) because they are adjacent to Outstanding Value and Estuaries Unmodified coastal management areas to get a resource consent, regardless of having less than minor adverse effects, imposes significant added compliance cost without any net environmental gain.</p> <p>Officers note that any permitted activity to discharge stormwater into the coastal marine area is still subject to compliance with the standards, terms and conditions of the rule, which will ensure permitted activities are carried out in a manner that will avoid, remedy or mitigate effects on coastal water quality and associated values and uses.</p>
40 – Te Rūnanga o Ngāti Mutunga	684	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 1 of the Plan by deleting Activity Description (b)(i) in Rule 1 of the Plan to read:</p> <p><i>Stormwater discharge into water or onto land in the coastal marine area that either:</i></p> <p><i>(a) does not convey stormwater from any industrial or trade premises, or</i></p>	<p><b>Decline</b></p> <p>The submitter believes that any stormwater discharge from an industrial or trade premises should be monitored for its possible adverse effects on the environment irrespective of the size of the trade or industrial premises.</p> <p>Stormwater is defined within the Plan (in accordance with the <i>National Planning Standards</i>) and means “...runoff that has been channelled, diverted,</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>(b) conveys stormwater from industrial or trade premises that:  <del>(i) cover a total area of 2 ha or less; and</del>  <del>(ii) do not use or store hazardous substances.</del></p>	<p><i>intensified or accelerated by human modification of a land surface or runoff from the surface of any structure, as a result of precipitation and includes any contaminants contained within.</i></p> <p>The relief sought by the submitter will significantly increase compliance costs on a range of businesses by including a requirement to obtain a consent to discharge stormwater. The RMA definition of 'industrial or trade premises' includes a large variety of premises such as surf lifesaving clubs, dairies etc. Stormwater discharges to the coastal marine area from these premises (recognising that they cannot use or store hazardous substances) are expected to have less than minor adverse effects.</p> <p>In terms of managing adverse effects and not imposing unnecessary (and disproportionate costs) on resource users, it is considered inappropriate to require consents from all industrial or trade premises to simply authorise the discharge of rainfall runoff from their land. Officers recommend retaining the activity description (b)(i) of Rule 1 as notified.</p>
<p>40 – Te Rūnanga o Ngāti Mutunga</p>	<p>685</p>	<p><b>Amend</b></p> <p>The submitter is not convinced that, even with the conditions listed, there is not a possibility of contamination of the water in these areas where stormwater discharges are allowed as a permitted activity.</p> <p>Submitter seeks amendment to amend Rule 1 of the Plan to make stormwater discharges a Discretionary Activity in Outstanding Value, Estuaries Unmodified and Estuaries Modified coastal management areas.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Stormwater is defined within the Plan (in accordance with the <i>National Planning Standards</i>) and means "...runoff that has been channelled, diverted, intensified or accelerated by human modification of a land surface or runoff from the surface of any structure, as a result of precipitation and includes any contaminants contained within."</p> <p>Officers note there are significant urban areas that would be affected by the relief sought by the submitter such as New Plymouth, Waitara, Urenui and Patea. Coastal monitoring over the life of the current Coastal Plan has identified no issues with stormwater contributing to more than minor adverse effects to coastal water quality. Therefore, to now require all properties (urban, rural, industrial and trade premises) to get a resource consent regardless of having less than minor adverse effects is not considered appropriate and would unnecessarily restrict activities without any net environmental impacts.</p>
	<p>686</p>	<p><b>Amend</b></p>	<p><b>Accept</b></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
40 – Te Rūnanga o Ngāti Mutunga		Submitter seeks amendment to Condition (i) of Rule1 of the Plan to read: (i) the discharge does not render marine organisms unsuitable for human consumption within recognised mātaītai reefs/resources; [...]	The submitter identifies that there are difficulties in mapping all of the mātaītai areas within the Ngāti Mutunga rohe and request that the condition be expanded to include all marine organisms. Officers recommend granting the relief sought by the submitter by amending condition (i) to read: <i>(i) the discharge does not render marine organisms unsuitable for human consumption.</i>
40 – Te Rūnanga o Ngāti Mutunga	687	<b>Amend</b> Submitter seeks amendment to Condition (k) of Rule1 of the Plan to read: <i>(k) the discharge does not cause the natural temperature to be changed by more than three degrees from normal seasonal water temperature fluctuations, after reasonable mixing <u>or any changes that cause it to exceed 25 degrees Celsius.</u></i>	<b>Decline</b> The submitter supports setting an upper temperature limit to the increase any discharge can have on water temperature due to the detrimental effect it can have on life. Officers recommend declining the relief sought by the submitter. A review of coastal water temperatures at coastal recreational monitoring sites between 2015 to 2018 shows that temperatures may naturally reach 25 degrees celsius. Including a threshold of 25 degrees celsius when such temperatures can be 'naturally' exceeded would unnecessarily restrict stormwater discharges at certain times of the year for no net environmental benefit. Officers suggest that the Condition (k) rule already adequately addresses the effects of temperature through the requirement that the discharge does not cause the natural temperature to be changed by more than three degrees from normal seasonal water temperature fluctuations.
41 – Te Korowai o Ngāruahine Trust	688	<b>Amend</b> Submitter supports Rule 1 and specifically the inclusion of Condition (e) in Rule 1 of the Plan addressing historic heritage, but seeks further dialogue on how adverse effects will be considered in practice. The submitter is uncertain if the Council is best placed to determine if Condition (e) is met. If an agreement cannot be reached, submitter seeks amendment to Rule 1 to make stormwater discharges a Discretionary Activity (rather than Permitted Activity).	<b>Decline</b> The issue is one of managing adverse effects from normal incidental discharges of stormwater. In most cases, allowing stormwater discharges associated with residential premises, production land, parks and reserves, and smaller benign industrial and trade premises adjacent to the coastal marine area can be permitted as they will generally be of a scale, type and location that any adverse effects on historic heritage values (and other values) are less than minor. However, in isolated circumstances this might not be the case-hence the need for Condition (e) addressing no adverse effects on scheduled historic heritage values that would apply if an activity was having unexpected/unintended impacts.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>In terms of who is best placed to make that determination as to the significance of any effects, the Taranaki Regional Council has the regulatory responsibilities to monitor and enforce its regional plans. However, officers note that in making that determination it will be informed by the advice and guidance by others, including tangata whenua where the values associated with sites of significance are potentially being impacted upon. Some of this guidance would be set out in the Plan, through its policies or scheduled of sites of significance, while on other occasions it might be informed by further individual engagement with iwi or hapū.</p> <p>With regards to changing the Activity classification from Permitted to Discretionary, officers recommend declining the relief sought.</p>
42 – Ngati Rahiri Hapū	689	<p><b>Amend</b></p> <p>Submitter expresses concern for conflicting activities between Activity Description (a) and (b) of Rule 1 of the Plan and seeks amendment to Activity Description (b) to read:</p> <p><i>Stormwater discharge into water or onto land in the coastal marine area that either:</i></p> <p><i>(a) does not convey stormwater from any industrial or trade premises, or</i></p> <p><i>(b) conveys stormwater from industrial or trade premises that:</i></p> <p><del>(i) cover a total area of 2 ha or less; and</del></p> <p><del>(ii) do not use or store hazardous substances [...]</del></p>	<p><b>Decline</b></p> <p>Stormwater is defined within the Plan (in accordance with the <i>National Planning Standards</i>) and means “...runoff that has been channelled, diverted, intensified or accelerated by human modification of a land surface or runoff from the surface of any structure, as a result of precipitation and includes any contaminants contained within.”</p> <p>Officers recommend declining the relief sought by the submitter in that granting the relief would significantly increase compliance costs (for no net environmental gain) on a range of businesses by including a requirement for small industrial and trade premises (less than 2 ha) to obtain a consent to discharge stormwater. Definition of industrial or trade premises includes a large variety of premises such as surf lifesaving clubs, dairies etc. Stormwater discharges to the coastal marine area from these premises (recognising that they cannot use or store hazardous substances) are expected, based on previous coastal monitoring, to have less than minor adverse effects.</p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	690	<p><b>Support</b></p> <p>Retain Rule 1 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Rule 1 is maintained subject to minor amendments made to offer relief to other submitters' concerns where appropriate.</p>
48 – Taranaki District Health Board	691	<p><b>Support</b></p> <p>Retain Rule 1 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Rule 1 is retained subject to minor amendments as requested by other submitters that do not change the rule's scope.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
53 - Taranaki Regional Council	692	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Activity Classification of Rule 1 of the Plan to include a schedule of hazardous substances, the type and quantity of which would warrant regulating through the resource consent process. Refer to threshold values that trigger controls under <i>Hazardous Substances and New Organisms Act 1996</i>.</p>	<p><b>Accept</b></p> <p>The definition of hazardous substances is very broad and includes many normal day-to-day items and products such as detergents, household cleaners etc. As a result, Rule 1 is likely to unnecessarily capture all industrial or trade premises regardless of quantities and risk to the environment.</p> <p>Officers recommend granting the relief sought by the submitter to include a schedule of hazardous substances limits (setting out for the reader's information hazardous property threshold criteria under the <i>Hazardous Substances and New Organisms Act</i>) and amending Rule 1 to read:</p> <p><i>Stormwater discharge into water or onto land in the coastal marine area that either:</i></p> <p>(a) does not convey stormwater from any industrial or trade premises, or</p> <p>(b) conveys stormwater from industrial or trade premises that:</p> <p>(i) cover a total area of 2 ha or less; and</p> <p>(ii) do not use or store hazardous substances <i>in quantities or of a type that exceed any of the hazardous property threshold criteria identified in Schedule 8AA.</i></p> <p>As well as the inclusion of an additional Schedule identifying the hazardous substances and quantities which are identified in Schedule 8AA [Hazardous substance thresholds].</p>
Further submissions – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Support in part	
58 – Te Atiawa	693	<p><b>Amend</b></p> <p>Submitter suggests that storm water discharged from an industrial or trade premises should be assessed in terms of discharge constituents, volume and frequency, and the associated environmental impacts. They contend that land size should not be a consideration when assessing discharges of this nature.</p> <p>Amend Rule 1 by deleting activity description (b)(i) <del>cover a total area of 2 ha or less;</del>.</p>	<p><b>Decline</b></p> <p>Stormwater is defined in the Plan and means "...runoff that has been channelled, diverted, intensified or accelerated by human modification of the land surface or runoff from the external surface of any structure as a result of precipitation (rainfall) and includes entrained contaminants and sediment (including that generated during construction or earthworks)."</p> <p>Officers recommend declining the relief sought by the submitter in that granting the relief would significantly increase compliance costs (for no net environmental gain) on a range of businesses by including a requirement for small industrial and trade premises (less than 2 ha) to obtain a consent to discharge stormwater. The RMA definition of industrial or trade premises includes a large variety of premises such as surf lifesaving clubs, dairies etc. Stormwater discharges to the coastal marine area from these premises</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			(recognising that they cannot use or store hazardous substances) are expected to have less than minor adverse effects.
58 – Te Atiawa	694	<p><b>Amend</b></p> <p>Submitter seeks amendment to Condition (i) of Rule 1 of the Plan to read:  <i>(i) the discharge does not render marine organisms unsuitable for human consumption <del>within recognised mātaimai reefs/resources.</del></i></p>	<p><b>Accept</b></p> <p>The submitter notes that full extent of mātaimai reefs/resources have not been mapped and therefore requests that Rule 1 be applied to all marine organisms.                      Officers recommend granting the relief as sought by the submitter.</p>
58 – Te Atiawa	695	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 1 of the Plan by amending the Activity Classification to a Discretionary Activity (rather than a Permitted Activity) in order to provide iwi the opportunity to be involved in the decision making process to ensure conditions of consent are monitored.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter. To change the Activity Classification to Discretionary would require all industrial or trade premises to require a resource consent. This would capture (and impose unnecessary consenting and compliance costs) on all surf lifesaving clubs, dairies and small trade premises that generally have no or less than minor adverse effects. Officers further note the number of premises likely to face these increased costs given the significant urban areas adjacent to the coast including New Plymouth, Waitara, Oakura, Urenui and Patea.                      Officers note that coastal monitoring over the life of the current Coastal Plan has identified no issues with stormwater contributing to more than minor adverse effects to coastal water quality. Therefore, to now require all properties (urban, rural, industrial and trade premises) to get a resource consent regardless of having less than minor adverse effects is not considered appropriate. Officers consider the current Activity Classification is sufficient and should be retained as currently notified.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	696	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 1 of the Plan by making several amendments to the standards, terms and conditions to read:                      [...]                       <i>(d) the discharge does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems] and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat];</i></p>	<p><b>Accept in part</b></p> <p>The submitter has made multiple requests to amend the conditions of Rule 1. Each of these requests are addressed point by point in the following:</p> <ul style="list-style-type: none"> <li>Officers agree to include reference to taonga species as requested but suggest that a new condition be included to read:                               <i>(ee) the discharge does not have a significant adverse effect on the values associated with taonga species as identified in Schedule 4CC [Taonga species];</i> </li> </ul>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>(e) the discharge does not have an adverse effect on the values associated with <u>cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage];</u></i></p> <p><i><u>(f) the discharge does not have adverse effect on Schedules 1 and 2</u></i></p> <p><i><u>(g) the activity does not have any adverse effects on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2.</u></i></p>	<ul style="list-style-type: none"> <li>Officers do not consider the inclusion of “cultural” necessary or useful within Condition (e). The definition of historic heritage includes cultural considerations and captures sites of significance. Officers are uncertain as to what else needs to be captured or could be captured by including “cultural”. With regards to other cultural aspects these are better addressed separately, e.g. Condition (ee) covers taonga species. Officers recommend retaining Condition (e) as currently notified within the Proposed Plan.</li> <li>Officers do not believe that the inclusion of Schedules 1 and 2 adds any value to the rule. The Rule covers small standard stormwater discharge activities and any effects must be localised, minor and transitional. Certainty not at a scale that they would have an impact on an entire coastal management area or have an impact on the significant values and attributes of areas with outstanding natural character or natural features and landscapes. Officers recommend declining the inclusion of proposed Condition (f).</li> <li>By definition, historic heritage includes sites of significance to Māori, therefore, Officers do not consider it appropriate to create a standalone condition since it is already provided for within Condition (e). Officers recommend declining the request for a new proposed Condition (g).</li> </ul>
<b>Rules 1 to 17 – Discharges</b>			
52 – Emily Bailey	697	<p><b>Amend</b></p> <p>Submitter seeks amendments to Rules 1 to 17 of the Plan that reference point source contaminant discharges, to make discharging into the coastal environment a prohibited activity.</p>	<p><b>Decline</b></p> <p>Stormwater is defined within the Plan (in accordance with the <i>National Planning Standards</i>) and means “...runoff that has been channelled, diverted, intensified or accelerated by human modification of a land surface or runoff from the surface of any structure, as a result of precipitation and includes any contaminants contained within.”</p> <p>Rules 1 to 17 capture many different activities most of which involve point source discharges. It is appropriate that a coastal management regime be in</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>place to manage adverse effects based upon the size and the significance of those adverse effects rather than banning all discharge activities outright. This is why the Plan includes a number of different rules relating to point source contaminant discharges as each rule regulates a different kind of discharge or location type. Some discharges have minor risks that do not warrant requiring people going through the consents process. Other point source discharges to the coastal marine area may also be provided for subject to going through the consenting process to ensure risks are fully assessed and specific conditions imposed to avoid, remedy or mitigate any adverse effects. Prohibiting such activities outright is not considered appropriate and is likely to be inconsistent with both the RMA and the <i>New Zealand Coastal Policy Statement</i>.</p>
<b>NEW Rule 1A – Stormwater discharges</b>			
29 – Department of Conservation	698	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to include a new rule, which makes stormwater discharge in the Outstanding Value and Estuaries Unmodified coastal management areas a Controlled Activity. The submitter seeks that the matters of control should be to the same effect as the conditions of Rule 1.</p>	<p><b>Decline</b></p> <p>Officer recommend declining the relief sought by the submitter.</p> <p>Stormwater is defined within the Plan and means “...<i>runoff that has been channelled, diverted, intensified or accelerated by human modification of the land surface or runoff from the external surface of any structure as a result of precipitation (rainfall) and includes entrained contaminants and sediment (including that generated during construction or earthworks).</i>”</p> <p>Officers do not believe it would be appropriate to require consents from all premises to authorise the discharge of rainfall runoff from their land. The requested relief would capture a large number of premises and businesses such as camping grounds, dairies and small trading premises (and impose unnecessary consenting and compliance costs) immediately adjacent to Outstanding Value and Estuaries Unmodified coastal management areas.</p> <p>Coastal monitoring over the life of the current Coastal Plan has identified no issues with stormwater contributing to more than minor adverse effects in these areas to coastal water quality. Therefore, to now require all properties (urban, rural, industrial and trade premises) immediately adjacent to Outstanding Value and Estuaries Unmodified coastal management areas to get a resource consent, regardless of having less than minor adverse effects, is not considered appropriate.</p> <p>Officers note that any permitted activity is still subject to compliance with the standards, terms and conditions of the rule, which will ensure permitted</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			activities are carried out in a manner that will avoid, remedy or mitigate effects on coastal water quality and associated values and uses.
<b>Rule 2 – Stormwater discharges</b>			
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	699	<b>Support</b> Retain Rule 2 of the Plan as notified.	<b>Accept</b> Support noted. Rule 2 is retained as notified, subject to minor inconsequential amendments that do not change the Rule's scope.
Further submissions – Port Taranaki Ltd (32)	Support		
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)	Oppose		
47 – Fonterra	700	<b>Support</b> Retain Rule 2 of the Plan as notified.	<b>Accept</b> Support noted. Rule 2 is retained as notified, subject to minor inconsequential amendments that do not change the Rule's scope.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)	Oppose		
61 – Te Rūnanga o Ngāti Ruanui Trust	701	<b>Amend</b> Submitter seeks amendment to Rule 2 (Discretionary Activity) of the Plan to include standards, terms and conditions to read: <i><u>(a) discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></i> <i><u>(b) discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i> <i><u>(c) discharge is consistent with iwi management plan.</u></i> AND Include the following notification note: <i><u>Resource consent applications under this Rule will be notified to tangata whenua.</u></i>	<b>Decline</b> The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary and Non-complying Activities. Officers recommend declining the relief sought by the submitter noting that it is not standard planning practice for Discretionary or Non-complying rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies. Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22 and 27 being given effect to. In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and/or any Mana Whakahono a Rohe agreements. Officers highlight the risks that including unnecessary

Ngāruahine Trust (41), Te Atiawa (58)			<p>section to refer only to “matters of control/discretion”. Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p> <p>Officers further note that, in addition to the requirements of the RMA, notification to iwi can also be addressed through Mana Whakahono a Rohe agreements without the need to be included in the Plan rules.</p>
<b>Rule 4 – Petroleum dispersal use in the Port</b>			
21 – Climate Justice Taranaki	704	<p><b>Amend</b></p> <p>Submitter opposes the use of petroleum dispersant in any of the coastal management areas and certainly not as a Permitted Activity. Notes that two dispersants approved for use by Maritime NZ – Corexit 9500 and Corexit 952 – are extremely toxic to humans and the environment and seek that:</p> <ul style="list-style-type: none"> <li>the use of the above-mentioned and other toxic petroleum dispersants be Prohibited in all coastal management areas; and</li> <li>the use of non-toxic dispersants be Discretionary (require a resource consent).</li> </ul>	<p><b>Grant in kind</b></p> <p>Petroleum dispersants are used in the event of an oil spill in order to aid oil spill response. They are very much a tool for avoiding, remedying or mitigating adverse effects in the event that capital dredging in Port Taranaki results in a natural marine oil seepage event. The rule covers an emergency situation not planned or foreseen as part of their consented activities.</p> <p>The Council recognise that the use of petroleum dispersants can, in some cases, lead to adverse effects. Accordingly, their use in an emergency event would only be used where other alternatives (including inaction) would have worst environmental consequences. Officers note that Gamalin is generally the preferred dispersant as it is less toxic and has been approved by Maritime NZ for most crude oil treatment. Corexit 9500 and Corexit 952 would only be used in very limited situations where other alternatives are unsuitable.</p> <p>Notwithstanding the above, the submitter and others have highlighted a broader issue of duplicating regulatory controls addressed by Maritime New Zealand under other legislation. Officers therefore recommend that Rule 4 be deleted.</p>
40 – Te Rūnanga o Ngāti Mutunga	705	<p><b>Amend</b></p> <p>Submitter opposes permitting the use of petroleum dispersants in the Port and seeks amendment to Rule 4 of the Plan that such activities be a Discretionary Activity.</p>	<p><b>Grant in kind</b></p> <p>Petroleum dispersants are used in the event of an oil spill in order to aid oil spill response. They are very much a tool for avoiding, remedying or mitigating adverse effects in the event that capital dredging in Port Taranaki results in a natural marine oil seepage event. 			<p>emergency event where other alternatives (including inaction) would have worst environmental consequences.</p> <p>Notwithstanding the above, the submitter and others have highlighted a broader issue of duplicating regulatory controls addressed by Maritime New Zealand under other legislation. Officers therefore recommend that Rule 4 be deleted.</p>
41 – Te Korowai o Ngāruahine Trust	706	<p><b>Amend</b></p> <p>Submitter supports Rule 4 as a Permitted Activity, however, seeks the inclusion of a new condition that would require the notification of appropriate iwi authorities as soon as practicable after an event.</p>	<p><b>No relief necessary</b></p> <p>Officers note that, in response to other submitters' requests, officers recommend deleting Rule 4 as it is addressed under other legislation.</p>
42 – Ngati Rahiri Hapū	707	<p><b>Amend</b></p> <p>Submitter noted concerns that rules relating to the use of petroleum dispersants is confined to the Port coastal management area and suggest that the rule apply to all coastal management areas (specifically those of outstanding value). Submitter seeks amendment to Rule 4 to include all coastal management areas.</p>	<p><b>Decline</b></p> <p>The submitter's comments are noted.</p> <p>Rule 4 addresses a quite discreet activity associated with capital dredging in Port Taranaki that results in a natural marine oil seepage event. Oil seepage associated with maritime accidents are separately addressed under maritime legislation. Officers suggest that the use of dispersants in an emergency event in other coastal management areas is less likely and in which case can be adequately under maritime legislation (or the emergency provisions of the RMA).</p> <p>Notwithstanding the above, other submitters have highlighted a broader issue of duplicating regulatory controls addressed under other legislation. Officers therefore recommend that Rule 4 be deleted.</p>
54 – Maritime New Zealand	708	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by deleting Rule 4, OR Alternatively, amend Rule 4 by replacing the term "petroleum dispersant" with "oil spill control agent" to clarify the difference between a dispersant to be used on petroleum products (spilt in the marine environment) and petroleum based dispersants.</p>	<p><b>Accept</b></p> <p>The submitter and others have highlighted a broader issue of duplicating regulatory controls addressed under other legislation. Officers therefore recommend that Rule 4 be deleted.</p>

55 – Kiwis Against Seabed Mining	709	<b>Support</b>	<b>Decline</b>
		Submitter supports Rule 4 of the Plan as a Permitted Activity.	Support noted but note that in response to requests by other submitters, officers recommend deleting Rule 4 to avoid duplicating regulatory controls addressed under other legislation.
56 – Greenpeace	710	<b>Support</b>	<b>Decline</b>
		Submitter supports Rule 4 of the Plan as a Permitted Activity.	Support noted but note that in response to requests by other submitters, officers recommend deleting Rule 4 to avoid duplicating regulatory controls addressed under other legislation.
58 – Te Atiawa	711	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Rule 4 of the Plan by adding a new condition (d) to read: <i>(d) iwi are notified as soon as practicable after the event.</i>	Officers note that in response to requests by other submitters, officers recommend deleting Rule 4 to avoid duplicating regulatory controls addressed under other legislation.
<b>Rule 5 – Untreated human sewage</b>			
5 – Point Board Riders	712	<b>Support</b>	<b>Accept</b>
		Retain Rule 5 of the Plan prohibiting untreated human sewage into the coastal marine area.	Support noted. Rule 5 is retained as notified.
21 – Climate Justice Taranaki	713	<b>Support</b>	<b>Accept</b>
		Retain Rule 5 of the Plan as notified.	Support noted. Rule 5 is retained as notified.
29 – Department of Conservation	714	<b>Support</b>	<b>Accept</b>
		Retain Rule 5 of the Plan as notified.	Support noted. Rule 5 is retained as notified.
40 – Te Rūnanga o Ngāti Mutunga	715	<b>Support</b>	<b>Accept</b>
		Retain Rule 5 of the Plan as notified.	Support noted. Rule 5 is retained as notified.
48 – Taranaki District Health Board	716	<b>Support</b>	<b>Accept</b>
		Retain Rule 5 of the Plan as notified.	Support noted. Rule 5 is retained as notified.
58 – Te Atiawa	717	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		Retain Rule 5 of the Plan as notified.	Support noted. Rule 5 is retained as notified.
<b>Rule 6 – Wastewater treatment plant discharges</b>			
8 – Silver Fern Farms	718	<b>Support</b> Retain Rule 6 of the Plan to provide for existing discharges of contaminants to coastal waters.	<b>Accept</b> Support noted. Rule 6 is retained as notified.
Further submissions – Federated Farmers (2)		Support	
21 – Climate Justice Taranaki	719	<b>Amend</b> The submitter opposes allowing an existing wastewater discharge that contains human sewage to discharge to the coastal management area after its consent expires and seeks that once existing consents expire, that the activity be Prohibited in all coastal management areas.	<b>Decline</b> Officers recommend declining the relief sought. The relief sought would immediately preclude existing lawful discharges of municipal waste discharges to the coastal marine area in the absence of any other practicable options. To divert the quantities of waste onto land or other receiving environments is likely to be impracticable plus result in worse environmental outcomes due to the quantities involved and the lack of suitable locations to ensure the waste can be properly and safely assimilated to avoid, minimise or mitigate adverse environmental effects. Officers note Taranaki only has three municipal wastewater discharges. The resource consents for these marine outfalls include conditions that the consent holder must adhere to. These conditions are designed to minimise adverse effects by including limits on the discharge (pertaining to quality and quantity) and managing impacts on the receiving environment. Consent holders must regularly reassess whether the current system remains to be the best practicable option, in light of technological advances and changing circumstances. Community involvement in the monitoring and management of these discharges, through involvement plans and stakeholder meetings, is also required in the resource consents. Officers suggest that some provision must be made in the rules to provide for the discharge of wastewater that contains treated human sewage. Most New Zealand cities discharge water directly or indirectly into the coastal marine area. However, this rule is a Discretionary Activity, which means a resource consent may be granted or declined subject to the Plan's policies. A discharge consent application is subject to meeting the directions and guidance set out in General Policies 1 to 21 and Activity-specific Policies 22, 24 and 26. With

<p><b>Rule 7 – Wastewater treatment plant discharges</b></p>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
21 – Climate Justice Taranaki	726	<b>Amend</b>	<b>Accept</b>
		Submitter opposes allowing new wastewater discharge that contains human sewage to discharge to the coastal management area and request that the activity be a Prohibited Activity in all coastal management areas.	Officers recommend accepting the relief requested by the submitter. Officers note that an approach to prohibit <u>new</u> discharges of treated human sewage to the CMA would not affect currently consented discharges of treated human sewage but would limit the region to utilizing the 3 currently existing discharges at the New Plymouth, Hawera and Pātea outfalls into the future or find land based solutions.  Officers suggest prohibiting new discharges of treated wastewater containing human sewage to the CMA is in line with Policy 11 [Coastal water quality] of the Plan, which directs that coastal water quality be maintained where it is good. The change is broadly supported by other submitters including tangata whenua.  The amendment sought would be reflected by deleting Rule 7 and including the open coast in coastal management areas addressed under Rule 8.
Further submissions - Royal Forest and Bird Protection Society (43)		Support	
40 – Te Rūnanga o Ngāti Mutunga	727	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 7 of the Plan to make all new discharges of treated wastewater to the coastal marine area a Prohibited Activity (rather than a Discretionary Activity).	Officers recommend accepting the relief requested by the submitter. Officers note that an approach to prohibit <u>new</u> discharges of treated human sewage to the CMA would not affect currently consented discharges of treated human sewage but would limit the region to utilizing the 3 currently existing discharges at the New Plymouth, Hawera and Pātea outfalls into the future or find land based solutions. <b>Rule 9 – Sampling and biofouling in the Port</b>			
16 – Ministry for Primary Industries	736	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 9 in order to refine how the Australian/New Zealand Anti-Fouling and In Water Cleaning Guidelines (2013) are translated into the Rules. In particular, to the description of fouling and the activity description.</p> <p>Amend permitted activity rule for in-water cleaning of biofouling to read:</p> <p><b><u>Activity:</u></b></p> <p><i><u>In-water cleaning of biofouling from the part of a ship, moveable object or navigation aid that is normally below the water surface, resulting in the discharge of a contaminant into water in the coastal marine area and any associated:</u></i></p> <p><i><u>(a) deposition on the foreshore or seabed.</u></i></p> <p><i><u>Note: If the activity does not meet the standards, terms and conditions in this Rule refer to Rule 13.</u></i></p> <p><b><u>Standards, terms and conditions:</u></b></p> <p><i><u>(a) the anti—foul coating on the ship, moveable structure or navigational aid shall not have exceeded its planned service life as specified by the manufacturer, and the cleaning method shall be undertaken in accordance with the coating manufacturer's recommendations;</u></i></p> <p><i><u>(b) microfouling may be cleaned without capture;</u></i></p> <p><i><u>(c) goose barnacles may be cleaned without capture;</u></i></p> <p><i><u>(d) macrofouling (other than goose barnacles) coverage on the ship, moveable structure or navigational aid shall be less than or equal to 2 on the Level of Fouling rank (Floerl et al (2005));</u></i></p>	<p><b>Accept</b></p> <p>The intention of Rule 9 is to provide for additional hull cleaning activities that are currently prohibited under the current Plan. Hull cleaning currently excludes ships that are greater than 25 meters in length and any ships that have been outside the exclusive economic zone since their last hull cleaning. Many second-generation coastal plans have provisions that allow the cleaning of these hulls provided the appropriate standards, terms and conditions are met.</p> <p>It is officers' opinion that the requested amendments provide additional information that strengthens Rule 9 and aligns with industry requirements and procedures. Officers further note that capture of macrofoul will be an important condition to ensure that the Port and surrounding areas (of note the nearby area of outstanding value) are safeguarded against any possible invasive species introduction. Officers recommend granting the relief requested subject to minor inconsequential word changes to align the reading of rules with the remainder of the Plan. The amended rule would read as follows:</p> <p><b><u>Activity</u></b></p> <p><i><u>Discharge of contaminants from the cleaning of biofouling from the part of a ship, moveable object or navigation aid that is normally below the water surface into water in the coastal marine area and any associated:</u></i></p> <p><i><u>(deposition on the foreshore or seabed.</u></i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u>(e) all biological material greater than 50 microns in diameter dislodged during cleaning (other than goose barnacles) shall be captured and disposed of at an approved landfill; and</u></p> <p><u>(f) if any person undertaking or responsible for the cleaning, suspects that harmful or unusual aquatic species (including species designated as unwanted organisms or pest species under the Biosecurity Act 1993) are present on the ship, structure or navigational aid, that person shall take the following steps:</u></p> <p><u>i. any cleaning activities commenced shall cease immediately, and</u></p> <p><u>ii. the Taranaki District Council and the Ministry for Primary Industries shall be notified without unreasonable delay; and</u></p> <p><u>iii. the cleaning may not recommence until notified by the Council to do so, or in the event a designated unwanted organisms or pest species is found, notified to do so by the Ministry for Primary Industries.</u></p> <p><u>Notes</u></p> <p><u>1. For the purposes of the above, further guidance is provided in the Anti—fouling and In-water Cleaning Guidelines (June 2013).</u></p> <p><u>2. International vessels arriving into New Zealand waters have additional obligations under the Craft Risk Management Standard: Biofouling on Vessels Arriving to New Zealand (May 2014).</u></p> <p><u>Footnotes</u></p> <p><u>Defined in Floerl et al (2005) A Risk-based Predictive Tool to Prevent Accidental introductions of Nonindigenous Marine Species as: Light Fouling - 1—5% of visible surface covered by very patchy macrofouling. Remaining area often covered in microfouling.</u></p>	<p><u>Note (1) If the activity does not meet the standards, terms and conditions in this Rule refer to Rule 13.</u></p> <p><u>Note (2) For the purposes of this rule, further guidance is provided in the Anti—fouling and In-water Cleaning Guidelines (June 2013).</u></p> <p><u>Note (3) International vessels arriving into New Zealand waters have additional obligations under the Craft Risk Management Standard: Biofouling on Vessels Arriving to New Zealand (May 2014).</u></p> <p><b><u>Standards, terms and conditions:</u></b></p> <p><u>(a) the anti—foul coating on the ship, moveable object or navigation aid shall not have exceeded its planned service life as specified by the manufacturer, and the cleaning method shall be undertaken in accordance with the coating manufacturer's recommendations;</u></p> <p><u>(c) the activity does not involve any species designated as unwanted organisms or pest species under the Biosecurity Act 1993;<sup>4</sup></u></p> <p><u>(d) macrofouling (other than goose barnacles) coverage on the ship, moveable structure or navigational aid is less than or equal to 2 on the Level of Fouling rank (Floerl et al (2005));<sup>5</sup> and</u></p> <p><u>(e) all biological material that cannot pass through a 50 micron sieve that is dislodged during cleaning (other than goose barnacles) is captured and disposed of at an approved landfill (microfouling and goose barnacles may be cleaned without capture).</u></p> <p><sup>4</sup> <u>If any person undertaking or responsible for the cleaning suspects that harmful or unusual aquatic species are present, that person should cease the activity immediately and notify the Ministry for Primary Industries without unreasonable delay. Cleaning should not recommence until notified by the Ministry for Primary Industries.</u></p> <p><sup>5</sup> <u>Defined in Floerl et al (2005) A Risk-based Predictive Tool to Prevent Accidental introductions of Nonindigenous Marine Species as: Light Fouling - 1—5% of visible surface covered by very patchy macrofouling. Remaining area often covered in microfouling.</u></p>
Further submissions – Port Taranaki Ltd (32)		Oppose	
33 – New Zealand Defence Force	737	<p><b>Amend</b></p> <p>Submitter highlights that cleaning of biofoul is an important measure in controlling undesirable foreign organisms contaminating local waters and seeks amendment to Rule 9 of the Plan to provide for biofouling activities in the Open Coast and Estuaries Modified Coastal Management Areas as a Discretionary Activity (rather than a Non-complying Activity).</p>	<p><b>Decline</b></p> <p>Officers recognise the importance of regular hull cleaning in preventing the spread of invasive biota, however, note that it is important that the cleaning of biofoul is undertaken in a manner and location where the potential adverse effects of contamination can be addressed in an appropriate and timely manner. This can only be achieved if cleaning practices are undertaken in the</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submission – Royal Forest and Bird Protection Society (43)		Oppose	<p>appropriate location which minimises the risk of contamination to other locations. The Port is the chosen location for these activities to be undertaken as it is already a largely modified environment, it has high traffic flow so is an ideal place to undertake the activity, plus, it is also the only location within the region that is routinely and comprehensively monitored for invasive marine species.</p> <p>To perform cleaning in locations other than the Port introduces additional and unacceptable risks to those locations and the benefits of providing for the activity do not outweigh the potential risks. In this, officers prefer to adopt a precautionary approach to minimise the risks of contamination by foreign and invasive organisms to local waters outside the Port.</p>
33 – New Zealand Defence Force	738	<p><b>Amend</b></p> <p>Submitter generally supports Rule 9 but seeks to amend the standards, terms and conditions of Rule 9(c) to read:</p> <p><i>(c) the Ministry for Primary industries, or subsequent replacement Ministry, is advised <del>immediately</del> without unreasonable delay if a suspected invasion or non-indigenous aquatic species is encountered.</i></p>	<p><b>Grant in kind</b></p> <p>Officers agree that immediate contact may not be reasonable and recommend granting the relief in kind (as well as other amendments sought by other submitters) by including guidance in a footnote to the rule. The submitter has highlighted a standard, term and condition that is legally uncertain with reference to 'suspects' which is addressed by converting the condition to guidance in a footnote to read as follows:</p> <p><u><i>The activity does not involve any species designated as unwanted organisms or pest species under the Biosecurity Act 1993:</i></u><sup>4</sup></p> <p><u><i><sup>4</sup> If any person undertaking or responsible for the cleaning suspects that harmful or unusual aquatic species are present, that person should cease the activity immediately and notify the Ministry for Primary Industries without unreasonable delay. Cleaning should not recommence until notified by the Ministry for Primary Industries.</i></u></p>
40 – Te Rūnanga o Ngāti Mutunga	739	<p><b>Amend</b></p> <p>Submitter seeks amendment to the permitted activity rule for in-water cleaning of biofouling in the Port and make such activities a Controlled Activity.</p>	<p><b>Decline</b></p> <p>The regular cleaning of biofoul is a desirable activity and should be encouraged to be undertaken in a timely fashion and provided for in appropriate locations, i.e. the Port. Regular biofouling reduces the risk of foreign organisms contaminating New Zealand waters and are best undertaken in places where the activity can be monitored, controlled and the appropriate actions can be taken immediately if necessary. In this instance, the Port is the only appropriate location and, as such, it is a Non-complying Activity elsewhere.</p>

Further submissions – New Zealand Defence Force (33)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Officers would like to point out that the risks associated with sampling and cleaning of biofouling have been assessed by MPI who have legislative biosecurity responsibilities, including those relating to border control and the enforcement of import health standards. The rule is consistent with their advice and good practice.</p> <p>Changing the Permitted Activity classification to Controlled may become a potential deterrent to people following best practice and could ultimately discourage people from cleaning and/or slow down the cleaning process. This, in turn, increases the risk to the environment by allowing biofoul communities time to grow or proliferate before they are removed from the vessel. Officers do not consider changing the Activity Classification of Rule 9 to be beneficial due to the potentially detrimental consequences and risks to maintaining healthy coastal waters.</p>
58 – Te Atiawa	740	<p><b>Amend</b></p> <p>Submitter opposes permitting in-water cleaning of biofouling in the Port as, in their view, there is no way of monitoring the activity and they are not convinced that the conditions stated will be adhered to.</p> <p>Submitter seeks amendment to Rule 9 of the Plan to make biofouling in the Port a Controlled Activity (rather than a Permitted Activity) and that the Council exercise control over such matters to ensure these matters are met by users of the Plan.</p>	<p><b>Decline</b></p> <p>The regular cleaning of biofoul is a desirable activity and should be encouraged to be undertaken in a timely fashion and provided for in appropriate locations, i.e. the Port. Regular biofouling reduces the risk of 'dirty' boats and other crafts unintentionally bringing foreign harmful organisms (as hitch-hikers) into the region where they can then establish in our territorial waters. Bio-fouling is best undertaken in places where the activity can be monitored, controlled and the appropriate actions can be taken without delay if necessary. In this instance, the Port is the only appropriate location and, as such, it is a Non-complying Activity elsewhere.</p>

			to be beneficial due to the potentially detrimental consequences and risks to maintaining healthy coastal waters.
<b>Rule 10 – Sampling and biofouling</b>			
9 – Karen Pratt	741	<b>Amend</b> Submitter seeks amendment to Rule 10 to cover operations such as the recently granted consent for ironsand mining in the EEZ, i.e. artificial structures.	<b>No relief necessary</b> No precise details of amendments sought to Rule 10 have been provided. Officers note that Rule 10 applies to all biofouling activities in the relevant coastal management areas and no further change is considered necessary.
Further submissions – Trans-Tasman Resources (6)		Oppose	
16 – Ministry for Primary Industries	742	<b>Amend</b> Submitter seeks amendment to Rule 10 of the Plan by removing the word “scraping” from the Activity Classification, and to include the term “in-water” to describe where the cleaning is taking place and the words “involving” be replaced with “resulting in”, to read: <i>In water cleaning. <del>Sampling, scraping and/or cleaning</del> of biofouling from the part of a ship, moveable object or navigation aid that is normally below the water surface resulting in <del>involving</del> a discharge of a <del>contaminant</del> substance into water in the coastal marine area and any associated:</i> <i>(a) deposition on the foreshore or seabed.</i>	<b>Accept in part</b> Officers agree that scraping is only one method of cleaning of biofouling and that a more general approach is necessary to keep the activity description broad. Officers note that in the Taranaki scenario, the Port wharves and breakwaters are within the Coastal Marine Area and there may be need to remove objects to be cleaned (for example, navigation aids and buoys) from the water to be cleaned on the wharves. The inclusion of “in-water cleaning” would preclude this kind of activity from occurring even through this method offers greater possibility of capture and removal of material. Officers further note that the activity should focus on the discharge rather than the cleaning itself as this is the activity to be managed and recommend restructuring the activity classification of Rule 10 to read as follows: <i>Discharge of contaminants from the cleaning of biofouling from the part of a ship, moveable object or navigation aid that is normally below the water surface, into water in the coastal marine area and any associated:</i> <i>(a) deposition on the foreshore or seabed.</i>
Further submissions – Trans-Tasman Resources (6)		Support	
21 – Climate Justice Taranaki	743	<b>Support</b> Retain Rule 10 of the Plan so that any discharges from biofoul cleaning into all coastal management areas, excluding the Port, be Non-complying.	<b>Accept</b> Support noted.
Further submissions – Royal Forest and Bird Protection Society (43)		Support	
	744	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
29 – Department of Conservation		Scraping is one type of cleaning that that is used when cleaning biofoul from a ship hull, in addition, it is a method that should not be used with many types of antifoul coatings used on vessels. Sampling is another activity, and should not be included alongside the cleaning of biofoul. Submitter seeks amendment to Rule 10 of the Plan to delete the words " <del>Sampling, scraping and/or</del> " from the activity description.	Officers recommend amending the Activity Classification of Rule 10 with minor changes to accommodate the requests of other submitters to read: <i>Discharge of contaminants from the cleaning of biofouling from the part of a ship, moveable object or navigation aid that is normally below the water surface, into water in the coastal marine area and any associated:</i> <i>(a) deposition on the foreshore or seabed.</i>
33 - New Zealand Defence Force	745	<b>Amend</b>  Submitter seeks amendment to Rule 10 of the Plan to provide for biofouling activities in the Outstanding Value and Estuaries Unmodified Coastal Management Areas as a Discretionary Activity (rather than a Non-complying Activity).	<b>Decline</b>  The request would introduce a high level of risk that the Council considers unreasonable and unnecessary. An appropriate place for this activity to occur has been provided for in Port Taranaki through Rule 10 as a Non-complying Activity and a resource consent may be granted subject to the activity proving that effects are minor and not in conflict will the Policies of the Plan.
41 – Te Korowai o Ngāruahine Trust	746	<b>Amend</b>  Submitter seeks amendment to Rule 10 of the Plan to make any sampling, scraping and/or cleaning of biofouling in coastal management areas, other than the Port, a Prohibited Activity (rather than Non-complying Activity).	<b>Decline</b>  Officers recommend declining the relief sought by the submitter.  Recent case law has confirmed that Non-complying Activities is a high gateway test where Council (under section 104D RMA) would need to be satisfied that the adverse effects of the activity will be minor or the activity will not be contrary to the objectives and policies of the Plan. The presumption is that effects must be so minor that it is not likely to matter. However, its classification does allow some activities to at least be considered on a case-by-case basis to see if exceptions apply and could be provided for. Prohibited Activity status would preclude the consideration of any exceptional circumstances.
Further submissions – Trans-Tasman Resources (6), New Zealand Defence Force (33)		Oppose	
61 – Te Rūnanga o Ngāti Ruanui Trust	747	<b>Amend</b>  Submitter seeks amendment to Rule 10 (Non-complying Activity) of the Plan to include standards, terms and conditions to read: <i>(a) discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</i> <i>(b) discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</i>	<b>Decline</b>  The submitter has sought the inclusion of standards, terms and conditions for Rules in the Plan relating to Discretionary and Non-complying activities.  Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Non-complying

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u><i>(c) discharge is consistent with iwi management plan.</i></u>                      AND                      Include the following notification note:  <u><i>Resource consent applications under this Rule will be notified to tangata whenua.</i></u></p>	<p>Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.                      Notwithstanding the above, officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22 and 28 being given effect to.</p>
Further submissions – Trans-Tasman Resources (6)		Oppose	<p>In relation to notification requirements proposed by the submitter, Officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and/or any Mana Whakahono a Rohe agreements.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>
<b>Rule 11 – Abrasive blasting discharges</b>			
26 – Transpower NZ Ltd	748	<p><b>Amend</b></p> <p>Submitter supports Rule 11 of the Plan but notes that the <i>National Environmental Standards for Electricity Transmission</i> only applies to existing structures and since there are no existing National Grid structures in the coastal marine area (as identified in the Proposed Coastal Plan for Taranaki) and therefore subject to the Plan, the reference is not required. Further, the <i>National Environmental Standards for Electricity Transmission</i> is not applicable when erecting or placing new structures.</p> <p>Submitter seeks amendment to Rule 11 to delete reference to <i>National Environmental Standards for Electricity Transmission Activities</i>:  <del><i>[...] excluding activities regulated by the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6))</i></del></p>	<p><b>Accept</b></p> <p>The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter by removing the reference.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
32 – Port Taranaki	749	<p><b>Amend</b></p> <p>Submitter suggests that within the Port coastal management area the effects of abrasive blasting discharges are well known and understood. Therefore, submitter seeks amendment to Rule 11 of the Plan to make the activity a Controlled Activity in the Port coastal management area and draft an appropriate set of matters over which control shall be restricted to.</p>	<p><b>Decline</b></p> <p>Abrasive blasting is capable of having significant adverse environmental effects. Given the amount of industrial and trade premises in the vicinity of the Port, the storage and transfer of dangerous and hazardous cargos and other materials, it is appropriate that such matters be considered on a case-by-case basis as a Discretionary Activity to ensure adverse effects are appropriately avoided, remedied or mitigated.</p>
41 – Te Korowai o Ngāruahine Trust	750	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 11 of the Plan to make abrasive blasting discharges in the coastal marine area a Non-complying Activity (rather than Discretionary Activity).</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Recent case law has confirmed that Non-complying Activities is a high gateway test where Council (under section 104D of the RMA) would need to be satisfied that the adverse effects of the activity will be minor or the activity will not be contrary to the objectives and policies of the Plan. The presumption is that effects must be so minor that it is not likely to matter.</p> <p>However, it is officer's view that abrasive blasting is an often necessary and routine activity for the maintenance, repair or alterations to existing structures, including wharves, mooring and berthing structures, and bridges. As such, it needs to be provided for. Officers recommend retaining the Rule's Discretionary Activity status to consider abrasive blasting activities on a case-by-case basis to, and if approved, ensure there are conditions addressing the avoidance, remedying or mitigating of adverse effects. Prohibited Activity status would preclude these considerations.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	751	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 11 (Discretionary Activity) of the Plan to include standards, terms and conditions to read:</p> <p><i><u>(a) discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></i></p> <p><i><u>(b) discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i></p> <p><i><u>(c) discharge is consistent with iwi management plan.</u></i></p> <p>AND</p> <p>Include the following notification note:</p>	<p><b>Decline</b></p> <p>The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to discretionary and Non-complying activities.</p> <p>Officers recommend declining the relief sought noting that it is not standard planning practice for Discretionary or Non-complying rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<u><a href="#">Resource consent applications under this Rule will be notified to tangata whenua.</a></u>	Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 30, 39, 40 and 41 being given effect to.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to “matters of control/discretion”. Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p> <p>Officers further note that, in addition to the requirements of the RMA, notification to iwi can also be addressed through Mana Whakahono a Rohe agreements without the need to be included in the Plan rules.</p>
<b>Rule 12 – Seismic surveying and bathymetric testing</b>			
6 – Trans-Tasman Resources Ltd	752	<b>Support</b>	<b>Decline</b>
		Retain Rule 12 of the Plan noting surveys and tests are important and useful for establishing or monitoring key aspects of the coastal environment and that the effects are minor and transitory.	Support noted. Officers note that Rule 12 is recommended to be split into two rules, a permitted activity for bathymetric testing and an additional rule (Rule 12A) for seismic surveying as a Controlled Activity. Adverse effects of bathymetric testing are less than minor and can be appropriately managed through the permitted activity. However, adverse effects of seismic testing (particularly in relation to indigenous biodiversity) may be more uncertain. The Controlled Activity classification is therefore recommended so that the Council can ensure that adverse effects on indigenous biodiversity are appropriately considered and addressed through a consenting process.

40 – Te Rūnanga o Ngāti Mutunga	756	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Rule 12 of the Plan to make seismic surveying or bathymetric testing activity a Discretionary Activity (rather than a Permitted Activity). The submitter is concerned about the impacts of seismic surveying on one of their taonga species the korora (little blue penguin).	Impacts of marine mammals are managed through the Department of Conservation's <i>Code of Conduct for Minimising Acoustic Disturbance to Marine Mammals from Seismic Survey Operations 2013</i> (the 'code of conduct'). However, the code only addresses the effects on marine mammals and seabirds (specifically effects on seabirds from on-board lights), the code does not address any effects that may occur to penguins or other 'non mammal' marine fauna.  The South Taranaki Bight is an important foraging area for blue penguins of the Marlborough Sounds breeding colony listed in Schedule 4A as "at risk (declining)". Effects from seismic surveying have been shown to significantly affect penguin foraging patterns, which in turn, may adversely affect reproductive output and result in displacement. Any threats to the population would be considered significant.  Officers do not consider that the Permitted Activity classification provides the necessary certainty for the Council to ensure adverse effects impacting on marine taxa (not covered by Department of Conservation's code of conduct) are being appropriately managed.  Officers recommend removing seismic surveying from Rule 12 and to create a new rule, Rule 12A, to make Seismic surveying a Controlled Activity in all coastal management areas. The recommended rule contains additional standards, terms and conditions that address effects on species identified in Schedule 4A, taonga species identified in Schedule 4CC as well as requiring the activity to comply with the Department of Conservation's <i>Code of Conduct for Minimising Acoustic Disturbance to Marine Mammals from Seismic Survey Operations 2013</i> .

Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
41 – Te Korowai o Ngāruahine Trust	758	<b>Amend</b> Submitter seeks amendment to Rule 12 of the Plan to require a higher level of regulatory control for seismic surveying or bathymetric testing activity (currently a Permitted Activity).	<b>Accept in part</b> Submitter opposes seismic surveying or bathymetric testing activities on the basis that the Department of Conservation's <i>Code of Conduct for Minimising Acoustic Disturbance to Marine Mammals from Seismic Survey Operations 2013</i> (the 'code of conduct') is flawed and that, in their view, research evidence clearly cites the harm that is caused to marine mammals, larvae development and zooplankton. The submitter suggests that the marine mammal guidelines do not assess the total effects on the marine environment and do not mitigate the risks to the marine environment. The submitter suggests that the rule's reliance on the guidelines as the basis to afford permitted activity status neglects the impact on fish, larvae and invertebrates and Māori customary and commercial fishing rights.  The Council recognises that a number of submitters are concerned by the potential effects of seismic surveying and bathymetric testing, primarily in relation to disturbance of marine organisms. While the effects of seismic and bathymetric testing are generally minor and transitory. Officers also recognise that there are vulnerable species susceptible to the impacts of seismic surveying that are not addressed in the Department of Conservation's code of conduct. Officers therefore recommend amending Rule 12 to require a higher level of regulatory control for seismic surveying but not for bathymetric testing.  Bathymetric testing is the more benign of the two activities with adverse effects always likely to be less than minor. However, adverse effects of seismic testing (particularly in relation to indigenous biodiversity) maybe more uncertain. The Controlled Activity classification is therefore recommended so that the Council can ensure that adverse effects on indigenous biodiversity are appropriately considered and addressed through a consenting process.

21 – Climate Justice Taranaki	774	<b>Amend</b> Submitter opposes Rules 13 and 14 of the Plan.	<b>Decline</b> No precise details of amendments sought to the Plan have been provided and the submitter is seeking clarification/examples of the types of contaminants that would fall under these 'catch-all' rules. The submitter questions whether Rules 13 and 14 are designed to capture contaminant discharge from industrial facilities such as Fonterra and Methanex plants. Officers are unclear as to what is sought in this relief. However, officers note that the intent of Rules 13 and 14 is to provide a consenting pathway for discharge activities that do not come within or comply with other rules in the Plan. It acknowledges that plans will rarely be able to predict all foreseeable and unforeseeable activities that might occur over the life of the Plan and allows unforeseen activity types to be considered as part of a consenting regime. It is not feasible to identify contaminant types but would potentially cover discharges from larger industrial premises (so long as they do not trigger other rules, e.g. wastewater rules). Of note, together Rules 13 and 14 provide a much higher level of protection than otherwise provided by the RMA, where, in the absence of a rule, a resource consent is required (as a Discretionary Activity). Discharges to Outstanding Value, Estuaries Unmodified and Estuaries Modified coastal management areas are a Non-complying Activity pursuant to Rule 14.

21 – Climate Justice Taranaki	775	<b>Amend</b> Submitter questions compliance and enforcement responses and seeks that if such 'catch-all' rules are to remain, then Rule 13 of the Plan for the relevant discharge activities should be Publicly Notified.	<b>No relief necessary</b> Officers do not consider it appropriate to include this level of operational detail in the Plan but note that in accordance with its standard operating procedures, such discharge activities are already publicly notified. Officers note that this Council is consistently identified in the National Monitoring System and elsewhere as having very strong and best practice compliance and enforcement responses.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
33 – New Zealand Defence Force	776	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rules 13 and 14 of the Plan by inserting a new rule permitting minor discharges (similar to Rule 53 regarding minor disturbance and removal), which would provide for the operation of the portable water units;</p> <p>OR</p> <p>inserting a new rule specifically permitting discharges from the operation of portable water treatment units, such as:</p> <p><u><i>the discharge of contaminants or water to the coastal marine area from portable water treatment units for the purpose of temporary military training activities is a permitted activity.</i></u></p>	<p><b>Grant in kind</b></p> <p>The submitter notes that New Zealand Defence Force training within the coastal environment can involve the use of portable water treatment units and it is important that personnel are fully trained in the use of these units. Minor discharges to the coastal marine area have little effect on coastal water quality and that tidal wave action will rapidly disperse the discharges so there is unlikely to be a noticeable difference in water quality within a few meters of the discharge point. Other discharges of this nature could include cooling water use on vessels or discharges from waterblasting activities (note that abrasive blasting is already addressed in Rule 11).</p> <p>Officers recommend granting the relief sought in kind by including a new rule, Rule 1A, that allows, as a Permitted Activity, the discharge of water (and minor incidental contaminants, e.g. salt associated with concentrated sea water from a desalination process) into the coastal marine area. This would be the equivalent of a rule in the current Freshwater Plan and is consistent with the approach adopted by other regional councils.</p> <p><b><u>Activity description</u></b></p> <p><u><i>Discharge of water and minor contaminants on the foreshore, seabed or into waters of the coastal marine area and any associated disturbance of the foreshore or seabed.</i></u></p> <p><b><u>Standards, terms and conditions</u></b></p> <p><u><i>(a) The activity does not cause any scouring or erosion beyond the point of discharge;</i></u></p> <p><u><i>(b) after reasonable mixing the activity does not cause:</i></u></p> <p><u><i>(i) any conspicuous oil or grease films, scums or foams, or floatable or suspended materials;</i></u></p> <p><u><i>(ii) any conspicuous change of colour or visual clarity;</i></u></p> <p><u><i>(iii) any emission of objectionable odour;</i></u></p> <p><u><i>(iv) any significant change to salinity;</i></u></p> <p><u><i>(v) any change in the temperature of the receiving environment by more than 3° C; or</i></u></p> <p><u><i>(iv) significantly change the turbidity;</i></u></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p><i>(c) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [significant species and ecosystems];</i></p> <p><i>(d) the activity does not have a significant adverse effect on the values associated with taonga species identified in Schedule 4CC [Taonga species]; and</i></p> <p><i>(e) the activity does not have a significant adverse effect on aquatic life.</i></p>
44 – Nga Motu Marine Reserve Society Inc	777	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rules 13 and 14 to require a higher level of regulatory control and prohibit seismic surveying or bathymetric testing activity (currently a Discretionary Activity in the Open Coast and Port and a Non-complying Activity in the other coastal management areas).</p>	<p><b>Decline</b></p> <p>Refer to submission point 760 in relation to officers' response on prohibiting seismic surveying or bathymetric testing activities.</p> <p>In relation to amending Rules 13 and 14 to provide a higher level of regulatory control, officers note that the rules are already very restrictive.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<p>Officers note that the intent of Rules 13 and 14 is to provide a consenting pathway for discharge activities that do not come within or comply with other rules in the Plan. It acknowledges that Plans will rarely be able to predict all foreseeable and unforeseeable activities that might occur over the life of the Plan and allows unforeseen activity types to be considered as part of a consenting regime. It is not feasible to identify contaminant types but would potentially cover discharges from industrial premises (so long as they do not trigger other rules, e.g. wastewater rules).</p> <p>Of note, together Rules 13 and 14 provide a much higher level of protection than otherwise provided by the RMA, where, in the absence of a rule, a resource consent is required (as a Discretionary Activity). Under the Plan, discharges to Outstanding Value, Estuaries Unmodified and Estuaries Modified coastal management areas are a Non-complying Activity pursuant to Rule 14.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	778	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rules 13 (Discretionary Activity) and 14 (Non-complying Activity) of the Plan to include standards, terms and conditions to read:</p> <p><i>(a) discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</i></p>	<p><b>Decline</b></p> <p>The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary and Non-complying Activities.</p> <p>Officers decline the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards,</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u><i>(b) discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</i></u></p> <p><u><i>(c) discharge is consistent with iwi management plan.</i></u></p> <p>AND</p> <p>Include the following notification note:</p> <p><u><i>Resource consent applications under this Rule will be notified to tangata whenua.</i></u></p>	<p>terms and conditions. Conditions relating to a Discretionary and Non-complying Activities are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 30, 39, 40 and 41 being given effect to.</p> <p>In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and/or any Mana Whakahono a Rohe agreements.</p> <p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>

<b>Rule 14 – Other discharges</b>			
26 – Transpower NZ Ltd	779	<p><b>Amend</b></p> <p>Submitter supports Rule 14 of the Plan but explains that the <i>National Environmental Standards for Electricity Transmission</i> activities only applies to existing National Grid structures and since there are no existing National Grid structures in the coastal marine area (as identified in the Proposed Coastal Plan for Taranaki) and therefore subject to the Plan, the reference is not required. Further, the <i>National Environmental Standards for Electricity Transmission</i> is not applicable when erecting or placing new structures so is redundant to mention within the Plan.</p> <p>Submitter seeks amend to Rule 14 to delete reference to <i>National Environmental Standards for Electricity Transmission Activities</i>:</p> <p><del><i>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6))</i></del></p>	<p><b>Accept</b></p> <p>The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	780	<b>Amend</b>	<b>Accept</b>
		Retain Rule 14 of the Plan subject to the addition of a note to read: <i><u>A discharge into a district council managed stormwater system is a discharge to land outside the coastal marine area and an assessment for consent requirement should be made under the Freshwater Plan not this rule.</u></i>	Officers recommend granting the relief sought by the submitter as it provides useful direction for Plan users.
Further submissions – Transpower NZ Ltd (26)		Support	
<b>Rule 15 – Storage or transfer of cargo materials within the Port air zone</b>			
32 – Port Taranaki	781	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 15 of the Plan to: <ul style="list-style-type: none"> <li>read: <i>Storage and transfer of cargo materials within the Port Air Zone involving discharge of contaminants to air <u>and water.</u></i></li> <li>amend the standard/terms/conditions to refer to discharges to water as per G2.11 of the operative Plan.</li> </ul> OR Provide an exception for contaminant discharges from storage and transfer of animal feed cargo to water from storage and transfer to/from ships to wharves (such a rule could be placed before Rule 13).	Submitter recognises that Rule 15 provides for the discharge to air of contaminants from the storage and transfer of cargo within the Port Air Zone as a Permitted Activity and includes dust discharges to air from products such as animal feed that is transferred from ships via ship cranes to the wharves. The operative Coastal Plan provides for the discharge of this product in the same circumstances to air and water via the General Rule G2.11(a). This rule has not been translated across to the Proposed Coastal Plan. It is considered that the effect on the environment from the discharge of contaminants from the storage and transfer of animal feed cargo to air and water in the Port Air Zone is minimal and is essentially fish feed.  Officers recommend granting the relief sought by amending the Activity Description of Rule 15 to read as follows:  <i>Storage and transfer of cargo materials within the Port Air Zone involving discharge of contaminants to air <u>or water.</u></i>  Officers further recommend consequential amendments to broaden the scope of the rule to include water discharges to include additional conditions specific to water discharges. These include conditions on effects on aquatic life, and water quality after reasonable mixing.
<b>Rule 16 – Storage or transfer of cargo materials within the Port air zone</b>			
32 – Port Taranaki	782	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 16 of the Plan to:	For the same reasons outlined in the submitter's requested relief for Rule 15, the submitter is seeking an equivalent change in Rule 16.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<ul style="list-style-type: none"> <li>read: <i>Storage and transfer of cargo materials within the Port Air Zone involving discharge of contaminants to air <b>and water</b> that does not come within or comply with Rule 15.</i></li> <li>amend the standard/terms/conditions to refer to discharges to water as per G2.11 of the operative Plan.</li> </ul> <p>OR</p> <p>Provide an exception for contaminant discharges from storage and transfer of animal feed cargo to water from storage and transfer to/from ships to wharves (such a rule could be placed before Rule 13).</p>	<p>Officers recommend granting the relief sought by amending the Activity Description of Rule 15 to read as follows:</p> <p><i>Discharge of contaminants to air or water during the storage or transfer of cargo materials within the Port Air Zone that does not come within or comply with Rule 15.</i></p>
<b>Rule 17 – Other discharges to air</b>			
37 – Petroleum Exploration and Production Association of NZ	783	<p><b>Amend</b></p> <p>Support treating flaring as a Discretionary Activity but seek that it be amended or a new rule be included that allows miscellaneous air emissions that have less than minor effects as a Permitted Activity.</p> <p>Submitter highlights such a rule provided in the Greater Wellington Regional Coastal Plan that reads as follows:</p> <p><i>“The venting of draignage systems, not including the venting of trade wastes or sewage conveyance systems, is a Permitted Activity provided that the discharge complies with the conditions specified below.</i></p> <p><i>Conditions</i></p> <p><i>(1) The discharge shall not result in odour, gas, vapour or aerosols which are noxious, dangerous, offensive or objectionable to other users of the coastal marine area or adjoining land users as a result of its frequency, intensity or duration.”</i></p> <p>In addition, the submitter points out that the definition of “industrial trade premises” is vague and could include many things. One interpretation could even stretch as far as to include vessels, as they are typically “used for industrial trade purposes”.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Officers suggest these activities would be canvassed and addressed as part of the consenting process for other discharges into the coastal marine area.</p> <p>Officers are not aware of any currently existing activities that would be affected by this rule.</p> <p>Officers also note that discharges from vessles are already addressed under the <i>Resource Management (Marine Pollution Regulations) 1998</i> and should not be addressed under this rule.</p>

<b>Rule 18 – Outfall structure placement</b>			
21 – Climate Justice Taranaki	786	<p><b>Amend</b></p> <p>Submitter opposes permitting the placement of outfall structures in the coastal marine area and seek that such activities be Prohibited or Non-complying in</p>	<p><b>Decline</b></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		coastal management areas: Outstanding Value and Estuaries Unmodified, and Discretionary in the other areas.	The submitter contends that without a resource consent it is impossible to know whether the standards, terms and conditions are met.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	Officers note that this rule is specific to managing the effects of a structure rather than the effects of a discharge. The placement of such structures generally has less than minor effects and (as for any permitted activity) is still subject to compliance with standards, terms and conditions. The discharge of stormwater and wastewater is addressed by other rules.  In relation to the management of small outfall structures, officers note that the rule includes a notification requirement so that the Council can monitor the activity if need be. Notwithstanding the above, the Council operates a process where any member of the public is able to notify the Council of a suspected breach of compliance. Elevating the activity classification and requiring a resource consent would not be cost or time efficient and officers do not believe the risks of the activity are sufficient to warrant this.
29 – Department of Conservation	787	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 18 of the Plan to exclude its application to Outstanding Value and Estuaries Unmodified coastal management areas.	Officers recommend declining the relief sought as being unnecessarily restrictive.
Further submissions – Climate Justice Taranaki Inc (21), Royal Forest and Bird Protection Society (43), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	Officers note that this rule is specific to managing the effects of a structure rather than the effects of a discharge. The placement of such structures generally has less than minor effects and (as for any permitted activity) is still subject to compliance with standards, terms and conditions. The discharge of stormwater and wastewater is addressed by other rules.
32 – Port Taranaki	788	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 18(a) of the Plan to read: <i>(a) structure has a maximum internal diameter of <del>450</del>300mm and extends a maximum of 0.5m seaward of the line of mean high water springs; [...]</i>	Submitter considers the maximum outfall diameter threshold is unreasonably low and seeks amendment to Rule 18(a). The submitter noted, in pre-hearing engagement that the current Plan allowed an internal diameter of 600mm.  Officers agree with the views of the submitter and suggest that the environmental effects of the placement of small (i.e. less than 300mm diameter) outfall structures can be adequately addressed through the standards, terms and conditions of the Permitted Activity rule. Officers note that the discharge itself will be addressed under different rules. Officers therefore recommend amending Rule 18 as requested by the submitter.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
40 – Te Rūnanga o Ngāti Mutunga	789	<p><b>Amend</b></p> <p>Submitter has concerns regarding the complexity of this Permitted Activity and feel that this activity may be better managed as a Discretionary or Controlled Activity to ensure that the associated conditions are fully understood and can be monitored by the Council. With regards to contacting the Council before the commencement of the activity, the submitter is unsure what the process would be should the activity be found to be non-compliant with the conditions. The submitter feels that this issue would be better managed and monitored through the consent process which provides for longer timelines and means that hapū/iwi can be involved in the decision making process and subsequent monitoring if appropriate.</p> <p>Submitter opposes allowing the placement of outfall structures in the coastal marine area as a Permitted Activity and seek that such activities be a Discretionary Activity.</p>	<p><b>Decline</b></p> <p>Officers note that Rule 18 is specific to managing the effects of a structure rather than the effects of a discharge. The discharge of stormwater and wastewater is addressed by other rules.</p> <p>In relation to the management of small outfall structures, officers note that the rule includes a notification requirement so that the Council can monitor the activity if need be. Notwithstanding the above, the Council operates a process where any member of the public is able to notify the Council of a suspected breach of compliance. Elevating the activity classification will not be cost or time efficient and officers do not believe the risks are sufficient to warrant this.</p> <p>Officers do not consider it appropriate to require a consent to place small outfall structure. This activity is considered fairly standard and routine with any adverse effects generally being temporary and minor. The Council has not encountered significant issues with the placement as governed by the current Plan and therefore do not consider it appropriate or necessary to require all outfall structures to be a Discretionary Activity.</p>
Further submissions – Climate Justice Taranaki Inc (21), Te Korowai o Ngāruahine Trust (41), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
41 – Te Korowai o Ngāruahine Trust	790	<p><b>Amend</b></p> <p>Submitter supports the inclusion of Condition (e) in Rule 18 of the Plan addressing historic heritage but seek further dialogue on how adverse effects will be considered in practice. If agreement cannot be reached amend Rule 18 to make this rule a Discretionary Activity (rather than Permitted Activity).</p>	<p><b>No relief necessary</b></p> <p>Officers note that Rule 18 is specific to managing the effects associated with the placement of a structure rather than the effects of a discharge. The discharge of stormwater and wastewater is addressed by other rules.</p>
Further submissions – Climate Justice Taranaki Inc (21), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
42 – Ngati Rahiri Hapū	791	<p><b>Amend</b></p> <p>Submitter does not accept that structures may be placed over kaimoana reefs as a permitted activity without iwi/hapū consideration notwithstanding the standards, terms and conditions that are in place.</p> <p>Submitter seeks amendment to Rule 18 of the Plan to make outfall structure placement a Discretionary Activity or at least a Controlled Activity (rather than a Permitted Activity)</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought noting that concerns relating to potential impacts are already addressed in the standards, terms and conditions. In particular, Condition (e) would restrict the activity from occurring in areas identified as significant under Schedule 5A and B including nearshore reefs identified as having kai moana values.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>AND that there be iwi/hapū consultation in all cases.</p>	<p>Officers further note that this rule is specific to managing the effects of a structure rather than the effects of a discharge. Discharges of stormwater and wastewater are separately addressed by other rules.</p>
<p>Further submissions – Climate Justice Taranaki Inc (21), Te Korowai o Ngāruahine Trust (41), Te Rūnanga o Ngāti Ruanui Trust (61)</p>		<p>Support</p>	<p>In relation to the management of small outfall structures, officers note that this activity is considered fairly standard and routine with any adverse effects generally being temporary and less than minor. The standards, terms and conditions require that the Council be notified of the instalment of the structure which would subsequently be notified to iwi authorities. This notification process allows the Council to be aware of the exact location of such structures and to follow up, if necessary, with any concerns or issues that may arise.</p>
<p>43 – Royal Forest and Bird Protection Society</p>	<p>792</p>	<p><b>Amend</b></p> <p>Submitter is concerned that the conditions of Rule 18 do not manage cumulative effects. Of particular concern are areas of Outstanding Value where structures can have adverse effects on natural character and natural features and landscapes. Submitter seeks amendment to Rule 18 of the Plan to:</p> <ul style="list-style-type: none"> <li>• identify sites/areas of significant indigenous biodiversity and include a condition that the structure is not within those areas</li> <li>• amend Condition (c) by adding: activity, and no more than 1m width of surface area is distributed</li> <li>• add a <i>Note: this rule does not authorise a discharge from the outfall structure.</i></li> </ul>	<p><b>Accept in Part</b></p> <p>Officers acknowledge the submitters concerns relating to cumulative effects. It is the experience of the Council that the majority of any effects that occur as a result of placement of small outfall structures are transitory and less than minor. Such activities are considered routine and result in minimal disturbance. To date, the Council has not experienced any issues arising from the cumulative effects of placing an outfall structure.</p> <p>Officers believe that the submitter's request to identify sites/areas of significant indigenous biodiversity is unnecessary and infers that the placement of outfall structures and the presence of significant indigenous biodiversity is mutually exclusive. Officers do not agree with this view. Notwithstanding that, officers note that Condition (f) provides a high level of protection to significant indigenous biodiversity as already identified in Schedule 4. If this is an issue of mapping (which has been raised by the submitter previously), the submitter is referred to officers' previous comments on the difficulties and limitations of mapping habitats of significant indigenous biodiversity in the coastal marine area.</p> <p>Officers further note that the <u>placement</u> of small outfall structures is a fairly routine activity that has not, in the experience of the Council, resulted in noticeable adverse effects on the high natural character associated with Outstanding Value and Estuaries Unmodified coastal management areas.</p> <p>Officers do not consider the requested addition to Condition (c) necessary.</p> <p>Officers agree to include the requested note as it provides useful guidance for Plan users with minor amendment to read:</p>
<p>Further submissions – Climate Justice Taranaki Inc (21)</p>		<p>Support</p>	<p>Officers further note that the <u>placement</u> of small outfall structures is a fairly routine activity that has not, in the experience of the Council, resulted in noticeable adverse effects on the high natural character associated with Outstanding Value and Estuaries Unmodified coastal management areas.</p> <p>Officers do not consider the requested addition to Condition (c) necessary.</p> <p>Officers agree to include the requested note as it provides useful guidance for Plan users with minor amendment to read:</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p><u>Note: this rule does not authorise a discharge from the outfall structure. The discharge rules are Rules 1A to 3 and 5 to 8.</u></p>
58 – Te Atiawa	793	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 18 of the Plan by including in the standards, terms and conditions a clause that refers to Schedules 5A and 5B</p> <p>AND</p> <p>amend the Activity Classification to a Controlled Activity (rather than a Permitted Activity).</p>	<p><b>Accept in part</b></p> <p>Submitter supports the inclusion of Schedule 5A and 5B of the Plan, however, is uncertain as to how the Council will ensure that these requirements are being met.</p> <p>The <u>placement</u> of small outfall structures is a fairly routine activity that has not, in the experience of the Council, resulted in noticeable adverse effects. Officers are therefore confident that the Permitted Activity classification is reasonable for this activity. The Council requires notification prior to the commencement of the activity and will maintain a record of all outfall structures placed, this allows for routine check-ups. The Council has additional measures in place to deal with any non-compliance issues that may arise and operates a public notification system that allows any member of public to notify the Council of non-compliance. If non-compliance is recognised the Council will take swift and appropriate enforcement action and the activity will require a consent to continue operation where all non-compliance issues will be dealt with accordingly.</p> <p>Notwithstanding the above, officers notes that Rule 18 only covers the placement of a small outfall structure, not the discharge. Any discharge will be governed by the appropriate rule depending on the content of the discharge, and likely invoke the consenting process as a result.</p> <p>Officers agree to amend reference to Schedule 5 to be Schedules 5A and 5B as requested by the submitter.</p>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Rūnanga o Ngāti Ruanui Trust (61)		<p>Support</p>	
61 – Te Rūnanga o Ngāti Ruanui Trust	794	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 18 of the Plan to include new and amended standard, term and condition to read:</p> <p>[...]</p> <p><u>(e) the discharge is not placed placement of the structure does not have an adverse effect on the values associated with within cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage];</u></p> <p><u>(f) the structure is not placed at any site identified in Schedule 5B [Sites of significance to Māori and associated values] and Appendix 2;</u></p>	<p><b>Accept in part</b></p> <p>Officers note that Rule 18 is specific to managing the effects associated with the placement of a structure rather than the effects of a discharge. The discharge of stormwater and wastewater is addressed by other rules.</p> <p>In relation to the management of small outfall structures, officers are concerned that the effect of the new and amended conditions would make the rule unnecessarily restrictive and by default redundant in that they preclude the placement of these small outfall structures in any part of the Taranaki coastal marine area.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i><u>(g) structure does not have adverse effect on Schedules 1 and 2</u></i></p> <p><i><u>(h) placement of the structure does not have an adverse effect the structure is not placed at any site with any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems]; taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat] [...]</u></i></p>	<p>Officers do not consider it appropriate to require a consent to place a small outfall structure. This activity is considered fairly standard and routine with any adverse effects generally being temporary and having less than minor effects. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>Officers note that this Rule does not deal with the discharge of the structure, only the placement. Discharge impacts would be more appropriately addressed through the appropriate discharge rule. Officers recommend amending the Rule to include a guidance note to clarify that rule relationship between the placement of outfall structures and discharges.</li> <li>The submitter proposes to include a new Condition (f), however, the reference to sites of significance to Māori located in Schedule 5B has already been included within Condition (e) and it is not necessary to repeat.</li> <li>Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape. The Condition effectively precludes the placement of small outfall structures in any part of the coastal marine area thereby making the rule redundant.</li> <li>In regards to requested standard, term and condition (h), officers do not believe that it is necessary to prohibit the location of outfall structures due to the presence of threatened or at risk, or regionally distinctive species. As long as any negative effects towards these species are managed then there is no reason why the structure should not be placed. It is the opinion of officers that, if well managed, the two can co-exist without any adverse effects to either. Notwithstanding that, officers recommend amending Condition (f) to expand its scope to include reference to scheduled taonga species.</li> </ul>

<p><b>NEW Rule 18A – Outfall structure placement</b></p>			
	<p>795</p>	<p>Amend</p>	<p>Decline</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
29 – Department of Conservation		Submitter seeks amendment to the Plan to include a new Controlled Activity rule that specifically addresses outfall structure placement in Outstanding Value and Estuaries Unmodified coastal management areas. The submitter further seeks that Conditions (a), (b), (c), and (d) of Rule 18 should also be conditions for this new rule and that the matters of control should, at a minimum, address any effects on natural character, significant species, historic heritage, and any mitigation of effects on these values.	Officers recommend declining the relief sought. Refer to submission point 785.
<b>Rule 19 – Mooring structure placement in the Port</b>			
43 – Royal Forest and Bird Protection Society	796	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Activity Description of Rule 19 of the Plan to delete the activity provisions for associate disturbance, deposition and discharge.</p>	<p><b>Decline</b></p> <p>The disturbance, deposition and discharge activities referred to in the Activity Description of Rule 19 are incidental to the activity of placing mooring structures in the Port. Council recognises that a small amount of disturbance and deposition is likely to be an inevitable consequence of any work on the foreshore and seabed but the effects will be less than minor and transitory. The Rule therefore seeks to bundle associated activities given that the effects are considered minor, transitory and low risk to the environment.</p>
43 – Royal Forest and Bird Protection Society	797	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 19 of the Plan to make mooring structure placement in the Port (and not requiring excavation of the seafloor or seabed) a Controlled Activity (rather than a Permitted Activity).</p>	<p><b>Decline</b></p> <p>The submitter does not believe that the effects with difference scale of mooring structures and cumulative effects are adequately managed through a Permitted Activity rule. The submitter wishes this activity to be a Controlled Activity so that the Council can assess whether the conditions are met.</p> <p>As previously noted, the Port is a highly modified area and mooring structures are considered common place for such a location. Officers believe that placement of mooring structures in a port are fairly standard and routine and will produce less than minor effects if there are any effects at all. Requiring such activities to get a resource consent is both unnecessary and restrictive noting that the Port is regionally important infrastructure. Possible effects on indigenous biodiversity and historic heritage values in the vicinity are acknowledged and addressed in Conditions (c) and (d). If the activity cannot appropriately comply with those conditions, a resource consent would be required.</p>
	798	<p><b>Amend</b></p>	<p><b>No relief necessary</b></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		The Port is adjacent to an outstanding landscape and character area, therefore, the submitter seeks amendment to Rule 19 of the Plan to add a condition that the mooring structure does not have an effect on Outstanding Value areas.	Officers note that the Port is already a highly modified environment that is located adjacent to an area of Outstanding Value. Both areas co-exist and the placement of any additional mooring structures will not impact on the natural character of the Sugar Loaf Islands as the activity will be confined to the Port coastal management area.
43 – Royal Forest and Bird Protection Society	799	<b>Amend</b> Submitter seeks amendment to Rule 19 of the Plan to add a condition that the mooring structure must not have adverse effects on the values of scheduled sites and areas in the coastal marine area with significant indigenous biodiversity values.	<b>No relief necessary</b> Officers note that this relief is already provided for under Condition (f), which states that the placement of the mooring structure must not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems].
58 – Te Atiawa	800	<b>Support</b> Retain Rule 19 of the Plan as notified.	<b>Accept</b> Support noted. Rule 19 is retained subject to minor amendments as requested by other submitters that do not change the rule's scope.
Further submissions – Port Taranaki Ltd (32)		Support	
<b>NEW Rule 19A – Mooring structure placement in the Port</b>			
43 – Royal Forest and Bird Protection Society	801	<b>Amend</b> Submitter seeks amendment to the Plan to include a new rule for mooring structure placement in the Port that cannot comply with Rule 19 as a Restricted Discretionary (or Discretionary Activity) and include a matter of discretion to consider the effects on indigenous biodiversity values.	<b>Accept in part</b> Officers refer the submitter to Rules 23 and 33 which are the catch-all rule for mooring structures not meeting the activity description or all the standards, terms and conditions. Rule 23 is a Controlled Activity rule for the Port and officers note that control is reserved over ecological values as directed in Condition (f). Rule 33 is a Discretionary Activity for any structure erection or placement that does not come within or comply with previous relevant rules. Officers recognise that “ecological effects” is not the same wording as requested by the submitter but note that the term covers the protection of indigenous biodiversity. Officers recommend replacing the term “ecological values” with “indigenous biodiversity” to clarify that intent.

<b>Rule 20 – Mooring structure placement</b>			
	802	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
6 – Trans-Tasman Resources Ltd		Retain Rule 20 as this rule recognises that some monitoring and sampling activities will be requiring mooring structures, and appropriately provides for them as a Permitted Activity.	Support noted. Rule 20 is retained subject to minor amendments as requested by other submitters that do not change the rule's scope.
29 – Department of Conservation	803	<b>Support</b> The Department of Conservation often uses monitoring moorings in the coastal environment during its operations and supports the permitted classification of mooring structure placement for monitoring or sampling equipment. Retain Rule 20 as notified.	<b>Accept</b> Support noted. Rule 20 is retained subject to minor amendments as requested by other submitters that do not change the rule's scope.
Further submissions – Port Taranaki Ltd (32)		Support	
40 – Te Rūnanga o Ngāti Mutunga	804	<b>Amend</b> Submitter is opposed to permitting the mooring structures in the coastal marine area for monitoring and sampling purposes and seek that such activities be a Discretionary Activity.	<b>Decline</b> The submitter has concerns regarding the complexity of this Permitted Activity rule and feel that this activity may be better managed as a Discretionary Activity or Controlled Activity to ensure that the associated conditions are fully understood and can be monitored by the Council. With regards to contacting the Council before the commencement of the activity, the submitter is unsure what the process would be should the activity be found to be non-compliant with the conditions. The submitter feels that this issue would be better managed and monitored through the consent process which provides for longer timelines and means that hapū/iwi can be involved in the decision making process and subsequent monitoring if appropriate.  Officers would like to note that the placement of mooring structures is fairly routine and uncomplicated producing less than minor, if any, adverse effects. Due to the straight forward nature of the activity and the low impact that it has, officers do not believe that this activity requires further monitoring or the need to impose unnecessary restrictions and costs on people to obtain a resource consent.  Notwithstanding the above, officers are aware that iwi/hapū will be interested to know when such activities are being undertaken and note that the Council have an arrangement with iwi authorities who have requested to be informed of this activity as cited in the activity description.  Officers note that if an activity is to be commenced in a location that is not considered appropriate after having regard to the standards, terms and

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	807	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment of the heading for Rule 20 of the Plan by adding the word “ <i>monitoring</i> ”.	Officers see no need to include specific headings for specific rules. The Plan headings deliberately bundles main activities at a high level to capture a suite of rules.
43 – Royal Forest and Bird Protection Society	808	<b>Amend</b>	<b>Decline</b>
		<p>Submitter supports the permitted rule for monitoring and sampling purposes where they are not fixed to the seabed, provided there are no adverse effects on biodiversity values or outstanding character and landscape values. However, the provisions for associated disturbance, deposition and discharge are uncertain and could result in adverse effects that are not addressed by the permitted standards, terms and conditions.</p> <p>Submitter seeks amendment to Rule 20 of the Plan by deleting the Activity provisions for associate disturbance, deposition and discharge.</p>	<p>Officers recommend declining the relief sought by the submitter.</p> <p>Officers do not consider it necessary to remove the reference to associated disturbance, deposition or discharge as covered by Activity Descriptions (b), (c) and (d).</p> <p>Officers note that the disturbance, deposition and discharges referred to in the Activity Description of Rule 20 are those incidental to the placement of mooring structures.</p> <p>The Rule recognises that, during the installment of mooring monitoring structures, there may be minor and transitory disturbances as a result. The impacts are generally very minor with the associated effects being similar in kind and magnitude to that associated with a vessel dropping anchor. The rule therefore seeks to bundle associated activities given they are low risk and likely to produce no or, at the most, less than minor effects (i.e. the receiving environment can generally handle the activity with effects being naturally and promptly remedied without the need for further intervention).</p>
43 – Royal Forest and Bird Protection Society	809	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment of Rule 20 of the Plan by adding to the Activity Description as follows:</p> <p><i>The placement or removal of a mooring structure placement for monitoring [...]</i></p>	<p>Officers recommend declining the relief sought by the submitter. Rule 20 specifically relates to the placement of the structure. Removal of structures is separately addressed under Rules 44, 45 and 46.</p> <p>Officers note the reference to “removal” within Condition (a) of Rule 20 relates to the information requirements to be supplied by the person(s) undertaking the activity. While this is additional information that does not fall within the scope of the Rule gateway, nevertheless it has been included for the reader for certainty and clarity purposes as the information would be required under Rule 44 anyway and ensures Council has all the necessary information for an activity that is generally a short term activity.</p>
	810	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		Submitter seeks amendment to the standards, terms and conditions to ensure the activity will not occur where it would have adverse effects on values and characteristics to be protected under Policies 8 [Outstanding value], 9 [Natural character] and 14 [Significant indigenous biodiversity] of the Plan.	Officers note that in the development of Plan provisions, consideration has been had to the type and scale of the activity and the associated effects. Officers are satisfied that mooring monitoring structures are unlikely to have more than minor adverse effects on outstanding natural character, features and landscapes, natural character and significant indigenous biodiversity values in the coastal environment. Certainly not at a landscape scale (i.e. the mooring structure and the monitoring or sampling equipment must not occupy an area exceeding 5 m <sup>2</sup> of the coastal marine area). However, Council recognises that in specific localities unforeseen impacts on significant indigenous biodiversity may occur. Accordingly Condition (c) in Rule 20 applies to protect any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems] from unforeseeable impacts.
58 – Te Atiawa	811	<p><b>Amend</b></p> <p>Submitter supports the inclusion of Schedule 5 and 4A. However, they are uncertain as to how the Council will ensure that these requirements are being met. The submitter requests dialogue to explain how this will be achieved or request that the Activity Classification is elevated to a Controlled Activity.</p> <p>Submitter seeks amendment to Rule 20 of the Plan by including a condition that refers to Schedules 5A and 5B</p> <p>OR</p> <p>amend the Activity Classification to a Controlled Activity (rather than a Permitted Activity).</p>	<p><b>Accept in part</b></p> <p>Officers recommend amending Rule 20 to reference “<i>Schedules 5A and B</i>” as requested by the submitter.</p> <p>The placement of mooring monitoring structures is a small scale activity (i.e. the mooring structure and the monitoring or sampling equipment must not occupy an area exceeding 5 m<sup>2</sup> of the coastal marine area), that has not, in the past experience of the Council, resulted in noticeable adverse effects. Due to the straight forward nature of the activity, and the low impacts that it has, officers do not believe that this activity requires further monitoring or the need to impose unnecessary restrictions and costs on people to obtain a resource consent. Officers are confident that the Permitted Activity Classification is reasonable for this activity.</p> <p>Notwithstanding the above, officers are aware that iwi/hapū will be interested to know when such activities are being undertaken and note that the Council have an arrangement with iwi authorities who have requested to be informed of this activity as cited in the activity description.</p> <p>Officers note that if an activity is to be commenced in a location that is not considered appropriate after having regard to the standards, terms and conditions listed, the Council will advise those undertaking the activity that a resource consent is required under Rules 33 (Discretionary) or 34 (Non-complying) depending on the coastal management area. Officers would also</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			like to reassure the submitter that if any issues of non-compliance arise the Council will take swift and appropriate enforcement action.
61 – Te Rūnanga o Ngāti Ruanui Trust	812	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 20 of the Plan to include new and amended standards, terms and conditions to read:</p> <p><i>(b) <del>the placement of the structure</del> <del>placement of the mooring structure</del> does not have an adverse effect on the values associated with <u>cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage]</u>;</i></p> <p><i>(c) <del>the placement of the structure and discharge does not have adverse effect on Schedules 1 and 2;</del></i></p> <p><i>(d) <del>the activity does not occur at any site identified in Schedule 5B [Sites of significance to Māori and associated values] and Appendix 2;</del></i></p> <p><i>(e) <del>the placement of the structure and discharge does not adversely affect the suitability of the receiving water for customary use and bathing after reasonable mixing;</del></i></p> <p><i>(f) <del>placement of the mooring structure and the discharge does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems]; taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat]</del></i></p> <p><i>(g) <del>the mooring structure and the monitoring or sampling equipment does not occupy an area exceeding 5m<sup>2</sup> of the coastal marine area [...]</del></i></p>	<p><b>Accept in part</b></p> <p>Officers note that this rule is specific to the management of small mooring monitoring structures (i.e. the mooring structure and the monitoring or sampling equipment must not occupy an area exceeding 5 m<sup>2</sup> of the coastal marine area), officers are concerned that the effect of the new and amended conditions would make the rule unnecessarily restrictive and have perverse outcomes. The relief seeks to exclude the activity from sites of significance regardless of whether it has any impacts on those values and despite the potential for the activity to contribute to the protection and management of sites of significance (e.g. mahinga kai and pukawa values) or taonga species (presence/absence/abundance).</p> <p>Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>officers refer the submitter to previous comments made on expanding the scope of historic heritage (</li> <li>Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape. The proposed Condition (c) is too wide ranging, unnecessarily restrictive, and uncertain for Plan users</li> <li>note that the discharges associated with this Rule are only those associated directly with the placement of the structure and there is no need to paraphrase the gateway in the individual conditions</li> <li>the submitter proposes to include a new standard (f), however, the reference to sites of significance to Māori located in Schedule 5B has already been included within Condition (b). It is not necessary to repeat this Condition using different wording.</li> <li>in regards to requested Condition (e), officers do not believe that it is necessary. Again it is noted that these activities are very small scale (&lt;5 m<sup>2</sup> and the only possible impact on water quality is related to the potential for a little sediment disturbance similar in</li> </ul>

			<p>scale to using an anchor and which would not be noticeable in natural prevailing conditions)</p> <ul style="list-style-type: none"> <li>in regards to requested Condition (e), officers further recommend expanding its scope to include reference to scheduled taonga species.</li> </ul>
<b>Rule 21 – Navigation aid erection and placement</b>			
29 – Department of Conservation	813	<p><b>Amend</b></p> <p>Submitter believes that the erection of maritime navigation aids should not be a permitted activity for any member of the public. Instead the activity should be permitted for only the Taranaki Regional Council or its agents, Maritime Mew Zealand or its agents, or Port Taranaki provided that these agencies agree to this responsibility.</p> <p>Submitter seeks amendment to Rule 21 of the Plan to include a new condition before condition (a) to read:</p> <p><i>The activity is undertaken by:</i></p> <p><i>(i) Taranaki Regional Council or its agents; or</i></p> <p><i>(ii) Port Taranaki; or</i></p> <p><i>(iii) Maritime New Zealand or its agents.</i></p>	<p><b>Accept</b></p> <p>Officers agree and recommend granting the relief sought by the submitter.</p>
Further submissions – Trans-Tasman Resources (6)		Oppose	
Further submissions –Port Taranaki Ltd (32)		Support	
41 – Te Korowai o Ngāruahine Trust	814	<p><b>Amend</b></p> <p>Submitter supports the inclusion of Condition (e) addressing historic heritage but seek further dialogue on how adverse effects will be considered in practice. If agreement cannot be reached, submitter seeks amendment to Rule 21 of the Plan to make this rule a Discretionary Activity (rather than Permitted Activity).</p>	<p><b>No relief necessary</b></p> <p>Officers note that the purpose of Rule 21 is allow for the placement of maritime navigation aids. Such activities provide a critical service and no or very minor adverse effects are likely to arise from this activity. However, in the event of any unforeseen adverse effects, conditions do apply to avoid, remedy or mitigate any adverse effects on historic heritage or indigenous biodiversity values. If the placement of navigation aids cannot comply with all the Permitted Activity conditions then a resource consent would be required.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Officers note that if an activity is to be commenced in a location that is not considered appropriate after having regard to the standards, terms and conditions listed, the Council will advise those undertaking the activity that a resource consent is required under Rules 33 (Discretionary) or 34 (Non-complying) depending on the coastal management area.</p>
42 – Ngati Rahiri Hapū	815	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 21 of the Plan to make navigation aid erection or placement a Discretionary or at least a Controlled Activity (rather than a Permitted Activity)</p> <p>AND</p> <p>that there be iwi/hapū consultation in all cases.</p>	<p><b>Accept in part</b></p> <p>Officers consider the placement of navigation aids in the coastal marine area a rather straight forward activity, which contributes to maritime safety, and for which there are no or less than minor adverse effects. The most likely adverse effect is the temporary disturbance of the seabed from the placement of a small anchor. However, any effects would be transitory and very localised to the area directly in contact with the structure, and not noticeable in natural prevailing marine conditions.</p>
Further submissions – Trans-Tasman Resources (6)		Oppose in part	<p>Officers do not consider it necessary to elevate the activity status of this Rule to require a resource consent to be obtained due to the negligible risks involved and the protections already in place through the standards, terms and conditions. Officers also direct the submitter to Condition (e) which requires the placement of the mooring structure to not have adverse effects on the values associated with historic heritage identified in Schedule 5 [Historic heritage], which would include kaimoana reefs.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<p>Due to the Permitted Activity status it is not appropriate to require the resource user to consult. However, officers would like to draw the submitters attention to note (1) in the Rule that explains that iwi authorities that have requested to be informed of this activity will be advised by the Council.</p>
43 – Royal Forest and Bird Protection Society	816	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 21 of the Plan by deleting “Outstanding Value” from the coastal management areas covered by the rule.</p>	<p><b>Decline</b></p> <p>Submitter opposes the permitted rule for the erection or placement of navigation structures in Outstanding Value areas. In addition, the submitter contends that the potential adverse effects on birds from lighting associated with navigational aids do not appear to be considered within the rule.</p> <p>Officers recommend declining the relief sought by the submitter. It is suggested that the erection and placement of navigational aids should be generally provided for in all coastal management areas. This recognises that all the coastal management areas may require navigational aids to ensure the safe and efficient navigation of vessels in those waters.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Navigational aids are essential items of infrastructure that reduce the risks of ships grounding and vessel related oil spills that may result. It is a critical safety issue for vessel personnel as well as for the environment and it is imperative that the Plan allow and encourage the safe and appropriate use of such aids.</p> <p>Officers suggest that adverse effects associated with the placement of maritime navigation aids, if any, are likely to be minor, including potential effects of lighting on birds. Notwithstanding that, officers note that the activity is subject to compliance with the standards, terms and conditions, including Condition (f) that requires that there be no adverse effects on significant indigenous biodiversity. If the Council consider that the proposed activity is unable to meet all of the standards, terms and conditions, the Council will advise those undertaking the activity that a resource consent will be required under Rules 33 (Discretionary) and 34 (Non-complying) depending on the coastal management area.</p>
43 – Royal Forest and Bird Protection Society	817	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Activity description of Rule 21 of the Plan to ensure there is no disturbance of the foreshore or seabed.</p>	<p><b>No relief necessary</b></p> <p>Officers note that Rule 21 does not permit excavation of disturbance of the foreshore or seabed, only minor disturbances that occur as a result of unobtrusive activities during the placement of the structure.</p>
43 – Royal Forest and Bird Protection Society	818	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 21 by deleting the Activity provisions for associate disturbance, deposition and discharge in the Rule.</p>	<p><b>Decline</b></p> <p>The submitter suggests that the provisions for associated disturbance, deposition and discharge are uncertain and could result in adverse effects which are not addressed by the permitted standards, terms and conditions of the rule.</p>
Further submissions – Trans-Tasman Resources (6)	Oppose	<p>Officers note that the disturbance, deposition and discharges referred to in the Activity Description of Rule 21 are considered minor, transitory and inconsequential (i.e. the receiving environment will be relatively unaffected by the activity with effects being naturally and promptly remedied without the need for further intervention).</p> <p>The Council recognises that, during the installment of navigation aids, there may be minor and transitory disturbances as a result. The impacts are generally very minor with the associated effects being similar in kind and magnitude to that associated with a vessel dropping anchor. The rule</p>	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			therefore seeks to bundle associated activities given they are low risk and likely to produce no or, at the most, less than minor effects.
43 – Royal Forest and Bird Protection Society	819	<p><b>Amend</b></p> <p>Submitter seeks amendment to Condition (e) of Rule 21 of the Plan to read:  <i>[...] erection or placement of the navigation aid <del>does not have an adverse effect on the values associated with</del> is not within 10m of any historic heritage identified in Schedule 5 [Historic heritage] or 50m of an Outstanding Value area [...]</i></p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Officers note that historic heritage has a broad RMA definition and is not confined to archaeological sites. For historic heritage associated with sites of significance to Māori it may be possible to erect or place navigation aids on the 'site' and there be no adverse effects.</p> <p>Officers further suggest that the erection and placement of navigational aids should be permitted in all coastal management areas, including those of Outstanding Value, especially considering the high recreational use of some of these areas and the importance of providing for the safe and efficient navigation of vessels in those waters.</p>
43 – Royal Forest and Bird Protection Society	820	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 21 of the Plan to note that where Condition (e) of is not complied with, a new Rule 33 will apply.</p>	<p><b>No relief necessary</b></p> <p>Officers suggest no relief is necessary.</p> <p>Officers note that where Condition (e) (or any other Condition) of Rule 21 cannot be complied with, Rules 33 [Discretionary Activity] and 34 [Non-complying Activity] apply, which requires the activity to be authorised through a resource consent. This guidance has already been indicated in Note (2) of the activity description.</p>
43 – Royal Forest and Bird Protection Society	821	<p><b>Amend</b></p> <p>Submitter seeks amendment to the standards, terms and conditions of Rule 21 to ensure the activity will not occur where it would have adverse effects on values and characteristics to be protected under Policies 8 [Outstanding value], 9 [Natural character] and 14 [Significant indigenous biodiversity] of the Plan.</p>	<p><b>No relief necessary</b></p> <p>Officers note that in the development of Plan provisions, consideration has been had to the type and scale of the activity and the associated effects and officers are satisfied that maritime navigation aid structures are unlikely to have adverse effects on outstanding natural character, features and landscapes, natural character and significant indigenous biodiversity values in the coastal environment. Certainly not at a landscape scale. However, Council recognises that in specific localities unforeseen impacts on significant indigenous biodiversity may occur. Accordingly Condition (f) in Rule 21 applies to protect any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems] from unforeseeable impacts.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
58 – Te Atiawa	822	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 21 by including a standard, term or condition that refers to Schedules 5A and 5B</p> <p>OR</p> <p>amending the Activity Classification to a Controlled Activity (rather than a Permitted Activity).</p>	<p><b>Accept</b></p> <p>Officers note that Condition (e) already refers to “<i>historic heritage</i>” identified in Schedule 5. However, in aligning with granting similar requests sought by the submitter, officers recommend amending references to “<i>Schedule 5</i>” to refer to “<i>Schedules 5A and 5B</i>”.</p> <p>The activity described is a fairly routine activity that has not, in the past experience of the Council, resulted in significant adverse effects. Officers therefore suggest that the Permitted Activity Classification is reasonable and appropriate for this activity. Of note, the Rule requires notification prior to the commencement of the activity and Council will maintain a record of all navigation aids placed, this allows for routine monitoring.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	823	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 21 of the Plan to include new and amended standards, terms and conditions to read:</p> <p>[...]</p> <p><i>(e) erection or placement of the navigation aid does not have an adverse effect on the values associated with <b>cultural and</b> historic heritage identified in Schedule 5 [Cultural and Historic heritage];</i></p> <p><i>(f) erection or placement of the navigation aid does not have any adverse effect on any site identified in Schedule 5B [Sites of significance to Māori and associated values] and Appendix 2;</i></p> <p><i>(g) the placement of the navigation aid does not adversely affect the suitability of the receiving water for customary use and bathing after reasonable mixing;</i></p> <p><i>(h) erection or placement of the <b>structure navigation aid</b> does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems]; taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat]</i></p> <p>[...]</p>	<p><b>Accept in part</b></p> <p>Officers note that Rule 21 is specific to the placement of maritime navigation aids. Navigational aids are essential items of infrastructure that reduce the risks of ships grounding and vessel related oil spills that may result. It is a safety issue for vessel personnel as well as for the environment and it is imperative that the Plan allow and encourage the safe and appropriate use of such aids.</p> <p>Officers are concerned that the effect of the new and amended conditions would make the rule unnecessarily restrictive and may have perverse outcomes. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>the submitter proposes to include a new standard, term and condition (f), however, the reference to sites of significance to Māori located in Schedule 5B has already been included within Condition (b). It is not necessary to repeat this Condition using different wording.</li> <li>in regards to requested Condition (g), officers do not believe that it is necessary. Again it is noted that these activities are very small scale and the water quality impacts are limited to the potential for a little sediment disturbance similar in scale to using an anchor (the</li> </ul>

	829	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
29 – Department of Conservation		Submitter seeks amendment to Rule 22 of the Plan to remove a “ <i>pipeline that is buried</i> ” and “ <i>a communication or electricity cable that is buried</i> ” from the Controlled Activity description AND insert a new Restricted Discretionary rule (see NEW Rule 22A below).	The submitter suggests the burial of pipes and cables may have significantly different levels and types of effects compared with attaching a pipe to a bridge.  Officers agree with that assessment but are confident that subject to the standards, terms and conditions of this Controlled Activity rule, any adverse environmental effects are reasonably foreseeable and can be appropriately avoided, remedied or mitigated via conditions of a resource consent. Activities that cannot comply with the standards, terms and conditions are more appropriately managed through Rules 33 [Discretionary Activity] and 34 [Non-complying Activity] of the Plan.
Further submissions – Powerco (45)		Oppose in part	
40 – Te Rūnanga o Ngāti Mutunga	830	<b>Amend</b>  Submitter seeks amendment to Rule 22 of the Plan to make the erection or placement of network utility structures in the coastal marine area a Discretionary Activity (rather than a Controlled Activity) so that Ngāti Mutunga and others can be involved in the decision making/resource consent process and also in monitoring of this activity if necessary.	<b>Decline</b>  Officers note that this rule seeks to provide for the placement of important network utilities that might traverse the coastal marine area pursuant to Policy 6 of the Plan and subject to the appropriate management of adverse effects. Through the consenting process, relevant environmental effects on historic heritage, indigenous biodiversity and use and enjoyment of the coast will be appropriately managed. Other adverse effects within the coastal marine area, e.g. water quality are likely to be less than minor and temporary. Some certainty for these uses is considered appropriate, which would not be the case if the activity was made a Discretionary Activity (with the ability to decline a resource consent application).  The Council has not encountered significant issues with the placement of utility structures in the coastal marine area under the current Plan and therefore do not consider it appropriate or necessary to require the placement of network utility structures to be made more restrictive by making it a Discretionary Activity.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
41 – Te Korowai o Ngāruahine Trust	831	<b>Amend</b>  Submitter seeks amendment to Condition (b) of Rule 22 of the Plan to read: <i>(b) erection or placement of the structure does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A and B Historic heritage; [...]</i>	<b>Accept</b>  Officers agree to refer to “ <i>Schedule 5</i> ” as “ <i>Schedule 5A and 5B</i> ” as requested by the submitter. Officers recommend other consequential amendments throughout the Plan to maintain consistent language.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
42 – Ngati Rahiri Hapū	832	<p><b>Amend</b></p> <p>Submitter supports the activity classification as controlled but seek amendment of Rule 22 to protect reef systems</p> <p>AND</p> <p>that there be iwi/hapū consultation in all cases.</p>	<p><b>No relief necessary</b></p> <p>Officers note that this Rule is subject to Condition (c) and Policy 14(b)(iii), which states that activities must avoid significant adverse effects (and avoid, remedy or mitigate other adverse effects) on vulnerable indigenous ecosystems and habitats including reefs. Through the consenting process, conditions will be imposed to manage adverse effects, including the protection of the reef systems.</p> <p>Officers further note that, as part of this coastal plan review process, and in relation to 'sites of significance' to Māori (many of which relate to inshore reefs), Council has already agreed, subject to conditions, to recognise iwi as an affected party for all resource consent applications. There will be further opportunity to set consultation requirements and expectations as part of the development of any Mana Whakahono a Rohe agreements.</p>
43 – Royal Forest and Bird Protection Society	833	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 22 of the Plan by changing the rule classification to make the erection or placement of network utility structures in the coastal marine area a Restricted Discretionary Activity (rather than a Controlled Activity).</p>	<p><b>Decline</b></p> <p>Officers note that Rule 22 seeks to provide for the placement of important network utilities that might transect the coastal marine area pursuant to Policy 6 of the Plan and subject to the appropriate management of adverse effects. Through the consenting process, relevant environmental effects on historic heritage, indigenous biodiversity and use and enjoyment of the coast will be appropriately considered and managed having reference to the General Policies of the Plan plus relevant Activity-specific Policies. Other adverse effects within the coastal marine area, e.g. water quality are likely to be less than minor and temporary. Some certainty for these uses is considered appropriate, which would not be the case if the activity was made a Discretionary Activity (with the ability to decline a resource consent application).</p>
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		<p>Oppose in part</p>	<p>The Council has not encountered significant issues with the placement of utility structures in the coastal marine area under the current Plan and therefore do not consider it appropriate or necessary to require the placement of network utility structures to be made a Restricted Discretionary Activity. However, officers also note that if proposed activity is unable to meet all of the standards, terms and conditions of the Controlled Activity Rule, then the activity would need to be addressed under Rules 33 (Discretionary) and 34 (Non-complying) depending on the coastal management area.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	834	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks the inclusion of a standard, term and condition in Rule 22 of the Plan that requires a 100m set back from Outstanding Value coastal management areas.	No precise details of the rationale for the relief sought has been provided, or indeed what the proposed setback distance would achieve. Officers recommend declining the relief sought by the submitter noting that most of the activities covered by this rule require the structure to be buried or are of small scale. Of note, in the event that this activity is of a type or scale that it could have an impact on Outstanding Values, the Rule reserves control over the location of the work.
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose in part	
43 – Royal Forest and Bird Protection Society	835	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks the inclusion of the following matters of discretion for the amended Rule 22 of the Plan: <i>(x) effect on indigenous biological diversity</i> <i>(y) effects on natural character and natural features and landscape</i> <i>(z) effects on any areas of Outstanding Value.</i>	Officers agree in part to the relief sought by the submitter by amending the following matters of discretion in Rule 22 (plus consequential changes to equivalent rules elsewhere in the Plan) to read: <i>(f) effects on natural character, features and landscapes values</i> <i>(fa) effects on indigenous biodiversity values</i>
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	Officers recommend that this amendment also be included in additional Rules where appropriate to maintain consistency.
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose in part	Officers note the amendments to term “ecological” better aligns with the wording adopted in the General Policies, which refers to “natural character, features and landscapes” and “indigenous biodiversity”. Officers did not believe it necessary to specify areas of outstanding values as this is a subset of natural character, features and landscapes.
45 – Powerco	836	<b>Support</b>	<b>Accept</b>
		Retain Rule 22 of the Plan as notified.	Support noted.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>(b) erection or placement of the structure does not have an adverse effect on the values associated with <u>cultural and</u> historic heritage identified in Schedule 5 [Cultural and Historic heritage];</i></p> <p><i><u>(c) erection or placement of the structure does not have adverse effect on Schedules 1 and 2</u></i></p> <p><i><u>(d) the activity does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</u></i></p> <p><i><u>(e) does not adversely affect the suitability of the receiving water for customary use</u></i></p> <p><i><u>(f) erection or placement of the structure does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems]; and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat] and</u></i></p> <p><i><u>(g) structure does not adversely affect access to or use of the area surrounding the structure.</u></i></p>	<p>heritage, indigenous biodiversity and use and enjoyment of the coast will be appropriately managed. Other adverse effects within the coastal marine area, e.g. water quality are likely to be less than minor and temporary.</p> <p>The submitter seeks to introduce a number of new and amended standards, terms and conditions to the Rule. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>• decline the relief sought in relation to Condition (b). Officers refer the submitter to previous comments made on expanding the scope of historic heritage;</li> <li>• decline the relief sought in relation to Condition (c). Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape. The proposed Condition (c) is too wide ranging, unnecessarily restrictive, and uncertain for Plan users;</li> <li>• relief sought in relation to Condition (d) is unnecessary. The submitter proposes to include a new standard (d), however, the reference to sites of significance to Māori located in Schedule 5B has already been included within Condition (b) of the Plan. It is not necessary to repeat this Condition using different wording;</li> <li>• relief sought in relation to Condition (e) is unnecessary. Again such matters are largely already addressed in Condition (b) of the Plan, which protects customary sites of significance. However, it is noted that any impacts on receiving water quality will be temporary and unlikely to be noticeable in natural prevailing conditions);</li> <li>• grant the relief in kind in relation to Condition (f). Officers recommend expanding the scope of Rule conditions to include reference to scheduled taonga species (new standard, term and condition (ca)).</li> </ul>
61 – Te Rūnanga o Ngāti Ruanui Trust	840	<p><b>Amend</b></p> <p>Submitter seeks amendment the control and notification column of Rule 22 of the Plan to read:</p> <p><i>(a) location, method, timing and notification of works;</i></p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>The suggested changes seem to be mixing jurisdictional, policy and operational matters and introducing a level of specificity that is not considered</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>(b) design, construction, maintenance and decommissioning of structure;</p> <p>(c) effects on other authorised structures or activities;</p> <p>(d) sediment movement and erosion;</p> <p><u>(e) effects on matters/values identified for protection by mana whenua in the cultural impact assessment;</u></p> <p>(f) effects on water quality <u>and mauri values;</u></p> <p>(g) effects on ecological values;</p> <p>(h) effects on historic, cultural and amenity values;</p> <p>(i) effects on surf breaks;</p> <p>(j) effects of occupation on public access;</p> <p>(k) effects on navigation;</p> <p>(l) effects of noise and light;</p> <p><u>(m) consistent with iwi management plan;</u></p> <p>(n) monitoring <u>(including tangata whenua indicators referred to in the tangata whenua monitoring plan)</u> and information requirements;</p> <p>(o) duration of consent; and</p> <p>(p) review of consent conditions.</p> <p><u>(q) effects on Cultural Zone (referred to in Spatial Plan)</u></p> <p>Resource consent applications under this Rule will <del>not be publicly notified but may</del> be limited notified.</p>	<p>appropriate or necessary for a Plan. Most of the changes sought are a subset of matters that have already been provided for while the submitter has also introduced some new concepts such as a cultural zone and a spatial plan that do not fit within the Proposed Plan framework. There is also 'requirement' to be consistent with iwi management plans, while the submitter is silent on how other planning documents might also fit within this framework.</p> <p>Officers note that this activity is already subject to the General Policies 1 to 21 of which Policies 15 [Historic heritage] and 16 [Relationship of tangata whenua] are particularly relevant. Officers further note that there will be an opportunity to develop an agreed framework and operational detail for implementing the Plan as part of any Mana Whakahono a Rohe agreement with the submitter.</p> <p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>

<b>Rule 24 – Whitebait stands</b>			
21 – Climate Justice Taranaki	846	<b>Support</b>	<b>Accept</b>
		Retain the Prohibited Activity status for whitebait stands in the coastal marine area.	Support noted. Rule 24 is retained subject to minor inconsequential amendments that do not change the rule's scope.
29 – Department of Conservation	847	<b>Support</b>	<b>Accept</b>
		Retain the Prohibited Activity status for whitebait stands in the coastal marine area.	Support noted. Rule 24 is retained subject to minor inconsequential amendments that do not change the rule's scope.
40 – Te Rūnanga o Ngāti Mutunga	848	<b>Support</b>	<b>Accept</b>
		Retain the Prohibited Activity status for whitebait stands in the coastal marine area.	Support noted.
41 – Te Korowai o Ngāruahine Trust	849	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 24 of the Plan to make whitebait stands in the coastal marine area a Discretionary or Non-complying Activity (rather than a Prohibited Activity).	<p>The Rule does not exclude run-of-the-river whitebaiting, which is a popular recreational activity at many river mouths across Taranaki. However, the Rule does prohibit the establishment of whitebait structures that may contribute to over harvesting and exploitation of inanga species.</p> <p>Officers note that this Rule is an existing rule in the current Plan. It is a unique regional position adopted by this Council with strong community support to better protect whitebait stocks in this region. This is considered appropriate given the ongoing decline in the abundance of whitebait species in the region due to over harvesting (other necessary interventions relating to the loss of fish habitat are addressed in the Freshwater and Soil Plan).</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	850	<b>Support</b>	<b>Accept</b>
		Retain the Prohibited Activity status for whitebait stands in the coastal marine area.	Support noted. Rule 24 is retained as notified.
58 – Te Atiawa	851	<b>Support</b>	<b>Accept</b>
		Retain Rule 24 of the Plan as notified.	Support noted. Rule 24 is retained as notified.
<b>Rule 25 – Hard protection structure erection or placement</b>			
32 – Port Taranaki	852	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 25 of the Plan to provide for hard protection structures within the Port coastal management area as a Controlled Activity (rather than a Discretionary Activity).	Officers recommend declining the relief sought by the submitter. Officers note that this Rule is an existing rule in the current Plan. Further, in accordance with the <i>New Zealand Coastal Policy Statement</i> and the policies of this Plan (particularly Policy 34), there is an expectation that hard protection structures will be discouraged and the use of alternatives promoted. This expectation is unlikely to be realised as a Controlled Activity.
43 – Royal Forest and Bird Protection Society	853	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 25 of the Plan by clarifying the purposes to which erosion control applies.	Officers recommend declining the relief sought by the submitter. Officers do not believe this level of specificity needs to be provided in the rule. Such matters are more appropriately addressed through the consenting process, whereby the type of activity, its scale, purpose and effects can be considered on a case-by-case basis noting hard protection structures are a Discretionary Activity.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	Officers further note that the General Policies 1 to 21, 22, 31, 32, 33, 34, 35, 39, 40, 41, 42, 44, 45, 46, and 49 form broad and comprehensive guidance and direction on the erection and placements of hard protection structures.
43 – Royal Forest and Bird Protection Society	854	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 25 of the Plan by deleting Outstanding Value, Estuaries Unmodified, Estuaries Modified coastal management areas from the rule (and provide a new Non-complying rule for the erection or placement of hard protections structures in such areas).	Officers note there are significant urban areas that would be affected by the relief sought by the submitter such as New Plymouth, Waitara, Urenui and Patea. Many coastal settlements rely on hard protection structures to protect them from natural hazard processes. Officers note that this rule is an existing rule in the current Plan. Officers further note that in accordance with the <i>New Zealand Coastal Policy</i>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<i>Statement</i> and the policies of this Plan (particularly Policy 34), there is an expectation that hard protection structures will be discouraged and the use of alternatives promoted. This expectation can be met as a Discretionary Activity.
59 KiwiRail	855	<b>Support</b> Retain Rule 25 of the Plan as notified.	<b>Accept</b> Support noted.
Further submissions – Fonterra (47)		Support	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
61 – Te Rūnanga o Ngāti Ruanui Trust	856	<b>Amend</b> Submitter seeks amendment to Rule 25 of the Plan to include standards, terms and conditions to read: <i>(a) placement of structure and discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</i> <i>(b) discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</i> <i>(c) discharge is consistent with iwi management plan.</i> AND Include the following notification note: <i>Resource consent applications under this Rule will be notified to tangata whenua.</i>	<b>Decline</b> The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to discretionary and Non-complying activities. Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies. Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 31, 32, 33, 34, 35, 39, 40, 41, 42, 44, 45, 46, and 49 being given effect to. In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and/or any Mana Whakahono a Rohe agreements. In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.
<b>Rule 26 – Exploration or appraisal of well drilling in the Open Coast or Port</b>			
15 – Surfbreak Protection Society	857	<b>Other</b>  Submitter seeks that there be no impacts to surf breaks and that key surfing groups and representative groups be part of any limited notification for discharge or disturbance consent applications with the potential to impact on surf breaks or coastal water.	<b>No relief necessary</b>  Submitter's comments are noted and have been previously addressed in submission point 448 relating to surfing policies. Policy 19 would be considered as part of any resource consent application under this Rule.  Officers note that matters relating to affected and interested party status and limited notification are addressed separately in accordance with the Council's consenting standard operating procedures.
Further submissions – Petroleum Exploration and Production Association of New Zealand (37)		Oppose	
25 - New Zealand Petroleum and Minerals	858	<b>Support</b>  Retain Rule 26 of the Plan as notified.	<b>Accept</b>  Support noted. Rule 26 is retained subject to amendments made to offer relief to other submitters.
Further submissions – Trans-Tasman Resources (6), Port Taranaki Ltd (32), Petroleum Exploration and Production Association of New Zealand (37)		Support	
Further submissions – Climate Justice Taranaki Inc (21)		Oppose	
37 – Petroleum Exploration and Production Association of NZ	859	<b>Amend</b>  Submitter supports Rule 26 of the Plan but seeks amendment to the Activity Description (b) in Rule 26 to align with Rule 27 to read: <i>Exploration or appraisal well drilling by an offshore installation or drilling by a land based drilling rig, and placement of a well structure in, on, under or over the foreshore or seabed and any associated:</i> [...] <i>(b) <b>temporary exclusive</b> occupation of space in the common marine and coastal area [...]</i>	<b>Accept</b>  Officers recommend granting the relief sought by the submitter as it further clarifies for plan users the type of occupation of space that occurs under Rule 26 as an associated activity.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response

			<p>incidental deposition of drilling cuttings and fluids must be 2,000 m or more from the line of the mean high water springs or from any Outstanding Value coastal management area, 1,000 m or more from any sensitive marine benthic habitats, including reef systems, and 2,000m from any other drilling site where the activity will result in the deposition of drilling fluids and cuttings.</p> <p>Officers believe it is important to differentiate between hydrocarbon <u>exploration</u> activities and later <u>production</u> activities as they are totally different activities with totally different associated environmental effects, i.e. due to the increased scale of activities and therefore effects associated with the construction and operation of an offshore petroleum production installation.</p>
43 – Royal Forest and Bird Protection Society	867	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 26 of the Plan by adding a requirement to publicly notify under this rule.</p>	<p><b>Decline</b></p> <p>Officers do not consider it appropriate to include this level of operational detail in the Plan but note that in accordance with its standard operating procedures, activities that are identified as a Controlled Activity are generally not publicly notified.</p>
Further submissions – Petroleum Exploration and Production Association of New Zealand (37)		Oppose	
51 - Taranaki Energy Watch	868	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 26 of the Plan by amending the Activity Classification to make exploration or appraisal of well drilling so that it is a :</p> <ul style="list-style-type: none"> <li>• Discretionary Activity (rather than Controlled Activity)</li> <li>• Non-complying Activity in open coast, estuaries modified and port areas</li> <li>• Prohibited Activity in the coastal managements areas of outstanding value and estuaries unmodified</li> </ul>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter (although noting that some matters are already addressed in the Plan).</p> <p>Officers believe it is important to differentiate between hydrocarbon <u>exploration</u> activities and later <u>production</u> activities as they are totally different activities with totally different associated environmental effects, i.e. due to the increased scale of activities and therefore effects associated with the construction and operation of an offshore petroleum production installation.</p>
Further submissions – Petroleum Exploration and Production Association of New Zealand (37)		Oppose	<p>The effects associated with seabed exploration drilling will generally be less than minor, subject to compliance with standards, terms and conditions set out in Rule 26. Through the consenting process, relevant environmental effects will be appropriately managed and, in part reflecting a precautionary approach, specific conditions apply.</p> <p>Drilling activities in the Open Coast or Port that cannot comply with the standards, terms and conditions of Rule 26 are a Discretionary Activity (under Rule 27). It is also noted that drilling in Estuaries Modified is already addressed in the Plan as a Non-complying Activity (under Rule 28).</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Officers emphasize that Rule 26 already excludes drilling areas from the Outstanding Value, Estuary Unmodified and Estuary Modified coastal management areas. Non-complying Activities require a resource consent and Council cannot grant the consent unless the effects of the activity are minor and the activity is not contrary to the objectives and policies of the Plan. This already represents a high level of protection.</p>
51 - Taranaki Energy Watch	869	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 26 of the Plan to identify how many exploration wells can be drilled by a company as part of "exploration and appraisal well drilling". In cases where more than one exploration well is drilled indicate how this will affect the buffer zone area</p>	<p><b>Accept</b></p> <p>The submitter is concerned that multiple wells may be drilled as a controlled activity when advice to the Council from the Cawthron Institute regarding separation distances recommended larger distances than those identified in the Rule standards, terms and conditions.</p>
Further submissions – Petroleum Exploration and Production Association of New Zealand (37)		<p>Oppose</p>	<p>Officers recommend amendments to Rule 26 in response to the concerns of the submitter.</p> <p>Prior to the notification of the Proposed Plan, the Council sought advice from the Cawthron Institute on appropriate buffer distances for exploration and appraisal drilling activities. The advice received noted that effects on benthic communities are generally localised and associated with the deposition of drilling material at, or near the drilling site. A 1,000 m buffer distance was recommended by Cawthron for exploration drilling activities involving a single well, however, a greater distance (possibly greater than 6,000m) was advised for drilling campaigns where multiple wells were to be drilled.</p> <p>Officers consider the current buffer condition (a) to be appropriate for single well ('wild-cat') drilling operations but consider that the rule should offer direction for multiple wells. Officers note that the environmental effects of concern associated with multiple wells relates to the cumulative effects of drilling cuttings and fluids being discharged and deposited on the seabed. Officers consider that, under the Controlled Activity classification, drilling of this nature should not occur unless the drilling fluids and cuttings are removed during the drilling process prior to being discharged.</p> <p>In order to achieve this outcome, officers recommend amending condition (a) to read as follows:</p> <p><i><u>(a) the activity does not involve the discharge or deposition of drilling fluids or cuttings:</u></i></p> <p><i>(i) within 2,000 m of any <u>seabed location</u> where drilling has occurred in the previous five years; <u>or</u></i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p><u>(ii) from multiple wells originating from a single well head: [...]</u></p> <p>Officers consider that further direction with regards to the disposal of drilling fluids and cuttings is required and recommend a footnote to read as follows:</p> <p><u>Drilling cuttings and fluids must be removed for authorised disposal.</u></p>
53 - Taranaki Regional Council	870	<b>Amend</b>	<b>Accept</b>
		<p>Submitter seeks amendment to Activity Description (b) of Rule 26 of the Plan to read:</p> <p>(b) <u>temporary exclusive</u> occupation of space in the common marine and coastal area; [...]</p>	<p>Officers recommend granting the relief sought by the submitter to clarify that occupation of space, associated with the drilling activity, in the common marine and coastal area is not permanent.</p>
58 – Te Atiawa	871	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment to Rule 26 of the Plan to change the Activity Classification to Discretionary Activity (rather than Controlled Activity).</p>	<p>Officers note that the seabed drilling in the Open Coast and Port is a Permitted Activity under the current Plan but is proposed to be a Controlled Activity for which a resource consent is required. It is important to differentiate between hydrocarbon exploration activities and later production activities as they are totally different activities with totally different associated environmental effects, i.e. due to the increased scale of activities and therefore effects associated with the construction and operation of an offshore petroleum production installation.</p> <p>The drilling associated with seabed exploration is not considered to have more than minor adverse effects, subject to compliance with standards, terms and conditions set out in Rule 26. 			<p>precautionary approach, specific conditions apply whereby the activity must be 2,000 m or more from the line of the mean high water springs or from any Outstanding Value coastal management area, 1,000 m or more from any sensitive marine benthic habitats, including reef systems, and 2,000 m from any other drilling site.</p> <p>The development of the rules regime and proposed standards, terms and conditions were informed by the report <i>Offshore Petroleum Drilling Review</i> (August 2015). Some certainty for drilling activities is considered appropriate, which would not be the case if the activity was made a Discretionary Activity.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	876	<p><b>Amend</b></p> <p>Submitter seeks amendment to the standards, terms and conditions of Rule 26 of the Plan to read:</p> <p><i>(a) drilling is not undertaken within 2,000 m of any site where drilling has occurred in the previous five years; placement of structure and discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</i></p> <p><i>(b) drilling is not undertaken directly into or within 1000 m of any sensitive marine benthic habitat identified in Schedule 4B or reef system; discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan;</i></p> <p><i>(c) drilling is not undertaken within any site identified in Schedule 5 [Historic heritage]; discharge is consistent with iwi management plan.</i></p> <p><i>(d) drilling does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems];</i></p> <p><i>(e) drilling is undertaken at least 2,000 m from the line of mean high water springs or at least 1,000 m from the boundary of coastal management area — Outstanding Value;</i></p> <p><i>(f) only water based or synthetic based drilling fluids and muds are used; and</i></p> <p><i>(g) activity complies with the general standards in Section 8.6 of this Plan.</i></p>	<p><b>Decline</b></p> <p>The submitter has sought the inclusion of new and amended standards, terms, conditions for Rule 26.</p> <p>Officers decline the relief noting that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 28, 29, 30, 31, 32, 36, 37, 38, 39, 40, 41, 42, 44, 47 and 49 being given effect to. Of note the matters of control in the Rule make provision to address many of the matters sought by the submitter such as cultural heritage and monitoring.</p> <p>Officers are further opposed to deleting those conditions addressing the type of drill muds and fluids used, general height, lighting and noise standards, and effects on natural character, indigenous biodiversity, historic heritage (including sites of significance to Māori) and amenity values, including cumulative effects of multiple drilling sites in a single locality. The development of the rules regime and proposed standards, terms and conditions were informed by the report <i>Offshore Petroleum Drilling Review</i> (August 2015).</p> <p>Through the consenting process, relevant environmental effects associated with drilling will be appropriately managed by compliance with standards, terms and conditions set out in Rule 26. A number of conditions that the submitter seeks to have deleted reflect a precautionary approach. Granting the relief would derogate from that approach, particularly those conditions requiring the activity to be 2,000 m or more from the line of the mean high water springs or from any Outstanding Value coastal management area, 1,000 m or more from any sensitive marine benthic habitats, including reef systems, and 2,000 m from any other drilling site.</p>

<b>Rules 26, 27 and 28 – Exploration or appraisal of well drilling in the Open Coast or Port</b>			
21 – Climate Justice Taranaki	879	<p><b>Amend</b></p> <p>Submitter seeks that drilling of any petroleum exploration or appraisal well and associated activities in the coastal marine area be a Prohibited Activity</p> <p>OR</p> <p>If this is not acceptable to Council, seek that the drilling of any petroleum exploration or appraisal well and associated activities in the Open Coast and Port be a Discretionary Activity (rather than Controlled Activity) and that consent applications be Publicly Notified (whether the activity is deemed Discretionary or Controlled)</p> <p>OR</p> <p>If Rule 26 retains its Controlled Activity status, seek that the setback distance of 1,000m from sensitive marine benthic habitat (Schedule 4B), reef system or boundary of Outstanding Value coastal management areas be increased to at least 6,000 m.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Officers note that the seabed drilling in the Open Coast and Port is a Permitted Activity under the current Plan but is proposed to be a Controlled Activity for which a resource consent is required. It is important to differentiate between hydrocarbon <u>exploration</u> activities and later <u>production</u> activities as they are totally different activities with totally different associated environmental effects, i.e. due to the increased scale of activities and therefore effects associated with the construction and operation of an offshore petroleum production installation.</p> <p>The drilling associated with seabed exploration should not result in more than minor adverse effects, subject to compliance with standards, terms and conditions set out in Rule 26. It is therefore considered inappropriate to make this activity a Discretionary Activity yet alone a Prohibited Activity.</p> <p>The submitter states that if the Controlled Activity status is retained, then they seek extended set back distances (from 1,000 m to 6,000 m) to be made from sensitive marine benthic habitat, reef systems or the boundary of Outstanding Value coastal management areas. No information has been provided to demonstrate why the proposed buffer distances are more appropriate compared to those adopted in the Rule and which were based on Cawthron recommendations set out in their advice entitled <i>Petroleum Drilling Activities: Buffer Distances From Outstanding Areas and Substrate Types Requiring Protection</i>.</p>
Further submissions – Port Taranaki Ltd (32), Petroleum Exploration and Production Association of New Zealand (37)		Oppose	
<b>Rules 26 to 30 – Exploration or appraisal well drilling</b>			
	880	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
51 - Taranaki Energy Watch		Submitter supports the bundling of consents in Rules 26 to 30 of the Plan and that activities that include an onshore and offshore component should be bundled together, however, opposes the use of bundling to make all petroleum activities a Controlled Activity in the coastal marine area.	<p>Officers note submitters support in relation to bundling the onshore and offshore components of drilling.</p> <p>In relation to the submitter's opposition to bundling all petroleum activities a Controlled Activity in the coastal marine area, officers note that the rules differentiate between hydrocarbon <u>exploration</u> activities and later <u>production</u> activities. Accordingly not "all" petroleum related activities have been bundled in this Rule. Separate rules apply recognising the different phases of hydrocarbon exploration and production activities and associated environmental effects, i.e. due to the increased scale of activities and therefore effects associated with the construction and operation of an offshore petroleum production installation.</p> <p>In relation to drilling activities, the 'bundled' activities identified in the Activity Description are incidental activities that would typically occur in association with any drilling activity. Their effects are considered and addressed as part of the standards, terms and conditions set out in the Rule.</p>
Further submissions – Port Taranaki Ltd (32), Petroleum Exploration and Production Association of New Zealand (37)		Oppose	
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
51 - Taranaki Energy Watch	881	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rules 26-30 of the Plan by:</p> <ul style="list-style-type: none"> <li>• incorporating a precautionary approach in the rules</li> <li>• having regard to the <i>Marine Oil Spill Contingency Plan (MOSCP, 2012)</i>, in particular <i>Appendix 4. Sensitive Site Coastal Info</i> when considering the rules notification and activity status</li> <li>• applying an assessment criteria to discretionary oil and gas activities within the coastal marine area that includes consideration of low probability but significant adverse effects events and buffer zones as appropriate planning tools</li> <li>• add a requirement to publically notify under these rules.</li> </ul>	<p><b>Decline</b></p> <p>Officers suggest that Rules 26 to 30 of the Plan do incorporate a precautionary approach, whereby for drilling in the Open Coast or Port (for which the activity and adverse effects are relatively low, subject to compliance with standards, terms and conditions) conditions have been applied that includes buffer distances based on Cawthron advice requiring the activity to be 2,000 m or more from the line of the mean high water springs or from any Outstanding Value coastal management area, 1,000 m or more from any sensitive marine benthic habitats, including reef systems, and 2,000m from any other drilling site.</p> <p>Rules 27 to 30 relate to drilling activities not being able to comply with Rule 26 and/or later production activities (which involve an increased scale of activities and therefore effects associated with the construction and operation of an offshore petroleum production installation). These Rules require any drilling or later production activities to be considered as a Discretionary Activity or a Non-complying Activity depending upon coastal management area affected. Through the consenting process, relevant environmental effects will be appropriately considered and Policies 1 to 21, 22, 28, 29, 30, 31, 32, 36, 37, 38, 39, 40, 41, 42, 44, 47 and 49, including Policy 3 relating to the adoption of a precautionary approach.</p>

<p>Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)</p>		<p>Support</p>	<p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 28, 29, 30, 31, 32, 36, 37, 38, 39, 40, 41, 42, 44, 47 and 49 being given effect to.</p> <p>In relation to notification requirements proposed by the submitter, Officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and or Mana Whakahono a Rohe agreements.</p> <p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.
<b>Rules 29 and 30 – Petroleum production installation erection or placement</b>			
21 – Climate Justice Taranaki	902	<b>Amend</b>  Submitter opposes the drilling of new production wells but would support provisions for the maintenance and occupation of space by existing wells and associated infrastructure. If any new production wells are to be drilled, then prudent buffer distances should apply.  Submitter supports provisions for the maintenance and occupation of space by existing wells and associated infrastructure but seek that the setback distance from sensitive marine benthic habitat (Schedule 4B), reef system or boundary of coastal marine area Outstanding Value be at least 6,000 m.	<b>No relief necessary</b>  Officers believe the issues raised by the submitter are already addressed in Rules 29 and 30.  Pursuant to Rules 29 and 30 any new production well would require a resource consent as a Discretionary Activity or a Non-complying Activity, depending upon which coastal management area the activity will occur in. Through those rules a resource consent must be obtained, which would involve the consideration of appropriate buffer distances.  Officers note that the rules differentiate between hydrocarbon exploration activities and later production activities. Due to the increased scale of effects associated with the construction and operation of an offshore petroleum production installation it maybe that a buffer distance of 6,000 m from the line of the mean high water springs is appropriate. However, officers still believe it is appropriate that locational and other considerations be addressed on a case-by-case basis (noting that Council may decide not to grant a consent if not satisfied that adverse effects can be appropriately avoided, remedied or mitigated) as part of a consenting process.

	913	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
41 – Te Korowai o Ngāruahine Trust		Submitter seeks amendment to Condition (j) of Rule 31 of the Plan to read: <i>(b) activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A and B Historic heritage; [...]</i>	Officers recommend granting the relief sought by the submitter.
Further submissions – New Zealand Defence Force (33)		Support	
42 – Ngati Rahiri Hapū	914	<b>Amend</b> Submitter seeks amendment to Rule 31 of the Plan to make temporary military training a Controlled Activity (rather than a Permitted Activity) AND that there be iwi/hapū consultation in all cases.	<b>Decline</b> Officers recommend declining the relief sought. Officers consider the relief sought to be unnecessary and excessive. Officers note temporary military training exercises are already a Permitted Activity in the current Plan for which there have been no issues identified to date. Notwithstanding the above, officers note that temporary training activities not able to comply with the standards, terms and conditions of Rule 31 are a Controlled Activity under Rule 32 or a Discretionary or Non-complying Activity under Rules 33 and 34, depending on the coastal management area involved. Officers further note Guidance note (1) of that rule that states that iwi authorities that have requested to be informed of this activity will be advised by Council.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
Further submissions – New Zealand Defence Force (33)		Oppose	
43 – Royal Forest and Bird Protection Society	915	<b>Amend</b> Submitter seeks amendment to Rule 31 of the Plan by deleting the Estuaries Unmodified and Estuaries Modified coastal management areas from the rule.	Officers do not recommend granting the relief sought by the submitter noting that temporary military training exercises are already a Permitted Activity for these areas in the current Plan for which there have been no issues identified to date. Officer agree with the submitter in terms of the importance of estuaries to indigenous species but believe the issue has been adequately addressed in the Plan. Conditions (c) and (k) are particularly relevant. Condition (k) means the activity is subject to the activity being of a scale/type/time/location that it does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity]. Many training activities are of a type or carried out at a time that impacts on indigenous biodiversity should not be an issue. However, through Condition
Further submissions – Climate Justice Taranaki Inc (21)		Support in part	
Further submissions – New Zealand Defence Force (33)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>(c), which requires that the Council be notified at least five working days prior to the activity being undertaken, Council will have the opportunity to consider the proposed activity and confirm that that is the case (noting that Council's GIS and other information systems are a significant repository of biodiversity information).</p> <p>If, in the Council's view the activity is of a type or being carried out at a time that there are likely to be adverse impacts on indigenous biodiversity, a resource consent would be required under Rules 32, 33 or 34.</p>
43 – Royal Forest and Bird Protection Society	916	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 31 of the Plan by adding a standard, term and condition that noise and vibration must only be from normal operation of marine vessels and does not include any seismic testing, explosions, artillery or sonar.</p>	<p><b>No relief necessary</b></p> <p>Officers do not believe the amendments sought by the submitter are necessary noting that temporary military training exercises can take a number of forms, only some of which might involve noise and explosions. The effect of those activities are likely to differ depending upon where and when it is carried out. To preclude certain type of activities regardless of the likely adverse effect is not considered appropriate and would be unnecessarily restrictive.</p>
Further submissions – Climate Justice Taranaki Inc (21)		Support in part	
Further submissions – New Zealand Defence Force (33)		Oppose	<p>Officers note that temporary military training exercises are already a Permitted Activity for these areas in the current Plan for which there have been no issues identified to date. Notwithstanding that officers note that the Rule includes a number of new conditions. Conditions (c) and (k) are particularly relevant.</p> <p>Condition (k) means the activity is subject to the activity being of a scale/type/time/location that it does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity].</p> <p>Many training activities are of a type or carried out at a time that impacts on indigenous biodiversity should not be an issue. Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	917	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 31 by adding new standard, term and condition that the activities must not have lighting at night.	Officers recommend declining the relief sought noting that Rule 31 needs to be read in conjunction with the General Standards set out in Section 8.6 of the Plan which addresses lighting matters.
Further submissions – Climate Justice Taranaki Inc (21)		Support in part	
57 – Heritage New Zealand	918	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to the conditions of Rule 31(j) to read: <i>(j) activity does not have an adverse effect on the value associated with historic heritage identified in Schedule 5 [Historic Heritage]; and <u>structures and activities are not to be placed at any site identified in Schedule 5; and [...]</u></i>	Officers recommend declining the relief sought by the submitter. Officers note the broad RMA definition of historic heritage, which includes sites and places of significance to Maori. Through this Plan review process most estuaries and reefs have been identified by iwi as significant historic heritage. Accordingly, the relief sought would unnecessarily preclude temporary military training exercises over large parts of the Taranaki coastline regardless of whether the activity is of a type/scale/time/location that it would have an impact on those values. Officers note that temporary military training exercises are already a Permitted Activity for these areas in the current Plan for which there have been no issues identified to date. Notwithstanding that, officers note that the Rule includes a number of new conditions. Conditions (c) and (j) are particularly relevant. Condition (j) means the activity is subject to the activity being of a scale/type/time/location that it does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A and B (41) [Historic heritage]. Many training activities are of a type or carried out at a time that impacts on historic heritage values, e.g. mahinga kai, should not be an issue. However, through Condition (c), which requires that the Council be notified at least five working days prior to the activity being undertaken, Council will have the opportunity to consider the proposed activity and confirm that that is the case. If, in the Council's view the activity is of a type or being carried out at a time that there are likely to be adverse impacts on historic heritage, a resource consent would be required under Rules 32, 33 or 34.

	925	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		Submitter seeks amendment to Rule 32 of the Plan to make temporary military training under this rule a Restricted Discretionary Activity (rather than a Controlled Activity).	Officers consider the relief sought to be unnecessary and excessive. Officers note that granting the relief sought would impose unnecessary constraints and costs on the New Zealand Defence Force from carrying out temporary military training exercises. This is despite there being an equivalent Controlled Activity rule in the current Plan and for which there have been no issues to date.

61 – Te Rūnanga o Ngāti Ruanui Trust	926	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 32 of the Plan to include new or amended standards, terms and conditions to read:</p> <p><i>(b) activity does not have an adverse effect on the values associated with <u>cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage];</u></i></p> <p><i><u>(c) the discharge does not have adverse effect on Schedules 1 and 2;</u></i></p> <p><i><u>(d) the discharge does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</u></i></p> <p><i><u>(e) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems]; and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat]</u></i></p> <p><i><u>(f) the discharge does not adversely affect the suitability of the receiving area for customary use</u></i></p> <p><i><u>(g) discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></i></p> <p><i><u>(h) discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i></p> <p><i><u>(i) discharge is consistent with iwi management plan.</u></i></p>	<p><b>Accept in part</b></p> <p>The submitter seeks to introduce a number of new and amended standards, terms and conditions to the Rule. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>decline the relief sought in relation to Condition (b). Officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>relief sought in relation to Condition (c) is unnecessary and uncertain for Plan users. The Rule is only allowing incidental discharges of sediment that might arise from the training exercises. Other discharges are addressed by other rules. Officers further note that the effect of granting this relief would be to make this rule redundant as it requires no adverse effects (including less than minor) across the whole coastal marine area, noting that Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape</li> <li>reliefs sought in relation to Condition (d) and (f) are unnecessary. Such matters are largely already addressed in Condition (b) of the Rule, which protects customary sites of significance. However, it is noted that any impacts on receiving water quality will be temporary and unlikely to be noticeable in natural prevailing conditions</li> </ul>

		Retain Rule 33 of the Plan as notified.	Support noted.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
26 – Transpower NZ Ltd	930	<b>Amend</b>	<b>Accept</b>
		Submitter supports Rule 33 but seek amendment to delete reference to <i>National Environmental Standards for Electricity Transmission Activities</i> : <del>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6))</del> .	The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
32 – Port Taranaki	931	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 33 of the Plan to provide for hard protection structures within the Port coastal management area not provided for in rules 18-32 to be a Controlled Activity.	Officers recommend declining the relief sought by the submitter. Officers note that this Rule is an existing rule in the current Plan that provides a consenting pathway to authorise activities not otherwise provided for in the preceding rules. Given it is too difficult to envisage or foresee every form or type of activity that might take place in the coastal marine area, a catch-all rule is considered appropriate. Officers do not consider it appropriate in such circumstances to differentiate between the Port and other activities given that, in accordance with the <i>New Zealand Coastal Policy Statement</i> and the policies of this Plan (particularly Policy 34), there is an expectation that hard protection structures will be discouraged and the use of alternatives promoted. This expectation is unlikely to be realised as a Controlled Activity.
32 – Port Taranaki	932	<b>Amend</b>	<b>No relief necessary</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		Submitter seeks amendment to Rule 33 of the Plan to provide an exception for Port Taranaki Ltd within the Port coastal management area for flood protection structures (similar or same definition as in the draft New Plymouth District Plan) to be Permitted Activities.	Officers do not believe any relief is necessary. Officers are unclear what flood protection structure exist within the Port Taranaki coastal management area noting that the rules are confined to the coastal marine area.
43 – Royal Forest and Bird Protection Society	933	<b>Amend</b> Submitter seeks amendment to Rule 33 of the Plan to exclude Estuaries Modified coastal management areas from the Discretionary Activity rule.	<b>Decline</b> Officers recommend declining the relief sought by the submitter and that Rule 33 continues to apply to Estuaries Modified coastal management areas.
Further submissions – Climate Justice Taranaki Inc (21)		Support	Officers note there are significant urban areas that would be affected by the relief sought by the submitter such as New Plymouth, Waitara, Oakura, Urenui and Patea. The proposed rules regime recognises that these estuaries have already been modified and already include structures within the coastal marine area that contribute to social, cultural, economic and environmental wellbeing of local communities. However, through the resource consents process the appropriateness of further use and development can be considered having regard to General Policies 1 to 21 and Activity Specific Policies 31, 32, 33, 34, 35, 39 and 49.
45 – Powerco	934	<b>Support</b> Retain Rule 33 of the Plan as notified.	<b>Accept</b> Support noted. Rule 33 is retained subject to minor amendments sought by other submitters to better capture relevant activities.

<b>Rule 35 – Maintenance repair of existing lawfully established structures</b>			
21 – Climate Justice Taranaki	947	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 35 [Existing lawfully established structure maintenance and repair] of the Plan to make the activity Discretionary (rather than a Permitted Activity).</p>	<p><b>Decline</b></p> <p>Officers do not believe it appropriate to require this activity to be a Discretionary Activity.</p> <p>Officers note that Rule 35 is providing for the ongoing maintenance, repair or minor alterations to already existing lawfully established structures in the coastal marine area. Subject to compliance with the standards, terms and conditions of the Rule, any adverse effects should be less than minor.</p> <p>The erection and placement of new structures are addressed in separate rules. Officers note that granting the relief would have the perverse outcome of making the authorisation for the maintenance of a structure more restrictive than its original placement. Maintenance of structures is important for ensuring the structure continues to be in sound condition. Structures that are</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			not adequately maintained may become unsafe, hazardous or create additional environmental concerns.
26 – Transpower NZ Ltd	948	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 35 of the Plan to delete reference to National Environmental Standards for Electricity Transmission Activities: [...] <del>or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2000 (Appendix 6)).</del>	The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
29 – Department of Conservation	949	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 35 of the Plan to include new conditions addressing: <ul style="list-style-type: none"> <li>• how the use of vehicles and machinery in the coastal environment will be avoided where possible, and minimised/effects mitigated where necessary (including taking the shortest and least sensitive route)</li> <li>• the requirement for construction equipment including spoil, litter or equipment to be removed within 24 hours of completion of any works</li> <li>• the prohibition of any refuelling or fuel storage occur within the coastal environment and that methods should be employed to avoid any fuel spillage.</li> </ul>	Officers recommend declining the relief sought by the submitter. Similar type conditions have been considered as part of the Plan review process and were not deemed to be necessary. Most of the proposed conditions seem to relate to avoiding, remedying or mitigating adverse effects already addressed by the standard, terms and conditions, particularly Conditions (d) and (e). For example refuelling or fuel storage is not allowed , under Condition (d)(i), to result in any conspicuous oil or grease films. Similarly, Condition (e) addresses disturbances to the foreshore and seabed which could be caused by vehicles. In relation to other matters raised by the submitter, officers are concerned that the specificity sought is unnecessarily restrictive and imposes operational constraints on those using it. For example, the requirement to remove spoil within 24 hours.

32 – Port Taranaki	950	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Rule 35 of the Plan to include the Port coastal management area to this rule.	Of note, the Plan includes a suite of Rules specific to Port structures (Rules 39, 40 and 41) which includes Permitted Activity Rule 39 [Port wharves or breakwaters and attached structures, maintenance, repair or alteration]. In pre-hearing engagement, the submitter commented that it is not always evident which Rule applies to specific conditions and that a simpler cascade would assist Plan users and ensure that activities are managed consistently. Officers note that the standards, terms and conditions for Rule 39 is less directive than Rule 35. Rule 39 is also limited in its scope and only allows maintenance, repairs and alterations to the port wharves or breakwaters. Of

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>note there are other structures in the Port coastal management area which may require maintenance and alteration. Officers consider that this distinction between different Port structures in the notified Plan was not necessary and that maintenance, alteration and extension of Port structures generally should be provided for as long as the appropriate standards, terms and conditions are met.</p> <p>Officers recommend granting an alternative relief to that sought by the submitter. Officers recommend including the Port within Rule 35 but also deleting Rule 39 to avoid unnecessary duplication between rules and confusion as to which rule applies to structures within the Port.</p> <p>Officers recommend further consequential changes elsewhere in the Plan to simplify the Rules cascade for Port structures. These changes involve combining Rules 40 and 41 (and then deleting the now redundant Rule 41) to provide a similar drafting approach to Rule 35.</p>
32 – Port Taranaki	951	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 35 of the Plan to clarify the rule to enable clear determination of minor alteration as a Permitted Activity. The submitter seeks that any consequential amendments required to the rules to give effect to this submission point are also recommended by officers.</p>	<p><b>Accept</b></p> <p>The submitter has concerns whether this rule would allow Port Taranaki Ltd to replace displaced akmons on the breakwaters and other areas within the Port. In pre-hearing engagement the submitter explained that akmons are often moved about during storms and that periodic maintenance of the breakwaters and other areas of the Port is required to ensure that Port infrastructure is safeguarded. The submitter is concerned that Rule 35 as drafted would not allow this activity, despite the inclusion of the Port within the coastal management areas because of the potential for the replaced akmons to be slightly outside the original external dimensions of the structure.</p> <p>In response to the concerns of the submitter (and others) in pre-hearing engagement in relation to the application of the suite of maintenance, alteration and extension rules, officers recommend realigning the rules to more clearly identify the activities encompassed within each rule. Of note, officers have recommended changes to the definition of 'maintenance', 'alteration' and 'extension', as well as redrafting of the rules.</p> <p>Officers consider the activity described by the submitter, and other similar activities, to be appropriate for a Permitted Activity, provided there are size thresholds is to ensure that incremental creep does not occur over time through 'maintenance', 'repairs' and 'minor alterations'.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Officers recommend the inclusion of 'minor extension within the activity description but the inclusion of an amended Condition (a) which limits any extension to 5% of the original structure size and only for maintenance or alteration activities.</p> <p>The amended Condition would read as follows:</p> <p><i>(a) Minor extensions are incidental to maintenance or alteration activities and the structure envelope, including length, width and height, does not increase beyond 5% of the original size;</i></p>
41 – Te Korowai o Ngāruahine Trust	952	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 35 of the Plan to require notification to iwi of any maintenance, repair or minor alteration work of lawfully established structures in the coastal marine area.</p>	<p><b>Grant in kind</b></p> <p>Officers note that standard, term and condition (h) requires those undertaking the activity to notify the Council at least 5 working days prior to the commencement of the activity. The Council has worked with iwi regarding permitted activities that require notification to establish a notification system that includes iwi authorities.</p> <p>Officers recommend Rule 35 clarify this in an activity note to read as follows:</p> <p><i>Note (2): Iwi authorities that have requested to be informed of this activity will be advised by the Council.</i></p>
Further submissions – Transpower NZ Ltd (26)		Oppose	
43 – Royal Forest and Bird Protection Society	953	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Activity Description of Rule 35 of the Plan to read:</p> <p><i>Structure maintenance, <del>repair</del> or minor alteration [...]</i></p>	<p><b>Accept</b></p> <p>The submitter is generally supportive of the provision allowing structures to be maintained so that they can be retained in good conditions and not cause adverse environmental effects, however, the submitter is confused by the exclusion of “repair” from the definition of maintenance which is commonly considered a component of maintenance. The submitter seeks amendments to the definitions of maintenance (submission point 1213) and minor alteration (submission point 1223) to address these concerns and that the Activity Description of Rule 35 be amended as requested.</p> <p>Officers note that a number of submitters have raised questions around the interpretation/application of the rules relating to maintenance, alterations, extensions. In response officers recommend consequential amendments to better clarify what is meant by maintenance, alteration and extension and differentiate between related activities. Officers recommend consequential amendments to relevant definitions and Rules 35 to 43.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Officers also recommend granting the relief sought by the submitter and note that repairs may be an aspect of maintenance activities or alteration and have recommended additional amendments to the definitions to ensure that this is understood.</p>
45 – Powerco	954	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 35(a) of the Plan to read:</p> <p>[...]</p> <p><i>(a) size of the structure, including length, width and height, does not increase beyond original size (except for existing communications cables or electricity transmission <u>or distribution</u> lines where <del>these activities do not result in an increase in the design voltage and</del> the new or altered cables or lines are not lower in height above the foreshore or seabed)</i></p> <p>OR</p> <p><i>(a) size of the structure, including length, width and height, does not increase beyond original size (except for existing communications cables or electricity transmission <u>or distribution</u> lines where these activities do not result in an increase in the design voltage <u>above 33kV</u> and the new or altered cables or lines are not lower in height above the foreshore or seabed)</i></p>	<p><b>Grant in kind</b></p> <p>Officers recommend granting the relief sought by the submitter, however, recommend an alternative relief that takes into account other amendments sought by other submitters to Condition (a). The recommended alternative amendment splits the existing condition into two separate conditions to improve readability and reads as follows:</p> <p><i>(aa) for existing communication cables, electricity transmission <u>or distribution</u> lines the activity <u>does not cause</u> an increase in the design voltage <u>above 33kV</u> and the new or altered cables or lines are not lowered in height above the foreshore or seabed;</i></p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	955	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 35 of the Plan to:</p> <ul style="list-style-type: none"> <li>• delete reference in the Activity Description to “minor”</li> <li>• include the Port coastal management area to this rule.</li> </ul>	<p><b>Accept in part</b></p> <p>Officers recommend accepting in part the relief sought by the submitter. Officers consider that the reference to “minor” is necessary as it reflects the recommended wording in Policy 36 [Maintenance, minor alteration or minor extension of existing structures]. There is a distinction between those alteration and extension activities that are minor (and can therefore comply with the standards terms and conditions listed in Rule 35) and those which are considered more significant and will require a resource consent.</p> <p>Officers note that consequential amendments are also recommended to the Plan definitions including amending the existing definition for “maintenance” and introducing new definitions for “alteration” and “extension”.</p> <p>Officers recommend granting the relief sought by the submitter to include the Port within Rule 35, however, recommend deleting Rule 39 as a consequential amendment to ensure that there is no confusion around which rule applies to structures within the Port. Further to simplifying the Rules</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			cascade for Port structures and ensuring consistency within the Plan with regards to the inclusion of the Port within Rule 35, officers recommend that Rule 41 is also deleted that that the provisions that are covered by Rule 41 are incorporated into Rule 40. This will provide a similar drafting approach to Rule 35 and ensures a simpler pathway for Port structures that do not comply with the standards, terms and conditions of Rule 35 as a Permitted Activity.
47 – Fonterra	956	<b>Support</b>	<b>Accept</b>
		Retain Rule 35 of the Plan as notified.	Support noted. Officers note that amendments are recommended for Rule 35 which includes the inclusion of the Port coastal management area, and further clarification of the standards, terms and conditions.
59 – KiwiRail	957	<b>Support</b>	<b>Accept</b>
		Retain Rule 35 of the Plan as notified.	Support noted. Officers note that amendments are recommended for Rule 35 which includes the inclusion of the Port coastal management area, and further clarification of the standards, terms and conditions.
61 – Te Rūnanga o Ngāti Ruanui Trust	958	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to the standards, terms and conditions of Rule 35 of the Plan to read:</p> <p>[...]</p> <p><i>(ca) the activity does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</i></p> <p><i>(cb) the activity does not have adverse effect on Schedules 1 and 2</i></p> <p><i>(c) for structures and culturally significant areas identified in Schedule 5 [Cultural and Historic heritage];</i></p> <p>[...]</p> <p><i>(e) the extent of disturbance of the foreshore and seabed is limited to the minimum required to undertake the activity; and does not adversely affect continued customary use within the area;</i></p> <p>[...]</p> <p><i>(g) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems]; and taonga</i></p>	<p>Officers note that Rule 35 is providing for the ongoing maintenance, minor alteration or minor extension of already existing lawfully established structures in the coastal marine area. Subject to compliance with the standards, terms and conditions of the Rule, any adverse effects should be less than minor.</p> <p>The erection and placement of new structures are addressed in separate rules. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>relief sought in relation to Condition (ca) is unnecessary and uncertain for Plan users. The Rule is only providing for maintenance, repair or minor alterations to structures already existing in the coastal marine area. Officers note that impacts on cultural sites of significance are already addressed in Condition (c). The effect of granting this relief regarding Appendix 2 would be to make this rule redundant as it requires no adverse effects (including less than minor) across the entire coastal marine area.</li> <li>Officers recommend to decline the relief sought in relation to Condition (cb). Officers note that the effect of granting this relief would also make this rule redundant as it again requires no</li> </ul>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u><a href="#">species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat] [...]</a></u></p>	<p>adverse effects (including less than minor) across the whole coastal marine area, noting that Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape</p> <ul style="list-style-type: none"> <li>decline the relief sought in relation to Condition (c). Officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>reliefs sought in relation to Condition (e) are unnecessary. Such matters should already be addressed in Condition (c) of the Rule, which protects customary sites of significance. However, it is noted that any impacts on receiving water quality will be temporary and unlikely to be noticeable in natural prevailing conditions</li> <li>grant the relief in kind in relation to Condition (g). Officers recommend expanding the scope of Rule conditions to include reference to scheduled taonga species.</li> </ul>
<b>Rule 36 – Hard protection structure repair, alteration, extension or removal and replacement</b>			
29 – Department of Conservation	959	<p><b>Support</b></p> <p>Retain Rule 36 of the Plan as notified.</p>	<p><b>Decline</b></p> <p>Support noted, officers recommend deleting Rule 36 in order to improve the structure, maintenance, alteration and extension rules pathway. See submission point below for further clarification.</p>
Further submissions – Fonterra (47)		Support	
32 – Port Taranaki	960	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 36 of the Plan to provide for repair, alteration, extension or removal and replacement of existing lawfully established hard protection structures within the Port coastal management area as a Controlled Activity (rather than a Discretionary Activity) and provide a non-notification clause. The submitter seeks that any consequential amendments required to the rules to give effect to this submission point are also recommended by officers.</p>	<p><b>Grant in kind</b></p> <p>Officers note that there are three aspects to this submission point which will be addressed separately, (1) maintenance, alteration and extension of hard protection structures, (2) removal and replacement of hard protection structures and (3) notification.</p> <p>(1) In pre-hearing engagement, the submitter noted that the Port is an area that requires hard protection structures to ensure the safety of Port infrastructure as well as the ongoing operation of the Port which is considered regionally important and has a functional need to locate within the coastal marine area. Thus hard protection structures are expected to locate in this</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>area and their maintenance and 'future proofing' should be appropriately provided for within the Plan.</p> <p>The submitter noted that hard protection structures are not always isolated structures and are generally integrated into other Port structures. The current regime would potentially require two consents to be sought (potentially with different activity classifications) for one activity: one to address the hard protection aspect of the structure and another to address the structure itself.</p> <p>The submitter further noted that the Rules relating to maintenance, alteration, extension and removal and replacement of structures are confusing and unclear as to exactly which rule would apply for some activities.</p> <p>Officers note that the <i>New Zealand Coastal Policy Statement</i> discourages the use of hard protection structures and encourages the use of alternatives, however, it is officers view that discouragement should only apply to the initial placement or erection of the structure and does not stretch to the maintenance and alteration of legally established hard protection structures.</p> <p>Providing an appropriate pathway for the maintenance and upgrading to ensure the 'future proofing' of hard protection structures is necessary for good environmental outcomes and personnel safety. Further to this, officers note that maintenance and minor alteration of hard protection structures has already been provided for generally under Rule 35 as a permitted activity (hard protection structures are not excluded from the rule).</p> <p>For this reason, officers recommend an alternative relief that addresses the submitters concerns to delete Rule 36 so that it is clear that maintenance, alteration or extension of hard protection structures are initially addressed under Rule 35 (for all structure types and coastal management areas as a permitted activity). If the activity cannot comply with Rule 35 then a higher regulatory process and consent will be required under Rules 37 and 37A (for network utility structures); and Rules 40 and 40A (for all Port structures). Other hard protection structure maintenance, alteration and extension that does not comply with rule 35 is addressed under Rules 42 (discretionary) and 43 (Non-complying) depending on the coastal management area involved.</p> <p>(2) In relation to the removal and replacement aspect of the submitters concerns, officers note that there are potentially two pathways within the Plan for this activity, Through Rule 38 [Structure removal and replacement] or through Rules 44, 45 and 46 [Structure removal and demolition] and then the appropriate structure erection or placement rule (Rules 18 to 25).</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>It is vital that the Plan provide a single clear pathway for Plan users. For this reason officers recommend deleting Rule 38 so that a plan user will have to consult the appropriate removal rule as well as the appropriate placement or erection rule. This will ensure an appropriate level of regulatory control depending on the activity. Permitted, controlled and discretionary pathways are all possible depending on the activity specifics.</p> <p>(3) Regarding the non-notification clause, officers consider that this level of detail is not necessary to be included within a Plan and is more appropriately set out within the RMA sections 95A to 95G. In order to ensure alignment with the RMA, officers recommend an alternative relief that deletes reference to notification in the Plan rules.</p>
43 – Royal Forest and Bird Protection Society	961	<p><b>Amend</b></p> <p>Submitter seeks amendment to Activity Description of Rule 36 of the Plan to read:  <i>Existing lawfully established hard protection structure <u>maintenance repair</u>, <u>minor alteration</u>, <del>extension</del> or removal and replacement [...]</i></p>	<p><b>Decline</b></p> <p>The submitter supports the intention to provide for structures to be retained in good repair, however, considers that the definitions for the activity described are uncertain. The submitter requests that the definitions for 'maitnenance' and 'minor alteration' to be amended as identified in submission points 1213 and 1223.</p> <p>Officers recommend declining the relief sought by the submitter and instead recommend deleting Rule 36. Officers recommend that existing lawfully established hard protection structures be addressed in the same manner as other lawfully established structures and that the inclusion of a specific rule for hard protection structures is confusing and unnecessary.</p>
59 – KiwiRail	962	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 36 of the Plan to provide for repair of hard protection structures as a Permitted Activity (rather than a Discretionary Activity)  OR  Amend Rule 35 to allow hard protection structures to be maintained, repaired or have minor alterations.</p>	<p><b>No relief necessary</b></p> <p>Officers note that Rule 35 already provides for the maintenance of hard protection and other structures as a Permitted Activity, subject to compliance with the standards, terms and conditions.</p> <p>Officers recommend that Rules relating to maintenance, alterations, extensions and removal be reframed to more clearly differentiate between the respective activities based upon changes in their external dimensions and environmental effects.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		<p><b>Oppose</b></p>	<p>In addition to other consequential amendments to definitions, officers recommend that Rule 36 is deleted and that the rules relating to maintenance, alteration and extension of structures need not differentiate hard protection structures as separate from other types of structures. Instead, a simplified</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			cascade is recommended which begins as Permitted (Rule 35) and then identifies network utility structures (37 and 37A) and port structures (40 and 40A) separately though . The 'catch-all' provisions (Rules 42 and 43) will address any activities not covered by this framework.
61 – Te Rūnanga o Ngāti Ruanui Trust	963	<p><b>Amend</b></p> <p>Submitter seeks amendment to the standards, terms and conditions of Rule 36 of the Plan to read:</p> <p><i><u>(a) repair, alteration, extension or removal of structure and discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment</u></i></p> <p><i><u>(b) repair, alteration, extension or removal of structure and discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i></p> <p><i><u>(c) repair, alteration, extension or removal of structure and discharge is consistent with iwi management plan.</u></i></p> <p>AND</p> <p>Include the following notification note:</p> <p><i><u>Resource consent applications under this Rule will be notified to tangata whenua.</u></i></p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter and instead recommend deleting Rule 36. Officers recommend that existing lawfully established hard protection structures be addressed in the same manner as other lawfully established structures and that the inclusion of a specific rule for hard protection structures is confusing and unnecessary.</p>
<b>Rule 37 – Network utility structure, repair, alteration or extension</b>			
15 – Surfbreak Protection Society	964	<p><b>Other</b></p> <p>Submitter seeks that there be no impacts to surf breaks and that key surfing groups and representative groups be part of any limited notification for discharge or disturbance consent applications with the potential to impact on surf breaks or coastal water.</p>	<p><b>No relief necessary</b></p> <p>Submitter's comments are noted and have been previously addressed in submission point 446 relating to surfing policies. Policy 19 would be considered as part of any resource consent application under this Rule.</p> <p>Officers note that matters relating to affected and interested party status and limited notification are addressed separately in accordance with the Council's consenting standard operating procedures which are in accordance with the requirements for notification under sections 95A to 95G of the RMA.</p>
26 – Transpower NZ Ltd	965	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 37 of the Plan to delete reference to National Environmental Standards for Electricity Transmission Activities:</p> <p><i><u>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6)).</u></i></p>	<p><b>Accept</b></p> <p>The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
29 – Department of Conservation	966	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 37 of the Plan to include a provision about limiting the size of any extension of the structure.	Officers recommend accepting the amendments requested relating to an extension limit. Officers have considered other similar conditions in other regional coastal Plans and consider a 10% extension limit to be appropriate provided other environmental concerns are addressed. The new standard, term and condition reads as follows:  <i>(aa) the structure envelope, including length, width and height does not increase beyond 10% of the original size within a 24 month period; [...]</i>
Further submissions – Climate Justice Taranaki Inc (21), Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	
Further submissions – Powerco (45). Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose	Officers also recommend that, for the purposes of consistency, a similar condition be included in Rule 40 (Controlled).
30 – First Gas Ltd	967	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Rule 37 of the Plan to make network utility pipeline repair, alteration or extension a Permitted Activity (rather than a Non-complying Activity)  AND  Extend the Rule to include Outstanding Value coastal management areas.	In response to submitters, the rules relating to maintenance, alteration and extension of structures have been reframed to more clearly delineate between the respective activities.  Officers recommend granting the relief in kind by including a new Restricted Discretionary Rule addressing network utilities, including those in Outstanding Value areas, not covered by Rule 35 and 37.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	Officers note that most maintenance and minor alteration activities associated with network utilities can be addressed as a Permitted Activity under Rule 35. Other alteration and extension activities associated with network utilities can be addressed under Rule 37.
Further submissions – Powerco (45). Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Support in part	Officers note that, for those activities not covered by Rule 35 and 37, would be addressed under a new rule, Rule 37A, whereby alteration and extension of network utilities can be addressed as a Restricted Discretionary Activity. This is part of a framework that better recognises and provides for regionally important network utilities.
41 – Te Korowai o Ngāruahine Trust	968	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Condition (c) of Rule 37 of the Plan to read:  [...]  <i>(c) the activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A and B [Historic heritage]; [...]</i>	Officers recommend granting the relief sought by the submitter in kind. The wording as requested by the submitter would have the perverse outcome of allowing an adverse effect on values associated with one of the Schedules

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	<p>and would only trigger non-compliance when values from both Scheduled A <u>AND</u> B occurred.</p> <p>The amended Condition (c) would read as follows:</p> <p>[...]</p> <p>(c) the activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A <u>or</u> B [Historic heritage]; [...]</p>
43 – Royal Forest and Bird Protection Society	969	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Activity Description of Rule 37 of the Plan to read:</p> <p><i>Lawfully established hard protection structure <del>maintenance repair, minor alteration, extension</del> or removal and replacement [...]</i></p>	<p><b>Accept in part</b></p> <p>Officers recommend granting in part the relief sought by the submitter.</p> <p>Officers recommend that rules relating to maintenance, alterations, extensions and removal be reframed to more clearly differentiate between the respective activities based upon changes in their external dimensions. Consequential changes are proposed to Rule 37 to limit the rule to alteration and extension of network utility structures in the coastal marine area. As part of that recommendation, all references to repair have been deleted. Officers recognise that both the maintenance and alteration of structures in the coastal marine area may involve repairs.</p> <p>In relation to deleting 'extension' from the activity description, officers recommend declining the request and note that greater constraints are recommended with the inclusion of a new standard, term and condition (aa). The 10% limit is similar to other limits set on other regional coastal Plans around the country.</p>

Further submissions – Powerco (45)		Support in part	
21 – Climate Justice Taranaki	979	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 38 of the Plan to make the activity a Discretionary Activity (rather than Permitted Activity).</p>	<p><b>Grant in kind</b></p> <p>Officers recommend an alternative relief that will address the concerns of the submitter. Officers note that Rule 38 is uncertain as there are multiple rules which may apply for the same activity.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>Officers recommend deleting Rule 38 offers a more certain pathway for Plan users and also offers a more appropriate suite of rules to better take into account the differing level of environmental effects that removing and replacing an activity might have. This would mean that the removal of a structure is addressed as a permitted, controlled or discretionary activity under Rules 44, 45 and 46. The 'replacement' of the structure would similarly be addressed as a permitted, controlled, discretionary or non-complying activity under Rules 18 to 34.</p> <p>Officers also note that additional standards, terms and conditions have also been included in the appropriate removal and demolition rules which increases and broadens environmental considerations for Permitted and Controlled Activities.</p>
	980	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
26 – Transpower NZ Ltd		Submitter seeks amendment to Rule 38 of the Plan to delete reference to National Environmental Standards for Electricity Transmission Activities: <i>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6))</i>	The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
29 – Department of Conservation	981	<b>Amend</b> Submitter seeks amendment to Rule 38 of the Plan to include new standards, terms and conditions addressing: <ul style="list-style-type: none"> <li>• how the use of vehicles and machinery in the coastal environment will be avoided where possible, and minimised/effects mitigated where necessary (including taking the shortest and least sensitive route)</li> <li>• the requirement for construction equipment including spoil, litter or equipment to be removed within 24 hours of completion of any works</li> <li>• the prohibition of any refuelling or fuel storage occur within the coastal environment and that methods should be employed to avoid any fuel spillage.</li> </ul>	<b>Decline</b> Officers recommend declining the relief sought by the submitter. Similar type conditions have been considered as part of the Plan review process and were not deemed to be necessary with the effects of those activities being addressed in the standards, terms and conditions of the Rule. Notwithstanding the above, in response to other submitters' requests, officers consider that Rule 38 is unnecessary as it addresses matters already covered through a different Rule pathway. Officers recommended deleting Rule 38 to avoid confusion for Plan users and instead rely on Rules 44, 45 and 46 for the removal aspect of the structure, and Rules 18 to 34 for the 'replacement' aspects of the structure.
Further submissions – Climate Justice Taranaki Inc (21)		Support	
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose	
30 – First Gas Ltd	982	<b>Amend</b> Submitter seeks that network utility pipeline removal and replacement within coastal management areas: Outstanding Value and Estuaries Unmodified, Estuaries Modified and Port be classified as a Permitted Activity and be included under Rule 38 (or under a separate rule).	<b>Decline</b> Officers recommend declining the relief sought by the submitter. Officers note that the Activity Description of Rule 38 deliberately excludes petroleum production installations and pipelines because of the higher environmental risks involved.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Oppose	Officers further note that Rules relating to maintenance, alterations, extensions and removal are recommended to be reframed to more clearly differentiate between the respective activities.
Further submissions – Powerco (45)		Neutral	In response to other submitters, officers consider that Rule 38 is unnecessary as it addresses matters already covered through a different Rule pathway. Officers recommended deleting Rule 38 to avoid confusion for Plan users and

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			instead rely on Rules 44, 45 and 46 for the removal aspect of the structure, and Rules 18 to 34 for the 'replacement' aspects of the structure.
40 – Te Rūnanga o Ngāti Mutunga	983	<p><b>Amend</b></p> <p>Submitter opposes permitting the removal or replacement of existing lawfully established structures in the coastal marine area and seek that such activities be a Discretionary Activity (rather than a Permitted Activity).</p>	<p><b>Grant in kind</b></p> <p>Officers recommend granting in kind the relief sought by the submitter.</p> <p>In response to other submitters, officers recommend deleting Rule 38, which permits the removal and replacement of lawfully established structures. To better clarify and differentiate between the different structure activities officers consider Rules 44, 45 and 46 to adequately provide for the removal aspect. In relation to the structure replacement, Rules 18 to 34 would be considered as part of the "placement". Together these rules provide a broad suite of regulatory control from Permitted to Non-complying depending on the significance of effects.</p>
41 – Te Korowai o Ngāruahine Trust	984	<p><b>Amend</b></p> <p>Submitter seeks amendment to Condition (i) of Rule 38 of the Plan to read: <i>(i) structure is not located within any historic heritage site identified in Schedule 5A and B [Historic heritage] or any other archaeological site; [...]</i></p>	<p><b>Grant in kind</b></p> <p>Officers note that, in response to other submitters, officers recommend deleting Rule 38 as it addresses matters already covered through a different Rule pathway. Officers recommended deleting Rule 38 to avoid confusion for Plan users and instead rely on Rules 44, 45 and 46 for the removal aspect of the structure, and Rules 18 to 34 for the 'replacement' aspects of the structure. Notwithstanding the above, officers recommend that the relevant standards, terms and conditions are amended to ensure that they reference Schedule 5A and B as requested by the submitter.</p>
43 – Royal Forest and Bird Protection Society	985	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 38 of the Plan by:</p> <ul style="list-style-type: none"> <li>deleting and excluding Outstanding Value coastal management areas from the rule</li> <li>deleting and excluding the "replacement" of lawfully established structures from the rule (and instead providing for the replacement of existing structures via rules for erection and placement of new structures</li> </ul> <p>OR</p>	<p><b>Accept in part</b></p> <p>Officers recommend accepting in part, the relief sought by the submitter. Officers consider that Rule 38 is confusing as removal of structures is already addressed under Rules 44, 45 and 46. In order to assist Plan users, officers recommend deleting Rule 38 and relying on Rules 44, 45 and 46 for the removal aspect of the activity and to (as requested by the submitter) to provide for the replacement of existing structures through the appropriate structure placement and erection rules (18 to 34).</p> <p>In relation to excluding Outstanding Value coastal management areas it is noted that when considering whether there are any adverse effects on the</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		Alternatively provide for replacement of lawfully established structures as a Restricted Discretionary rule (rather than a Permitted Activity) and include matters for discretion that address: effects on natural character and natural features and landscapes; effects on indigenous biodiversity; generation of noise; location; and whether the replacement structure maintains the form of the original structure with no increase in length, width or height, or increase in adverse effects.	characteristics and qualities of 'outstanding areas', it must be recognised that many areas contain ongoing use and development that was present when the areas were first identified as outstanding. Removal and replacement of structures in accordance with the standards, terms and conditions of the appropriate rules will have only minor and transitory effects.

		<p>Submitter seeks amendment to the Activity Description of Rule 39 of the Plan to read:</p> <p><i>Existing lawfully established structure maintenance, repair or alteration where the activity relates to that part of the wharves or breakwaters that is normally above the water surface including any attached structures, and relates directly to port <del>company</del> operations and any associated: [...]</i></p>	<p>Officers recommend granting the relief in kind.</p> <p>Officers note that amendments made to Rule 35 have made Rule 39 redundant due to duplication of provisions. As a result, Rule 39 is recommended to be deleted.</p> <p>Officers note that the concerns raised by the submitter and request to broaden the scope of Rule 39 to all port operations has already been provided for under Rule 35.</p>
Further submissions – Port Taranaki Ltd (32)		Support	
58 – Te Atiawa	992	<b>Support</b>	<b>Decline</b>
		Retain Rule 39 of the Plan as notified.	Support for Rule 39 is noted. However, Rule 39 is recommended to be deleted in order to address the concerns of other submitters.
<b>Rule 40 – Existing lawfully established Port structure maintenance and repair</b>			
	993	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
40 – Te Rūnanga o Ngāti Mutunga		Submitter seeks amendment to Rule 40 of the Plan to make the maintenance, repair or alteration of structures in the Port where it does not comply with Rule 39 a Discretionary Activity (rather than a Controlled Activity).	<p>Officers note that Rule 40 relates to the maintenance, repair or alteration of existing lawfully established structures in the Port where the activity does not come within or comply with Rule 39.</p> <p>The Port is already a highly modified environment that provides a national and regionally important function whereby the movement of goods is dependent upon the ongoing maintenance, repair and alteration of Port structures. Subject to complying with the standards, terms and conditions it is recommended that the activity be allowed to get a resource consent as a Controlled Activity to provide some business certainty in accordance with Policy 6. The Council sees no net environmental benefit to reducing business certainty for the Port (in terms of whether a consent would be granted or not) by making the activity a Discretionary Activity.</p> <p>Notwithstanding the above, officers note recommendations to amend the Activity Description and include additional standards, terms and conditions to ensure adverse effects can be appropriately considered and managed as a Controlled Activity.</p>
43 – Royal Forest and Bird Protection Society	994	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 40 of the Plan by:</p> <ul style="list-style-type: none"> <li>• including a new condition that the activity will not have adverse effects on the adjacent Outstanding Value area</li> <li>• amending the matters for control to include consideration of effects on indigenous biodiversity and natural character.</li> </ul>	<p><b>Accept in part</b></p> <p>Officers suggest that the current Rule, which applies only to the 'Port' coastal management area, and which has conditions whereby the size of the structure does not increase from its original size and where the activity cannot impact on significant indigenous biodiversity (which includes not just within the Port but also the Sugar Loaf Islands), already address potential impacts on adjacent areas. Officers do not believe any change is necessary or appropriate.</p> <p>With regards to amending the matters of control to explicitly address indigenous biodiversity and natural character, officers agree. Officers recommend replacing the term "<i>ecological values</i>" with "<i>natural character, features and landscapes</i>" and "<i>indigenous biodiversity</i>" to clarify its policy intent.</p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	995	<p><b>Support</b></p> <p>Retain Rule 40 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted but note the inclusion of additional standards, terms and conditions.</p>
Further submission – Port Taranaki Ltd (32)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
58 – Te Atiawa	996	<b>Support</b>	<b>Accept</b>
		Retain Rule 40 of the Plan as notified.	Support noted but note the inclusion of additional standards, terms and conditions.
<b>Rule 41 – Existing lawfully established Port repair, alteration and extension</b>			
15 – Surfbreak Protection Society	997	<b>Other</b>	<b>No relief necessary</b>
		Submitter seeks that there be no impact on surf breaks.	Submitter's comments are noted and have been previously addressed in submission point 448 relating to surfing policies. Policy 19 would be considered as part of any resource consent application under this Rule.
40 – Te Rūnanga o Ngāti Mutunga	998	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 41 of the Plan to make the maintenance, repair or alteration of structures in the Port that does not come within or comply with other related rules a Discretionary Activity (rather than a Controlled Activity).	Officers recommend declining the relief sought. Officers note that the Port is already a highly modified environment that provides a national and regionally important function whereby the movement of goods is dependent upon the ongoing maintenance, repair and alteration of Port structures. Subject to complying with the standards, terms and conditions, in accordance with Policy 6 the Council seeks to provide for such activities. The Council sees no net environmental benefit to reducing business certainty for the Port (by the potential of declining a resource consent application) by making the activity a Discretionary Activity. Notwithstanding the above, officers note that in order to simplify the rules cascade relating to structure maintenance, alteration and extension Rules 40 and 41 have been merged and additional standards, terms and conditions inserted to address environmental effects to ensure the broader consideration of environmental effects.
Further submission – Port Taranaki Ltd (32)		Oppose	
58 – Te Atiawa	999	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Rule 41 of the Plan to notify Iwi as an affected party.	Officers consider that no relief is necessary. Officers note that in order to simplify the rules cascade relating to structure maintenance, alteration and extension Rules 40 and 41 have been merged and additional standards, terms and conditions inserted to address environmental effects to ensure the broader consideration of environmental effects.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Officers further note that, as part of this Coastal Plan review process, and in relation to 'sites of significance' to Māori (refer Condition (c)), Council has already agreed to recognise iwi, subject to conditions, as an affected party for all resource consent applications. There will be further opportunity to set consultation requirements and expectations as part of the development of Mana Whakahono a Rohe agreements.
<b>Rule 42 – Other structure repair, extension, removal or replacement</b>			
6 – Trans-Tasman Resources Ltd	1000	<b>Support</b>	<b>Accept</b>
		Retain Rule 42 of the Plan as notified.	Support noted. Rule 42 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
26 – Transpower NZ Ltd	1001	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 42 of the Plan to delete reference to National Environmental Standards for Electricity Transmission Activities: <i>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6)).</i>	The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
32 – Port Taranaki	1002	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Rule 42 of the Plan to: <ul style="list-style-type: none"> <li>insert a new rule specifically for the Port coastal management area and in respect to Port activities providing Controlled Activity status for other structure repair, alteration, extension or removal and replacement that is not provided for in Rules 35 to 41</li> <li>make any consequential amendments to other rules and objectives and policies to give effect to this relief</li> </ul> OR <ul style="list-style-type: none"> <li>provide another rule structure or amendment/additional rules to Rules 35-41 that delivers the same result for the port.</li> </ul>	Officers recommend accepting in part the relief requested by the submitter. Officers consider that regionally important infrastructure, which includes the Port, should be recognised within the Rules and provided for in a manner that promotes the maintenance and future proofing of infrastructure, subject to the appropriate regulatory controls and environmental outcomes.  Officers recommend including two additional rules that provide a Restricted Discretionary pathway for maintenance, alteration and extension activities for the Port and for Network Utilities. These are new Rules 37A for network utility structures and 40A for Port structures. Officers note that Rules 35 and 37 already provide a Permitted and Controlled activity pathway for most maintenance, alteration and extension activities within the Port. Only in circumstances where the activity cannot comply with the standards, terms and

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Port Taranaki Ltd (32), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Support	conditions of these rules will a higher regulatory rule be required, i.e. Rule 40A.
45 – Powerco	1003	<b>Support</b>	<b>Accept</b>
		Retain Rule 42 of the Plan as notified.	Support noted. Rule 42 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1004	<b>Support</b>	<b>Accept</b>
		Retain Rule 42 of the Plan as notified.	Support noted. Rule 42 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.

47 – Fonterra	1005	<b>Support</b>	<b>Accept</b>
		Retain Rule 42 of the Plan as notified.	Support noted. Rule 42 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
61 – Te Rūnanga o Ngāti Ruanui Trust	1006	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 42 of the Plan to include standards, terms and conditions to read: <i><u>(a) repair, alteration, extension or removal of structure and discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></i> <i><u>(b) repair, alteration, extension or removal of structure and discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i> <i><u>(c) repair, alteration, extension or removal of structure and discharge is consistent with iwi management plan.</u></i> AND Include the following notification note: <i><u>Resource consent applications under this Rule will be notified to tangata whenua.</u></i>	The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to discretionary and Non-complying activities. Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies. Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 36, 37 and 38 being given effect to. In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources (6)		Oppose	Council's standard operating procedures and/or any Mana Whakahono a Rohe agreements.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.
<b>Rule 43 – Other structure repair, extension, removal or replacement</b>			
6 – Trans-Tasman Resources Ltd	1007	<b>Support</b>	<b>Accept</b>
		Retain Rule 43 of the Plan as notified.	Support noted. Rule 43 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
26 – Transpower NZ Ltd	1008	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 43 of the Plan to delete reference to the <i>National Environmental Standards for Electricity Transmission Activities: [...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6))</i> .	The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
43 – Royal Forest and Bird Protection Society	1009	<b>Support</b>	<b>Accept</b>
		Retain the Non-complying classification for Rule 43 of the Plan.	Support noted. Rule 43 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
45 – Powerco	1010	<b>Support</b>	<b>Accept</b>
		Retain Rule 43 of the Plan as notified.	Support noted. Rule 43 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
61 – Te Rūnanga o Ngāti Ruanui Trust	1011	<p><b>Amend</b></p> <p>Submitter seeks amendment to the standards, terms and conditions of Rule 43 of the Plan to read:</p> <p><i><u>(a) repair, alteration, extension or removal of structure and discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></i></p> <p><i><u>(b) repair, alteration, extension or removal of structure and discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i></p> <p><i><u>(c) repair, alteration, extension or removal of structure and discharge is consistent with iwi management plan.</u></i></p> <p>AND</p> <p>Include the following notification note:</p> <p><i><u>Resource consent applications under this Rule will be notified to tangata whenua.</u></i></p>	<p><b>Decline</b></p> <p>The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary and Non-complying Activities.</p> <p>Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Non-complying Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 36, 37 and 38 being given effect to.</p> <p>In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and or Mana Whakahono a Rohe agreements.</p>
Further submissions – Trans-Tasman Resources (6)		Oppose	
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to “matters of control/discretion”. Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>
<b>Rule 44 – Structure removal or demolition</b>			
6 – Trans-Tasman Resources Ltd	1012	<p><b>Support</b></p> <p>Retain Rule 44 of the Plan as this rule appropriately recognises the benefits of enabling removal of structures as a permitted activity from the coastal marine area when they are no longer required.</p>	<p><b>Accept</b></p> <p>Support noted. Rule 44 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.</p>
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
26 – Transpower NZ Ltd	1013	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 44 of the Plan to delete reference to the <i>National Environmental Standards for Electricity Transmission Activities</i> : <i>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6))</i> .	The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
29 – Department of Conservation	1014	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 44 of the Plan to include new conditions addressing: <ul style="list-style-type: none"> <li>• how the use of vehicles and machinery in the coastal environment will be avoided where possible, and minimised/effects mitigated where necessary (including taking the shortest and least sensitive route)</li> <li>• the requirement for construction equipment including spoil, litter or equipment to be removed within 24 hours of completion of any works</li> <li>• the prohibition of any refuelling or fuel storage occur within the coastal environment and that methods should be employed to avoid any fuel spillage.</li> </ul>	Similar type conditions have been considered as part of the Plan review process and were not deemed to be necessary. Most of the proposed conditions seem to relate to avoiding, remedying or mitigating adverse effects already addressed by the standard, terms and conditions, particularly Conditions (a) and (c). For example Condition (a) addresses disturbances to the foreshore and seabed which could be caused by vehicles.  In relation to other matters raised by the submitter, officers are concerned that the specificity sought is unnecessarily restrictive and imposes operational constraints on those using it. For example, the requirement to remove spoil within 24 hours.
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose	
41 – Te Korowai o Ngāruahine Trust	1015	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 44 of the Plan to require notification to iwi of any structure removal or demolition work in the coastal marine area.	In relation to notification requirements proposed by the submitter, officers note that the rule includes a notification requirement to the Council under standard, term and condition (g). The Council have already agreed to pass the notification information onto interested iwi authorities.  Officers recommend amending the rule to include an additional note under the Activity Description to indicate this for Plan users.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	1016	<b>Support</b>	<b>Accept</b>
		Retain Rule 44 of the Plan as notified.	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Port Taranaki Ltd (32)		Support	Support noted. Rule 44 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1017	<b>Support</b> Retain Rule 44 of the Plan as notified.	<b>Accept</b> Support noted. Rule 44 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
58 – Te Atiawa	1018	<b>Amend</b> Submitter seeks amendment to Rule 44 of the Plan by changing the Activity Classification to Controlled Activity (rather than a Permitted Activity).	<b>Decline</b> Officers note that Rule 44 relates to the removal or demolition of a structure in the coastal marine area not involving the use of explosives and includes a suite of standards, terms and conditions such that the environmental effects of the activity should be less than minor and transitory. Officers do not consider it appropriate to require a consent to remove or demolish a structure in the coastal marine area, provided the standards, terms and conditions can be met. Officers note that the removal of structures in the coastal marine area is generally a positive environmental outcome that contributes to the enhancement of natural character plus other values. The Council requires that the person undertaking the activity notify the Council under Condition (g) at least five working days before commencing the activity so that the Council can assess and confirm that the activity is appropriate and that any adverse effects arising from the activity should be less than minor and transitory. Council seeks to provide for such activities. The Council sees no net environmental benefit to imposing consenting and compliance costs on the Port by making the activity a Controlled Activity.
61 – Te Rūnanga o Ngāti Ruanui Trust	1019	<b>Amend</b> Submitter seeks amendment to Rule 44 of the Plan to include new and amended standards, terms and conditions to read: [...] <i>(e) activity is not located within <u>cultural and</u> historic heritage identified in Schedule 5 <u>[Cultural and Historic heritage]</u> or any other archaeological site;</i> <i><u>(ea) activity is not located within Schedules 1 and 2;</u></i>	<b>Accept in part</b> Officers note that Rule 44 relates to the removal or demolition of a structure in the coastal marine area not involving the use of explosives (with some exceptions). The submitter is seeking amendment to Rule 44 of the Plan to include new and amended standards, terms and conditions. Specific comments on the new and amended proposed conditions are as follows:

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u>(eb) the activity does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</u></p> <p><u>(ec) activity does not adversely affect the suitability of the receiving area for customary use;</u></p> <p><u>(f) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant species and ecosystems]; and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat]. [...]</u></p>	<ul style="list-style-type: none"> <li>decline the relief sought in relation to Condition (e). Officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>decline the relief sought in relation to Condition (ea). Officers note that the effect of granting this relief would also make this rule redundant as Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape</li> </ul>
Further submissions – Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<ul style="list-style-type: none"> <li>decline relief sought in relation to Condition (eb) as unnecessary and uncertain for Plan users. The Rule is only providing for the removal and replacement of structures already existing in the coastal marine area. Officers note that impacts on cultural sites of significance are already addressed in Condition (e).</li> <li>reliefs sought in relation to Condition (ec) are unnecessary. Such matters should already be addressed in Condition (i) of the Rule, which protects customary sites of significance. However, it is noted that any impacts on receiving water quality or disturbances to the foreshore and seabed will be temporary and unlikely to be noticeable in natural prevailing conditions</li> <li>grant the relief in kind in relation to Condition (f). Officers recommend expanding the scope of Rule conditions to include reference to scheduled taonga species in new standard, term and condition (fa).</li> </ul>
<b>Rule 45 – Structure removal or demolition</b>			
26 – Transpower NZ Ltd	1020	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 45 of the Plan to delete reference to the <i>National Environmental Standards for Electricity Transmission Activities</i>:  <del>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6))</del></p>	<p><b>Accept</b></p> <p>The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.</p>
	1021	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
29 – Department of Conservation		Submitter seeks amendment to Rule 45 of the Plan to read: <i>[...] and the activity does not comply with Rule 45 44 [...]:</i>	Officers recommend granting the relief sought by the submitter.
32 – Port Taranaki	1022	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 45 of the Plan to read <i>[...] and the activity does not comply with Rule 45 44 [...]:</i>	Officers recommend granting the relief sought by the submitter.
43 – Royal Forest and Bird Protection Society	1023	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Rule 45 of the Plan to delete and exclude the Outstanding Value, Estuary Unmodified and Estuary Modified coastal management areas from the Rule.	<p>Officers note that Rule 45 relates to the removal or demolition of a structure in the coastal marine area. However, it does allow the use of explosives.</p> <p>Officers do not consider it appropriate to make the removal or demolition of a structure in Outstanding Value, Estuary Unmodified and Estuary Modified coastal management areas a Discretionary or Non-complying Activity (for which a resource consent might be refused). Officers note that the removal of structures in the coastal marine area is generally a positive environmental outcome that contributes to the enhancement of natural character plus other values. It is particularly positive in the aforementioned areas where people might be seeking the enhancement or restoration of natural values.</p> <p>The submitter is concerned about the effects of using explosives on indigenous marine species noting that this may not be appropriate in all cases. Officers agree but recommend an alternative relief involving the inclusion of a new standards, terms and condition addressing adverse effects on significant indigenous biodiversity and taonga species under new Conditions (aa) and (ab). Such matters can then be considered through the resource consent process and may result in limitations in location, method, and timing of works.</p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1024	<b>Support</b>	<b>Accept</b>
		Retain Rule 45 of the Plan as notified.	Support noted. Rule 45 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.

<b>Rule 45A – Structure removal or demolition</b>			
43 – Royal Forest and Bird Protection Society	1028	<p><b>Amend</b></p> <p>Submitter seeks amendment to Plan to include a new Rule that would provide for the removal or demolition of structures in the Outstanding Value, Estuary Unmodified and Estuary Modified coastal management areas as a Restricted Discretionary Activity (rather than a Controlled Activity provided for in Rule 45)</p> <p>OR</p>	<p><b>Decline</b></p> <p>Officers do not believe it is appropriate or necessary to include a new Rule that provides for the removal or demolition of structures in the Outstanding Value, Estuary Unmodified and Estuary Modified coastal management areas as a Restricted Discretionary Activity. Refer to submission point 1023.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		provide for the removal or demolition of structures in the Outstanding Value, Estuary Unmodified and Estuary Modified coastal management areas as a Discretionary Activity under Rule 46.	
<b>Rule 46 – Structure removal or demolition</b>			
26 – Transpower NZ Ltd	1029	<b>Amend</b> Submitter seeks amendment to Rule 46 of the Plan to delete reference to the <i>National Environmental Standards for Electricity Transmission Activities</i> : <del>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6)).</del>	<b>Accept</b> The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
37 – Petroleum Exploration and Production Association of NZ	1030	<b>Support</b> Retain Rule 46 of the Plan's Discretionary Activity classification as notified.	<b>Accept</b> Support noted. Rule 46 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
43 – Royal Forest and Bird Protection Society	1031	<b>Support</b> Retain Rule 46 of the Plan as notified.	<b>Accept</b> Support noted. Rule 46 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1032	<b>Support</b> Retain Rule 46 of the Plan as notified.	<b>Accept</b> Support noted. Rule 46 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Port Taranaki Ltd (32)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	1033	<b>Amend</b> Submitter seeks amendment to Rule 46 of the Plan to include standards, terms and conditions to read: <u><i>(a) demolition or removal of structure and discharge does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment</i></u> <u><i>(b) demolition or removal of structure and discharge complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</i></u>	<b>Decline</b> The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to discretionary and Non-complying activities. Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u><i>(c) demolition or removal of structure and discharge is consistent with iwi management plan.</i></u></p> <p>AND</p> <p>Include the following notification note:</p> <p><u><i>Resource consent applications under this Rule will be notified to tangata whenua.</i></u></p>	<p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 38, 40, 41, 42, 44 and 49 being given effect to.</p> <p>In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and or Mana Whakahono a Rohe agreements.</p>
<p>Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)</p>		<p>Support</p>	<p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to “matters of control/discretion”. Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>
<p><b>Rule 47 – Temporary occupation for community, recreational or sporting events</b></p>			
<p>22 – Lyndon DeVantier</p>	<p>1034</p>	<p><b>Amend</b></p> <p>Submitter opposes Rule 47 of the Plan providing for the temporary occupation for community, recreational or sporting events, up to four days, as a Permitted Activity.</p>	<p><b>Decline</b></p> <p>Officers note that the purpose of Rule 47 is to allow for community, recreational or sporting events to occur as much as possible without imposing unnecessary costs and constraints on the event associated with obtaining a resource consent. It potentially applies to such events as national and regional sailing, surf live saving, surfing, triathlons, swimming events and beach carnivals.</p> <p>Officers recognise that temporary occupation of parts of the coastal marine area for such events may impact or impinge on other users. As part of the Coastal Plan review, Council compared the proposed rule against equivalent rules elsewhere in the country in terms of duration and area of the temporary occupation and noted that the duration of such events would ranged from three days to unlimited. Officers note that the relief sought by the submitter is more restrictive than the norm elsewhere in the country. Officers recommend no change to the four days.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
38 – Nigel Cliffe	1035	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 47 of the Plan to limit temporary occupation for community, recreational or sporting events to no more than 3 consecutive days over a 5-day period, as a Permitted Activity.	Officers note that the purpose of Rule 47 is to allow for community, recreational or sporting events to occur as much as possible without imposing unnecessary costs and constraints on the event associated with obtaining a resource consent. It potentially applies to such events as national and regional sailing, surf live saving, surfing, triathlons, swimming events and beach carnivals.  Officers recognise that temporary occupation of parts of the coastal marine area for such events may impact or impinge on other users. As part of the Coastal Plan review, Council compared the proposed rule against equivalent rules elsewhere in the country in terms of duration and area of the temporary occupation and noted that the duration of such events ranged from three days to unlimited. Officers note that the relief sought by the submitter is more restrictive than the norm elsewhere in the country. Officers recommend no change to the four days.
41 – Te Korowai o Ngāruahine Trust	1036	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 47 of the Plan to require notification to iwi of any community, recreational or sporting events authorised by this rule  AND Amend Condition (b) of Rule 47 to read: <i>(b) the activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A and B [Historic heritage]; [...]</i>	Officers recommend granting the relief sought by the submitter.  Officers note that standard, term and condition (g) requires that the person undertaking the activity notify the Council at least 5 working days prior to the activity commencing. The Council have agreed to pass the notification information to interested iwi authorities.  Officers recommend amending the rule to include an additional note under the Activity Description to indicate this for Plan users.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	In relation to amending Condition (c) to refer to Schedules 5A and 5B (rather than just Schedule 5). However, in relation to the notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and or Mana Whakahono a Rohe agreements.
42 – Ngati Rahiri Hapū	1037	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Rule 47 of the Plan (if it remains a Permitted Activity) to include a new or amended condition that no activity can take place within 100m of an historic site unless consultation with iwi has taken place.	Officers believe no relief is necessary in that any activity must comply with Condition (b), which relates to the protection of historic heritage (and sites of significance to tangata whenua). Further more Condition (g) includes the

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			requirement for the organisers to notify the Council. This provides the opportunity for Council to check that no scheduled sites of significance are likely to be affected and the appropriateness of a buffer distance. The need or appropriateness of a buffer zone would depend upon the activity and/or the values associated with the particular site.
43 – Royal Forest and Bird Protection Society	1038	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 47 of the Plan to make temporary occupation for community, recreational or sporting events a Controlled Activity (rather than a Permitted Activity).	Officers do not recommend granting the relief sought by the submitter. Officers note that the purpose of Rule 47 is to allow for community, recreational or sporting events to occur as much as possible without imposing unnecessary costs and constraints on the event associated with obtaining a resource consent. It potentially applies to such events as national and regional sailing, surf live saving, surfing, triathlons, swimming events and beach carnivals and is largely a continuation of an existing rule in the current Plan.
Further submissions – Port Taranaki Ltd (32)		Oppose	
43 – Royal Forest and Bird Protection Society	1039	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 47 of the Plan to include matters for control to consider effects on indigenous biodiversity, natural character and natural features and landscapes.	Officers note that the purpose of Rule 47 is to allow for as many community, recreational or sporting events to occur as possible without imposing unnecessary costs and constraints associated with obtaining a resource consent. Of note the Permitted Activity rule already includes conditions that address indigenous biodiversity. Council's experience with the current Rule has also been that any adverse effects are less than minor and are temporary and certainly do not impact on natural character, features and landscapes. However, through the notification requirement there is an opportunity for the Council to undertake a preliminary assessment to ensure that this is indeed the case.
43 – Royal Forest and Bird Protection Society	1040	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the note in Rule 47 of the Plan to refer to Rule 50, which is a Discretionary Activity classification.	Officers recommend granting the relief sought by the submitter.
	1041	<b>Amend</b>	<b>Accept in part</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
61 – Te Rūnanga o Ngāti Ruanui Trust		<p>Submitter seeks amendment to Rule 47 of the Plan to include new or amended standards, terms and conditions to read:</p> <p><i>(a) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity]; and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat]</i></p> <p><i>(b) the activity does not have an adverse effect on the values associated with cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage];</i></p> <p><i>(ba) the activity does not have adverse effect on Schedules 1 and 2</i></p> <p><i>(bb) the activity does not adversely affect the suitability of the receiving environment for customary use;</i></p> <p><i>(bc) the activity does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2; [...]</i></p>	<p>The submitter is seeking amendment to Rule 45 of the Plan to include new and amended standards, terms and conditions. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>grant the relief in kind in relation to Condition (a). Officers recommend expanding the scope of Rule conditions to include reference to scheduled taonga species</li> <li>decline the relief sought in relation to Condition (b). Officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>decline the relief sought in relation to Condition (ba). Officers note that the effect of granting this relief would also make this rule redundant as Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape</li> <li>decline relief sought in relation to Condition (bb) and (bc) as unnecessary and uncertain for Plan users. The Rule is only providing for the removal and replacement of structures already existing in the coastal marine area. Officers note that impacts on cultural sites of significance are already addressed in Condition (b).</li> </ul>
<b>Rule 48 – Continued occupation</b>			
6 – Trans-Tasman Resources Ltd	1042	<p><b>Support</b></p> <p>Retain Rule 48 of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Rule 48 is retained as notified.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		<p><u><a href="#">(d) continued occupation is consistent with iwi management plan.</a></u></p> <p>Support</p>	<p>at the time of its placement or erection. At the time of the original placement and erection of the structure wider considerations relating to historic heritage and indigenous biodiversity would have been addressed (under alternative rules). Officers believe that ongoing occupation of a structure is likely to have less adverse effects subject to it continuing to be used for its originally consented purpose. Officers do not believe it necessary to include additional conditions.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	1058	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Control/notification column for Rule 49 of the Plan to read:</p> <p><i>Control is reserved over:</i></p> <p>[...]</p> <p><u><a href="#">(d) effects on water quality and mauri values;</a></u></p> <p><i>(e) effects on ecological values;</i></p> <p><i>(f) effects on historic, cultural and amenity values;</i></p> <p><i>(g) effects on surf breaks;</i></p> <p><i>(h) effects of occupation on public access;</i></p> <p><i>(i) effects on navigation;</i></p> <p><i>(j) effects of noise and light;</i></p> <p><u><a href="#">(k) effects on Cultural Zone (referred to in Spatial Plan);</a></u></p> <p><u><a href="#">(l) monitoring (including tangata whenua indicators referred to in the tangata whenua monitoring plan) and information requirements;</a></u></p> <p><i>(m) duration of consent; and</i></p> <p><i>(n) review of consent conditions.</i></p> <p>Resource consent applications under this Rule will <del>not be publicly notified but may be limited notified</del> <u><a href="#">be notified to tangata whenua.</a></u></p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>The suggested changes seem to be mixing jurisdictional, policy and operational matters and introducing a level of specificity that is not considered appropriate or necessary. Most of the changes sought are a subset of matters that have already been provided for while the submitter has also introduced some new concepts such as a cultural zone and a spatial plan that do not fit within the Proposed Plan framework. There is a 'requirement' to be consistent with iwi management plans, while the submitter is silent on how other planning documents might fit within this framework.</p> <p>Officers note that this activity is already subject to the General Policies 1 to 21 of which Policies 15 [Historic heritage] and 16 [Relationship of tangata whenua] are particularly relevant. Officers further note that there will be an opportunity to develop an agreed framework and operational detail for implementing the Plan as part of any Mana Whakahono a Rohe agreement with the submitter.</p> <p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
<b>Rule 50 – Coastal occupation</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
26 – Transpower NZ Ltd	1059	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 50 of the Plan to delete reference to the <i>National Environmental Standards for Electricity Transmission Activities</i> : <i>[...] or the Resource Management (National Environmental Standards for Electricity Transmission Activities Regulations 2009 (Appendix 6)).</i>	The reference to the <i>National Environmental Standards for Electricity Transmission</i> is redundant and does not add further value to the Plan. Officers recommend granting the relief sought by the submitter.
29 – Department of Conservation	1060	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 50 of the Plan's activity description to read: <i>[...] and the activity does not come within or comply with Rules 47 – <del>50</del> 49 [...].</i>	Officers recommend granting the relief sought by the submitter.
32 – Port Taranaki	1061	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 50 of the Plan's activity description to read: <i>[...] and the activity does not come within or comply with Rules 47 – <del>50</del> 49 [...].</i>	Officers recommend granting the relief sought by the submitter.
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1062	<b>Support</b>	<b>Accept</b>
		Retain Rule 50 of the Plan as notified.	Support noted. Rule 50 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
47 – Fonterra	1063	<b>Support</b>	<b>Accept</b>
		Retain Rule 50 of the Plan as notified.	Support noted. Rule 50 is retained subject to amendments made to offer relief to other submitters' concerns where appropriate.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
61 – Te Rūnanga o Ngāti Ruanui Trust	1064	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 50 of the Plan to include standards, terms and conditions to read: <i><u>(a) the occupation does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></i> <i><u>(b) the occupation complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i>	The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary and Non-complying Activities. Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u><i>(c) the occupation is consistent with iwi management plan.</i></u></p> <p>AND</p> <p>Include the following notification note:</p> <p><u><i>Resource consent applications under this Rule will be notified to tangata whenua.</i></u></p>	<p>are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 31, 32 and 39 being given effect to.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41)		Support	<p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to “matters of control/discretion”. Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p> <p>Officers further note that, in addition to the requirements of the RMA, notification to iwi can also be addressed through Mana Whakahono a Rohe agreements without the need to be included in the Plan rules.</p>
<b>NEW Rule 50A – Coastal occupation</b>			
43 – Royal Forest and Bird Protection Society	1065	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to make the continued occupation of an existing lawfully established structure in Outstanding Value, Estuaries Unmodified, and Estuaries Modified coastal management areas (where the occupation was previously a Permitted or Controlled Activity).</p>	<p><b>Decline</b></p> <p>Refer to submission points 1045 and 1052.</p>
<b>Rule 51 – Clearance of outfalls, culverts and intake structures</b>			
21 – Climate Justice Taranaki	1066	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 51 [Clearance of outfalls, culverts and intake structures and any associated activities] of the Plan to make the activity Discretionary (rather than Permitted) in coastal management areas: Outstanding value and Estuaries Unmodified – especially the discharge of contaminants.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Officers note that the activity is to allow minor disturbances of the foreshore and seabed for the purpose of removing accumulated sediment that is adversely affecting the use and performance of a culvert, outfall or intake structure. Anticipated effects should be less than minor, subject to compliance with the standards, terms and conditions.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Of note, Rule 51 relates only to maintenance activities (and incidental discharges) associated with existing structures rather than the discharge itself. Given that the placement of these structures are already authorised in Outstanding value and Estuaries Unmodified coastal management areas, requiring a resource consent for ongoing maintenance works is not considered appropriate or necessary.
40 – Te Rūnanga o Ngāti Mutunga	1067	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 51 of the Plan to include two additional conditions:</p> <p><i>(f) the activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5 (Historic Heritage)</i></p> <p><i>(g) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A.</i></p>	<p><b>Accept</b></p> <p>Officers note that Rule 51 relates to allowing minor disturbances of the foreshore and seabed for the purpose of removing accumulated sediment that is adversely affecting the use and performance of a culvert, outfall or intake structure.</p> <p>At the time of the original placement and erection of the structure wider considerations relating to historic heritage and indigenous biodiversity would have been addressed (under alternative rules).</p> <p>However, to ensure a precautionary approach, officers recommend the inclusion of additional standards terms and conditions to ensure no adverse effects to significant indigenous biodiversity, including taonga species and historic heritage identified in Schedules 5A and B. These are reflected in new standards terms and conditions (aa), (ab) and (ac).</p>
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
40 – Te Rūnanga o Ngāti Mutunga	1068	<p><b>Amend</b></p> <p>Submitter opposes permitting the clearance of outfalls, culverts and intake structures in the coastal marine area and seek amendment to Rule 51 of the Plan to make such activities be a Discretionary Activity.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Officers note that the activity is to allow minor disturbances of the foreshore and seabed for the purpose of removing accumulated sediment that is adversely affecting the use and performance of a culvert, outfall or intake structure. Anticipated effects should be less than minor, subject to compliance with the standards, terms and conditions.</p> <p>Of note Rule 51 relates only to maintenance activities (and incidental discharges) associated with existing structures rather than the discharge itself. Requiring a resource consent for ongoing maintenance works is not considered appropriate or necessary.</p>
	1069	<b>Amend</b>	<b>Accept in part</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		<p>Submitter seeks amendment to Rule 51 of the Plan to clarify that the rule provides for clearance of lawfully established structures only and add further conditions and limits to specify:</p> <ul style="list-style-type: none"> <li>• the amount of disturbance or deposition of material</li> <li>• a limit or guidance on “<i>minimum necessary</i>” to ensure removal of material does not result in adverse effects</li> <li>• whether mitigation may be appropriate in outstanding or significant locations and require consent</li> <li>• the type of material which can be deposited</li> <li>• adverse effects of depositing the material inappropriately.</li> </ul>	<p>Officer recommend amending the Activity Description of Rule 51 to refer to lawfully established structures.</p> <p>In relation to the other matters raised by the submitter, officers do not recommend granting the reliefs sought. Of note, the Rule is based on an equivalent rule in the current Plan for which there have been no issues with its implementation and application to date. Specific comments are as follows:</p> <ul style="list-style-type: none"> <li>• the amount of disturbance or deposition of material will depend upon the structure but given there can be significant costs associated with doing this maintenance works there is an incentive for the person not to do more than they need to do to protect the use and performance of their culvert, outfall or intake structure</li> <li>• as per above, the minimum amount of material that can be removed will depend upon the structure but given there can be significant costs associated with doing this maintenance works, again, there is an incentive for the person not to do more than they need to do to protect the use and performance of their culvert, outfall or intake structure</li> <li>• as per the reading of the condition, any material placed on the foreshore or seabed will consist of the same material as the receiving environment., e.g. shingle or rocks on rocky shores, sand on sandy beaches or sea floors</li> <li>• subject to the standards, terms and conditions, officers believe adverse environments will be appropriately managed. However, in response to concerns raised by the submitter, Officers recommend the inclusion of two new standards, terms and conditions addressing adverse effects on indigenous biodiversity and historic heritage.</li> </ul>
47 – Fonterra	1070	<p><b>Amend</b></p> <p>Submitter seeks amendment to Condition (e) of Rule 51 of the Plan to read:  <i>(e) activity does not restrict public access for more than <b>seven days 24 hours</b>.</i></p>	<p><b>Accept in part</b></p> <p>Submitter notes that clearance activities on larger structures may take longer than one day due to weather events and notes that these structures are located in areas where there is generally low levels of demand for access.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Officers agree, however, consider 7 days to be excessive for a permitted activity. Instead, officers recommend that public access restrictions be limited to 72 hours.
57 – Heritage New Zealand	1071	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 51 of the Plan to include an additional condition: <i>(f) disturbance does not occur within a site included in Schedule 5 [Historic Heritage].</i>	Officers recommend granting the relief sought by the submitter with the inclusion of new standard, term and condition (ac).
58 – Te Atiawa	1072	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 51 of the Plan to include two additional conditions to read: <i>(f) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity], and:</i> <i>(g) the activity does not have an adverse effect on the values associated with sites of significance to Māori identified in Schedule 5A and 5B.</i>	Officers recommend granting the relief sought by the submitter.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
59 – KiwiRail	1073	<b>Support</b>	<b>Accept</b>
		Retain Rule 51 of the Plan as notified.	Support noted. Rule 51 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Port Taranaki Ltd (32)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	1074	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Rule 51 of the Plan to include new standards, terms and conditions to read: [...] <i>(f) the discharge does not have an adverse effect on the values associated with cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage];</i>	The submitter is seeking amendment to Rule 51 of the Plan to include new and amended standards, terms and conditions that primarily address cultural and historic heritage and indigenous biodiversity considerations. Officers note that a number of submitters have raised similar considerations. Officers recommend that in a manner that is consistent to that adopted in

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>(g) the discharge does not have adverse effect on Schedules 1 and 2;</i>  <i>(h) the discharge does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</i>  <i>(i) the discharge does not adversely affect the suitability of the receiving environment for customary use;</i>  <i>(j) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type, or any sensitive marine benthic habitat including those identified in Schedule 4 [Significant indigenous biodiversity] or any reef system; and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat].</i></p>	<p>conditions adopted in other rules that three new conditions be added to the rule that reads as follows:  <i>[...]</i>  <i>(aa) disturbance does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity];</i>  <i>(ab) the activity does not have a significant effect on the values associated with taonga species identified in Schedule 4CC [Taonga species];</i>  <i>(ac) disturbance does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A and B [Historic heritage].</i></p>

<b>Rule 52 – Collection of benthic grab samples</b>			
6 – Trans-Tasman Resources Ltd	1075	<p><b>Support</b></p> <p>Retain Rule 52 of the Plan as this rule appropriately enables monitoring of effects on benthic communities by providing for the removal of benthic material as a permitted activity where it is for scientific or monitoring purposes and where it meets the terms set out in the rule.</p>	<p><b>Accept</b></p> <p>Support noted. Rule 52 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.</p>
Further submissions – Port Taranaki Ltd (32)		Support	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
6 – Trans-Tasman Resources Ltd	1076	<p><b>Amend</b></p> <p>Submitter seeks consequential changes to Condition (g) of Rule 52 of the Plan that gives effect to previous reliefs sought. Consequential amendments read as follows:  <i>(g) sampling does not have an adverse effect on any threatened or at risk, <del>or regionally distinctive (declining)</del> species, or any rare and uncommon ecosystem type, <del>or any sensitive marine benthic habitat</del> including those identified in Schedule 4 [Significant indigenous biodiversity] or any reef system; [...]</i></p>	<p><b>Decline</b></p> <p>Officers do not recommend granting this relief as deleting reference to regionally distinctive species would be inconsistent with Bio Policy 4 of the <i>Regional Policy Statement</i>, which refers to, amongst other things, the presence of regionally distinctive species as a criteria for identifying significant indigenous biodiversity values in Taranaki. The category also contributes to giving effect to Policy 11(a)(iv) of the <i>New Zealand Coastal Policy Statement</i>.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Department of Conservation (29)		Oppose	It is the Council's view that Plan provisions should recognise the local context and provide for the protection of indigenous species that are locally significant to the Taranaki region, irrespective of their national threat status.  Officers also recommend declining the relief sought in relation to deleting reference to sensitive benthic habitats. Sensitive benthic habitats refer to marine habitats identified in the report <a href="https://www.trc.govt.nz/assets/Documents/Plans-policies/CoastalPlanReview/SensitiveHabitats.PDF">https://www.trc.govt.nz/assets/Documents/Plans-policies/CoastalPlanReview/SensitiveHabitats.PDF</a> that have low tolerance to habitat damage and for which the time for the habitat to recover from any damage would be significant. Given the sensitivity and vulnerability of such marine habitats, officers consider it appropriate that they be recognised and provided for in Rule 52.
41 – Te Korowai o Ngāruahine Trust	1077	<b>Amend</b>  Submitter seeks amendment to Rule 52 of the Plan to require notification to iwi of any benthic grab sampling authorised by this rule.	<b>Accept</b>  Officers note that, under Condition (h), the Council requires to be informed of the activity at least five working days prior to the activity commencing and have agreed to pass this information to iwi authorities.
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	Officers recommend including an additional note under the Activity Description in response to the submitters request to read as follows:
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	<i>Note (2): Iwi authorities that have requested to be informed of this activity will be advised by the Council.</i>
43 – Royal Forest and Bird Protection Society	1078	<b>Support</b>  Retain Rule 52 of the Plan as notified.	<b>Accept</b>  Support noted. Rule 52 is retained subject to minor amendments as requested by other submitters that do not change the policy intent.
58 – Te Atiawa	1079	<b>Amend</b>  Submitter seeks amendment to Rule 52 of the Plan so that Iwi are notified.	<b>Accept</b>  In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and/or any Mana Whakahohe a Rohe agreements.
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	However, in relation to permitted activity notifications, the Council requires notification under standard, term and condition (h) at least five working day
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>before the activity is due to commence, and has agreed to forward this notification to iwi authorities that have requested to be kept informed.</p> <p>Officers recommend including Note (2) in response to the submitters request to read:</p> <p><i><u>Note (2): Iwi authorities that have requested to be informed of this activity will be advised by the Council.</u></i></p>
61 – Te Rūnanga o Ngāti Ruanui Trust	1080	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 52 of the Plan to include new and amended standards, terms and conditions to read:</p> <p>[...]</p> <p><i>(f) sampling does not have an adverse effect on the values associated with <u>cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage];</u></i></p> <p><i><u>(fa) the sampling does not have adverse effect on Schedules 1 and 2;</u></i></p> <p><i><u>(fb) the activity does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</u></i></p> <p><i>(g) sampling does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type, or any sensitive marine benthic habitat including those identified in Schedule 4 [Significant indigenous biodiversity] or any reef system <u>and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat] [...]</u></i></p>	<p><b>Accept in part</b></p> <p>The submitter is seeking amendment to Rule 52 of the Plan to include new and amended standards, terms and conditions. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>• decline the relief sought in relation to Condition (f). Officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>• decline the relief sought in relation to Condition (fa). Officers note that the effect of granting this relief would also make this rule redundant as Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape and it requires no adverse effects (even those less than minor)</li> <li>• decline relief sought in relation to Condition (fb) as unnecessary and uncertain for Plan users. The Rule is only providing for the collection of benthic grab samples for scientific or monitoring purposes in the coastal marine area. Officers note that impacts on cultural sites of significance are already addressed in Condition (f)</li> <li>• grant the relief in kind in relation to Condition (d). Officers recommend expanding the scope of Rule conditions to include reference to scheduled taonga species.</li> </ul>
		<p>Further submissions – Trans-Tasman Resources Ltd (6)</p> <p>Oppose</p>	
<b>Rule 53 – Minor disturbance and removal</b>			
	1081	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
6 – Trans-Tasman Resources Ltd		Retain Rule 53 of the Plan as this rule recognises the minor effects arising from such disturbance and removal.	Support noted. Rule 53 is retained subject to amendments to offer relief to other submitters' concerns where appropriate.
Further submissions – Climate Justice Taranaki Inc (21), Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
43 – Royal Forest and Bird Protection Society	1082	<b>Amend</b> Submitter supports retaining Conditions (c) to (g) but seeks amendment to Rule 53 of the Plan by removing Outstanding Value, Estuaries Unmodified, and Estuaries Modified coastal management areas from the rule and to make minor disturbance and removal of sand, shingle or other natural material in such areas a Restricted Discretionary Activity (rather than a Permitted Activity).	<b>Decline</b> Officers note that Rule 53 is a new rule providing for the removal of small quantities of sand for non-commercial purposes, e.g. for the sandpit or material for customary uses. Subject to compliance with standards, terms and conditions set out in the Rule, any adverse effects would be less than minor and transitory. Officers do not believe it appropriate or necessary to require people to obtain a resource consent to take less than 0.5 m <sup>3</sup> of sand, shingle, shell or other natural material.
Further submissions – Climate Justice Taranaki Inc (21)		Support	
43 – Royal Forest and Bird Protection Society	1083	<b>Amend</b> Submitter seeks amendment to Rule 53 of the Plan by including matters for control to consider effects on indigenous biodiversity, natural character and natural features and landscapes and other matters to consider the effects of noise, light and location.	<b>Decline</b> Refer to submission point 1082. Officers do not recommend requiring people to get a resource consent for such small scale activities. Notwithstanding that, it is officers' view that indigenous biodiversity considerations are adequately addressed in the standards, terms and conditions.
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
43 – Royal Forest and Bird Protection Society	1084	<b>Amend</b> Submitter seeks amendment to Rule 53 of the Plan by adding a new condition that restricts the activity to outside of bird breeding periods.	<b>Decline</b> Refer to submission point 1082. Officers do not consider the amendment sought to add any further value and consider the current standards, terms and conditions to provide the necessary direction for Plan users. Officers note that the scale of the activity is small and can be appropriately managed as a permitted activity. Officers recommend declining the relief requested.
	1085	<b>Amend</b>	<b>Accept in part</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
61 – Te Rūnanga o Ngāti Ruanui Trust		<p>Submitter seeks amendment to Rule 53 of the Plan to include new and amended standards, terms and conditions to read:</p> <p><i>(a) the activity does not have an adverse effect on the values associated with <u>cultural and</u> historic heritage identified in Schedule 5 [<u>Cultural and</u> Historic heritage];</i></p> <p><i><u>(aa) the activity does not have adverse effect on Schedules 1 and 2;</u></i></p> <p><i><u>(ab) the activity does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</u></i></p> <p><i>(b) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type, or any sensitive marine benthic habitat including those identified in Schedule 4 [Significant indigenous biodiversity] or any reef system <u>and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat]; [...]</u></i></p>	<p>The submitter is seeking amendment to Rule 53 of the Plan to include new and amended standards, terms and conditions. Specific comments on the new and amended proposed conditions are as follows:</p> <ul style="list-style-type: none"> <li>• decline the relief sought in relation to Condition (a). Officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>• decline the relief sought in relation to Condition (aa). Officers note that the effect of granting this relief would also make this rule redundant as Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape and it requires no adverse effects (even those less than minor or transitory)</li> <li>• decline relief sought in relation to Condition (ab) as unnecessary and uncertain for Plan users. The Rule is only providing for the extraction of small quantities of material (e.g. for a sandpit) in the coastal marine area. Officers also note that impacts on cultural sites of significance are already addressed in Condition (a)</li> <li>• grant the relief in kind in relation to Condition (b). Officers recommend expanding the scope of Rule conditions to include reference to scheduled taonga species.</li> </ul>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose

58 – Te Atiawa	1092	<b>Support</b>	<b>Accept</b>
		Retain Rule 55 of the Plan as notified.	Support noted.
<b>Rule 56 – Dredging and spoil disposal (Open Coast)</b>			
43 – Royal Forest and Bird Protection Society	1093	<b>Support</b>	<b>Accept</b>
		Retain Rule 56 of the Plan as notified.	Rule 56 is retained as notified.
Further submissions – Port Taranaki Ltd (32)		Support	
58 – Te Atiawa	1094	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 56 of the Plan to include the following conditions:	The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary activities.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u>(a) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity], and;</u></p> <p><u>(b) the activity does not have an adverse effect on the values associated with sites of significance to Māori identified in Schedule 5A and 5B.</u></p>	<p>Officers decline the relief noting that it is not standard planning practice for Discretionary or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41)		Support	<p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 39, 40, 41, 42, 43, 44 and 49 being given effect to. In particular, Policy 14 [Indigenous biodiversity], Policy 15 [Historic heritage] and Policy 16 [Relationship with tangata whenua] will provide protections for areas of concern identified by the submitter.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	1095	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 56 of the Plan to include standards, terms and conditions to read:</p> <p><u>(a) the activity does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></p> <p><u>(b) the activity complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></p> <p><u>(c) the activity is consistent with iwi management plan.</u></p> <p>AND</p> <p>Include the following notification note:</p> <p><u>Resource consent applications under this Rule will be notified to tangata whenua.</u></p>	<p><b>Decline</b></p> <p>The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary activities.</p> <p>Officers decline the relief noting that it is not standard planning practice for Discretionary or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 39, 40, 41, 42, 43, 44 and 49 being given effect to. In particular, Policy 16 [Relationship with tangata whenua] will provide protections for areas of concern identified by the submitter.</p>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	<p>In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and/or any Mana Whakahono a Rohe agreements.</p>
<b>Rule 57 – Beach replenishment</b>			
29 – Department of Conservation	1096	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 57 of the Plan to read:</p> <p><i>Deposition of natural <u>marine</u> material [...]</i></p>	<p><b>Decline</b></p> <p>Officers agree that beach replenishment materials should be similar to the sediments that already existing in the natural receiving environment, however,</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		AND Include controls around particle size, and requirements for marine material similar to that of the receiving environment.	this is a detail that would be addressed within the consenting process on a case-by-case basis and does not require mention within the rule itself.
40 – Te Rūnanga o Ngāti Mutunga	1097	<b>Amend</b>  Submitter seeks amendment to Rule 57 of the Plan to include 2 additional conditions: <i>(c) the activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5 [Historic Heritage]</i> <i>(d) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A.</i>	<b>Decline</b>  The submitter has sought the inclusion of standards, terms and conditions for a rule in the Plan that has a Discretionary Activity classification. Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Non-complying Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.  Officers note that effects on species and ecosystems are provided for and protected under Policy 14 [Indigenous biodiversity] and will be required to be given effect through this rule by having regard for Policies 1 to 21, 22, 40, 41, 42, 44 and 49 being given effect to.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
41 – Te Korowai o Ngāruahine Trust	1098	<b>Amend</b>  Submitter seeks amendment to Rule 57 of the Plan to acknowledge the role that kaitiaki play in wanting to protect areas of ecological value and biodiversity and sites of significance.	<b>Decline</b>  Officers recommend declining the relief sought by the submitter. Officers do not consider the rules to be an appropriate place to discuss the role of kaitiaki in wanting to protect areas of ecological value, biodiversity and sites of significance. Such matters have been addressed elsewhere in the Plan. Officers note that the rules are subject to the provisions within the policies and as such kaitiaki is already provided for within Policy 16 [Relationship of tangata whenua]. Thus, kaitiaki will have to be considered through this rule irrespective of whether it is explicitly mentioned or not and can be done so through iwi involvement in the consent process on a case-by-case basis.
41 – Te Korowai o Ngāruahine Trust	1099	<b>Amend</b>  Submitter seeks amendment to Rule 57 of the Plan to include standards, terms and conditions to ensure that the activities do not have any adverse effects on species and ecosystems and do not impact on the values of the sites listed in Schedules 5A and B.	<b>Decline</b>  The submitter has sought the inclusion of standards, terms and conditions for a rule in the Plan that has a Discretionary Activity classification. Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Non-complying

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Officers note that effects on species and ecosystems are provided for and protected under Policy 14 [Indigenous biodiversity] and will be subject to the activity obtaining a resource consent and giving effect to Policies 1 to 21, 22, 40, 41, 42, 44 and 49.</p>
43 – Royal Forest and Bird Protection Society	1100	<b>Support</b>	<b>Accept</b>
		Retain Rule 57 of the Plan as notified.	
Further submissions – Port Taranaki Ltd (32)		Support	
58 – Te Atiawa	1101	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment to Rule 57 of the Plan to include the following conditions:</p> <p><i><u>(a) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity], and;</u></i></p> <p><i><u>(b) the activity does not have an adverse effect on the values associated with sites of significance to Māori identified in Schedule 5A and 5B.</u></i></p>	
61 – Te Rūnanga o Ngāti Ruanui Trust	1102	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment to Rule 57 of the Plan to include standards, terms and conditions to read:</p> <p><i><u>(a) the activity does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</u></i></p> <p><i><u>(b) the activity complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</u></i></p> <p><i><u>(c) the activity is consistent with iwi management plan.</u></i></p>	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>AND</p> <p>Include the following notification note:  <u><a href="#">Resource consent applications under this Rule will be notified to tangata whenua.</a></u></p>	<p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 40, 41, 42, 44 and 49 being given effect to. In particular, Policy 16 [Relationship with tangata whenua] will provide protections for areas of concern identified by the submitter.</p> <p>In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and or Mana Whakahono a Rohe agreements.</p> <p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.
<b>Rule 63 – Other reclamation or drainage that is not provided for in Rule 62 (Estuaries Modified, Open Coast, Port)</b>			
29 – Department of Conservation	1126	<b>Support</b>	<b>Accept</b>
		Retain Rule 63 of the Plan as notified.	Support noted
Further submissions – Port Taranaki Ltd (32)		Support	
40 – Te Rūnanga o Ngāti Mutunga	1127	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 63 of the Plan to include 2 additional conditions: <i><u>(a) the activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5 (Historic Heritage)</u></i> <i><u>(b) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A.</u></i>	Officers recommend declining the relief requested by the submitter as rules with a Discretionary Activity classification do not include standards, terms or conditions as they are determined on a case-by-case basis through the consenting process. Officers note that the activity will be required to give effect to the relevant policies, namely General Policies 1 to 21 and Activity-based Policies 45 and 46. The submitter's concerns regarding historic heritage and biodiversity will be explicitly considered and addressed when giving effect to Policy 14 [indigenous biodiversity] and Policy 15 [historic heritage].
41 – Te Korowai o Ngāruahine Trust	1128	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 63 of the Plan to acknowledge the role that kaitiaki play in wanting to protect areas of ecological value and biodiversity and sites of significance.	Officers recommend declining the relief sought by the submitter. Officers do not consider the rules to be an appropriate place to discuss the role of kaitiaki in wanting to protect areas of ecological value, biodiversity and sites of significance. Such matters have been addressed elsewhere in the Plan. Officers note that the rules are subject to the provisions within the policies and as such kaitiaki is already provided for within Policy 16 [Relationship of tangata whenua]. Thus, kaitiaki will have to be considered through this Rule irrespective of whether it is explicitly mentioned or not and can be done so through iwi involvement in consents.
	1129	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
41 – Te Korowai o Ngāruahine Trust		Submitter seeks amendment to Rule 63 of the Plan to include conditions to ensure that the activities do not have any adverse effects on species and ecosystems and do not impact on the values of the sites listed in Schedules 5A and B.	<p>It is not standard planning practice for Discretionary and Non-complying Activities to contain standards, terms or conditions. These considerations are addressed through the consenting process on a case-by-case basis by giving effect to the relevant policies (1 to 21 and 47). Officers note that Policy 14 [Indigenous biodiversity] provides protections for regionally important species and ecosystems and Policy 15 [Historic heritage] provides protections for the values of sites listed in Schedules 5A and 5B.</p> <p>Officers recommend declining the requested relief as it is an operational level of detail that is not required within the rules section of the Plan.</p>
58 – Te Atiawa	1130	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 63 of the Plan to include the following conditions:</p> <p><i><u>(a) activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity], and;</u></i></p> <p><i><u>(b) the activity does not have an adverse effect on the values associated with sites of significance to Māori identified in Schedule 5A and 5B.</u></i></p>	<p><b>Decline</b></p> <p>The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to Discretionary Activities.</p> <p>Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Submitter	Submission point	Submitter's requests	Officers' recommendation and response
41 – Te Korowai o Ngāruahine Trust	1140	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Condition (b) of Rule 65 of the Plan to read: <i>(b) activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5A and B Historic heritage;[...]</i>	Officers recommend granting the relief sought by the submitter.
43 – Royal Forest and Bird Protection Society	1141	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 65 of the Plan by incorporating previous reliefs sought in relation to indigenous biodiversity.	Officers note that Rule 65 already includes a condition specifically addressing indigenous biodiversity and no further changes are considered necessary. It is unclear what amendments are sought by the submitter to the rule noting that previous reliefs sought in other provisions will be addressed elsewhere.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	
58 – Te Atiawa	1142	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 65 of the Plan by removing areas of Outstanding Value from the coastal management area.	Officers recommend declining the relief sought by the submitter. Outstanding areas includes substantial areas of the Open Coast which are unlikely to be impacted upon by any takes of water from the coastal marine area. Notwithstanding that, as part of a precautionary approach, Rule 65 of the Plan does not apply to estuaries and standards, terms and conditions apply to ensure no adverse effects on significant indigenous biodiversity, historic heritage, and surf breaks.
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	
58 – Te Atiawa	1143	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Rule 65 of the Plan by adding a new standard, term and condition setting a water take limit.	Officers are not aware of any limit that is likely to result in sea level dropping or prevent the availability of coastal water for other uses and values. Notwithstanding that, in response to relief sought by other submitters officers have included a new condition that reads as follows: <i><u>(ca) the taking or use of water is not at a quantity or rate that would cause significant adverse environmental effects</u></i>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	
Further submissions – Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
60 – Te Kaahui o Rauru	1144	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 65 of the Plan to notify Te Kaahui o Rauru of this kind of activity, especially in regards to the scale and timing of the activity.	Unlike other Permitted Activity rules, the standards, terms and conditions do not require that the person undertaking the activity notify the Council of the

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	activity, which, in some instances, the Council has agreed to pass on the notification details to iwi authorities. This is because the activity is considered to result in less than minor effects (if any). Officers recommend declining the relief requested.
61 – Te Rūnanga o Ngāti Ruanui Trust	1145	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Rule 65 of the Plan to include new and amended standards, terms and conditions to read: [...] <i>(b) the activity does not have an adverse effect on the values associated with <u>cultural and historic heritage identified in Schedule 5 [Cultural and Historic heritage];</u></i> <i><u>(c) the activity does not have adverse effect on Schedules 1 and 2;</u></i> <i><u>(d) the activity does not have any adverse effect on any site identified in 5B [Sites of significance to Māori and associated values] and Appendix 2;</u></i> <i><u>(e) the activity does not adversely affect the suitability of the receiving environment for customary use;</u></i> <i>(f) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A [Significant indigenous biodiversity] and taonga species protected under Taranaki iwi Deed of Settlement including those identified in Schedule 4C [Taonga species and habitat]</i> <i>(g) activity complies with the general standards in Section 8.6 [...]</i>	The submitter is seeking amendment to Rule 65 of the Plan to include new and amended standards, terms and conditions. Specific comments on the new and amended proposed conditions are as follows: <ul style="list-style-type: none"> <li>decline the relief sought in relation to Condition (b). Officers refer the submitter to previous comments made on expanding the scope of historic heritage</li> <li>decline the relief sought in relation to Condition (c). Officers note that the effect of granting this relief would also make this rule redundant as Schedules 1 and 2 capture the whole coastal marine area plus landward parts of the coastal environment identified as having outstanding natural character or being an outstanding natural feature or landscape and it requires no adverse effects (even those less than minor or transitory)</li> <li>decline the relief sought in relation to Condition (c) and (e) noting that such matters are already addressed under Condition (b) and a new condition addressing taonga species</li> <li>grant the relief in kind in relation to Condition (f). Officers recommend expanding the scope of Rule conditions to include reference to scheduled taonga species.</li> </ul>

<b>Rule 66 – Taking or use of water, heat or energy</b>			
40 – Te Rūnanga o Ngāti Mutunga	1146	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Rule 66 of the Plan to include standards, terms and conditions to read:	The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to discretionary activities.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u>(a) the activity does not have an adverse effect on the values associated with historic heritage identified in Schedule 5 [Historic Heritage]</u></p> <p><u>(b) the activity does not have an adverse effect on any threatened or at risk, or regionally distinctive species, or any rare and uncommon ecosystem type including those identified in Schedule 4A</u></p> <p><u>(c) Taking or use of water is not at a quantity or rate that would cause adverse environmental effects.</u></p>	<p>Officers recommend declining the relief noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21, 22, 39, 40, 41, 42, 44, 45, 46 and 49 being given effect to. In particular, Policy 16 [Relationship with tangata whenua] will provide protections for areas of concern identified by the submitter.</p>
58 – Te Atiawa	1147	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 66 of the Plan by removing areas of Outstanding Value, Estuaries Unmodified and Estuaries Modified from the coastal management area.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter. Officers note that Rule 66 specifically addresses, amongst other things, the taking and use of water, heat and energy from estuaries and areas of outstanding value as a discretionary activity. This is considered an appropriate activity classification for activities that are allowed under sections 14(3)(d) or (e) of the RMA.</p>
58 – Te Atiawa	1148	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 66 of the Plan by adding a new standard, term and condition setting a water take limit.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter.</p> <p>Officers note that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Non-complying Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Notwithstanding the above, officers note that the setting of any limit relating to a coastal water take may be determined through the consenting process on a case-by-case basis taking into consideration the relevant policies and the nature of the activity.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	1149	<p><b>Amend</b></p> <p>Submitter seeks amendment to Rule 66 of the Plan to include standards, terms and conditions to read:</p>	<p><b>Decline</b></p> <p>The submitter has sought the inclusion of standards, terms and conditions for rules in the Plan relating to discretionary and Non-complying activities.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><u><i>(a) the activity does not adversely affect the matters/values identified for protection by mana whenua in the cultural impact assessment;</i></u></p> <p><u><i>(b) the activity complies with tangata whenua indicators referred to in the tangata whenua monitoring plan</i></u></p> <p><u><i>(c) the activity is consistent with iwi management plan.</i></u></p> <p>AND</p> <p>Include the following notification note:</p> <p><u><i>Resource consent applications under this Rule will be notified to tangata whenua.</i></u></p>	<p>Officers recommend declining the relief sought noting that it is not standard planning practice for Discretionary Activity or Non-complying Activity rules to include standards, terms and conditions. Conditions relating to a Discretionary Activity are developed on a case-by-case basis through the consenting process having regard to the relevant Plan policies.</p> <p>Officers note that all matters identified by the submitter would be considered through the consenting process with Policies 1 to 21 and 47 being given effect to. In particular, Policy 16 [Relationship with tangata whenua] will provide protections for areas of concern identified by the submitter.</p> <p>In relation to notification requirements proposed by the submitter, officers note that the Plan is not intended to provide the operational detail for implementing every aspect of the Plan. Such detail is more appropriately included in the Council's standard operating procedures and/or any Mana Whakahono a Rohe agreements.</p> <p>In relation to notification requirements, the submitter (and others) has highlighted an issue with the notification requirements stated in the Plan which in turn raises issues with notification requirements in the RMA being regularly changed. Officers note that, over time the notification requirements identified in the Plan may become misleading and outdated following changes to RMA. Consequently, officers recommend to amend the heading throughout the rules section to refer only to "matters of control/discretion". Officers note recommendations to delete such notification requirements from the Plan and note that the relevant notification requirements are set out in sections 95A to 95G of the RMA.</p>
<b>Rules 1 to 66</b>			
28 – Grant Knuckey	1150	<p><b>Amend</b></p> <p>Amend Rules 1 to 66, as appropriate, to identify/address two new marine spatial management areas – Wahi Tapu Areas and Wahi Taonga Areas.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter. Refer to submission point 1296 for further information.</p>

	1151	<b>Amend</b>	<b>Decline</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
50 – Te Kāhui o Taranaki Trust		Submitter seeks amendment to all rules in Section 8 of the Plan to provide a new standard/term/condition to read: <i>[...] the activity does not adversely impact on Māori cultural values [...]</i>	All of the rules are subject to the policies within the Plan. Māori cultural values are recognised and provided for in Policy 16 [Relationship of tangata whenua] where it states: <i>Recognise and provide for the relationship of tangata whenua culture, values and traditions within the coastal environment [...]</i> Officers recommend declining the relief sought on the basis that it is already provided for and it is unnecessary to reiterate provisions within the Plan where they already apply. Officers note that activities will be subject to meeting the requirements of all of the General Policies as well as the relevant Activity-based Policies when being considered through the resource consenting process.
Further submissions – Trans-Tasman Resources (6)		Oppose	
<b>General Standards</b>			
43 – Royal Forest and Bird Protection Society	1152	<p><b>Amend</b></p> <p>Submitter seeks amendment to General Standards to include limits for permitted activities for:</p> <ul style="list-style-type: none"> <li>foreshore and seabed disturbance, vegetation disturbance and removal</li> <li>limits on sediment disturbance and resulting sediment plumes</li> <li>time periods to avoid removal or disturbance of vegetation during fish spawning to protect eggs until hatching</li> <li>other limits to avoid adverse effects consistent with Policies 13, 14 and 15 of the NZCPS, and ensure that any other adverse effects are no more than minor.</li> </ul>	<p><b>Decline</b></p> <p>The requests of the submitter are already addressed within the rules under rules relating the disturbance, deposition and extraction and therefore do not require further iteration within the general standards. Officers recommend declining the relief requested as the necessary standards and limits for permitted activities are already addressed in the relevant rules standards, terms and conditions. In addition, the concerns regarding disturbance of vegetation seems to be a matter concerned with the terrestrial environment and not within the coastal marine area, therefore, not relevant to this particular Plan.</p>
<b>General standards 8.6.2 – Light</b>			
43 – Royal Forest and Bird Protection Society	1153	<p><b>Amend</b></p> <p>Submitter seeks amendment to General Standard 8.6.2 [Lights] of the Plan to include:</p> <ul style="list-style-type: none"> <li>standards for lights to be shielded or of a colour so that they do not attract or disturb seabirds</li> </ul>	<p><b>Decline</b></p> <p>Officers recommend declining this relief sought by the submitter and note the following:</p> <ul style="list-style-type: none"> <li>General standard 8.6.2 already states that light sources will be shielded except for navigational aids and lights required under the</li> </ul>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<ul style="list-style-type: none"> <li>new standard to avoid lighting near any seabird, including penguin, breeding areas</li> <li>new standards for navigational aids and safety to mitigate any adverse effects on seabirds.</li> </ul>	<p>Acts of Parliament. For navigational aids, a shielded light would lessen its effective over long distances and result in higher risks to vessels within the coastal marine area. A further consideration is that light colour is an important identifier of hazards and vessel pathways. Specific colours are required to comply with international regulations and standards.</p> <ul style="list-style-type: none"> <li>Lights in the coastal marine area are largely used for navigation and safety. As they are in the coastal marine area (and not on land) impacts on penguin breeding areas is likely to be minimal.</li> <li>Navigational aids are critical and ensure the safe passage of vessels within the coastal marine area and avoid incidents at sea, which, in turn are likely to have a much more significant impacts on seabirds and other marine life, e.g. marine oil spills.</li> </ul>
Further submissions – Port Taranaki Ltd (32)		Oppose	
60 – Te Kaahui o Rauru	1154	<p><b>Amend</b></p> <p>Submitter seeks amendment to General Standard 8.6.2 [Lights] of the Plan to include a limit for biodiversity impacts.</p>	<p><b>Decline</b></p> <p>Officers recommend declining the relief sought by the submitter. Officers note that biodiversity impacts will be considered through the consenting process on a case-by-case basis. Officers note that lighting is an important tool for effective and safe movement of vessels within the coastal marine area and in most instances, the benefits of correct lighting will outweigh any adverse effects caused by their use. An example of an adverse effect occurring as a result of incorrect lighting would be a ship wreck or collision causing an oil spill. The adverse effects of such an incident may be higher for biodiversity than the correct operation of navigational aids and lighting within the coastal marine area.</p>
<b>General standards 8.6.3 – Noise</b>			
9 – Karen Pratt	1155	<p><b>Other</b></p> <p>Note that the noises limits written in the General Standards for noise would not be able to be complied with should an operation the size of the recently permitted ironsand mining occur in the territorial waters.</p>	<p><b>No relief necessary</b></p> <p>Comments noted.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
32 – Port Taranaki	1156	<b>Support</b>	<b>Accept</b>
		Retain the noise provisions in the Plan based on implementation of the Port Noise Standard and alignment between the New Plymouth District Plan and the Proposed Coastal Plan provisions as each go through their respective review processes.	Support noted. General Standards 8.6.3 is retained as notified.
33 – New Zealand Defence Force	1157	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to General Standard 8.6.2(c) of the Plan by removing the provisions within general standards and replacing with standards prepared by the New Zealand Defence Force specifically for temporary military training activities (NZDF standards provided with submission).	Officers recommend accepting in part the relief requested by the submitter. Officers recommend an alternative amendment that promotes integrated management through the management of noise between the Council and New Plymouth District Council. Officers recommend aligning General Standard 8.6.2(c) of the Plan with the corresponding provisions from the Proposed District Plan for New Plymouth as well as incorporating, in part, the relief requested by the submitter. Officers note that the amended standard include new separation distances for activities involving live firing, firing of blanks or explosives, new guidance for helicopter noise as well as amended limits for noise during different time intervals.
37 – Petroleum Exploration and Production Association of NZ	1158	<b>Other</b>	<b>No relief necessary</b>
		Submitter note the noise limits under (d) from 10pm to 7am is now 40dB LAeq, while under the current Coastal Plan the limit is 45 dBA L10 but are unaware of any issues warranting the proposed stricter condition.	Note that as part of this Plan review, the Council has undertaken further work and sought to better align noise provisions with equivalent provisions arising from the New Plymouth district plan review.
43 – Royal Forest and Bird Protection Society	1159	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to General Standard 8.6.2 [Noise] of the Plan to include a specific standard setting out guidance on how appropriate noise standards are to be determined for activities which generate noise in the marine environment that reads as follows (or similar):  <u><i>Considerations of the latest information of the effects of noise of marine species and habitats. The use of the most recent professionally supported noise modelling for the marine environment. Taking a precautionary approach where limited information is available.</i></u>	Officers recommend declining the relief sought by the submitter. Officers are concerned that references to the “ <i>latest information</i> ” and “ <i>most recent professionally supported noise modelling for the marine environment</i> ” does not provide sufficient clarity for Plan users, is ambiguous and would result in potentially different standards to be applied throughout the life of the Plan. Further, there is often a level of division amongst the scientific community within any area of research, and therefore, may be difficult to determine a “ <i>professionally supported</i> ” noise model.
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	Officers note that the General Standards only apply where a rule explicitly states that the standards apply. Activities to which these General Standards

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			apply have been assessed as generally having less than minor adverse effects.
48 – Taranaki District Health Board	1160	<p><b>Support</b></p> <p>Retain General Standards 8.6.3(a), (b) and (c) [Noise] of the Plan as notified.</p>	<p><b>Accept</b></p> <p>Support noted. General Standards 8.6.3(a) and (b) are retained as notified subject to minor amendments. Officers note that amendments are recommended to General Standard 8.6.3(c) to create alignment with the noise limits in the Proposed District Plan for New Plymouth.</p>
48 – Taranaki District Health Board	1161	<p><b>Amend</b></p> <p>Submitter seeks amendment to General Standards 8.6.3(a), (b) and (c) [Noise] of the Plan to read:</p> <p><i>Noise generated by any other activity in the coastal marine area (excluding those in (a), (b) and (c) above) shall not exceed the following at any point <del>landward of at</del> <del>or beyond</del> the boundary of the coastal marine area: [...]</i></p>	<p><b>Accept</b></p> <p>The amendment retains the intention of the clause but contains language that is more directive and commonly understood. Officers recommend granting the relief sought by the submitter.</p>

**(This page is intentionally blank)**

## 4.6 Financial contributions, monitoring and review

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Section 9 – Financial contributions</b>			
15 – Surfbreak Protection Society	1162	<b>Other</b>	<b>No relief necessary</b>
		Submitter notes that the use of economic instruments to mitigate adverse effects to surf breaks could be problematic and that surf breaks are finite. Currently there are no manmade structures that can produce surf breaks and suggests that it is imperative that existing breaks should be given a high priority of protection.	Comments noted. Policy 19 provides strong direction and guidance on the protection of surf breaks. Officers agree that surf breaks are finite and that for some values such as surf breaks economic instruments are not necessarily the most appropriate response to avoiding, remedying or mitigating any adverse effects arising from use and development in the coastal marine area. However, economic instruments may be an option for offsetting some adverse effects (where that is appropriate). Economic instruments are implemented only in accordance with Section 9 of the Plan and relevant policies and when other avoidance, mitigation and remedial options have been exhausted.
29 – Department of Conservation	1163	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Section 9 of the Plan to include a statement that states consideration of whether a coastal occupation charging regime is included in the Plan.	The Council will not be operating a coastal occupation charging regime. Under section 64A [Imposition of coastal occupation charges] of the RMA, the Council must include a statement to explain this. Therefore, officers recommend amending Section 9 to include the following statement: <i>Note: The Council is not operating a charging regime for occupation of the coastal area.</i>
32 – Port Taranaki	1164	<b>Amend</b>	<b>Accept</b>
		Retain Section 9 of the Plan but seek amendment of the heading of Section 9 of the Plan to read: <i>9 - Financial contributions and environmental compensation.</i>	Officers agree to the requested amendment as it more accurately describes the content of this section which is not limited to financial contributions but also includes environmental compensation.
43 – Royal Forest and Bird Protection Society	1165	<b>Support</b>	<b>Accept</b>
		Submitter supports retaining the note in Section 9.1.1 of the Plan, which recognises that changes to the RMA mean that councils will no longer be able to require financial contributions under the Act from 2022.	Support noted. The note is retained as notified.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Fonterra (47)		Support in part	
<b>Section 9.1 – Purpose</b>			
2 – Federated Farmers	1166	<b>Support</b>	<b>Accept</b>
		Submitter supports the note in Section 9.1.1 of the Plan. Retain as notified.	Support noted. The note is retained as notified.
32 – Port Taranaki	1167	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to Section 9.1 of the Plan to include wording that provides for environmental compensation to be applied wider afield than the immediate/adjacent site or surrounding area.	Officers note that Section 9 does not generally require environmental compensation to be applied in the immediate/adjacent site or surrounding area. The majority of situations described in Section 9.1 refer to “the general area” or “locality” and is not confined to “immediate or adjacent sites”. The only exception is Section 9.1.4 [Protection, maintenance or enhancement of visual amenity and landscape] which requires compensation to occur adjacent to the site to address visual amenity impacts. Officers consider these conditions to be appropriate and provides the necessary flexibility for Council to consider the effects of consenting a particular activity and the appropriateness of avoidance, mitigation and remediation measures to address adverse environmental effects. On occasion there may be a requirement to offset or mitigate any residual effects. Such matters necessarily need to be considered on a case-by-case basis having regard for the scale of the activity and the nature of the receiving location, including the surrounding landscape.
<b>Sections 9.1.3 – Protection, maintenance or enhancement of biodiversity</b>			
60 – Te Kaahui o Rauru	1168	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Sections 9.1.3 [Protection, maintenance or enhancement of biodiversity] of the Plan to include the option of financial contributions to improve kaitiakitanga.	The purpose of this section is to set out the criteria by which Council may require financial contributions from consent applicants. The purpose of the financial contributions are confined to giving effect to the objectives and policies of the Plan and, in particular, those values and uses identified in General Policies 1 to 21.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	There will be occasion when financial contributions addressing those matters set out in Section 9 will also contribute to improving kaitiakitanga. However, officers do not believe it appropriate for the Plan to specify that the purpose of financial contributions to address resource management effects in the coastal marine area should be <u>specifically</u> to enhance kaitiakitanga.
<b>Section 9.1.5 – Protection, maintenance or restoration of sites of historic importance</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
60 – Te Kaahui o Rauru	1169	<b>Amend</b> Submitter seeks further engagement and discussion regarding Section 9.1.5 [Protection, maintenance or restoration of sites of historic importance]. Specifically to widen offset options.	<b>No relief necessary</b> Comments noted. Officers consider the current offset options to be reasonable and note that the options should already provide for the appropriate protection of historic heritage, including sites of significance to Māori.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
<b>Section 9.1.6 – Protection, restoration or enhancement of seabed and foreshore</b>			
60 – Te Kaahui o Rauru	1170	<b>Amend</b> Submitter seeks amendment to Section 9.1.6 [Protection, restoration or enhancement of seabed and foreshore] of the Plan to include the option of improving kaitiakitanga.	<b>Decline</b> The purpose of this section is to set out the criteria by which consents officers may require financial contributions from consent applicants. The purpose of the financial contributions are confined to giving effect to the objectives and policies of the Plan and, in particular, those values and uses identified in General Policies 1 to 21. There will be occasion when financial contributions addressing those matters set out in Section 9 will also contribute to improving kaitiakitanga. However, officers do not believe it appropriate for the Plan to specify that the purpose of financial contributions to address resource management effects in the coastal marine area should be <u>specifically</u> to enhance kaitiakitanga.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
<b>Section 9.1.8 – General – environmental compensation</b>			
43 – Royal Forest and Bird Protection Society	1171	<b>Amend</b> The submitter is uncertain as to how these provisions are to be applied and states that it is not appropriate to consider compensation for adverse effects which are to be avoided under the <i>New Zealand Coastal Policy Statement</i> . The submitter suggests compensation does not achieve protection of the values and characteristics to be protected. There must be limits to compensation to give effect to the <i>New Zealand Coastal Policy Statement</i> . Submitter seeks amendment to the Plan by deleting Section 9.1.8 [General environmental compensation]: <del>9.1.8 General environmental compensation</del>	<b>Decline</b> The submitter's comments are noted. However, officers note that environmental compensation is still subject to the objectives and policies of the Plan, which provide varying levels of protection including avoidance type policies. Environmental compensation cannot be considered in lieu of compliance with those policies. Officers recommend declining the relief sought. Environmental compensation may be a useful tool for activities unable to avoid adverse effects. This may be the case for necessary developments, upgrade or the placement of regionally important infrastructure which is provided for under the <i>Regional Policy Statement</i> (Section

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>Purpose: To provide environmental compensation where an activity will have adverse effects, which will not be adequately avoided, remedied or mitigated by protecting, restoring and/or enhancing natural and physical resources and/or amenity values elsewhere in the coastal environment in the same general locality.</i>	15.2 [Providing for regionally significant infrastructure]). Further, the <i>New Zealand Coastal Policy Statement</i> does not require avoidance of <u>all</u> adverse effects. In such instances the Council may be required to “avoid significant adverse effects” or to “have regard to”. This language may introduce instances where financial contributions are acceptable, reasonable and recommended.
Further submissions – Trans-Tasman Resources Ltd (6), Port Taranaki Ltd (32)		Oppose	It is important to recognise that these compensations can only be implemented when the policies within the Plan permit. Officers consider the policies within the Plan to be strong and to uphold the requirements of the <i>New Zealand Coastal Policy Statement</i> and therefore the compensations provided for here will be in alignment with requirements of the <i>New Zealand Coastal Policy Statement</i> .
<b>Section 9.2 and 9.2.6 – Determining a financial contribution</b>			
60 – Te Kaahui o Rauru	1172	<b>Other</b> Submitter seeks further clarification on Section 9.2 of the Plan on the use of financial contributions and their application AND Seek further engagement and discussion regarding Section 9.2.6 specifically to clarify whether it is the intention to aim for full mitigation or compensation in general, although that may not always be achieved.	<b>No relief necessary</b> The use of financial contributions will be tailored to the consent activity on a case-by-case basis having regard for the likely effects and in accordance with Plan policies. Full mitigation is a desirable outcome, however, officers recognise that this may not be achievable in all circumstances. Compensation is a way of recognising and providing for instances where full mitigation is not possible or is only partially possible. Section 9.2.6 provides for these instances so is a provision for compensation in general, however, it is preferable to mitigate in full if/where possible.
<b>Section 9.2.1 –Matters to be considered</b>			
60 – Te Kaahui o Rauru	1173	<b>Other</b> Submitter seeks clarification within Section 9.2.1 of the Plan to specify whether “community effects” is considered under cultural effects.	<b>No relief necessary</b> Consideration of community effects will recognise and take into consideration any possible cultural effects.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	
<b>Section 10.1 – Monitoring</b>			
	1174	<b>Amend</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
41 – Te Korowai o Ngāruahine Trust		Submitter seeks amendment to Section 10.1 of the Plan to include a specific method about engaging in dialogue with iwi in order to understand perceptions and values, and the application of mātauranga Māori.	This section specifically describes how the Council will determine the effectiveness of the Plan through ongoing monitoring and evaluation processes. The Council is not currently in a position to implement any monitoring programmes that include elements of mauri values or the application of mātauranga Māori but will be seeking to engage with local iwi and hapū to investigate the development of such a system. Officers recommend granting the relief sought by the submitter by including a new Clause (3A) in Section 10.1 of the Plan that reads as follows: <u><a href="#">3A. Investigate monitoring methods for the incorporation of mātauranga Māori into state of the environment monitoring for the coastal environment.</a></u>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	
50 – Te Kāhui o Taranaki Trust	1175	<b>Amend</b> Submitter seeks amendment to Section 10.1 of the Plan to include the following new monitoring methods: <ul style="list-style-type: none"> <li>development of a mātauranga Te Ao Māori monitoring system in partnership with iwi</li> <li>annual review in partnership with iwi of the effectiveness of a co-designed and resourced Memorandum of Understanding, Mana Whakahono a Rohe Agreement and policy and consent processes.</li> </ul>	<b>Accept in part</b> There are two elements in relation to the relief sought by the submitter. In relation to the development of a mātauranga Te Ao Māori monitoring system in partnership with iwi, officers agree to the relief sought by including a new Clause (3A) in Section 10.1 of the Plan that reads as follows: <u><a href="#">3A. Investigate monitoring methods for the incorporation of mātauranga Māori into state of the environment monitoring for the coastal environment.</a></u>
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Te Atiawa (58)		Support	In relation to a new method to undertake an annual review of the effectiveness of a co-designed and resourced Memorandum of Understanding and Mana Whakahono a Rohe Agreement, officers do not recommend granting the relief sought. Officers are hopeful that Memorandum of Understanding or Mana Whakahono a Rohe agreements will be implemented in the future. However, at this point in time, there are no such agreements and it is not considered appropriate to pre-empt the outcomes of those agreements, including operational details around the scope and timeframes for implementing particular aspects of those agreements, by including such detail in the Plan.
60 – Te Kaahui o Rauru	1176	<b>Amend</b> The procedures for a review programme should include specific mention of reviewing achievement of conditions to iwi and Māori values. Submitter seeks amendment to Section 10.1 of the Plan to include Māori values as a focus point in monitoring.	<b>Accept</b> Officers note Implementation Method 30 of the Plan, which states that the Council will work with iwi authorities to develop memoranda of understanding that establish and maintain an effective working relationship. In particular, Mana Whakahono a Rohe agreements between the Council and iwi represent an opportunity to set out agreements on Council – iwi relationship, including any requirements to review and report on the achievement of consent conditions relating to tangata whenua values. Section 10.1 of the Plan specifically describes how the Council will determine the effectiveness of the Plan through ongoing monitoring and evaluation processes.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>The Council is not currently in a position to implement any monitoring programmes that include elements of mauri values or the application of mātauranga Māori but will be seeking to engage with local iwi and hapū to investigate the development of such a systems. ## 4.7 Definitions

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Definitions – General</b>			
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1177	<b>Support</b>	<b>Accept</b>  Definitions for “best practicable option”, “coastal marine area”, “common marine and coastal areas”, “discharge”, “environment”, “structure”, and “industrial or trade premises” are retained as notified.
		Retain the RMA definitions such as “best practicable option”, “coastal marine area”, “common marine and coastal areas”, “discharge”, “environment”, “structure”, and “industrial or trade premises”.	
Further submissions – Port Taranaki Ltd (32)		Support	
<b>Definition – Accretion</b>			
43 – Royal Forest and Bird Protection Society	1178	<b>Amend</b>	<b>Accept</b>  Within the Plan, accretion is mentioned once in Policy 32 [Placement of structures] and therefore has been defined to assist in the interpretation and application of that Policy. Officers agree with the submitter that accretion is related to natural processes and recommend amending the definition of “accretion” to read:  <b>Accretion</b> means the seaward extension of land as a result <u>of the natural process</u> of deposition of sediments.
		Submitter notes that “accretion” is not provided for in the rules and that the definition should be amended to clarify that the term relates to the natural processes. It is suggested that, as worded, the definition could include deposition resulting from reclamation.  Submitter seeks amendment to the definition of “accretion” to clarify that accretion is a result of natural processes.	
<b>Definition – Adaptive management</b>			
6 – Trans-Tasman Resources Ltd	1179	<b>Amend</b>	<b>Decline</b>  Recent case law has highlighted adaptive management as an inappropriate method of managing activities that may produce impacts that are uncertain, little understood or potentially significantly adverse. As a result, officers recommend removing reference to adaptive management from the Plan entirely, including the definition of adaptive management.
		Submitter seeks amendment to the term “adaptive management” to read: <i>Adaptive management means a structured, iterative process of robust decision making in the face of uncertainty, <u>which includes allowing an activity to commence on a small scale or for a short period so that its effects can be assessed and a decision made about the appropriateness of continuing the activity (with or without amendment) on the basis of those effects with an aim to reducing uncertainty over time via system monitoring.</u> For the purposes of this Plan, the principles underpinning adaptive management include:</i>  <i>(a) <u>robust baseline monitoring to good baseline information to</u> establish the <del>existing</del> receiving environment;</i>	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		(b) resource consent conditions that <i>require provide for</i> effective monitoring of adverse effects using appropriate indicators; [...]	
Further submissions – Royal Forest and Bird Protection Society (43), Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
Further submissions – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Support in part	
29 – Department of Conservation	1180	<b>Support</b> Retain the definition “ <i>adaptive management</i> ” as notified.	<b>Decline</b> Recent case law has highlighted adaptive management as an inappropriate method of managing activities that may produce impacts that are uncertain, little understood or potentially significantly adverse. As a result, officers recommend removing reference to adaptive management from the Plan entirely, including the definition of adaptive management.
Further submissions – Meridian Energy Ltd (20), Port Taranaki Ltd (32)		Support	
43 – Royal Forest and Bird Protection Society	1181	<b>Amend</b> The submitter requests reference to “ <i>adaptive management</i> ” be deleted from Policy 3 and also seeks the deletion of the definition of adaptive management from the Plan.	<b>Accept</b> Recent case law has highlighted adaptive management as an inappropriate method of managing activities that may produce impacts that are uncertain, little understood or potentially significantly adverse. As a result, officers recommend removing reference to adaptive management from the Plan entirely, including the definition of adaptive management as requested by the submitter.
<b>NEW Definition – Alteration</b>			
57 – Heritage New Zealand	1182	<b>Amend</b> Alteration is referred to in a number of rules relating to structures in the coastal environment. This term can be interpreted in a variety of ways, so a specific definition would aid in Plan interpretation. Submitter seeks amendment to the Plan to include a new definition for “ <i>alteration</i> ” to read: <i>Alteration, in relation to buildings, means any changes to the fabric or characteristics of a structure involving, but not limited to, the removal and replacement of walls, windows, ceilings, floors or roofs, either internally or externally and includes any sign attached to the structure. In relation to structures,</i>	<b>Accept in part</b> Officers agree that the interpretation and application of the Plan, particularly in relation to rules addressing structures in the coastal marine area, would be improved by defining the term “ <i>alteration</i> ”. Officers note that alteration may apply to many types of structures and is not restricted to buildings, therefore, for the purpose of the Plan, reads as follows: <i>Alteration in relation to a structure, means any modification to a structure that does not increase its external dimensions.</i>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<u>means any changes to function, layout, or appearance of a structure without changing its physical dimensions.</u>	Officers note that change to the external dimensions of a structure is defined through the term "extension" which officers suggest should also be included within the definitions section for consistency. The definition of "extension" reads:
Further submissions – Port Taranaki Ltd (32), Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose	<u>Extension in relation to a structure, means any modification to the external dimensions of a structure, including length, width and height.</u>
<b>Definition – Amenity values</b>			
43 – Royal Forest and Bird Protection Society	1183	<p><b>Amend</b></p> <p>The submitter seeks clarity on whether "amenity values" includes visual amenity so that the areas identified in Policy 18 are recognised under the <i>National Environmental Standard for Plantation Forestry</i> and seeks that, if it does not include visual amenity, that the definition be amended to include visual amenity as part of amenity values.</p>	<p><b>Decline</b></p> <p>Under the <i>National Environmental Standard for Plantation Forestry</i>, visual amenity landscape means:</p> <p>"a landscape or landscape feature that –</p> <p>(a) is identified in a district plan as having visual amenity values, however described; and</p> <p>(b) is identified in the policy statement or plan by its location, including by a map, a schedule, or a description of the area."</p> <p>Officers recommend declining the request to amend the definition of "amenity values". Amenity values is defined by the RMA and officers do not consider it appropriate to amend the statutory definition. In addition, officers note that the use of "landscapes" in the suggested amendment provides a different meaning and application of the term "amenity values" meaning that only landscapes identified in plans or policy statements can be considered to have any amenity values, significantly reducing the locations where Policy 18 can be applied within the Plan. Notwithstanding the above, visual amenity is already implied within the current definition being a quality that contributes to "people's appreciation of its pleasantness and aesthetic coherence".</p>
Further submissions – Meridian Energy Ltd (20), Port Taranaki Ltd (32)		Oppose	
<b>Definition – Biofouling</b>			
16 – Ministry for Primary Industries	1184	<p><b>Amend</b></p> <p>Submitter seeks amendment to the definition of "biofouling" to include the following words after aquatic environment:</p> <ul style="list-style-type: none"> <li>"microfouling" – a layer of microscopic organisms including bacteria and diatoms and the slimy substances they produce, Often referred to</li> </ul>	<p><b>Grant in kind</b></p> <p>Officers recommend accepting the inclusion of definitions for macrofouling and microfouling but propose an alternative relief to that sought by the submitter. Officers suggest that the appropriate location of these definitions is not within the definition of biofouling and that each term should have its own, standalone</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>as a 'slime layer', microfouling can usually be removed by gently passing a finger over the surface.</p> <ul style="list-style-type: none"> <li>"macrofouling" – any organism not included in the definition of "microfouling".</li> </ul>	<p>definition following the alphabetical listing order that is within this section of the Plan and that the definition for "biofouling" should remain as notified.</p> <p>Refer to new definitions for macrofouling and microfouling within this section.</p>
Further submissions – Trans-Tasman Resources Ltd (6)	Neutral		
Further submissions – Port Taranaki Ltd (32)	Oppose		
33 – New Zealand Defence Force	1185	<p><b>Support</b></p> <p>Retain the definition of "biofouling" as notified.</p>	<p><b>Accept</b></p> <p>Definition of biofouling is retained as notified.</p>
Further submissions – Port Taranaki Ltd (32)		Support	
<b>Definition – Coastal environment</b>			
43 – Royal Forest and Bird Protection Society	1186	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by mapping the coastal environment for Taranaki and referencing this in an amended definition of "coastal environment"</p> <p>OR</p> <p>Alternatively delete the definition:</p> <p><i>Coastal environment means the areas where coastal processes, influences or qualities are significant, including lakes, lagoons, tidal estuaries, saltmarshes, coastal wetlands, and the margins of these and includes the coastal marine area</i></p>	<p><b>Accept</b></p> <p>Officers recommend including an indicative line incorporated within the coastal mapping layers to help establish the extent of the coastal environment. Consequential amendments to the Plan include an amended definition of coastal environment to read:</p> <p><b>Coastal environment means:</b></p> <p><i>(a) all of the coastal marine area;</i></p> <p><i>(b) those areas seaward of the indicative coastal environment line (map link); and</i></p> <p><i>(c) any other areas landward of the indicative coastal environment line where coastal processes, influences or qualities are significant.</i></p>
Further submissions – Meridian Energy Ltd (20)		Oppose	
Further submissions – Port Taranaki Ltd (32)		Oppose in part	
45 – Powerco	1187	<p><b>Amend</b></p>	<p><b>Accept</b></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p>Submitter seeks amendment to the Plan by mapping the coastal environment line for Taranaki and referencing this in an amended definition of "coastal environment" to read:</p> <p><i>Coastal environment means <del>the areas where coastal processes, influences or qualities are significant, including lakes, lagoons, tidal estuaries, saltmarshes, coastal wetlands, and the margins of these and includes all of</del> the coastal marine areas, <u>land inland to the point defined on the maps at Schedule X, the natural and physical resources within it, and the atmosphere above it.</u></i></p>	<p>Officers recommend including an indicative coastal environment line into the coastal mapping layers to help establish the extent of the coastal environment and to amend the definition of "coastal environment". However, officers note that this line is only an indicative line and the range of coastal processes captured in the original definition may still apply and may be relevant for determining on a case-by-case basis, whether or not an activity affects the coastal environment. The amended definition reads:</p> <p><b>Coastal environment means:</b></p> <p><i>(a) all of the coastal marine area;</i></p> <p><i>(b) those areas seaward of the indicative coastal environment line (map link); and</i></p> <p><i>(c) any other areas landward of the indicative coastal environment line where coastal processes, influences or qualities are significant.</i></p> <p>Officers also recommend additional consequential amendments to the Plan, including amendments to associated planning maps to identify the indicative coastal environment line.</p>
Further submissions – Meridian Energy Ltd (20)		Oppose	
Further submissions – Transpower NZ Ltd (26)		Support in part	
Further submissions – Fonterra (47)		Support	
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1188	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by mapping the coastal environment line for Taranaki and referencing this in an amended definition of "coastal environment" to read:</p> <p><i>Coastal environment means <del>the areas where coastal processes, influences or qualities are significant, including lakes, lagoons, tidal estuaries, saltmarshes, coastal wetlands, and the margins of these and includes all of</del> the coastal marine areas, <u>land inland to the point defined on the maps at Schedule X, the natural and physical resources within it, and the atmosphere above it.</u></i></p>	<p><b>Accept</b></p> <p>Officers recommend granting the relief sought by the submitter. Refer to submission point 1187 above.</p>
Further submissions – Meridian Energy Ltd (20)		Oppose	
<b>NEW Definition – Data deficient</b>			
43 – Royal Forest and Bird Protection Society	1189	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to include a new definition for "data deficient" species which are likely to be at risk or threatened however populations are so low that information is not available to determine status under the NZ Threat Classification.</p>	<p><b>Accept</b></p> <p>Officers recommend including a new definition for "data deficient species" to read:</p> <p><i><b>Data deficient species means those species that are likely to be at risk or threatened, however, populations are so low that information is not available to</b></i></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose	<i>determine their status under the New Zealand Threat Classification. This includes, but is not limited to, species identified as such in Schedule 4A.</i>
<b>Definition – Disturbance</b>			
43 – Royal Forest and Bird Protection Society	1190	<b>Support</b>	<b>Accept</b>
		Retain definition of “ <i>disturbance</i> ” as notified.	Support noted. Definition of “ <i>disturbance</i> ” is retained as currently notified.
<b>Definition – Ecosystem</b>			
43 – Royal Forest and Bird Protection Society	1191	<b>Support</b>	<b>Accept</b>
		Retain definition of “ <i>ecosystem</i> ” as notified.	Support noted. Definition of “ <i>ecosystem</i> ” is retained as currently notified.
<b>Definition – Erosion</b>			
43 – Royal Forest and Bird Protection Society	1192	<b>Support</b>	<b>Accept</b>
		Retain definition of “ <i>erosion</i> ” as notified.	Support noted. Definition of “ <i>erosion</i> ” is retained as currently notified.
<b>Definition – Estuary Modified</b>			
29 – Department of Conservation	1193	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the definition of “ <i>Estuary Modified</i> ” to read: <i>[...] means the coastal management area identified in Schedule 1 of the Plan, as the Pātea, Waiwhakaiho or Waitara Estuaries <u>and their outlets</u>, and which are surrounded by urban, extensively modified environments.</i>	Officers agree to amend the definition of Estuaries Unmodified, however, recommend alternative wording to maintain consistency with the RMA and the <i>Regional Policy Statement for Taranaki</i> . The amended definition reads as follows: <b><i>Estuaries Modified</i></b> refers to the coastal management area identified in Schedule 1 of the Plan, as the Pātea, Waiwhakaiho or Waitara Estuaries <u>and river mouths</u> , and which are surrounded by extensively modified environments.
43 – Royal Forest and Bird Protection Society	1194	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to the definition of “ <i>Estuary Modified</i> ” to reflect other reliefs sought by the submitter in relation to Policy 1.	Officers agree to amend the definition of Estuaries Unmodified, however, recommend alternative wording to maintain consistency with the RMA and the <i>Regional Policy Statement for Taranaki</i> . The amended definition reads as follows: <b><i>Estuaries Modified</i></b> refers to the coastal management area identified in Schedule 1 of the Plan, as the Pātea, Waiwhakaiho or Waitara Estuaries <u>and river mouths</u> , and which are surrounded by extensively modified environments.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Definition – Estuary Unmodified</b>			
29 – Department of Conservation	1195	<b>Amend</b>	<b>Accept in part</b>
		The submitter seeks amendment to the definition of “ <i>Estuary Unmodified</i> ” to read: [...] refers to estuaries identified in Schedule 1 of the Plan, <u>and their outlets</u> that are permanently open to tidal movements and are characteristically largely unmodified.	Officers agree to amend the definition of “ <i>Estuary Unmodified</i> ”, however, recommend alternative wording to maintain consistency with the RMA and the Regional Policy Statement for Taranaki. The amended definition reads as follows: <b>Estuaries unmodified</b> refers to estuaries <u>and river mouths</u> identified in Schedule 1 of the Plan, that are permanently open to tidal movements and are characteristically largely unmodified.
43 – Royal Forest and Bird Protection Society	1196	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to the definition of “ <i>Estuary Unmodified</i> ” to reflect other reliefs sought by submitter in relation to Policy 1.	Officers recommend to retain the definition of “ <i>Estuaries Unmodified</i> ” subject to minor amendments sought by other submitters. Refer to recommendations on Policy 1.
<b>NEW definition – Functional need</b>			
26 – Transpower NZ Ltd	1197	<b>Amend</b>	<b>Accept</b>
		Amend Plan to include a new definition for “ <i>functional need</i> ” to read: <u>The locational, operational, practical or technical needs of an activity, including development and upgrades.</u>	Officers recommend including a definition for “ <i>functional need</i> ” but noting that the definition must be aligned with the National Planning Standards 2019. The definition reads: <b>Functional need</b> means the need for a proposal of activity to traverse, locate or operate in a particular environment because the activity can only occur in that environment.
Further submissions – Meridian Energy Ltd (20)		Support	
Further submissions – Port Taranaki Ltd (32), Royal Forest and Bird Protection Society – (43)		Oppose	
Further submissions - Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Support in part	
45 – Powerco	1198	<b>Amend</b>	<b>Accept in part</b>
		Amend Plan to include a new definition for “ <i>functional need</i> ” to read:	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<u>Functional need means a requirement for a proposal or activity to traverse, locate or operate in the coastal environment.</u>	Officers recommend including a definition for "functional need" but note that the definition must be aligned with the <i>National Planning Standards 2019</i> provided by the Ministry for the Environment as this sets and aims to standardise the definitions of district and regional plans going forward. The definition reads as follows:  <u>Functional need means the need for a proposal of activity to traverse, locate or operate in a particular environment because the activity can only occur in that environment.</u>
Further submissions – Royal Forest and Bird Protection Society (43)		Oppose	
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1199	<b>Amend</b>	<b>Accept in kind</b>
		Amend Plan to include a new definition for "functional need" to read: <u>Functional need means a requirement for a proposal or activity to traverse, locate or operate in the coastal environment.</u>	Officers agree to include a definition for "functional need" as amendments to the Plan include reference to functional need within the Policies and Rules. Officers recommend alignment with the <i>National Planning Standards 2019</i> provided by the Ministry for the Environment as this sets and aims to standardise the definitions of district and regional plans going forward. The definition reads as follows:  <u>Functional need means the need for a proposal of activity to traverse, locate or operate in a particular environment because the activity can only occur in that environment.</u>
47 – Fonterra	1200	<b>Amend</b>	<b>Accept</b>
		Amend Plan to include a new definition for "functional need" to read: <u>Functional need means the need for a proposal or activity to traverse, locate or operate in a particular environment because it can only occur in that environment.</u>	Officers agree to include a definition for "functional need" as requested by the submitter.
Further submissions – Trans-Tasman Resources Ltd (6)		Support	
Further submissions – Royal Forest and Bird Protection Society (43)		Oppose	
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose in part	
<b>Definition – Habitat</b>			
	1201	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		Retain definition of “ <i>habitat</i> ” as notified.	Support noted. Definition of “ <i>habita</i> ” is retained as currently notified.
<b>Definition – Hapū</b>			
42 – Ngati Rahiri Hapū	1202	<p><b>Amend</b></p> <p>Submitter seek amendment to the definition of “<i>hapū</i>” to specify:                      [...] <i>families of people of Māori descent</i>.</p>	<p><b>Accept</b></p> <p>The definition of hapū was originally taken from the <i>Regional Policy Statement</i> and was adopted in this instance to maintain consistency with this and other regional plans. However, officers agree that the relief sought provides important detail that aids in the understanding of the definition. Over time the Council will update and align the definitions that have changed across different planning documents. Officers recommend amending the definition to read:  <i>Hapū means sub-tribe, usually a number of whanau (families) of people of Māori descent with a common ancestor.</i></p>
<b>Definition – Hard protection structure</b>			
43 – Royal Forest and Bird Protection Society	1203	<p><b>Support</b></p> <p>Retain definition of “<i>hard protection structure</i>” as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Definition of “<i>hard protection structure</i>” is retained as currently notified.</p>
<b>Definition – Hazardous substance</b>			
43 – Royal Forest and Bird Protection Society	1204	<p><b>Support</b></p> <p>Retain definition of “<i>hazardous substance</i>” as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Definition of “<i>hazardous substance</i>” is retained as currently notified.</p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1205	<p><b>Support</b></p> <p>Retain definition of “<i>hazardous substances</i>” as notified.</p>	<p><b>Accept</b></p> <p>Support noted. Definition of “<i>hazardous substance</i>” is retained as currently notified.</p>
<b>Definition – Heritage values</b>			
43 – Royal Forest and Bird Protection Society	1206	<p><b>Other</b></p> <p>Submitter seeks clarification on whether definition of “<i>heritage values</i>” includes natural heritage values.</p>	<p><b>No relief necessary</b></p> <p>Officers note that, depending upon context, “<i>heritage values</i>” does include natural heritage values.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Definition – Historic heritage</b>			
42 – Ngati Rahiri Hapū	1207	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment of the Plan to include the currently accepted definition of waahi taonga (Treasured Place) and requests amendment to (b)(iii) of the definition for “historic heritage” to read :</p> <p>[...]</p> <p>(b)(iii) sites of significance to Māori, including waahi tapu, <u>and waahi taonga</u>; and [...]</p>	<p>The submitter comments that while the RMA generally includes sites of significance under the definition of Historic Heritage, the submitter believes this to be a too broad approach to their sites. Environment Court case law has eroded the definition of traditional waahi tapu sites, to such an extent that waahi tapu are now no more than isolated and very small areas of land. The submitter further points out, the current definition for historic heritage is given by the RMA and dictates the current definition of historic heritage.</p> <p>Officers note the submitter's comments but do not believe it appropriate to deviate from the legislative definition. However, officers note that, in an effort to recognise wider cultural values associated with sites of significance to Māori, both wāhi tapu and wāhi taonga sites have been identified within the Plan and both of these terms have received their own definitions.</p>
<b>Definition – Incidental water</b>			
43 – Royal Forest and Bird Protection Society	1208	<b>Support</b>	<b>Accept</b>
		Retain definition of “ <i>incidental water</i> ” as notified.	Support noted. Definition of “ <i>incidental water</i> ” is retained as currently notified.
<b>NEW Definition – Industrial or trade site</b>			
42 – Ngati Rahiri Hapū	1209	<b>Amend</b>	<b>Decline</b>
		<p>This definition is not included in the Plan, however, “<i>industrial or trade premises</i>” is. The submitter believes that there is far more chance of problems happening with a “site” than with a “premises” so would like to see this definition added.</p> <p>Amend Plan to include a definition of “industrial or trade site”.</p>	<p>The definition of “<i>industrial or trade premises</i>” is taken from the RMA. The definition has a wide application that also covers industrial or trade “sites” although this is not explicitly recognised. Officers do not consider it necessary to include a new definition when the location in question has already been provided for under the original definition.</p>
<b>Definition – Integrated management</b>			
43 – Royal Forest and Bird Protection Society	1210	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the Plan by deleting definition of “ <i>integrated management</i> ”.	The submitter comments that it is not clear whether the Plan definition of “ <i>integrated management</i> ” is consistent with Policy 2. The submitter suggests that it

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>is not necessary to have a definition as this is more appropriately set out in Policy 2 of the Plan to give effect to the <i>New Zealand Coastal Policy Statement</i>.</p> <p>Officers agree with the submitter and consider that Policy 2 sets out the necessary and appropriate direction for Plan users. Officers recommend deleting the definition for <i>'integrated management'</i>.</p>
<b>Definition – Land</b>			
42 – Ngati Rahiri Hapū	1211	<p><b>Amend</b></p> <p>Submitter seeks amendment to the definition of <i>"land"</i> to include everything below the surface as well as above the surface.</p>	<p><b>Accept in part</b></p> <p>Officers recommend amending the definition of <i>"land"</i> to reflect previous amendments to that definition in the RMA. However, officers note that the statutory definition must prevail. Within this definition it refers to land covered by water and it is implicit that this covers all area above and below the surface. The amended definition reads:</p> <p><b>Land –</b></p> <p><i>(a) includes land covered by water and the airspace above the land; and</i></p> <p><i>(b) in a national environmental standard dealing with a regional council function under section 30 or a regional rule, does not include the bed of a lake or river; and</i></p> <p><i>(c) in a national environmental standard dealing with a territorial authority function under section 31 or a district rule, includes the surface of water in a lake or river.</i></p>
<b>NEW Definition – Macrofouling</b>			
29 – Department of Conservation	1212	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by including a new definition of <i>"macrofouling"</i> that reads:</p> <p><i>Macrofouling - is any organism not included in the definition of microfouling.</i></p>	<p><b>Accept</b></p> <p>Officers recommend to accept the requested relief as it provides further clarity for Plan users and is consistent with additional relief requested by other submitters. New definition of <i>"macrofouling"</i> reads as follows:</p> <p><i>Macrofouling is any biofouling organism not included in the definition of microfouling.</i></p>
<b>Definition – Maintenance</b>			
43 – Royal Forest and Bird Protection Society	1213	<p><b>Amend</b></p> <p>Submitter seeks amendment to the definition of <i>"maintenance"</i> to read:</p> <p><i>Maintenance in relation to structures, includes activities which restore a structure or asset to its original authorised standard and purpose, and where the character,</i></p>	<p><b>Grant in kind</b></p> <p>The submitter comments that the definition is generally helpful, however, believes that the exclusion of repair is confusing. The definition includes restore which is equivalent to repair. Also the Oxford online dictionary defines "maintain" as to</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>intensity and scale of the structure, asset or site remains the same or similar. It excludes the extension <del>or repair</del> of structures or assets, or change in location.</i></p> <p>AND</p> <p>Amend all rules which provide for "maintenance and repair" to only use the term "maintenance".</p> <p>Amend all rules which provide for "alteration or extension" in the same rule as "maintenance" to "minor alteration or extension".</p> <p>Amend all rules which provide for new structures to include "major alteration or extension".</p>	<p>"keep (a building, machine, or road) in good condition by checking or repairing it regularly."</p> <p>The submitter supports the exclusion of "extension"; however they are not clear how this relates to Policy 37 which provides for "major alterations and extensions". The Oxford dictionary defines "extension" as to enlarge or prolong something. As such it would generally fit with the policy requirements for "major upgrades".</p> <p>In the submitter's view, the Plan could provide for minor alterations or extensions in the same rules for "maintenance", however, major alterations or extensions must be considered under separate rules which enable adequate consideration of effects.</p> <p>Officers recommend largely giving effect to the relief sought by the submitter by an alternative relief involving reframing the maintenance, alteration, extension and removal rules (to more clearly differentiate between the respective activities based upon changes in their external dimensions). Consequential changes are also proposed to the Plan definition for "maintenance" and with new definitions for "alteration" and "extension" also proposed.</p> <p>The definition of "maintenance" has been reworded to better reflect the scope of the term and reads as follows:</p> <p><b><u>Maintenance includes the ongoing and regular activities that aid in the preservation of a structure and includes repair works conducted for the purpose of keeping the structure in good condition and/or working efficiently and where the character, intensity and scale of the structure remains the same.</u></b></p>
45 – Powerco	1214	<p><b>Amend</b></p> <p>Submitter comments that much of the maintenance work taken by the submitter arises when it has to replace old equipment with the modern equivalent or to replace a piece of equipment that is no longer working or is a safety risk. In requiring maintenance activities to restore an asset to its original authorised standard, the inference is that maintenance which is required to bring a standard up to a new standard is not provided for. This is opposed but could be readily addressed by amending the definition of "maintenance".</p> <p>Submitter seeks amendment to the definition of "maintenance" to read:</p> <p><b><u>Maintenance in relation to structures, includes replacement, repair, or renewal, activities for the purpose of keeping a structure in good condition and/or working efficiently which restore a structure or asset to its original authorised standard and purpose, and where the character, intensity and scale of the structure, or asset or</u></b></p>	<p><b>Grant in kind</b></p> <p>Officers note that the distinction between a maintenance activities and alteration activities may overlap in some instances, however, do not recommend including alteration within the definition of maintenance. Officers recommend that definitions differentiate between 'maintenance' and 'alteration'. These definitions align with relevant rules, particularly Rules 35 to 43,.</p> <p>Officers recommend the definition for "maintenance" read as follows:</p> <p><b><u>Maintenance in relation to a structure, means the ongoing and regular activities that aid in the preservation of a structure and includes repair works conducted for the purpose of keeping the structure in good condition and/or working efficiently and where the character, intensity and scale of the structure remains the same.</u></b></p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<p><i>site remains the same or similar. <u>In relation to network utilities it includes the addition of extra lines.</u> It excludes the extension <del>or repair</del> of structures or assets, or change in location.</i></p>	<p>Officers further note that alterations may not be restricted to alterations completed in order to bring a piece of equipment up to a new standard and there may be other reasons for altering a structure and may include other modifications for other purposes. Officers consider that it is appropriate to leave the definition broad so that it can be applied to other scenarios. For the purpose of the Plan officers recommend that the definition of alteration read as follows:</p>
<p>Further submissions – Petroleum Exploration and Production Association of New Zealand (37)</p>		<p>Support in part</p>	<p><u>Alteration, in relation to a structure, means any modification to a structure that does not increase its external dimensions.</u></p>
<p>Further submissions – Royal Forest and Bird Protection Society (43)</p>		<p>Oppose</p>	
<p>46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd</p>	<p>1215</p>	<p><b>Amend</b></p> <p>In requiring maintenance activities to restore an asset to its original authorised standard, the inference is that maintenance which is required to bring a standard up to a new standard is not provided for. This is opposed but could be readily addressed by amending the definition of “<i>maintenance</i>”.</p> <p>Submitter seeks amendment to the definition of “<i>maintenance</i>” to read:</p> <p><i>Maintenance in relation to structures, includes <u>replacement, repair, or renewal, activities for the purpose of keeping a structure in good condition and/or working efficiently which restore a structure or asset to its original authorised standard and purpose,</u> and where the character, intensity and scale of the structure, <del>or asset or site</del> remains the same or similar. It excludes the extension. It excludes the extension <del>or repair</del> of structures or assets, or change in location.</i></p>	<p><b>Accept</b></p> <p>Officers note that the distinction between a maintenance activities and alteration activities may overlap in some instances, however, do not recommend including alteration within the definition of maintenance. Officers recommend that definitions differentiate between ‘<i>maintenance</i>’ and ‘<i>alteration</i>’. These definitions align with relevant rules, particularly Rules 35 to 43.</p> <p>The following amendments to the definition of “<i>maintenance</i>” are recommended:</p> <p><u>Maintenance in relation to a structure, means the ongoing and regular activities that aid in the preservation of a structure and includes repair works conducted for the purpose of keeping the structure in good condition and/or working efficiently and where the character, intensity and scale of the structure remains the same.</u></p> <p>Officers further note that alterations may not be restricted to alterations completed in order to bring a piece of equipment up to a new standard and there may be other reasons for altering a structure and may include other modifications for other purposes. Officers consider that it is appropriate to leave the definition broad so that it can be applied to other scenarios. For the purpose of the Plan officers recommend that the definition of alteration read as follows:</p>
<p>Further submissions – Port Taranaki Ltd (32)</p>		<p>Support</p>	
<p>Further submissions – Petroleum Exploration and Production Association of New Zealand (37)</p>		<p>Support in part</p>	<p><u>Alteration in relation to a structure, means any modification to a structure that does not increase its external dimensions.</u></p>
<p>57 – Heritage New Zealand</p>	<p>1216</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to include definition of “<i>maintenance</i>” to read:</p> <p><u>Maintenance means the ongoing protective care of a place.</u></p>	<p><b>Grant in kind</b></p> <p>Officers do not consider that the relief suggested by the submitter provides the necessary direction or clarification as to what activities can be considered “<i>maintenance</i>” due to the use of the term “<i>protective care</i>”. This term is broad and</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Powerco (45), Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose	has potential to be misinterpreted or distorted to fit a user's requirements irrespective of the intent of the Plan.  Officers recommend amending the definition of 'maintenance to read'as follows:  <u><i>Maintenance in relation to a structure, means the ongoing and regular activities that aid in the preservation of a structure and includes repair works conducted for the purpose of keeping the structure in good condition and/or working efficiently and where the character, intensity and scale of the structure remains the same.</i></u>
<b>Definition – Maintenance dredging</b>			
43 – Royal Forest and Bird Protection Society	1217	<b>Support</b>  Retain definition of "maintenance dredging" as notified.	<b>Accept</b>  Definition of "maintenance dredging" is retained as notified.
<b>NEW Definition – Major alteration or extension</b>			
43 – Royal Forest and Bird Protection Society	1218	<b>Amend</b>  Submitter seeks amendment to the Plan to include a new definition of "major alteration or extension" to mean any alteration or extension of a structure which does not meet the definition of a minor alteration or extension.	<b>Accept in part</b>  Officers recommend giving partial relief to the request sought by the submitter involving reframing the maintenance, alterations, extensions and removal rules (to more clearly differentiate between the respective activities based upon changes in their external dimensions).  Consequential changes are also proposed to the Plan definition for 'maintenance' and with new definitions for 'alteration' and 'extension' also proposed. However, officers do not believe it is necessary to include a definition for "major alteration".  Officers suggest that the distinction between major and minor alterations is determinable through the individual reading of relevant rules.  Officers recommend that the following new definitions of "alteration" and "extension" be included in the Plan to read as follows:  <u><i>Extension in relation to a structure, means any modification to the external dimensions of a structure, including length, width and height.</i></u>  <u><i>Alteration in relation to a structure, means any modification to a structure that does not increase its external dimensions.</i></u>

<b>Definition – Marine and coastal area</b>			
	1219	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		Retain definition of “ <i>marine and coastal area</i> ” as notified.	Definition of “ <i>marine and coastal area</i> ” is retained as notified.
<b>Definition – Method</b>			
43 – Royal Forest and Bird Protection Society	1220	<b>Support</b>	<b>Accept</b>
		Retain definition of “ <i>method</i> ” as notified.	Definition of “ <i>method</i> ” is retained as notified.
<b>NEW Definition – Microfouling</b>			
29 – Department of Conservation	1221	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the Plan to include a new definition of “ <i>microfouling</i> ” that reads: <u><i>Microfouling – is a layer of microscopic organisms including bacteria and diatoms and the slimy substances they produce. Often referred to as a ‘slime layer’, microfouling can usually be removed by gently passing a finger over the surface.</i></u>	Officers recommend granting the relief sought by the submitter and to include a new definition of ‘ <i>microfouling</i> ’ to read as follows: <u><i>Microfoul is a layer of microscopic organisms including bacteria and diatoms and the slimy substances they produce. Often referred to as a ‘slime layer’.</i></u> With the following footnote: <u><i>Microfouling can usually be removed by gently passing a finger over the surface.</i></u>
Further submissions – Port Taranaki Ltd (32)		Oppose	
<b>Definition – Military training</b>			
33 – New Zealand Defence Force	1222	<b>Support</b>	<b>Accept in part</b>
		Retain the definition of “ <i>military training</i> ” as notified.	Definition of “ <i>military training</i> ” is retained subject to amendments to align the Plan with the definition for ‘temporary military training activities’ within the <i>National Planning Standards 2019</i> to read: <u><i>Temporary military training activity means a temporary activity undertaken for the training of any component of the New Zealand Defence Force (including with allied forces) for any defence purpose. Defence purposes are those purposes for which a defence force may be raised and maintained under section 5 of the Defence Act 1990 which are:</i></u> <u><i>(a) the defence of New Zealand, and of any area for the defence of which New Zealand is responsible under any Act;</i></u> <u><i>(b) the protection of the interests of New Zealand, whether in New Zealand or elsewhere;</i></u>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p><u>(c) the contribution of forces under collective security threats, agreements, or arrangements;</u></p> <p><u>(d) the contribution of forces to, or for any of the purpose of, the United Nations, or in association with other organisations or States and in accordance with the principles of the Charter of the United Nations;</u></p> <p><u>(e) the provision of assistance to the civil power either in New Zealand or elsewhere in time of emergency;</u></p> <p><u>(f) the provision of any public service.</u></p>
<b>NEW Definition – Minor alteration or extension</b>			
43 – Royal Forest and Bird Protection Society	1223	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan to include a new definition of “<i>minor alteration or extension</i>” to read:</p> <p><u>Minor alteration or extension means, the alteration of a structure where the alteration or extension is within the same footprint, does not result in an increase in adverse effects over effects generated from the operation and maintenance of the structure.</u></p>	<p><b>Accept in part</b></p> <p>Officers recommend giving partial relief to the request sought by the submitter involving reframing the maintenance, alterations, extensions and removal rules (to more clearly differentiate between the respective activities based upon changes in their external dimensions). Consequential changes are also proposed to the Plan definition for “<i>maintenance</i>” and with new definitions for “<i>alteration</i>” and “<i>extension</i>” also proposed. However, officers do not believe it is necessary to include a definition. Use of the term minor alteration is only used within Rule 35 of the Plan. This rule includes a number of standards, terms and conditions that establish the parameters for what would be considered ‘minor’. Officers note that activities that do not fit these standards, terms and conditions would not be considered to be ‘minor’ and will be considered under another Rule.</p> <p>Officers recommend that the following new definitions of “<i>alteration</i>” and “<i>extension</i>” be included in the Plan to read as follows:</p> <p><u>Extension in relation to a structure, means any modification to the external dimensions of a structure, including length, width and height.</u></p> <p><u>Alteration in relation to a structure, means any modification to a structure that does not increase its external dimensions.</u></p>

<b>Definition – Natural</b>			
43 – Royal Forest and Bird Protection Society	1224	<p><b>Support</b></p> <p>Retain the definition of “<i>natural</i>” as notified.</p>	<p><b>Accept</b></p> <p>Definition of “<i>natural</i>” is retained as notified.</p>
<b>Definition – Natural Character</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response	
29 – Department of Conservation	1225	<b>Amend</b>	<b>Decline</b>  Officers recommend declining the relief sought by the submitter.  Officers note that the proposed definition of natural character would encompass all of the qualities identified in Policy 13 of the <i>New Zealand Coastal Policy Statement</i> and that Policy 13 is not an exhaustive list but merely identifies some characteristics that <u>may</u> (emphasis added) be recognised as natural character. For this reason, officers consider that a more generic and broader definition than that sought by the submitter is required in order to avoid a verbose Plan and the inclusion of an unnecessarily lengthy definition that do not capture all of the possible characteristics.  Officers note that all of the characteristics listed in Policy 13 of the <i>New Zealand Coastal Policy Statement</i> are either natural elements, patterns or process or are the experiential perceptions of those processes.	
		Submitter seeks amendment to the definition of “ <i>natural character</i> ” to better reflect Policy 13 of the <i>New Zealand Coastal Policy Statement</i> .		
		Further submissions – Meridian Energy Ltd (20)		Support
		Further submissions – Port Taranaki Ltd (32)		Support in part
Further submissions – Powerco (45)		Oppose		
43 – Royal Forest and Bird Protection Society	1226	<b>Amend</b>	<b>Decline</b>  Officers recommend declining the relief sought by the submitter and note that protection of natural character introduces elements that are not appropriate to be included within a definition. Officers note that a definition should be limited to a statement of the exact meaning of a word as it applies to the Plan.  In addition, protection of natural character, as required by the <i>New Zealand Coastal Policy Statement</i> , is provided for within this Plan and is not solely confined to the <i>New Zealand Coastal Policy Statement</i> . This Plan recognises and gives effect to Policy 13 of the <i>New Zealand Coastal Policy Statement</i> in a number ways and areas within the Plan such as the objectives and policies including (but not limited to) Objective 6 [Natural character], Policy 9 [Natural character and natural features and landscapes] and Policy 10 [Restoration of natural character].  Officers further recommend against cross referencing external documents within the definitions as this creates uncertainty if the <i>New Zealand Coastal Policy Statement</i> is revised or amended during the life of the Plan.	
		Submitter seeks amendment to the definition of “ <i>natural character</i> ” to include in the definition that protection of natural character of the coastal environment is set out in Policy 13 of the <i>New Zealand Coastal Policy Statement</i> .		
<b>Definition – Natural feature</b>				
29 – Department of Conservation	1227	<b>Amend</b>	<b>Decline</b>  Officers recommend declining the relief sought by the submitter and note that the definition of “ <i>natural feature</i> ” encompasses those elements and characteristic	
		Submitter seeks amendment to the definition of “ <i>natural feature</i> ” to better reflect Policy 15(c) of the <i>New Zealand Coastal Policy Statement</i> .		

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Meridian Energy Ltd (20)		Support	identified in Policy 15 of the <i>New Zealand Coastal Policy Statement</i> . Officers note that Policy 15 of the <i>New Zealand Coastal Policy Statement</i> includes a list of features, characteristics and values that are components of a natural landscape which are either part of the physical character of the area (such as natural science factors, presence of water, vegetation and presence of wildlife), the perceptions of that character or associations with that area (such as the legibility or expressiveness of those characters, their aesthetic values, memorability and wild or scenic values), and cultural spiritual, historical and heritage associations (such as values of tangata whenua and historic heritage associations).
Further submissions – Port Taranaki Ltd (32)		Support in part	
Further submissions – Powerco (45)		Oppose	
43 – Royal Forest and Bird Protection Society	1228	<b>Amend</b>	<b>Decline</b>
		Amend definition of “ <i>natural feature</i> ” to include in the definition that protection of natural character of the coastal environment as set out in Policy 15 of the <i>New Zealand Coastal Policy Statement</i> .	<p>Officers recommend declining the relief sought by the submitter. Officers do not believe it is necessary to paraphrase the <i>New Zealand Coastal Policy Statement</i> policies in the Plan. Officers suggest the definition as proposed reflects most people’s understanding of what is a natural feature and to amend the definition to paraphrase those elements set out in Policy 15 of the <i>New Zealand Coastal Policy Statement</i> risks making the Plan overly verbose.</p> <p>Notwithstanding the above, officers note that elsewhere in the Plan, provisions apply to give effect to Policy 15 of the <i>New Zealand Coastal Policy Statement</i>, e.g. Objective 7 [Natural features and landscapes] and Policy 9 [Natural character and natural features and landscapes]. Officers further note that other Objectives and Policies contribute to giving effect to Policy 15 of the <i>New Zealand Coastal Policy Statement</i> by identifying and protecting independent values identified as natural features (for example Policies protecting indigenous biodiversity, historic heritage, relationships of tangata whenua with the coastal environment and amenity values).</p> <p>Officers further recommend against cross referencing external documents within the definitions as this creates uncertainty if the <i>New Zealand Coastal Policy Statement</i> is revised or amended during the life of the Plan.</p>
<b>Definition – Natural landscape</b>			
43 – Royal Forest and Bird Protection Society	1229	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to the definition of “ <i>natural landscape</i> ” to include in the definition that protection of natural character of the coastal environment is set out in Policy 15 of the <i>New Zealand Coastal Policy Statement</i> .	Officers recommend declining the relief sought. Officers do not believe it necessary to specifically reference Policy 15 of the <i>New Zealand Coastal Policy Statement</i>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response

<b>Definition – Outstanding Value</b>			
43 – Royal Forest and Bird Protection Society	1240	<b>Amend</b>	<b>No relief required</b>
		Submitter seeks amendment to the definition of “ <i>Outstanding Value</i> ” to refer to areas identified under Policy 8 of the Plan.	These areas are already identified within the definition of outstanding value with reference to Schedule 1 and 2 of the Plan. Schedules 1 and 2 are the main

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			sources whereby Policy 8 also directs the reader to this location. Therefore, it is not necessary to also refer to Policy 8. Officers recommend retaining the current wording of "outstanding value" as notified.
<b>Definition – Petroleum</b>			
42 – Ngati Rahiri Hapū	1241	<b>Amend</b>	<b>Accept in part</b>
		Submitter considers the definition of "petroleum" to be rather long-winded and that (a) and (b) could be combined to simply read: [...] any naturally occurring hydrocarbon <i>or naturally occurring mixture of hydrocarbons</i> (other than coal) whether in a gaseous, liquid or solid state.	Officers recommend granting the relief sought by the submitter by amending the definition of "petroleum" to read: [...] any naturally occurring hydrocarbon <i>or naturally occurring mixture of hydrocarbons</i> (other than coal) whether in a gaseous, liquid or solid state [...].
43 – Royal Forest and Bird Protection Society	1242	<b>Support</b>	<b>Accept</b>
		Retain the definition of "petroleum" as notified.	Definition of "petroleum" is retained subject to minor amendment in response to a relief sought by another submitter (refer submission point 1241).
<b>Definition – Pipeline</b>			
42 – Ngati Rahiri Hapū	1243	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to definition of "pipeline" to delete reference to machinery and tanks and read: [...] a pipeline constructed or used to convey any matter or substance, and includes all <del>machinery, tanks and fittings</del> connected to the pipeline.	The submitter considers the definition of pipeline, as it stands, to be too broad. A pipeline does not mean all machinery, tanks and fittings connected to the pipeline. The submitter will accept that pipelines includes fittings connected to the line, however other machinery and tanks should be removed from this definition and, if required, have their own definition.  Officers consider a "pipeline" to encompass any equipment that aids the pipeline in the normal safe transportation of materials through that pipeline. Officers note that there are no instances within the Plan where a pipeline would be considered separate from all equipment that aids in its operation and therefore consider it unnecessary, and potentially confusing for Plan users, to separate them within the definition. Further, this amendment would require additional consequential amendments throughout the Plan, to align the policies and rules to the new definitions, which officers do not believe offers additional value in either the clarity or readability of the Plan.  Officers recommend retaining the definition of "pipeline" as currently notified.
	1244	<b>Support</b>	<b>Accept</b>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society		Retain the definition of “ <i>pipeline</i> ” as notified.	Definition of “ <i>pipeline</i> ” retained as notified.
45 – Powerco	1245	<b>Support</b> Retain the definition of “ <i>pipeline</i> ” as notified.	<b>Accept</b> Definition of “ <i>pipeline</i> ” retained as notified.
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1246	<b>Support</b> Retain the definition of “ <i>pipeline</i> ” as notified.	<b>Accept</b> Definition of “ <i>pipeline</i> ” retained as notified.
<b>Definition – Port</b>			
43 – Royal Forest and Bird Protection Society	1247	<b>Amend</b> Submitter seeks amendment of the definition of “ <i>Port</i> ” to state that the port is Port Taranaki OR Alternatively delete the definition.	<b>Accept</b> The submitter contends that the current definition does not make sense given the common meaning of port. The submitter suggests Policy 1 sets out that the “ <i>port</i> ” is Port Taranaki and states the definition would be clearer if it said it was the Port of Taranaki. Officers agree and recommend amending the definition of “ <i>Port</i> ” to read: <b><i>Port</i> refers to the coastal management area identified in Schedule 1 of the Plan <u>as Port Taranaki.</u></b>
Further submissions – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd (46)		Oppose in part

<b>Definition – Port Air Zone</b>			
43 – Royal Forest and Bird Protection Society	1248	<b>Amend</b> Submitter seeks amendment to the definition of “ <i>Port Air Zone</i> ” to state that it relates to Port Taranaki.	<b>Accept</b> Officers agree to amend the definition of “ <i>port air zone</i> ” to read: <b><i>Port air zone</i> <u>relates to Port Taranaki and is identified in</u> <del>refer to</del> Schedule 8 of the Plan.</b>
<b>Definition – Produced water</b>			
42 – Ngati Rahiri Hapū	1249	<b>Amend</b> Submitter seeks amendment to the definition of “ <i>produced water</i> ” to read:	<b>Decline</b> Produced water is a specific by product of the petroleum industry. The characteristics of this by product are well known and anticipated due to the

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<i>Produced water means water with <u>or without</u> high mineral or salt content associated with the production of oil and gas from reservoirs. It may include water, water that has been injected into the reservoir, and any chemicals added during the production/treatment/enhancement process.</i>	operational methods and associated products used during petroleum production. Produced water is a brine liquid that, due to the operational methods, will contain high mineral and/or salt content. It is therefore not necessary to include the possibility that the water may not contain high mineral or salt content. Officers consider this addition unnecessary and broadens the scope of the definition unreasonably. Therefore, officers recommend retaining the definition of "produced water" as currently notified.
43 – Royal Forest and Bird Protection Society	1250	<b>Support</b> Retain the definition of "produced water" as notified.	<b>Accept</b> Definition of "produced water" retained as notified.
<b>Definition – Rare and uncommon ecosystem type</b>			
43 – Royal Forest and Bird Protection Society	1251	<b>Support</b> Retain the definition of "rare and uncommon ecosystem type" as notified.	<b>Accept</b> Definition of "rare and uncommon ecosystems" retained as notified.
<b>NEW Definition – Reclamation</b>			
43 – Royal Forest and Bird Protection Society	1252	<b>Amend</b> Submitter seeks amendment to the definition of "reclamation" to read (or similar): <u>The formation of permanent land located above mean high water springs that was formerly below the line of mean high water springs. Reclamation does not include:</u> <u>1. land that has arisen above the line of mean high-water springs as a result of natural processes, including accretion, or</u> <u>2. any infilling where the purpose is to provide beach nourishment, or</u> <u>3. structures such as breakwaters, moles, groynes or sea walls.</u>	<b>Grant in kind</b> Officers recommend granting the relief sought by the submitter by amending the Plan to include a definition for "reclamation", however, recommend aligning with the definition in the <i>National Planning Standards</i> , which reads as follows: <u>Reclamation means the manmade formation of permanent dry land by the positioning of material into or onto any part of a waterbody, bed of a lake or river or the coastal marine area; and</u> <u>(a) includes the construction of any causeway; but</u> <u>(b) excludes the construction of natural hazard protection structures such as seawalls, breakwaters or groynes except where the purpose of those structures is to form dry land.</u>
Further submissions – Port Taranaki Ltd (32)		<b>Oppose</b>	
<b>Definition – Regionally distinctive</b>			
43 – Royal Forest and Bird Protection Society	1253	<b>Support</b> Retain the definition of "regionally distinctive" as notified.	<b>Accept</b> The definition of "regionally distinctive" is retained as notified.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Definition – Regionally important infrastructure</b>			
12 – Chorus New Zealand Limited	1254	<p><b>Amend</b></p> <p>Submitter seeks amendment to the definition of “<i>regionally important infrastructure</i>” so that it preferably refers only to “<i>infrastructure</i>” and to read as follows:</p> <p><del>Regionally important infrastructure means infrastructure of regional and/or national importance and is</del> includes:</p> <p>(a) Port Taranaki and its approaches and on-going development to meet changing operational needs;</p> <p>(b) facilities and arterial pipelines for the supply or distribution of minerals including oil and gas and their derivatives;</p> <p>(c) the national electricity grid, as defined by the Electricity Industry Act 2010;</p> <p>(d) facilities for the generation and/or transmission of electricity where it is supplied to the national electricity grid and/or the local electricity distribution network, including supply within the local electricity distribution network;</p> <p>(e) defence facilities;</p> <p>(f) flood protection works;</p> <p>(g) infrastructure associated with the safe and efficient operation of state highways and the rail network;</p> <p>(h) <del>strategic</del> telecommunications <del>facilities</del>, as defined in section 5 of the Telecommunications Act 2001;</p> <p>(i) <del>strategic</del> radiocommunications <del>facilities</del> as defined in section 2(1) of the Radio Communications Act 1989;</p> <p>(j) New Plymouth airport, including flight paths;</p> <p>(k) arterial pipelines and pumping stations for the distribution of potable water and water treatment plants; and</p> <p>(l) arterial pipelines and pumping stations for the collection of wastewater and stormwater, and wastewater treatment plants.</p> <p>OR</p> <p>amend the definition of “<i>regionally important infrastructure</i>” as follows:</p> <p><i>Regionally important infrastructure means infrastructure of regional and/or national importance and is:</i></p>	<p><b>Accept in part</b></p> <p>The intent of this definition is to specifically highlight infrastructure that the Council considers to be of added significance to the economic and social wellbeing of Taranaki and New Zealand and which, through policies and rules, should be recognised and provided for. This definition has been intentionally constrained to only include specific infrastructures and exclude others. It is therefore considered inappropriate to broaden the term to encompass all “<i>infrastructure</i>”.</p> <p>However, officers recommend granting that part of the relief sought by the submitter to amend (h) and (i) by deleting reference to strategic facilities. Officers recommend making that part of the change to better align with terminology adopted in relevant legislation relating to those facilities.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response

<b>Definition – Seascape</b>			
43 – Royal Forest and Bird Protection Society	1274	<b>Support</b>  Retain the definition of "seascape" as notified.	<b>Accept</b>  Definition of "seascape" is retained as notified.
<b>Definition – Sensitive marine benthic habitats</b>			
43 – Royal Forest and Bird Protection Society	1275	<b>Support</b>  Retain the definition of "sensitive marine benthic habitats" as notified.	<b>Accept</b>  Definition of "sensitive marine benthic habitats" as notified.
<b>Definition – Sewage</b>			
42 – Ngati Rahiri Hapū	1276	<b>Amend</b>  Submitter seeks amendment to the definition of "sewage" to read: <i>Sewage means: drainage and other wastes from any form of toilet, urinal and <del>WC</del> <u>water closet</u> scupper [...]</i>	<b>Grant in kind</b>  Officers recommend consequential amendments to align with the definition of "sewage" in the <i>National Planning Standards 2019</i> to read as follows: <b>Sewage</b> means <u>human excrement and urine.</u>
43 – Royal Forest and Bird Protection Society	1277	<b>Support</b>  Retain the definition of "sewage" as notified.	<b>Decline</b>  Officers recommend retaining the definition of sewage but note consequential amendments to align with the definition of "sewage" in the <i>National Planning Standards 2019</i> to read: <b>Sewage</b> means <u>human excrement and urine.</u>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Officers note that this amendment does not change the intent of the definition or the intent of its application within the Plan.
<b>Definition – Significant indigenous biodiversity</b>			
43 – Royal Forest and Bird Protection Society	1278	<b>Support</b>	<b>Accept</b>
		Retain the definition of “ <i>significant indigenous biodiversity</i> ” as notified.	Definition of “ <i>significant indigenous biodiversity</i> ” is retained as notified.
<b>Definition – Silent files</b>			
42 – Ngati Rahiri Hapū	1279	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to the Plan to include a new definition for “ <i>silent files</i> ” added to describe those sites that iwi/hapū have identified but do not wish to disclose details or even the location of.	Silent files is mentioned within the Plan only once. Officers do not believe that the use of the term requires reference in the definitions section. The term is generally understood by the public and does not take on any additional, or contrary meaning within the Plan. The location of its use within the Plan indicates that these files relate to iwi/hapū sites. Officers consider the addition of “ <i>silent files</i> ” to the definitions section to be necessary.
<b>Definition – Stormwater</b>			
43 – Royal Forest and Bird Protection Society	1280	<b>Support</b>	<b>Grant in kind</b>
		Retain the definition of “ <i>stormwater</i> ” as notified.	Officers recommend retaining the definition of stormwater but note consequential amendments to align with the definition of “ <i>stormwater</i> ” in the <i>National Planning Standards 2019</i> to read: <i>Stormwater means runoff that has been channelled, diverted, intensified or accelerated by human modification of a land surface or runoff from the surface of any structure, as a result of precipitation and includes any contaminants contained within.</i>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1281	<b>Support</b>	<b>Grant in kind</b>
		Retain the definition of “ <i>stormwater</i> ” as notified.	Officers recommend retaining the definition of stormwater but note consequential amendments to align with the definition of “ <i>stormwater</i> ” in the <i>National Planning Standards 2019</i> to read: <i>Stormwater means runoff that has been channelled, diverted, intensified or accelerated by human modification of a land surface or runoff from the surface of</i>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<i>any structure</i> , as a result of precipitation and includes <i>any</i> contaminants <i>contained within</i> .
<b>Definition – Structure</b>			
45 – Powerco	1282	<b>Support</b> Retain the definition of “ <i>structure</i> ” as notified.	<b>Accept</b> Definition of “ <i>structure</i> ” is retained as notified.
<b>Definition – Surf break</b>			
43 – Royal Forest and Bird Protection Society	1283	<b>Support</b> Retain the definition of “ <i>surf break</i> ” as notified.	<b>Accept</b> Definition of “ <i>surf break</i> ” is retained as notified.
<b>Definition – Surfable wave</b>			
43 – Royal Forest and Bird Protection Society	1284	<b>Support</b> Retain the definition of “ <i>surfable wave</i> ” as notified.	<b>Accept</b> Definition of “ <i>surfable wave</i> ” is retained as notified.
<b>Definition – Synthetic based drilling muds</b>			
43 – Royal Forest and Bird Protection Society	1285	<b>Support</b> Retain the definition of “ <i>synthetic based drilling muds</i> ” as notified.	<b>Accept</b> Definition of “ <i>synthetic based drilling muds</i> ” is retained as notified.
<b>Definition – Tangata whenua</b>			
42 – Ngati Rahiri Hapū	1286	<b>Amend</b> Submitter seeks amendment to the definition of “ <i>tangata whenua</i> ” to read: <i>Tangata whenua* in relation to a particular area, means the iwi, or hapū, <u>or whanau</u> that holds mana whenua over the area.</i>	<b>Decline</b> The RMA sets out the legislative definition of tangata whenua from which the Plan takes the definition from. Officers recommend retaining the current definition of “ <i>tangata whenua</i> ” as notified to maintain consistency with the RMA as well as other regional and national plans.  Notwithstanding the above, officers offer reassurance to the submitter that the definition does not exclude “ <i>whanau</i> ” but is implicit within the inclusion of hapū which is defined within the Plan and includes whanau. Refer to the amended definition of hapū for more information.
<b>Definition – Taonga</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
42 – Ngati Rahiri Hapū	1287	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to the definition of “ <i>taonga</i> ” to include iwi, hapū and whanau, or perhaps generically, use the word Māori.	The submitter comments that currently the definition describes prized possessions of the tribe only. Officers have investigated the meaning of the word “ <i>taonga</i> ” and recommend simplifying the meaning to broaden it and not to refer to iwi, hapū, whanau or Māori as this is implicit. <i>Taonga means treasured and/or prized possession(s).</i>
<b>Definition – Threatened</b>			
43 – Royal Forest and Bird Protection Society	1288	<b>Support</b>	<b>Accept</b>
		Retain the definition of “ <i>threatened</i> ” as notified.	The definition of “ <i>threatened</i> ” is retained as notified.
<b>Definition – Waihi taonga</b>			
42 – Ngati Rahiri Hapū	1289	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the Plan to include a new definition for “ <i>wahi taonga</i> ”.	Officers recommend granting the relief sought by the submitter by including a definition of “ <i>wahi taonga</i> ” that reads as follows: <i>Wahi taonga means a treasured location or place.</i>
<b>Definition – Wastewater</b>			
43 – Royal Forest and Bird Protection Society	1290	<b>Support</b>	<b>Accept</b>
		Retain the definition of “ <i>wastewater</i> ” as notified.	The definition of “ <i>wastewater</i> ” is retained as notified.
<b>Definition – Water based drilling muds</b>			
43 – Royal Forest and Bird Protection Society	1291	<b>Support</b>	<b>Accept</b>
		Retain the definition of “ <i>water based drilling muds</i> ” as notified.	The definition of “ <i>water based drilling muds</i> ” is retained as notified.
<b>Definition – Water quality</b>			
43 – Royal Forest and Bird Protection Society	1292	<b>Support</b>	<b>Accept</b>
		Retain the definition of “ <i>water quality</i> ” as notified.	The definition of “ <i>water quality</i> ” is retained as notified.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Definition – Well</b>			
32 – Port Taranaki Ltd	1293	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to the definition of “well” to include wells and bores for other purposes, including for the purposes of geotechnical investigations AND provide for such investigations through a rule that permits test bores/wells for geotechnical investigative purposes subject to permitted conditions.</p> <p>The proposed definition of “well” would read as follows:  <b>Well</b> means a hole drilled for <i>geotechnical investigation or for</i> the purpose of exploring for, appraising or extracting hydrocarbons and includes:                      (a) any hole for injection purposes;                      (b) any down-hole pressure containing equipment; and                      (c) any pressure-containing equipment on top of the well.</p>	<p>Officers recommend declining the relief sought in relation to “well” which is deliberately framed to capture drilling for hydrocarbon exploration and production only. However, officers do agree to amend the Plan to include a Permitted Activity rule to provide for test bores and drilling on the seafloor and seabed for geotechnical investigative purposes.</p>
43 – Royal Forest and Bird Protection Society	1294	<b>Support</b>	<b>Accept</b>
		Retain the definition of “well” as notified.	The definition of “well” is retained as notified.
<b>Definition – Wetland</b>			
43 – Royal Forest and Bird Protection Society	1295	<b>Support</b>	<b>Accept</b>
		Retain the definition of “wetland” as notified.	The definition of “wetland” is retained as notified.

## 4.8 Schedules and appendices

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Schedule 1 – Coastal management areas</b>			
28 – Grant Knuckey	1296	<b>Amend</b> Submitter seeks amendment to Schedule 1 of the Plan to identify two new marine spatial management areas – Wahi Tapu Areas and Wahi Taonga Areas.	<b>Grant in kind</b> Officers do not consider it appropriate to include wāhi tapu and wāhi taonga as independent coastal management areas within Schedule 1.
Further submissions – Te Korowai o Ngāruahine Trust (41)		Support	Officers have noted requests for amendments to the Plan to include reference to both wāhi tapu and wāhi taonga sites and have agreed to many of these requests provided it is within the correct context. Of note, Schedule 5B identifies sites of significance to Māori (and associated values) and should include wāhi tapu and wāhi taonga areas as identified by iwi or hapū. Officers are aware that this is not explicitly stated in Schedule 5B so recommend amending the introduction of Schedule 5B to read: <i>Schedule 5B - Sites of significance to Māori and associated values</i> <i>This schedule identifies known sites with special cultural, spiritual, historical and traditional associations located within the coastal marine area. The Taranaki Regional Council is committed to working with iwi o Taranaki to identify all culturally significant sites that are located within the coastal marine area. Site locations area approximate only and are not intended to provide a definitive location or extent of a site. <u>These include those sites that are identified as wāhi tapu and wāhi taonga by the iwi and hapū. [...]</u></i> In addition, officers recommend amending Schedule 5B to identify additional wāhi tapu and wāhi taonga sites identified through pre-hearing engagement by iwi and hapū.
43 – Royal Forest and Bird Protection Society	1297	<b>Amend</b> Submitter seeks amendment to Schedule 1 of the Plan by identifying significant indigenous biodiversity areas and add them as individual map links for each site, under the corresponding management area. Include information that sets out the values and characteristics that contribute to the significance of each area.	<b>Grant in kind</b> Officers note that, although the Council does maintain information relating to significant indigenous biodiversity areas, there is a lack of comprehensive information relating to significant indigenous biodiversity within the coastal marine area and that any information that exists may be better suited to sit outside of the Plan.
Further submissions – Department of Conservation (29)		Support	Notwithstanding the above, officers recommend including specific layers to be included in the planning maps for significant indigenous biodiversity where

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			complete, including the maui dolphin sanctuary and also the significant sea bird areas.
43 – Royal Forest and Bird Protection Society	1298	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to Schedule 1 of the Plan by replacing the numbering (e.g. 1 to 5) so that each coastal management area is identified as (a) to (e) in a manner consistent with Policy 1 (a) to (e).	Officers recommend amending the numbering system of coastal management areas in Schedule 1 to reflect the same style used in Policy 1.
47 – Fonterra	1299	<b>Support</b>	<b>Accept</b>
		Retain the classification of the coastal management area in the vicinity of Whareroa as Open Coast.	The classification of the coastal management area in the vicinity of Whareroa is retained as an Open Coast management area as currently notified.
<b>Schedules 1 and 2 – Coastal management areas and areas of outstanding value</b>			
21 – Climate Justice Taranaki	1300	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment to Schedules 1 and 2 of the Plan to include and identify as coastal management areas of Outstanding Value based on the recommendation of Cawthron from the report <i>Sensitive habitats and threatened species in the Taranaki Coastal Marine Area (TCMA)</i>:</p> <ul style="list-style-type: none"> <li>• Patea Shoals</li> <li>• Rolling Ground.</li> </ul> <p>The submitter requests that the Council investigate the value of Graham Bank as this has potential to be an outstanding area.</p>	<p>Officers recognise the recommendation of the report to “consider” Patea Shoals and that the Council report by Cawthron (2016) described the Patea Shoals and Rolling Ground as “worth considering”. However, it is the opinion of officers that, at this stage, there is insufficient information to confirm that criteria have been met (or otherwise) so as to recognise these as areas of Outstanding Value.</p> <p>With regards to the Graham Bank, as the submitter has recognised, there is insufficient information to determine whether this is an area of Outstanding Value. At present it is not within the scope of the Council to conduct an investigation into this location in time to determine its value prior to this Plan becoming fully operative.</p>
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose in part	
45 – Powerco	1301	<b>Amend</b>	<b>Accept in part</b>
		<p>Submitter seeks amendment to Schedules 1 and 2 of the Plan by:</p> <ul style="list-style-type: none"> <li>• mapping the coastal environment line</li> <li>• ensuring that the extent of sensitive coastal management areas (outstanding areas, modified and unmodified estuaries) are appropriate having particular regard to existing infrastructure, including roads and overhead electricity lines</li> </ul>	<p>A number of submitters have requested to have the coastal environment defined by a line that recognises its extent.</p> <p>Officers recommend granting the relief sought by referencing an “indicative coastal environment line” in the Plan and identifying the coastal environment on relevant planning maps.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		<ul style="list-style-type: none"> <li>amending the corresponding descriptions of the coastal management areas throughout the Plan to recognise existing infrastructure in these sensitive areas to ensure it can be operated, maintained, and upgraded as appropriate.</li> </ul>	<p>The indicative nature of this line is to recognise that the coastal environment is a dynamic environment where process of can occur rapidly and induce change to the nature and character of the area and as such the coastal environment line may become redundant or inaccurate in the future due to these changes. The indicative line is useful for identifying whether a particular activity is likely to fall within the coastal environment, however, proper assessment of the location with regards to coastal features and processes will still be necessary to consider the nature of that location, including the relative significance of any coastal features and characteristics (such matters to be considered on a case-by-case basis through the consenting process).</p>
Further submissions – Transpower NZ Ltd (26)		Support in part	
Further submissions – Fonterra (47)		Support	<p>With regards to existing infrastructure, the location of infrastructure has been considered, however, the values associated with these locations are considered to be high enough to afford the protections provided for within the Plan despite any infrastructure that may exist in their vicinity. Further, officers consider it unnecessary and inappropriate to retrospectively amend the extent of any sensitive management areas or their descriptions to simply provide for existing infrastructure.</p> <p>Officers further note that areas of Outstanding Value are consistent with the extents of outstanding natural feature and landscapes identified by the New Plymouth District Council in the Draft District Plan and South Taranaki District Council. Officers seek, as far as is practicable, alignment and consistency with other Plans within the region.</p>
46 – Z Energy Ltd, BP Oil Ltd and Mobil Oil NZ Ltd	1302	<p><b>Amend</b></p> <p>Submitter seeks amendment to Schedules 1 and 2 of the Plan by:</p> <ul style="list-style-type: none"> <li>mapping the coastal environment line</li> <li>ensuring that the extent of sensitive coastal management areas are appropriate having particular regard to existing infrastructure, particularly the landward edge of Nga Motu and Tapuae areas of outstanding value</li> <li>amending the corresponding descriptions of the coastal management areas throughout the Plan to recognise existing infrastructure in these sensitive areas to ensure it can be operated, maintained, and upgraded as appropriate.</li> </ul>	<p><b>Accept in part</b></p> <p>A number of submitters have requested that the coastal environment be defined by a line that recognises its extent.</p> <p>Officers recommend granting this relief subject to it being identified as the “indicative coastal environment line”. The indicative nature of this line is to recognise that the coastal environment is a dynamic environment where process of can occur rapidly and induce change to the nature and character of the area and as such the coastal environment line may become redundant or inaccurate in the future due to these changes. The line is useful for identifying whether a particular activity is likely to fall within the coastal environment, however, proper assessment of the location with regards to coastal features and processes may be necessary</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Royal Forest and Bird Protection Society (43)		Oppose	<p>from time to time to determine with complete assurance the coastal nature and characteristics of that location.</p> <p>The extents of Nga Motu and Tapuae are considered appropriate having specific regard to the natural character of the location.</p> <p>Officers note that infrastructure has been recognised but is not considered in the assessment contributing to outstanding values. Instead, the areas are evaluated based upon the natural character attributes present and despite any existing infrastructure. Further, officers consider it inappropriate to amend the extents of any sensitive management areas or their descriptions to reflect existing infrastructure as this would defeat the purpose of the management areas.</p> <p>Officers further note that areas of Outstanding Value are consistent with the extents of outstanding natural feature and landscapes identified by the New Plymouth District Council in the Draft District Plan and South Taranaki District Council. Officers seek, as far as is practicable, alignment and consistency with other Plans within the region.</p> <p>Officers maintain that the descriptions of coastal management areas are appropriate and that the recognition of existing infrastructure is not necessary.</p>
61 – Te Rūnanga o Ngāti Ruanui Trust	1303	<p><b>Amend</b></p> <p>Submitter seeks amendment to Schedules 1 and 2 of the Plan (and associated planning maps) to include and identify as coastal management areas Estuaries Unmodified:</p> <ul style="list-style-type: none"> <li>• Hauroto Stream</li> <li>• Waihi Stream</li> <li>• Katewheta Stream</li> <li>• Waikaikai Stream</li> <li>• Mangaroa Stream</li> <li>• Kaikura Stream</li> <li>• Whenuakura River</li> <li>• Manawapou River.</li> </ul>	<p><b>Accept in part</b></p> <p>Officers have assessed the requested locations and have determined that the majority of these streams (Huroto Stream, Waihi Stream, Katewheta Stream, Waikaikai Stream, Mangaroa Stream and Kaikura Stream), although they exist in generally unmodified environments, do not meet the requirement of scale (need to be large) and being permanently open to tidal movements.</p> <p>Officers note that the flow of coastal water upstream of the river mouth depends upon tidal movements and there will be a salinity gradient decreasing upstream from the mouth of the river. The predominance of coastal processes is essential for river mouths to be recognised as estuaries (and thereby covered in the Coastal Plan rather than Freshwater Plan). Without these characteristics these locations cannot be considered estuaries irrespective of the low amounts of development.</p> <p>Notwithstanding the above, officers note that the Whenuakura River has been identified as an area of outstanding value and as a site of significance to Māori providing significant protections for this location. Further, the Manawapou River has also been identified as an unmodified estuary as requested by the submitter.</p>
<b>Schedule 2 – Coastal areas of outstanding value</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
6 – Trans-Tasman Resources Ltd	1304	<b>Amend</b>	<b>Decline</b>
		<p>Submitter seeks amendment to Schedule 2 of the Plan to delete inclusion of the Project Reef (ONC6) as an area of outstanding value, including:</p> <ul style="list-style-type: none"> <li>the reference to ONC6 and Map-link Map 42 on page 121;</li> <li>the entire ONC6 Project Reef material on page 129; and</li> <li>Map Link Map 42.</li> </ul>	<p>Officers recommend declining the relief sought.</p> <p>The ONC 6 area was assessed under the outstanding natural character criteria and found to exhibit a very high degree of natural character in all assessment areas which include abiotic attributes (two large adjoining pinnacle reefs which are unusual features on a shelf region dominated by sand), biotic attributes (important kelp beds, a diverse range of fish and encrusting sponge species, and provides a valuable habitat for crayfish) and perceptual and experiential attributes (minimum human activity and the location experience maintains a high sense of wilderness and remoteness). “Very high” is the highest rating on a 7 point grading system and illustrates unequivocally that this as an area of outstanding natural character as currently determined. These individual assessment criteria contribute to the overall rating for the area as being “outstanding”.</p> <p>Further, officers note strong support for this inclusion from other submitters confirming these values. Officers recommend maintaining ONC6 as an area of outstanding natural character.</p>

		<ul style="list-style-type: none"> <li>Ohawe Beach</li> <li>Manawapou Beach</li> <li>Waihi Beach.</li> </ul>	<p>that have experienced human modification generally cannot be considered to be outstanding due to the modification elements which detract from the natural features, even if such modifications are not obvious to the viewer.</p> <p>Officers do not believe the identified sites meet the outstanding (exceptional) thresholds adopted for the other areas identified as being outstanding natural character and/or outstanding natural features and landscapes. However, officers believe that these sites could be included within other Schedules because of their 'significant' values. Schedule 5B of the Plan already recognises sites of significance to Māori and officers consider that some of these sites maybe better identified in that Schedule. Also of note, the Patea beach lies within the Estuary Modified coastal management area and, as such, has a higher level of regulatory protection.</p> <p>In pre-hearing engagement, the submitter met with officers to further discuss the inclusion of additional sites of significance to be included in Schedule 5B. Officers refer the submitter to submission point 1345 for further information.</p>
Further submissions – Climate Justice Taranaki Inc (21), Royal Forest and Bird Protection Society (43)		Support	
61 – Te Rūnanga o Ngāti Ruanui Trust	1318	<p><b>Support</b></p> <p>Submitter supports the identification and inclusion of the Whenuakura River Estuary in Schedules 1 and 2 of the Plan as an area of outstanding value.</p>	<p><b>Accept</b></p> <p>Support for inclusion of Whenuakura River Estuary is noted.</p>
<b>Schedule 2 – Coastal areas of outstanding value / Schedule 9 – Documents incorporated by reference</b>			
43 – Royal Forest and Bird Protection Society	1319	<p><b>Amend</b></p> <p>Submitter seeks amendment to Schedule 2 of the Plan to incorporate by reference (Schedule 9) the report <i>Regional landscape study of the Taranaki coastal environment</i> (2015).</p>	<p><b>Decline</b></p> <p>Part 3 [Incorporation of documents by reference in plans and proposed plans] of Schedule 1 of the RMA states that documents that are standards, requirements or recommended practices of international or national organisations; standards, requirements or recommended practices prescribed in any country or jurisdiction; and any other written material that deals with technical matters and is too large or impractical to include in, or print as part of the plan or proposed plan can be incorporated by reference. These documents will have legal effect as part of the plan or proposed plan.</p> <p>Officers do not believe the document requested fits any of the required criteria to be considered an appropriate document to incorporate by reference and has only been referenced in Schedule 2 in order to provide additional background information for the reader's information.</p>
<b>Schedule 2 – Coastal areas of outstanding value</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
43 – Royal Forest and Bird Protection Society	1320	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Schedule 2 of the Plan (or include a new Schedule) and associated planning maps to identify areas of high natural character and include the values and characteristics of identified areas.	The request would introduce an unnecessary level of detail that does not link with Policy 9 [Natural character and natural features and landscapes] or Policy 10 [Restoration of natural character]. The degree of natural character can be considered through the consenting process along with other values.
<b>Schedule 4 – Significant indigenous biodiversity</b>			
43 – Royal Forest and Bird Protection Society	1321	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Schedule 4 [Significant indigenous biodiversity] of the Plan to identify areas of significant indigenous biodiversity in the coastal marine area, including the values and characteristics that contribute to the significance of each area. Areas identified are to include the 'significant coastal areas' identified in the New Plymouth District Plan and the relevant Important Bird Areas for New Zealand Seabirds as show in Appendix 3 to this submission).	<p>As noted in the Section 32 Evaluation Report, the Council does not believe any organisation has the required datasets to accurately map all aspects of significant indigenous biodiversity with any certainty.</p> <p>Agencies with monitoring roles for biodiversity include the Department of Conservation, regional councils, district councils, Ministry for Primary Industries, Environmental Protection Authority, and Maritime New Zealand. However, data and knowledge gaps make biodiversity mapping especially challenging. There is no accurate national or regional dataset. One of the challenges for accurately mapping biodiversity is accessing data of sufficient quality and breadth to be confident that all aspects of biodiversity can be adequately mapped. Officers are concerned that Taranaki, as with the rest of New Zealand, has incomplete information and that mapping sites based upon information we currently have (such as SNAs, KNEs) would have a perverse outcome in that it provides less protection for those aspects of biodiversity that were not mapped. The situation is even worst when it comes to species information and/or the marine environment.</p> <p>The Council's preferred approach is to clearly identify those aspects of biodiversity (through Policy 14) that require a higher level of protection by avoiding the adverse effects of activities. Officers believe the current protections give effect to Policy 11 [Indigenous biological diversity (biodiversity)] of the <i>New Zealand Coastal Policy Statement</i>.</p> <p>Notwithstanding the above, officers have reviewed spatial information to ascertain whether any additional biodiversity mapping overlays can be provided. As a result it is recommended that the Important Bird Areas for New Zealand that occur within the Taranaki region be included as a planning layer alongside the Maui dolphin sanctuary and that appropriate policy linkages be made as a consequential amendment.</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
<b>Schedule 4A – Significant species and ecosystems</b>			
6 – Trans-Tasman Resources Ltd	1322	<b>Amend</b> Submitter seeks that Schedule 4A is deleted in its entirety or amended to remove any non-threatened species and any at risk species other than those which are listed as at risk (declining) under the New Zealand Threat Classification System.	<b>Decline</b> The submitter considers it inappropriate to include a list of significant species and ecosystems based on the threat classification status given the classification status are reviewed every three years whereas the Coastal Plan is expected to have a ten year life. If the schedule is to remain, the submitter considers that it should be amended to remove reference to non-threatened flora and fauna, and at risk species unless they are declining. Policy 11 [indigenous biological diversity] of the <i>New Zealand Coastal Policy Statement</i> sets out the requirements for protection of indigenous species. These protections are not limited to species that are considered threatened and officers note that there is much more scope within the Policy to identify other species of importance. Officers note that the Policy provision for threatened species (Policy 14 [Indigenous biodiversity] (a)(i) and (ii)) have been framed to “include” those species listed in Schedule 4A, therefore, the policy references the schedule but does not depend upon the schedule, allowing flexibility with any changes that may occur during the life of the Plan. Officers consider that the inclusion of Schedule 4A will further ensure that the appropriate measures are taken with regards to threatened species and removal of the schedule will reduce the effectiveness of the protections provided through the policies. Further, inclusion of regionally significant species is consistent with the <i>Regional Policy Statement</i> that significant indigenous biodiversity includes the distinctive criterion whereby added protection is provided to species that are important in the local context. Therefore, officers recommend retaining Schedule 4A [Significant species and ecosystems] noting that minor amendments are recommended to grant relief to other submitters requests.
Further submissions – South Taranaki Underwater Club (10), Climate Justice Taranaki Inc (21), Department of Conservation (29), Te Rūnanga o Ngāti Mutunga (40), Te Korowai o Ngāruahine Trust (41), Royal Forest and Bird Protection Society (43), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		<b>Oppose</b>	
29 – Department of Conservation	1323	<b>Amend</b> Submitter seeks amendment to Schedule 4A of the Plan to include maps of areas, ecosystems, and habitats that have significant indigenous biodiversity values.	<b>Decline</b> Agencies with monitoring roles for biodiversity include the Department of Conservation, regional councils, district councils, Ministry for Primary Industries, Environmental Protection Authority, and Maritime New Zealand. Officers do not

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Resources (6), Te Rūnanga o Ngāti Ruanui Trust (61)			believe any of these agencies are in a position to supply a complete and accurate record of significant indigenous biodiversity in Taranaki.
Further submissions – Powerco (45)		Support in part	It is officers' view that data and knowledge gaps make biodiversity mapping especially challenging. There is no accurate national or regional dataset. One of the challenges for accurately mapping biodiversity is accessing data of sufficient quality and breadth to be confident that all aspects of biodiversity can be adequately mapped. Officers are concerned that Taranaki, as with the rest of New Zealand, has incomplete information and that mapping sites based upon information we currently have (such as SNAs, KNEs) would have a perverse outcome in that it provides less protection for those aspects of biodiversity that were not mapped. The situation is even worse when it comes to species information.
43 – Royal Forest and Bird Protection Society	1324	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Schedule 4A of the Plan by identifying and mapping the locations where rare and uncommon ecosystem types identified in the schedule occur.	Officers recommend declining the relief sought. Mapping of rare and uncommon ecosystems has not been undertaken due to insufficient information regarding the locations and extents of where these occur. Officers note that many of these locations occur landward of the coastal marine area making the majority of these locations redundant to the purposes of this Plan. Further many of these locations will be very small scale and may be difficult to include within the planning maps.
Further submissions – Trans-Tasman Resources Ltd (6)		Support in part	The relevant agencies with monitoring responsibilities for biodiversity include the Department of Conservation, regional councils, district councils, Ministry for Primary Industries, Environmental Protection Authority, and Maritime New Zealand and the Council considers it unreasonable to expect this agency to conduct such a detailed, fine scale and sensitive analysis out of all other relevant agencies. Officers are concerned that the inclusion of incomplete mapping is likely to produce a perverse outcome in that it provides less protection for those rare and uncommon ecosystem types that were not mapped. It may be possible to include this information in future plans once the necessary monitoring, data collection and analysis has been conducted.
Further submissions – Climate Justice Taranaki Inc (21), Te Rūnanga o Ngāti Ruanui Trust (61)		Support	
43 – Royal Forest and Bird Protection Society	1325	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Schedule 4A of the Plan by adding to the schedule: non-vascular plant species, including coastal lichens; data deficient marine species; and missing regionally distinctive species including the common dolphin.	Non vascular plants are not consistently recorded during site surveys in Taranaki therefore there is insufficient information to adequately identify which threatened, at risk or data deficient species may be present in the region. The Department of

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
Further submissions – Trans-Tasman Resources Ltd (6)		Oppose in part	Conservation also do not hold this type of distributional data and officers are concerned that the identification and incorporation of incomplete information at this scale would be detrimental to the integrity of the Plan.
Further submissions Te Rūnanga o Ngāti Ruanui Trust (61)		Support	Notwithstanding the above, officers have reviewed the schedule to assure it provides the most up to date information. In response to the submitter's request, officers sought advice from the Department of Conservation in relation to candidate marine species that warrant being identified as 'regionally distinctive'. Subsequently amendments have been made to Schedule 4A, including reviewing those species identified as data deficient under the NZ Threat Classification and subsequently recommend amending Schedule 4A to identify additional marine algae, sharks and mammal species as regionally distinctive as well as amending the threat classifications, where necessary, to contain the most up to date information.
55 – Kiwis Against Seabed Mining	1326	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Schedule 4A of the Plan by mapping to identify all significant areas, including the spatial extent of intrinsic relationship and biodiversity, to provide for the maintenance and enhancement of biodiversity in the wider coastal marine area.	Mapping biodiversity values within the coastal marine area is a particularly difficult task primarily due to insufficient data sets. Further, there is a risk in providing incomplete information in Plans such as this as it may produce a perverse outcome for those areas that have not been mapped or do not possess sufficient information to accurately determine the spatial values.  Notwithstanding the above, officers have reviewed spatial information to ascertain whether any additional biodiversity mapping overlays can be provided. As a result it is recommended that the Important Bird Areas for New Zealand that occur within the Taranaki region be included as a planning layer alongside the Maui dolphin sanctuary and that appropriate policy linkages be made as a consequential amendment.
55 – Kiwis Against Seabed Mining	1327	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Schedule 4 of the Plan so that rules that prohibit or restrict activities in fishing, seabed mining and oil and gas, in relation to the values of the area, are identified through marine spatial planning.	Officers recommend declining the relief sought by the submitter in that rules in the Plan are confined to giving effect to the RMA and the Council's jurisdictional responsibilities pertaining to the coastal marine area. It is not for the Plan to get into areas covered by other authorities, statutes or jurisdictions.
Further submissions – Ministry for Primary Industries (16)		Oppose	Officers also note that the Plan already utilizes a coastal area management approach which sets out, through the relevant rules, what areas may not be appropriate given the rule activity description. These areas have already been mapped and are shown in Schedule 1 of the Plan.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
56 – Greenpeace	1328	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Schedule 4A of the Plan by mapping to identify all significant areas, including the spatial extent of intrinsic relationship and biodiversity, to provide for the maintenance and enhancement of biodiversity in the wider coastal marine area.	Mapping biodiversity values within the coastal marine area is a particularly difficult tasks primarily due to insufficient data sets. Further, there is a risk in providing incomplete information in Plans such as this as it may produce a perverse outcome for those areas that have not been mapped or do not possess sufficient information to accurately determine the spatial values.  Notwithstanding the above, officers have reviewed spatial information to ascertain whether any additional biodiversity mapping overlays can be provided. As a result, it is recommended that the Important Bird Areas for New Zealand that occur within the Taranaki region be included as a planning layer alongside the Maui dolphin sanctuary and that appropriate policy linkages be made as a consequential amendment.
56 – Greenpeace	1329	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Schedule 4 of the Plan so that rules that prohibit or restrict activities in fishing, seabed mining and oil and gas, in relation to the values of the area, are identified through marine spatial planning.	Officers recommend declining the relief sought by the submitter in that rules in the Plan are confined to giving effect to the RMA and the Council's jurisdictional responsibilities pertaining to the coastal marine area. Officers suggest it is not necessary for the Plan to get into areas covered by other authorities, statutes or jurisdictions.
Further submissions – Ministry for Primary Industries (16)		Oppose	
<b>Schedule 4B – Sensitive marine benthic habitats</b>			
6 – Trans-Tasman Resources Ltd	1330	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to the Plan by deleting Schedule 4B in its entirety.	Sensitive benthic habitats refer to marine habitats identified in the report <i>Sensitive habitats and threatened species in the Taranaki coastal marine area (TCMA) – database investigation</i> . These areas of marine habitat have been identified to have a low tolerance to habitat damage and for which the time for the habitat to recover from any damage would be significant.  As part of a precautionary approach and given the sensitivity and vulnerability of such marine habitats, officers consider it appropriate that they be recognised and provided for within the Plan which requires reference to Schedules. Therefore, officers recommend retaining Schedule 4B [Sensitive marine benthic habitats as currently notified.
Further submissions – South Taranaki Underwater Club (10), Climate Justice Taranaki Inc (21), Department of Conservation (29), Te Rūnanga o Ngāti Mutunga (40), Royal Forest and Bird Protection Society (43), Te Atiawa (58), Te Rūnanga o Ngāti Ruanui Trust (61)		Oppose	
<b>Schedule 4C – Significant taonga species</b>			

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
61 – Te Rūnanga o Ngāti Ruanui Trust	1331	<p><b>Amend</b></p> <p>Submitter seeks amendment to the Plan by including a new Schedule 4C that identifies taonga species under the <i>Ngāti Ruanui Claims Settlement Act 2003</i>::</p> <ul style="list-style-type: none"> <li>• Hapuka / Groper (<i>Polypio oxygenios</i>)</li> <li>• Kaeo / Sea tulip (<i>Pyrua pachydermatum</i>)</li> <li>• Kahawai / Sea trout (<i>Arripus trutta</i>)</li> <li>• Kanae / Mullet (<i>Mugil cephalus</i>)</li> <li>• Koeke / Common Shrimp (<i>Palaemon affinis</i>)</li> <li>• Marari / Butterfish (<i>Odax pullus</i>)</li> <li>• Moki / Blue moki (<i>Latridopsis ciliaris</i>)</li> <li>• Paraki/Ngaiore / Common Smelt (<i>Retropinna retropinna</i>)</li> <li>• Para / Frostfish (<i>Lepidopus caudatus</i>)</li> <li>• Patiki mahoao / Black Flounder (<i>Rhombosolea retiaria</i>)</li> <li>• Patiki rore / New Zealand sole (<i>Peltorhamphus novaezeelandise</i>)</li> <li>• Pakiti tore / Lemon sole (<i>Pelotretis flavilatus</i>)</li> <li>• Patiki totara / Yellow belly flounder (<i>Rhombosolea leporina</i>)</li> <li>• Patiki / Sand flounder (<i>Rhombosolea plebeia</i>)</li> <li>• Patukituki / Rock cod (<i>Parapecis colias</i>)</li> <li>• Pioke / Rig shark (<i>Galeorhinus galeus</i>)</li> <li>• Reperepe / Elephant fish (<i>Callorhynchus milli</i>)</li> <li>• Tuna heke / Eel – long finned (<i>Anguilla dieffenbachi</i>)</li> <li>• Tuna roa / Eel –short finned (<i>Anguilla australis</i>)</li> <li>• Wheke / Octopus (<i>Octopus maorum</i>)</li> <li>• Koiro, ngoiro, totoke, hao, ngoio, ngoingoi, putu / Conger Eel (<i>Conger verreauxi</i>)</li> <li>• Koura / Crayfish (<i>Jasus edwardsii</i>)</li> <li>• Kaunga / Hermit Crab (<i>Pagurus novaeseelandiae</i>)</li> <li>• Papaka parupatu / Mud Crab (<i>Helice sp.</i>)</li> <li>• Papaka / Paddlecrab (<i>Ovalipes catharus</i>)</li> <li>• Kotere, humenga / Sea anemoe (<i>Cnidaria</i> group)</li> </ul>	<p><b>Accept</b></p> <p>Officers recognise that taonga species have important cultural value to Māori and recommend including a new Schedule (Schedule 4C [Taonga Species]) to identify those marine species that hold significant value to local iwi. These species are to be identified through the iwi deeds of settlement as recorded and to be confirmed through further pre-hearing engagement.</p>

<b>Schedule 5A – Archaeological sites of significance and historic areas</b>			
50 – Te Kāhui o Taranaki Trust	1332	<p><b>Amend</b></p> <p>Submitter seeks amendment to Schedule 5A of the Plan (and associated planning maps) by deleting the archaeological site names and instead give the sites a number and scheduling system identical to the mapped Taranaki Iwi sites of significance in the Plan.</p>	<p><b>Decline</b></p> <p>Officers are unsure about the intent and exact request by the submitter, however, with regards to the names of archaeological sites of significance, officers consider the names to be important identifiers that will aid Plan users. Many of these sites are already identified in other Council reports that do not follow a numbering system and removing names would make it difficult to cross reference to these</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			documents resulting in a potentially limited understanding of the scope and values associated with the location.
57 – Heritage New Zealand	1333	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the title of Schedule 5A of the Plan to read: <i>Archaeological sites of significance, <u>built heritage</u> and historic areas.</i>	Officers recognise that Schedule 5A [Archaeological sites of significance and historic areas] contains areas of built heritage, and although the definition for historic heritage includes built heritage, officers consider the inclusion of ' <i>built heritage</i> ' better clarifies what is included within the Schedule and recommend it to be amended as requested by the submitter.
57 – Heritage New Zealand	1334	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to the maps within Schedule 5A to reduce ambiguity of mapped sites by: <ul style="list-style-type: none"> <li>mapping the extent of scheduled sites (if site extents are unknown use buffer zones)</li> <li>connecting sites on the maps with specific scheduled sites</li> <li>specifying dates for all sites.</li> </ul>	Officers recommend granting the relief sought in part as follows: <ul style="list-style-type: none"> <li>the archaeological sites of significance listed in Schedule 5A do not contain polygons. The Council does not consider it appropriate to include buffer zones and would prefer to manage these sites on a case-by-case basis through the consenting process having regard for the particular activity and likely effects occurring within their vicinity. Officers recommend retaining the point locations of archaeological sites of significance as currently notified</li> <li>with regards to connecting sites identified on maps with the schedules, officers recommend adding the listing number that appears in the far left column of the schedule, to the pop up information on the planning maps to aid users in identifying specific locations within the map and correlating them to the relevant information within the schedules. Additional information is also recommended for Plan users ease of use of the planning maps and includes any archaeological/historic reference included in the Schedule</li> <li>dates have been included in the Schedules for as many sites as are known with the exception of the Harriet and Lord Worsley shipwrecks which were built in 1819 and 1858, respectively. Officers recommend amending the Schedule to include this additional data.</li> </ul>
57 – Heritage New Zealand	1335	<b>Amend</b>	<b>No relief required</b>
		Submitter questions the rationale for why two sites in the Scoping Study were not included in the Schedule and when the Scoping Study will be updated.	Review of the Scoping study has revealed only one site that has not been included within the Plan: the Railway Wharf, Waitara. The location of this wharf (as determined within the Scoping study) at its most northerly extent, began at high

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			street and extended southwards, meaning that this site is outside the coastal marine area. The Scoping study will most likely be reviewed in preparation for the next Coastal Plan review in 10 years. As an interim measure, the Council contacted archaeologist Andy Dodd to review the Schedule and to confirm that it was up to date.
<b>Schedule 5B – Sites of significance to Māori and associated values</b>			
15 – Surfbreak Protection Society	1336	<b>Support</b>	<b>No relief necessary</b>
		Submitter support the inclusion of sites of significance to Māori and associated values in the list of Schedules.	Support noted.
21 – Climate Justice Taranaki	1337	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Schedule 5B of the Plan to include sites of significance to Ngāti Maru.	The Ngāti Maru rohe does not extend to the coastal environment or the coastal marine area, nevertheless, the Council recognises that there still may be sites of significance to Ngāti Maru despite their geographic location. Officers note that Ngāti Maru have not provided comment on the Coastal Plan and have not requested correspondence with the Council to discuss any sites of significance that may be affected by the Coastal Plan. Ngāti Maru have received correspondence from the Council informing them of the Proposed Coastal Plan and have had the opportunity to respond. It is not the Council's intent to include this information without the request and/or approval of the relevant iwi authority.
40 – Te Rūnanga o Ngāti Mutunga	1338	<b>Amend</b>	<b>Accept</b>
		Submitter supports the inclusion of sites of significance to Te Rūnanga o Ngāti Mutunga and associated values in the list of Schedules but seek the inclusion of additional sites.	Comments noted. Officers have worked with Ngati Mutunga during pre-hearing engagement to identify additional sites of significance. This has resulted in additional sites being identified and included in the Schedules and associated planning layers.
41 – Te Korowai o Ngāruahine Trust	1339	<b>Neutral</b>	<b>No relief necessary</b>
		Submitter would like the opportunity to amend and refine Schedule 5B as required as Ngāruahine hapū progress the claims under the <i>Takutai Moana Act 2011</i> .	Comments noted. Officers recognise that successful claims under the <i>Takutai Moana Act 2011</i> would result in legislative recognition of sites that would come under Schedule 5B [Sites of Significance to Māori]. Officers will allow review of the Schedule at a designated time, within the life of the Plan, in order to incorporate additional sites that have been recognised through the <i>Takutai Moana Act 2011</i> .
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			Notwithstanding the above, officers note that they will have legal status in any case.
42 – Ngati Rahiri Hapū	1340	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the Plan to include sites of significance to Ngati Rahiri Hapū (and not information contained in the New Plymouth Draft District Plan).	Comments noted. Officers note that Te Atiawa iwi has directed Council to liaise with their hapū as part of Coastal Plan engagement, including the identification of sites of significance. Officers have consulted further with the submitter as part of pre-hearing consultation to investigate the inclusion of additional sites of significance and recommend the inclusion of additional sites as identified in Schedule 5B.
57 – Heritage New Zealand	1341	<b>Amend</b>	<b>No relief necessary</b>
		Submitter seeks amendment to the maps within Schedule 5B of the Plan using polygons to more accurately define the extent of the sites of significance to Māori.	Sites of significance to Māori have been identified by the local iwi and hapū through Council interaction and communication. The sites listed in Schedule 5B are delineated using polygons as identified in these meetings. Officers do not consider it necessary to review these sites without the expressed request from iwi/hapū themselves.
57 – Heritage New Zealand	1342	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the Ohunuku map (Ngāruahine) with appendix information supplied by the Heritage New Zealand submission.	Officers note that the submitter's request was proposed to Ngāruahine who have indicated their support for the amendment as sought by the submitter but also wish the site spelling to be corrected to Ōhounuku. Officers agree to amend the site extent and spelling as requested.
60 – Te Kaahui o Rauru	1343	<b>Amend</b>	<b>Accept in part</b>
		Submitter seeks amendment to Schedule 5B of the Plan - Ngaa Rauru Kiihahi by: <ul style="list-style-type: none"> <li>including schedule from <i>Ngaa Rauru Kiihahi Claims Settlement Act 2005</i></li> <li>amending site extents</li> <li>including Tapuarau Conservation Area.</li> </ul>	The Tapuarau Conservation area is currently identified as an area of outstanding value under Schedule 1 and the Waitotara estuary has been identified as a site of significance to Māori.  Officers note that the extent of sites of significance identified in the Proposed Plan so far are based on the outcomes of discussions with Te Kaahui o Rauru prior to the public notification of the Plan. Sites of significance refer to specific areas or places that have special significance to tangata whenua for their cultural, historical, traditional and spiritual associations within the coastal marine area.
Further submissions – Te Rūnanga o Ngāti Mutunga (40), Te Atiawa (58)		Support	Officers note that final confirmation of the extent of sites of significance to Te Kaahui o Rauru is dependant upon further discussion and the provision of information by the iwi.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			<p>In relation to the Tapuarau Conservation Area, officers recommend granting this part of the relief sought subject to confirmation from Te Kaahui or Rauru of the site's values. This will include discussing the historic heritage and associated cultural values connected to the Tapuarau Conservation area in order to determine if it should also be included within Schedule 5B [Sites of significance to Māori].</p>
<p>61 – Te Rūnanga o Ngāti Ruanui Trust</p>	<p>1344</p>	<p><b>Amend</b></p> <p>Submitter seeks amendment to Schedule 5B of the Plan by amending the heading to read:  <i>Schedule 5 – <u>Cultural and</u> historic heritage</i></p>	<p><b>Decline</b></p> <p>Officers note that “historic heritage” has a broad definition under Section 2 of the RMA and includes sites of significance to Māori. Section 2 definition of “historic heritage” reads as follows:  <i>“...historic heritage means:</i>  <i>(a) those natural and physical resources that contribute to an understanding and appreciation of New Zealand’s history and cultures, deriving from any of the following qualities:</i>  <i>(i) archaeological,</i>  <i>(ii) architectural,</i>  <i>(iii) cultural,</i>  <i>(iv) historic, [...].”</i></p> <p>The term cultural heritage potentially has a much broader meaning. Therefore, officers recommend to retain the title for Schedule 5 as currently notified.</p>
<p>61 – Te Rūnanga o Ngāti Ruanui Trust</p>	<p>1345</p>	<p><b>Amend</b></p> <p>In relation to sites of significance to Ngāti Ruanui, submitter seeks amendment to Schedule 5B of the Plan (noting information is to follow) to include information on:</p> <ul style="list-style-type: none"> <li>• Te Moananui A O Ngati Ruanui (Coastal Area)</li> <li>• Waingongoro River</li> <li>• Manawapou River</li> <li>• Waihi Stream</li> <li>• Katewheta Stream</li> <li>• Waikaikai Stream</li> <li>• Mangaroa Stream</li> <li>• Kaikura Stream</li> <li>• Whitikau</li> </ul>	<p><b>Accept in part</b></p> <p>In pre-hearing consultation with the submitter officers discussed the inclusion of additional sites of significance to Ngati Ruanui and recommend amending Schedule 5B to include some of these as well as other additional sites. Officers note that some of the sites are not within of contiguous with the coastal marine area and are not recommended to be included within Schedule 5B. Officers note that they may be more appropriate to be included in the Freshwater Plan due to their location or site extents and will be considered during the review of the freshwater and soil plans.</p>

<b>Schedule 7A – Surf breaks</b>			
5 – Point Board Riders	1346	<p><b>Amend</b></p> <p>Submitter supports the inclusion of the designated Significant Surfing Area as an overlay in Schedule 7B for protection but submit that the area from Pungarehu to Okato is only a small area and seek to have more of the coastline added to the overlay.</p>	<p><b>Decline</b></p> <p>Support noted.</p> <p>In relation to extending the Significant Surfing Area, the area identified was a result of MetOcean Solutions Ltd expert advice arising from the report <i>Taranaki Surfbreaks of National Significance</i>, highlighting the abundance, uniqueness and large number of high quality surf breaks in the locality. The number and significance of surf breaks in this locality was subsequently confirmed through the <i>Online Wave Survey</i>. No change is recommended. However, officers note that regionally significant surf breaks outside the area still have a high level of protection in accordance with Policy 19 [Surf breaks and significant surfing area].</p>
5 – Point Board Riders	1347	<p><b>Amend</b></p> <p>Submitter supports the inclusion of Nationally Significant surf breaks and Locally Significant surf breaks but raise the issue of a lack of protection for the remaining surf breaks on the coast.</p>	<p><b>Decline</b></p> <p>Officers are not currently aware of any additional surf break locations that are not already included within Schedule 7 and have worked closely with the local surfing community in addition to commissioning a report on regionally significant surfbreaks and undertook a surfing community survey to establish the current list. The intention of Schedule 7 is to provide a high level of protection to those surfbreaks that display significant surfing qualities through Policy 19 [Surf breaks and Significant Surfing Area].</p>
15 – Surfbreak Protection Society	1348	<p><b>Amend</b></p> <p>Submitter supports the inclusion of the designated Significant Surfing Area but seeks that it be extended to include a larger area and that more surf breaks be added to the locally significant list.</p>	<p><b>Decline</b></p> <p>Officers consider the extents of the Significant Surfing Areas to be sufficient and recognise that, due to tidal changes and changing weather conditions, a surfable area may be larger or smaller than the area identified in the maps. The polygons depicted are intended to capture the commonly utilised areas on any given day.</p> <p>Officers are not currently aware of any additional surf break locations that are not already included within Schedule 7 and have worked closely with the local surfing</p>

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			community in addition to commissioning a report and undertaking a surfing community survey on regionally significant surfbreaks to establish the current list. The intention of Schedule 7 is to provide a high level of protection to those surfbreaks that display significant surfing qualities through Policy 19 [Surf breaks and Significant Surfing Area]. The Council will welcome any additional information for the inclusion of other surfbreaks if they can be valued for their surfing qualities.
18 – Surfing Taranaki	1349	<b>Support</b>	<b>No relief required</b>
		Support the designated Significant Surfing Area as proposed in the Plan.	Support noted.
19 – South Taranaki District Council	1350	<b>Amend</b>	<b>Accept</b>
		Support the inclusion of the designated Significant Surfing Area but seeks that it be confined to the coastal marine area.	Officers note the submitter's concern and recommend amending the landward extent of the significant surf break area to align with the indicative coastal marine area line so as to not capture private land. Officers also recommend amending the extent of the Significant Surfing area and confining it to the coastal marine area.
Further submissions – Powerco (45)		Support in part	
20 – Meridian Energy Limited	1351	<b>Amend</b>	<b>Accept</b>
		Submitter seeks amendment to the Plan and associated Planning Maps to show the locations of locally significant surf breaks.	Officers agree and recommend amending the planning maps to identify the locations of locally significant surf breaks.
24 – Paora Aneti 17 & 18 Māori Reservation Trustees	1352	<b>Amend</b>	<b>Accept</b>
		Submitter opposes the inclusion of sections of Paora Aneti 18 amongst surf breaks identified as nationally or regionally significant.	Officers note the submitter's concern and recommend amending the landward extent of the significant surf break area to align with the indicative coastal marine area line so as to not capture private land.
24 – Paora Aneti 17 & 18 Māori Reservation Trustees	1353	<b>Other</b>	<b>Accept</b>
		Submitter suggests the Plan shows a lack of regard to the Māori language by having an area for surfing identified as "Punihos".	The submitter has not specifically sought any amendments to the Plan. However, officers recommend amending the name of the surf break to Puniho in response to their concerns. Additional amendments to Schedule 7 are also recommended to include the incorporation of traditional Māori names for the surfbreaks identified.
31 – Komene 13B Māori Reservation Trustees	1354	<b>Amend</b>	<b>Accept</b>
		Submitter opposes the inclusion of sections of Komene 13 Māori Reservation via Waikirikiri Lagoon in the Plan, including the surf break area AND	Officers notes the submitter's comments and recommend amending the landward extent of the significant surf break area to align with the indicative coastal marine area line so as to not capture private land.

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
		Note that "Waikiriri" is not the name of the area.	
32 – Port Taranaki Ltd	1355	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Schedule 7A of the Plan to delete the "Breakwater" surf break from the list of regionally significant surf breaks, and delete references to it on associated maps.	Officers assume that the submitters concern relate to the levels of protection afforded to regionally significant surf breaks and the operational implications of recognising the "breakwater" as a regionally significant surf break.  Officers offer assurance to the submitter that these issues are recognised and have been addressed in Policy 19(b) which recognises that strict avoidance of effects on regionally significant surf breaks by regionally important infrastructure such as the Port might not always be practicable (in which case a mitigation hierarchy to manage effects applies).
49 – Cam Twigley	1356	<b>Amend</b>	<b>No relief necessary</b>
		Submitter supports the inclusion (and the extent) of the designated Significant Surfing Area.	Support noted.
50 – Te Kāhui o Taranaki Trust	1357	<b>Amend</b>	<b>Grant in kind</b>
		Submitter seeks amendment to Schedule 7A of the Plan (and associated planning maps) by deleting the surf break names instead give the sites a number and scheduling system identical to the mapped Taranaki Iwi sites of significance in the Plan.	Through pre-hearing engagement the submitter (and others) identified that some of the surfbreak names were incorrect or offensive, which was the basis for the relief requested.  Officers consider the surfbreak names to be important and useful identifiers of surfbreaks that will aid Plan users in this area.  Officers recommend an alternative relief that, where possible, alternative and/or more culturally appropriate surfbreak names are incorporated alongside the currently identified surf break names commonly in use amongst the surfing community.
50 – Te Kāhui o Taranaki Trust	1358	<b>Amend</b>	<b>Decline</b>
		Submitter seeks amendment to Schedule 7A of the Plan (and associated planning maps) by delineating the surf breaks in terms of location like the Taranaki Iwi sites of significance.	Surfbreak locations have not been delineated by the Council. Delineating surf breaks would be an imprecise and expensive exercise and was not considered necessary for the purposes of this review. However, point locations will be added to the planning maps to identify where the surfbreaks occur within the coastal marine area.  Notwithstanding the above, officers recommend including additional information relating to the surfbreaks within Schedule 7 and the planning layer to use

Submitter	Submission point	Submitter's requests	Officers' recommendation and response
			traditional naming of surfbreak locations alongside the commonly recognised surfbreak names.
<b>Schedule 8 – Port air zone</b>			
32 – Port Taranaki Ltd	1359	<b>Amend</b>  Submitter seeks amendment to Schedule 8 of the Plan (and associated maps) to include the wharves in the Port Air Zone and correspond to the online maps for the Port Air Zone.	<b>Accept</b>  Officers recommend amending Schedule 8 to include wharves within the Port Air Zone to be consistent with the areal extent of maps online.
<b>Schedule 9 – References</b>			
48 – Taranaki District Health Board	1360	<b>Amend</b>  Submitter seeks amendment to Schedule 9 of the Plan to read: <i>The documents referenced throughout the Plan are listed below, along with the website addresses that provide access to the documents. <u>Note that New Zealand Standards listed below are subject to copyright and are not available to be viewed on-line and may be inspected by appointment at our customer service centre.</u></i> [...] <u>Noise standards (Rules 6.10, 8.6.3)</u> <u>NZS 6801:2008 Acoustics – Measurement of Environmental Sound</u> <u>NZS 6802:2008 Acoustics – Environmental Noise</u> <u>NZS 6803:1999 Acoustics – Construction noise</u> <u>NZS 6809:1999 Acoustics – Port Noise and Land Use Planning</u>	<b>Accept</b>  Officers recommend amending the Plan to include reference to the requested standards in Schedule 9, however note that some changes to those requested by the submitter are also recommended to account for other relief offered within the Plan, to read as follows: <b><u>New Zealand standards (General standards)</u></b> <u>NZS 6809:1999 Acoustics – Port Noise and Land Use Planning</u> <u>NZS 6807:1994 Noise Management and Land Use Planning for Helicopter Landing Areas</u> <u>NZS6803:1999 Acoustics – Construction noise</u> <u>NZS 6801:2008 Acoustics – Measurement of Environmental Sound</u> <u>NZS 6802:2008 Acoustics – Environmental Noise</u>  <u>Note: the New Zealand Standards are subject to copyright and are not available to be viewed on-line and may be inspected, by appointment, at the Council premises.</u>
